[Commission Address]

Re: Letter of Intent
EDC Mission Statement Proposal

Dear Mayor Ross and Council,

The members of the Economic Development Commission (EDC) are sending this letter to propose its new Mission Statement.

The EDC's sole intention is to serve the City of Snoqualmie, its businesses and residents, though supporting the initiatives and goals set forth by Council. To this end, we have amended the Commission's Mission Statement to better reflect our work. It reads as follows:

The Snoqualmie Economic Development Commission will work to identify diverse economic opportunities, recruit and retain local businesses and foster the spirit of entrepreneurship and strategic partnerships, while supporting a vibrant tourism economy in balance with a healthy community and abundant natural resources. The Commission will present opportunities and recommendations to support business strategies and goals set by City Council.

It is our hope that the Council will approve the proposed Mission Statement on September 19, 2022 as written.

Respectfully,

Bobbi Harrison
Economic Development Commission Chair
