H. In the event a customer is not connected to a meter service, or a meter has broken, become out of order or failed to accurately meter actual water usage, the customer shall be charged the base or minimum charge, together with an estimated charge for the water used at the premises, based upon the average usage for the corresponding month of the preceding year, averaged over a three-month period including the preceding and following month. In the event there is no prior history for the preceding year, the charge shall be based upon the average water usage for the month for all customers of the municipal water supply system in the same service class.

Total household annual income shall include that of a spouse or any co-resident(s), where "annual income" is defined as adjusted gross income as indicated in the most recent federal income tax return. In the absence of a federal income tax return, the finance director may consider other documentation of household annual income;
4. Who is not nor is any other adult member of the household claimed as a dependent on another federal income tax return; and

1. Applications shall be available at City Hall or mailed to any city customer upon request.

2. The low-income residential customer seeking the discount must complete an application renewal form annually.

3. A notice of renewal of application will be mailed annually by the city to low-income residential customers then receiving the low-income discount. The completed renewal application form and required attachments must be returned to the city within 30 days or the discount will no longer apply.

4. Discounts will commence on the next subsequent billing date following application.

5. A low-income residential customer who applied for and received the discount in the prior year, and whose low-income residential customer discount was discontinued as a result of the customer's failure to submit the renewal form within the required 30 days may request a one-time-only retroactive application of the low-income discount for not more than two billing cycles or two months.

6. A low-income residential customer is not eligible for the discount if his or her annual water consumption is in excess of 100 cf (hundred cubic feet) per year on a calendar year basis. Applicant may appeal the criteria to the finance director and must provide a convincing justification for the excess usage.

K. The water bill (including base and volume charges) of a customer whose application is determined by the finance director to meet the criteria of subsections I and J of this section will be discounted by 30 percent.
