CITY OF SNOQUALMIE
FIRE DEPARTMENT

QUARTERLY REPORT

PERFORMANCE FROM
APRIL-JUNE 2026

ABOUT

THE SNOQUALMIE FIRE DEPARTMENT IS A DEDICATED GROUP OF COMMUNITY SERVANTS COMMITTED TO CONTINUOUS IMPROVEMENT AND EXCELLENCE.

The Snoqualmie Fire Department serves the residents and visitors to the City of Snoqualmie and surrounding area. The fire department responded to 1,629 incidents in 2025 from its centrally located fire station. The department is staffed with sixteen career firefighter/EMTs and twelve volunteer EMS responders.

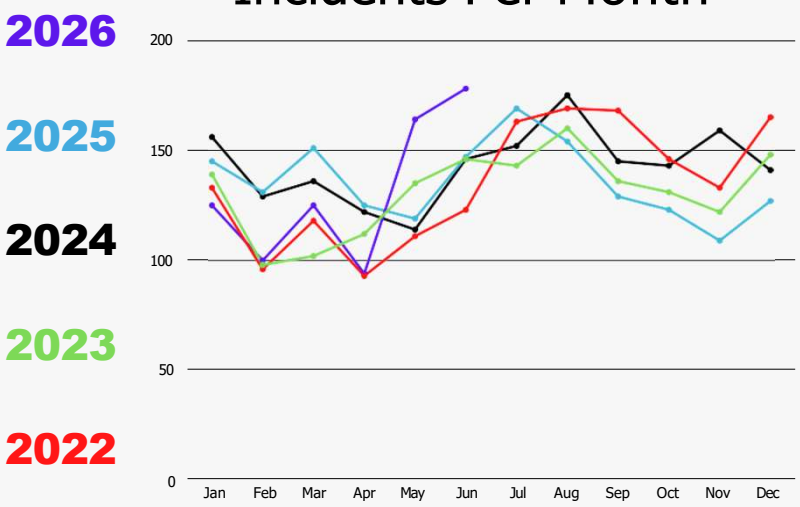

The Department is one of seven accredited fire departments in the State of Washington, and the only volunteer / career fire department. Across the United States there are 334 accredited agencies that cover 14% of the US population. Only 1% of the Nation's fire departments are accredited. The Snoqualmie Fire Department received its second accreditation in 2024, valid for five years untill 2029.

PERFORMANCE MEASURES

APRIL-JUNE 2026

The fire department tracks multiple performance measures to evaluate the agency's response to calls for service in our jurisdiction. These measures are compiled quarterly, and are compared to the previous year's data to look for trends and areas of improvement. Two of the performance measures that are evaluated are turnout times and travel times.

Turnout time is the time from when the call is received by the station to when the unit goes en-route. This time is influenced by factors such as location of personnel within the station, time of day, and whether the crew needs to don protective gear before responding.

Travel time is the amount of time it takes the unit to arrive on scene after leaving the station. This time is influenced by factors such as distance from the station, traffic patterns and weather conditions.

FIRE INSPECTIONS

APRIL-JUNE 2026

Although the fire department crews perform the majority of the fire and life safety inspections for businesses in the city, the building department has the overall responsibility and handles the more complex inspections. The two departments work together to ensure inspections are completed as required, as well as to provide advice and resources for discrepancies found. Occupancies are inspected on a rotating 3-year basis based upon risk and occupancy type. High risk occupancies get inspected annually, moderate risk occupancies on a biennial cycle, and low-risk every three years. The most common violations found are extension cords being used improperly, faulty emergency lighting, and extinguishers missing or improperly maintained. Inspections are assigned to the crews quarterly, with each shift being responsible for the initial and re-inspections.

INSPECTIONS COMPLETED 2026				
1st Qtr	**2nd Qtr**	**3rd qtr**	**4th qtr**	**Year to Date**
50	94			144

Most Common Violations (Compiled annually)

Violation Definitions

Egress - Egress blocked or not marked
Fire Extinguishers - out of date, not enough, not right type
Alarms - alarm system not inspected annually
Sprinklers - sprinkler system not inspected annually
Storage - improper storage, too close to ceiling or panel
Electrical - extension cords used for permanent wiring
HazMat - Improper storage
Other- Violation not normally seen

PROPERTY LOST / SAVED

APRIL-JUNE 2026

For reporting purposes, fire loss is broken into two categories: property and contents. Property describes physical properties such as cars, house, etc. Contents describe items that are not part of the structure but perish in the incident. Both categories are combined together to determine total property loss, and more importantly, total property saved.

2026 2nd Quarter Fire Loss

Incident Date	Fire Type	Property Value	Property Loss	Content value	Content Loss
No Incidents Recorded	-	-	-	-	-
Totals	-	-	-	-	-

2026 Annual Property Saved

Property Risked	Property Saved	Percentage Saved
$45,381,000	$45,298,000	99.9%
