Summary

Introduction *

Brief summary.

Resolution authorizing the Mayor to execute contracts for previously appropriated capital projects as identified on Exhibit A

Move to adopt Resolution No. 1752 authorizing execution of contracts and related agreements for capital project

What was done (legislative history, previous actions, ability to hyperlink)

Historically, the City appropriated capital funds at the fund level for each biennium. Because appropriations were not established at the individual project level, the Council typically provided additional project-level expenditure authorization through subsequent approvals of individual contracts above established thresholds.

Beginning with the current biennium, the City transitioned to a project-based capital appropriation approach. Under this model, Council appropriates capital expenditures for specifically identified projects and establishes project budgets intended to authorize completion of those projects rather than expire at the end of the biennium.

The projects included in Exhibit A have previously been appropriated by Council and include approved project descriptions and authorized funding amounts.

The proposed resolution authorizes execution of contracts and related agreements necessary to implement those previously appropriated projects, provided contract commitments remain consistent with the project descriptions adopted through appropriation and do not exceed the amounts previously appropriated by Council.

The proposed resolution authorizes execution of contracts and related agreements necessary to implement those previously appropriated projects, provided contract commitments remain consistent with the project descriptions adopted through appropriation and do not exceed the amounts previously appropriated by Council.

This action does not amend existing appropriations, authorize additional spending, modify previously approved project descriptions, or approve projects not previously authorized by Council.

This action has no budgetary implications.

No fiscal impact beyond previously appropriated project amounts.
This action does not increase appropriations or authorize expenditures above amounts previously approved by Council.
