

CITY OF SNOQUALMIE
FIRE DEPARTMENT

QUARTERLY REPORT

PERFORMANCE FROM
OCT - DEC 2023

ABOUT

THE SNOQUALMIE FIRE DEPARTMENT IS A DEDICATED GROUP OF COMMUNITY SERVANTS COMMITTED TO CONTINUOUS IMPROVEMENT AND EXCELLENCE.

The Snoqualmie Fire Department serves the residents and visitors to the City of Snoqualmie and surrounding area. The fire department responded to 1,611 incidents in 2022 from its centrally located fire station. The department is staffed with thirteen career firefighter/EMTs and sixteen volunteer EMS or fire responders.

The Department is one of seven accredited fire departments in the State of Washington, and the only volunteer / career fire department. Across the United States there are 301 accredited agencies that cover 12% of the US population. Only 1% of the Nation's fire departments are accredited. Snoqualmie will be re-applying for accreditation in early 2024, with a hearing date set for August of 2024.

WORK PLAN

OCT - DEC 2023

This section tracks the progress on the Department's Work Plan. This section is derived from the Department's strategic plan and other Mayoral and Council priorities. The work plan is not a daily work tracker, rather it focuses on the highly important and overarching community driven goals. The work plan is a living document, but designed to accomplish goals in a strategic and efficient manner.

Completed

PERFORMANCE MEASURES

OCT - DEC 2023

The fire department tracks multiple performance measures to evaluate the agency's response to calls for service in our jurisdiction. These measures are compiled quarterly, and are compared to the previous year's data to look for trends and areas of improvement. Two of the performance measures that are evaluated are turnout times and travel times.

Turnout time is the time from when the call is received by the station to when the unit goes en-route. This time is influenced by factors such as location of personnel within the station, time of day, and whether the crew needs to don protective gear before responding.

Travel time is the amount of time it takes the unit to arrive on scene after leaving the station. This time is influenced by factors such as distance from the station, traffic patterns and weather conditions.

FIRE INSPECTIONS

OCT - DEC 2023

Beginning in 2017 the fire department began performing the majority of the fire and life safety inspections for businesses in the city. The building department has the overall responsibility and handles the more complex inspections, but the two departments work together to complete inspections as well as provide advice and resources for discrepancies found. Occupancies are inspected on a rotating 3-year basis, based upon risk and occupancy type. High risk occupancies get inspected annually, moderate risk occupancies on a biennial cycle, and low-risk every three years. The most common violations found are extension cords being used improperly, faulty emergency lighting, and extinguishers missing or improperly maintained. Inspections are assigned to the crews quarterly, with each shift being responsible for the initial and re-inspections.

INSPECTIONS COMPLETED				
1st Qtr	2nd Qtr	3rd qtr	4th qtr	Year to Date
61	70	19	38	188

Most Common Violations (Compiled annually)

Violation Definitions

Egress - Egress blocked or not marked

Fire Extinguishers - out of date, not enough, not right type

Alarms - alarm system not inspected annually

Sprinklers - sprinkler system not inspected annually

Storage - improper storage, too close to ceiling or panel

Electrical - extension cords used for permanent wiring

HazMat - Improper storage

Other- Violation not normally seen

PROPERTY LOST / SAVED

OCT - DEC 2023

For reporting purposes, fire loss is broken into two categories: property and contents. Property describes physical properties such as cars, house, etc. Contents describe items that are not part of the structure but perish in the incident. Both categories are combined together to determine total property loss, and more importantly, total property saved.

2023 4th Quarter Fire Loss

Incident Date	Property Value	Property Loss	Content value	Content Loss
10/22/23	\$826,000	\$500	\$41,300	\$500
Totals	\$826,000	\$500	\$41,300	\$500

2023 Annual Property Saved

Property Risked	Property Saved	Percentage Saved
\$5,671,701	\$4,793,501	84.52%
