**AMOUNT BUDGETED** \$ n/a

**APPROPRIATION REQUESTED** \$ n/a

### SUMMARY

#### INTRODUCTION

Staff will present an update on the Community Rating System (CRS) including additional information on CRS action items planned by staff. Attached is an evaluation report, titled CRS Activity 510, a yearly progress report which lists mitigation actions and steps described within the adopted Hazard Mitigation Plan (Snoqualmie Annex). To maintain the City's CRS credits for Activity 510, every year, the City must evaluate its progress toward implementing the projects and programs in the plan, area analysis', or natural floodplain functions plan, and submit a report of that evaluation with its annual CRS recertification.

The City is currently at a Class 5, under the CRS Credit Points, Classes, and Premium Discounts. This year the City Progress Report and recertification documents for were submitted on October 15<sup>th</sup> 2022.

#### LEGISLATIVE HISTORY

A Resolution, Res 377 was approved on September 13, 1993.

## **BACKGROUND**

The Community Rating System (CRS) is a voluntary incentive program that recognizes and encourages community floodplain management practices that exceed the minimum requirements of the National Flood Insurance Program (NFIP). Over 1,500 communities participate nationwide. In CRS communities, like the City of Snoqualmie flood insurance premium rates are discounted to reflect the reduced flood risk resulting from the community's efforts that address the three goals of the program:

1. Reduce and avoid flood damage to insurable property
2. Strengthen and support the insurance aspects of the National Flood Insurance Program
3. Foster comprehensive floodplain management

The City must update the background information and the recommendations in its floodplain management plans and repetitive loss area analyses at least every five years and in its natural floodplain functions plan(s) every 10 years.

## **ANALYSIS**

A repetitive loss community like the City of Snoqualmie that fails to submit a copy of its annual outreach project or a Category C repetitive loss community that fails to submit its annual progress report as required by Activity 510 (Floodplain Management Planning) will retrograde to a Class 10.

## **BUDGET IMPACTS**

N/A

## **NEXT STEPS**

The City will continue with its repetitive loss area analysis, RLAA.

## **PROPOSED ACTION**

Presentation only. No action at this time.
