The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the City of South Jordan, Utah for its Annual Budget for the fiscal year beginning July 1, 2024.

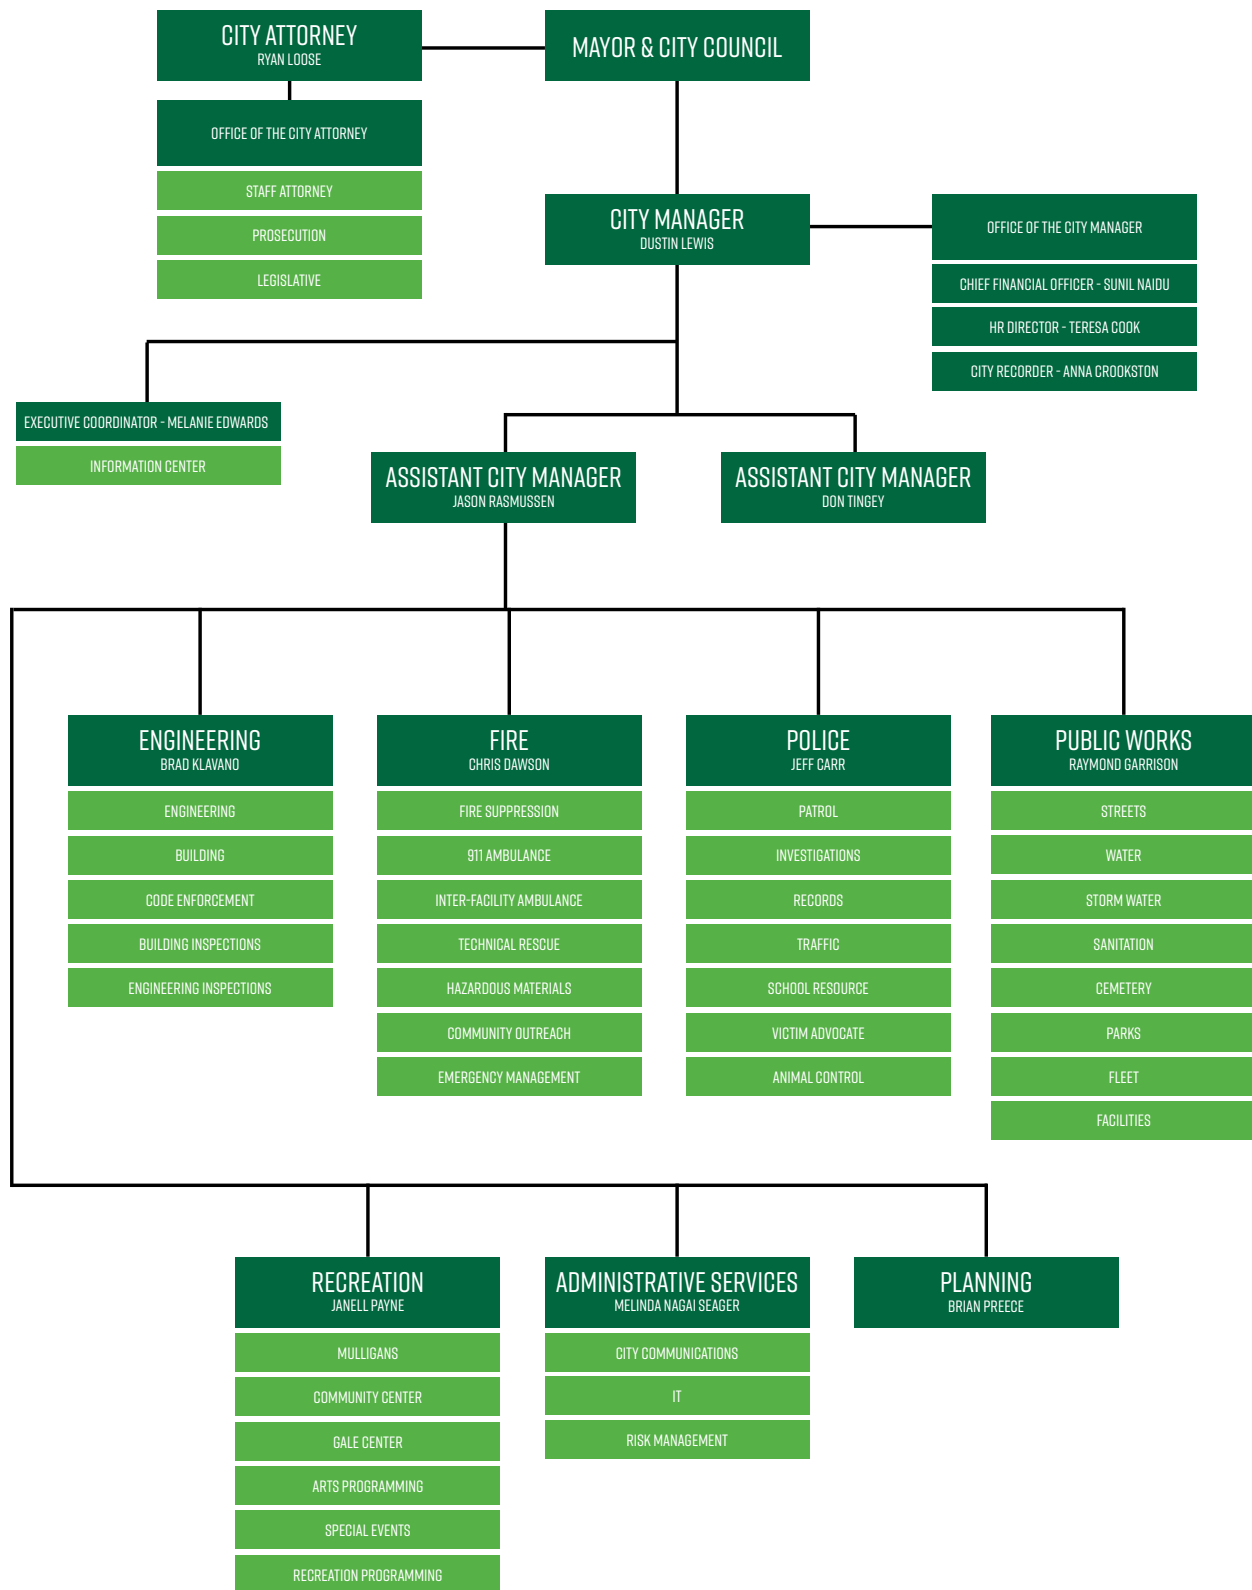

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another year.

THE CITY OF SOUTH JORDAN HAS EARNED THE DISTINGUISHED BUDGET AWARD FOR 32 CONSECUTIVE YEARS.

City Manager's Message

To the Mayor, City Council, and Members of the Community:

The budget is the foundation of all the programs and work that is accomplished in the City each year. I am pleased to share the Fiscal Year 2026-2027 budget herein. Significant time and effort has gone into its preparation. We have continued to follow the pattern that was established several years ago using the approach of putting a budget together focused on conservative fiscal responsibility, a strong desire to maintain current service levels, and a vision of a sustainable financial future for our community. This year's fiscal budget continues to maintain our exceptional service levels by allowing the City to retain well-trained and skilled employees, keeps the financial reserves healthy, and provides for the increasing costs of building and maintaining public infrastructure.

City Manager
Dustin Lewis

The City Council has developed a robust and comprehensive strategic plan to guide the City forward and this budget supports the implementation of that plan and further reinforces key initiatives supported by our residents. These key initiatives bring life and meaning to the budget and provide an easy guide for residents to link their taxes to measured outcomes. This year the Mayor, City Council, and City Staff continued to incorporate the elements of a priority-driven budget. These principles help identify the most important strategic related priorities, and then through a collaborative, evidence-based process, rank programs or services according to how well they align with those identified priorities.

POLICY ISSUES

The City honors its commitment of maintaining outstanding programs and keeping services at a high level through a highly productive and efficient team of employees.

SOLUTIONS

The City continues to use priority-based budgeting as a recognized best practice in municipal finance and has been using it for many years as the basis of our budgeting philosophy. As a common sense, data-driven, strategic alternative to incremental budgeting, the philosophy of priority-driven budgeting is that resources can be allocated according to how effectively a program or service achieves

the goals and objectives that are of most significant value to the community.

This budget identifies several strategic drivers that need fiscal resources to keep us current and relevant in our changing growth patterns. We continue to protect our investment in a well-trained and experienced workforce that has some of the best and brightest professionals in their field of expertise. We also have focused on maintaining our infrastructure in a responsible way to try to avoid significant costs in the future.

As the City grows, we have a responsibility to ensure our investment in personnel, infrastructure, and services are not eroded over time. After careful evaluations, the following items are some of the major undertakings of this budget; a) fortification of our employee retention program, b) funds for infrastructure, maintenance and projects totaling \$15,991,100, c) hiring 12 full-time employees, including 1 recreation personnel, 5 fire personnel, 4 police personnel, and 2 police personnel upgraded from part time to full time.

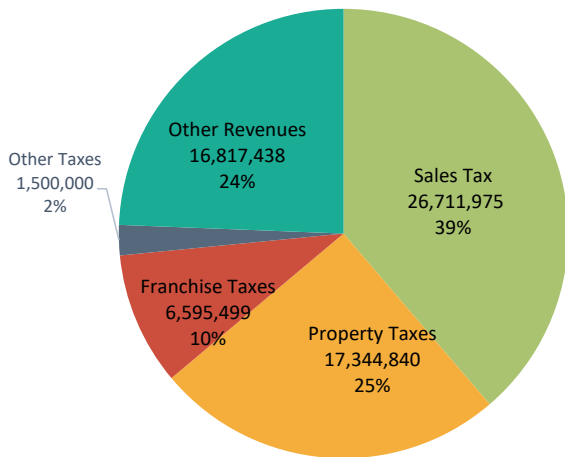

ECONOMIC FACTORS

South Jordan is beginning to see significant retail and employment center growth in western part of the City. South Jordan City is working to establish a balanced and sustainable economic base that includes property tax revenues, sales tax revenues and good-paying jobs. In order to do this, the City must focus on both regional retail and Class A office park development, expansion of job creation centers, and thereby establishing itself as the economic hub of the Southwest Valley.

City Manager's Message

SOLUTIONS

The City's General Plan includes associated land uses that are balanced, viable and are reflective of our community desires. The adoption and implementation of these various planning scenarios including key sub-area plans, are now the necessary tools confirming that our fiscal health remains excellent now and into the future. The General Plan is important in helping the City be prepared to sustain our levels of service when we reach build out. We must devise strategies that will bring investment into the City, keep our neighborhoods clean and crime free, and grow businesses for job creation.

The City must continue to build a tax base that is multifaceted, reliable, and truthful.

REGULATORY & LEGISLATIVE CHALLENGES

Cities face external forces, such as a potential recession, emergencies that demand public services, or new Federal and State policies that require cities to adjust and adapt. How we adapt depends in large part on our capacity to control resources and manage change.

SOLUTIONS

As we continue to think of fiscal matters in the future we must focus on a different set of horizons. We have to be sensitive to community aesthetics, continue to use evidence base decision making and we must also become advocates and entrepreneurs more than just regulators. Three principal attributes of cities' capacity to adapt to changing environments are: (1) the state-local framework, including most importantly the constraining effects of the state legislature and the state's financial non-support of its cities; (2) the alignment between a city's economic base and its fiscal budget priorities; and (3) the demands of the city's residents and customers to provide an acceptable level of services. These three attributes create a lens

through which we can understand the decision making room for city officials to respond to so many external forces.

Most recently, cities are experiencing more demand to be part of the solution regarding affordable housing and are subject to such related state enacted legislation and rule-making.

CHANGES IN SERVICE LEVELS OR FEES

Sustainable growth starts with best-in-class city services, such as safe neighborhoods, reliable roads, and great parks. Those best-in-class services drive population growth, as more and more people and business desire to live and work in the community. Where Utah's tax structure does not allow for inflation capture in property taxes we will be facing difficult decision as it relates to taxes and services. Without more commercially based property taxes, the City will continue to find it harder to meet the growth related service demands. Municipal budgets are strongest when they have diversified revenue streams and when cities' taxation system aligns with their economies.

SOLUTIONS

This budget also keeps our debt ratio comparatively low, which helps the City maintain very high credit rating in our general fund (AAA). We must be wise and prudent in our borrowing of money; knowing however, that we will have to maintain our investment in infrastructure and to add desired public amenities as needed by our residents. We are committed to maintain fiscal policies that strengthen our core service levels and sustain our reserves into the future.

This budget is the product of considerable time and attention over the past several months to the strategic, fiscal, and operational planning by the City Council and City Staff. All have contributed critical insights and untold hours of dedicated work to this major undertaking.

On behalf of all City employees, we look forward to working with the City Council and the Community as we use this budget to implement the City's Strategic Plan. I am confident that the result of our efforts will demonstrate our commitment to providing excellent services, investing in our future through public infrastructure, facilities, amenities, and proactively responding to changing fiscal realities.

Our Vision

We are a family-oriented community, founded upon principles of accountability, integrity, industry, and innovation with an unwillingness to compromise in securing a sustainable environment for future generations.

Our Mission

Risk Management Fund

The risk management fund is used to account for the cost of claims, injuries and losses.

Budget Process

The City of South Jordan’s budget process complies with the Utah Fiscal Procedures Act. The City seeks to maintain budgetary control by monitoring monthly revenues and expenditures and by holding each department responsible for costs incurred within budget limits. Financial information and reports are provided to the City Manager and department directors to assist them in monitoring expenditures and in keeping expenditures within approved limits. The Fiscal Year 2026-2027 budget was developed in compliance with state law and was approved by the City Council after a public hearing was held. The proposed FY 2026-2027 budget for each division, department, and fund includes actual expenditures for one prior year, the current year’s adopted budget, the current year’s estimated actuals, and the proposed budget for the coming fiscal year. The City Council shall approve the FY 2026-2027 budget after thoroughly reviewing policy issues related to the budget and proposals to assist the City in achieving program objectives for the coming year.

Public Participation

Throughout the year, the city communicates with residents via surveys, focus groups, social media, etc. as inputs to decisions about service levels and preferences, community priorities, and organizational performance. The budget process is intended to provide an opportunity for public participation and full disclosure to the residents of South Jordan as to the intent of the City Council in funding the City’s various programs and services.

Basis of accounting and budgeting

The budgets of governmental funds are prepared on a modified accrual basis of accounting. Briefly, this means that obligations of the City are budgeted as expenditures, but revenues are recognized only when they are available and measurable. The term "available" is defined as collectible within the current period or soon enough thereafter to be used to pay the liabilities of the current period.

Proprietary Funds do not budget for items such as depreciation, the sale of capital assets, etc.

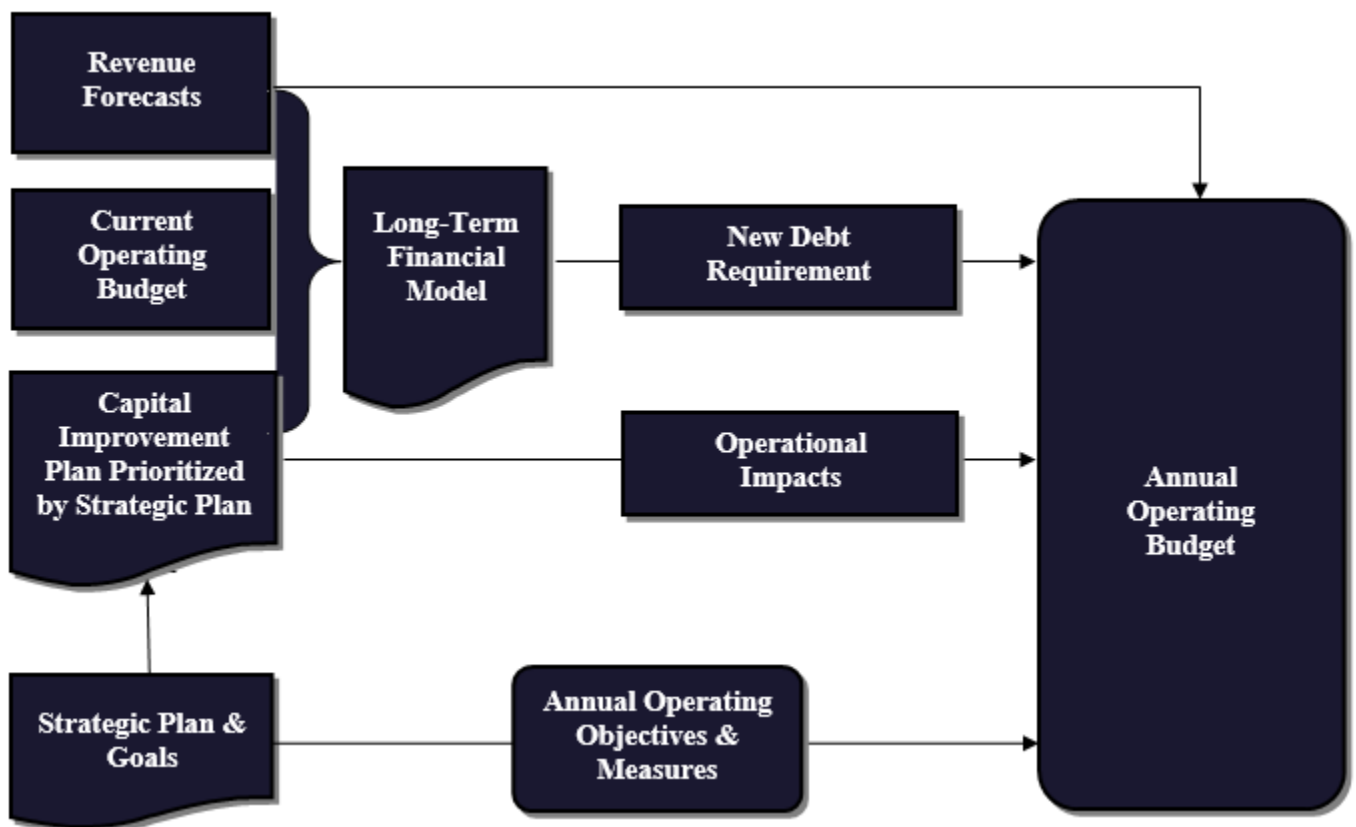

Budget Process

Budget amendments

Budget amendments are made only with the approval of the City Council upon recommendation of the Budget Officer. Financial controls are intended to be a resource for effective financial management, rather than a barrier to achieving results that are consistent with the City’s overall mission. At the same time, the City must comply with the Utah Fiscal Procedures Act and may not expend monies in excess of those authorized by the City Council. The City Council has authority to transfer budget appropriations between individual departments of any budgetary fund. Budgets may be amended throughout the fiscal year. The City Council may amend the budget after holding a public hearing, giving residents at least seven days notice. A copy of the proposed budget amendment shall be made available to residents for their review ten days before the public hearing.

Relationship between the Budget Process and Long-Range Planning

The following are the procedures and timeline followed by the City in the budget process:

Budget in Brief

The City Council approved the fiscal year 2026 Tentative Budget at the May 5, 2026 City Council meeting.

The keys to the City of South Jordan's financial success include a continued growth in assessed property valuation; efficient operation with a minimum change in the City's workforce; diversified revenue streams; no property tax supported debt; increased public and private partnerships; entrepreneurial City Council policy decisions; and caring citizens, committed elected officials, hard-working and talented city employees.

The City's five-year capital improvement plan (CIP) continues to allocate funding for the maintenance and

refurbishment of city facilities. The approved five-year CIP totals \$40,305,075.

This budget in brief is intended to provide the citizens of South Jordan with an overview of the approved operating and capital budgets. Throughout this document, you will find highlighted sections noting the location of detailed information in the approved budget document. Detailed information related to the approved budget can also be found on the City's website at www.sjc.utah.gov.

FY 2027 ADOPTED BUDGET

The City's adopted budget provides estimated revenues and expenditures for programs and services to be provided during the fiscal year from July 1, 2026 through

June 30, 2027. A separate capital budget includes appropriations for infrastructure related to projects, such as roads, buildings, and equipment that may require more than one fiscal year to complete or to acquire.

APPROPRIATED BUDGET BY FUND

The City's total appropriated operating budget of \$176 million is made up of the general, special revenue, debt service, enterprise, internal service, and trust and agency funds. A complete self-contained budget, including both revenues and expenses, is prepared for each of these funds.

All funds are balanced in fiscal year 2027. The City's general fund is balanced in 2027.

For additional information on the amount of funding included for each fund, total funding by department, and detailed information on reserves, see the Financial Summaries section.

Transfers from one fund to another, such as a transfer from the general fund to a capital project fund to offset costs of a capital project, are shown as an expense (or transfer) for the entity fund providing the funding and as revenue to the fund receiving the transfer. In order to determine the actual amount of expenditures authorized by the budget, the transfer amount must be excluded.

HOW IS THE BUDGET FUNDED?

Property Taxes

Polices services and half of Fire services are supported by property tax dollars. The property tax rate for fiscal year 2027 is projected to be around 1.86 per \$1,000 of taxable valuation. It is estimated that a total of \$17,344,840 will be received from property taxes in FY 2027. This represents an increase of 1.12% from fiscal year 2026.

Property tax increments are also generated within the 7 redevelopment areas. It is estimated that a total of \$15,240,000 will be received from tax increments which will be used to reimburse developer costs for the installation of City infrastructure.

Other Taxes

Other taxes that the City collects include local option sales tax, transient room tax, cable TV tax, and franchise tax. In 2027, approximately \$26,711,975 will be received in local option sales tax. This is a 4.18% increase over FY 2026. Of this amount, 30% will fund the remaining fire services, and engineering, planning and parks & recreation. In 2027 approximately \$280,000 will be received in transient room tax, \$350,000 will be received from cable TV tax, \$6,595,499 will be received from franchise

tax, and \$825,000 will be received from motor vehicle tax. All revenues will go towards funding other general government functions namely, executive, legal, finance and human resources.

Licenses and Permits

Fees from licenses include business, dog, and other miscellaneous. Fees from permits include building, electrical, mechanical, plumbing, refuse hauling, subdivision inspection, animal impoundments, and other miscellaneous. The City estimates \$2,883,900 in licenses and permits in FY 2027.

Intergovernmental Revenue

Intergovernmental revenues include any money received from Federal and State grants. The city is estimated to receive \$754,334 in Federal and State grants.

Charges for Services

This includes revenue from charges for services for Water, Storm water, Secondary water, and Mulligans golf course. A 3.5% water usage rate increase has been proposed for the FY 2027 budget. Other charges for services include court fines, cell tower leases, cemetery fees, sales of maps and publications, park use fees, ambulance fees, Recreation

Budget in Brief

programs, etc. Other charges for services are estimated at \$51,135,018 in FY 2027.

Special Assessments

Special assessments are an additional tax levied on private property for public improvements that enhance the value of the property. In FY 2027, special assessment revenue is estimated at \$2.1 million.

Investments

The City invests its idle cash into both public and private investments. Currently the City funds are invested through 1) Public Treasurers Investment Pool, 2) Institutional Liquidity Management and 3) Moreton Asset Management. The primary focus of all governmental and institutional investment is first and foremost the safety and preservation of principal, while also ensuring needed liquidity and achieving reasonable yield. For the fiscal year 2027, the City projects the investment earnings to be \$3,985,388 citywide.

Miscellaneous Revenue

This category includes internal charges for services, investment earnings, and revenues of a non-recurring nature. Miscellaneous revenues are estimated at \$1,048,571 in FY 2027.

ADOPTED CAPITAL IMPROVEMENT PLAN

The City of South Jordan’s Capital Improvement Plan (CIP) represents the City’s five-year plan for capital improvements and totals \$40,130,075. Appropriations of funding are made on an annual basis. The capital budget is therefore the first year of the five-year CIP. The approved capital budget, including Capital Equipment for fiscal year 2027 totals \$13,633,850.

The recommended CIP reflects the City’s comprehensive plan and the goals and priorities established by the City Council. Funding available to meet the capital needs for FY 2027 totals \$13,633,850. Approximately \$1.7 million of this will be provided by last year’s unspent appropriations. Another funding source representing approximately \$7.8 million of total sources is operating receipts. Operating receipts come from current year revenues and essentially represent the amount of “cash” or pay as you go financing provided by each enterprise operation. There will also be about \$38 million in capital carryovers, reflecting unspent funds from previous fiscal years.

A major focus of the capital budget and capital improvement plan is the maintenance and refurbishment of existing city facilities. To this end, significant resources are dedicated for these types of projects including, Street, Sanitary and Water Improvements.

The following page provides a listing of some of the highlighted projects in the fiscal year 2027 capital budget. (refer to CIP detail page).

WHY

Long term financial planning is the process of aligning financial capacity with long term service objectives. Financial planning uses forecasts to provide insight into future financial capacity so that strategies can be developed to achieve long term sustainability in light of the government's service objectives and financial challenges.

EFFECT ON THE BUDGET AND BUDGET PROCESS

City revenues are not keeping up with inflationary costs; specifically the property tax rates are not keeping up with inflation or increases in valuation. Based on the State law, property tax rate will generate the same amount of revenues as the previous year plus any new growth. A truth in taxation, which requires a public hearing is required to increase the certified tax rate. Additionally, the State legislature passed a new law exempting mining and manufacturing industries from paying sales tax on equipment that is used in their business. The City is facing increased costs in areas such as health insurance and increasing technology. Investments in equipment and City infrastructure are needed, but funding is limited.

ASSUMPTIONS

The baseline revenues and expenditures are based on the FY 2026 revised budget as well as the projected growth. General fund revenues other than property taxes are projected based on previous five year trend and forecasted growth which is projected to be at 7% each year. All personal services costs are increased by 4% each year. Capital projects are based on the resources available to support the City's five-year Capital Improvement Program. The City maintains a "pay as you go" strategy for capital projects. Over the last five years, average unspent money from General Fund operations totaled approximately \$2 million dollars. This combined with gas tax and impact fees will allow the City to continue funding maintenance as well as small infrastructure projects.

LINKING TO STRATEGIC GOALS

The City Council goals and priorities form the foundation for long-range financial planning, including five-year revenue and expenditure projections. The annually updated Council goals and priorities, in conjunction with the comprehensive plan, outline the City's vision for the future. Departments tie activities and programs to the Council goals and priorities, which are then linked to performance measures to help evaluate progress made toward achieving the goals and priorities, and also provides a format for evaluating expenditure and revenue patterns impacting the desired progress.

Key Fiscal Management Practices

Key Fiscal Management Practices are policy statements that provide a sense of the budgetary environment. Governmental budgeting is the process used to allocate financial resources to public services and projects. Budgeting helps policy makers set goals, assists program managers and Department Directors to improve organizational performance, and ensures that both the elected and appointed officials are accountable to the public.

The following formal policy statements are presented as principles that will govern the budget, accounting, and financial reporting for Fiscal Year 2026.

Compliance with Fiscal Standards: The City of South Jordan budget process complies with the Utah Fiscal Procedures Act and Generally Accepted Accounting Principles (GAAP). The City will seek to again qualify for the annual Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting and the Distinguished Budget Presentation Award Program.

Modified Accrual Basis: The City's budget is based on the modified accrual basis of budgeting for all of its fund types. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available and qualify as current assets. Expenses are recorded when the related liability is incurred.

Fund Accounting: The City follows principles of fund accounting for all governmental funds where each fund is defined as a separate accounting entity. Each fund is a self-balancing set of accounts established for the purpose of carrying out specific activities in accordance with clearly defined restrictions and/or limitations. For Enterprise Funds, the City follows principles of full accrual accounting as required by GAAP.

Budget Document: The operating budget is the annual financial plan for the City. It will serve as the policy document of the City Council for implementing Council goals and objectives. The budget shall provide the staff with the resources necessary to accomplish City Council-determined service levels. A proposed operating budget for the following fiscal year shall be prepared and

presented to the City Council by the first week in February to be adopted as early as the first week in May but no later than the statutory deadline of June 30 of each year.

Balanced Operating Budget: The City shall annually adopt a balanced budget where operating revenues are equal to, or exceed, operating expenditures. Any increase in expenses, decrease in revenues, or combination of the two that would result in a budget imbalance will require budget revision, rather than spending unappropriated surpluses or designated reserves to support ongoing operations. If the budget imbalance is positive, no budget revision is required. Any year-end operating surpluses will revert to unappropriated balances for use in maintaining reserve levels set by policy, and the balance will be available for capital projects and/or "one-time only" General Fund expenditures, as approved by the City Council.

Investment of Funds: The City's investment policy is to secure its assets by collateralizing investment and money on deposit. In its investments, the City also seeks to maintain a sufficiently liquid position so that cash is available as needed for operating expenses. Within the framework of these two policies, the City seeks to maximize its yield from investments. All investments are made in strict conformance with the Utah Money Management Act, which governs the investment of public funds. City funds will be managed in a prudent and diligent manner with emphasis on safety, liquidity, and yield, in that order.

Revenue Projection: All revenue forecasts shall be conservative meaning it will be slightly underestimated to reduce the probability of a revenue shortfall. Previous year trends, current economic conditions, and City population will be guiding factors in forecasting revenues.

Revenue Diversification: An over dependence on any one source of funding to provide services will be minimized wherever practical. Annual review of fees and available funding sources will occur during the budget process.

Revenue Stabilization Reserves: The City of South Jordan will maintain a revenue stabilization reserve at a level equal to the maximum permitted by law, which is

Key Fiscal Management Practices

currently 35% of the General Fund budgeted revenues as established by law. Any funds in excess of this maximum will be available for capital projects and/or “one-time only” General Fund expenditures, as approved by the City Council.

One Time Revenues: The City of South Jordan will utilize one time or temporary funds to obtain capital assets or to make other nonrecurring purchases. The City will avoid using temporary revenues to fund on-going services.

Debt: The City will not issue debt obligations or use debt proceeds to finance current operations. The City will utilize debt obligations only for acquisition, construction or remodeling of capital improvements projects that cannot be funded from current revenue sources or in such cases wherein it is more equitable to the users of the project to finance the project over its useful life. The City will approach debt cautiously and manage its debt well below debt limits as outlined by Utah State Law and City Council direction.

Capital Improvement Plan: The City has developed a five-year capital improvement plan which is updated yearly in order to anticipate long term capital needs. The five-year capital includes elements from the various Master Plans adopted by the City Council. The capital improvement plan helps establish staff capital improvement priorities for City Council consideration and supports the forecasting and anticipation of future year expenditures.

Capital Needs Financing: The City of South Jordan will, where possible, and in accordance with the adopted Capital Improvement Plan, Capital Facility Plans, and approved Master Plans, employ pay-as-you-go financing to save interest expenditures, preserve debt capacity for future borrowing, and avoid encumbering future budgets with mandatory debt service expenditures. Exceptions to this practice will be for capital expenditures which are determined by the City Council to be time sensitive for purposes of public health, safety, welfare, or for economic gain.

Capital Expenditures: All capital projects planned and budgeted for in any given fiscal year will have funding identified and proven to be available. This means that projects are only undertaken with funding already secured.

Fees: The City Council shall review fees annually to assure that fees reflect the targeted level of cost recovery.

Enterprise Funds: In general, Enterprise Funds should be self-supporting if:

- the benefits largely accrue to the users of the service,
- collecting a fee from the end user is administratively feasible, and
- the service can effectively be priced at its full cost without detracting from the purpose of the fund.
- Each enterprise fund budget shall be balanced where operating revenues are equal to, or exceed, operating expenditures.

Inter-Fund Borrowing / Transactions Defined: Transfers between funds are justified in limited situations:

- Percentage transfers to the General Fund are justified as returns on investments or as overhead charges assessed to the enterprise activity for the indirect costs incurred by the General Fund in administering the activity.
- Inter-Fund borrowing may occur during the budget year as a cash management measure. It allows a surplus in one fund to be used to offset a shortfall in another. Any fund transfer from an Enterprise Fund to the General Fund requires authorization of the City Council by Resolution.
- Inter-fund transactions that do occur shall be clearly identified and monitored for settlement.
- Inter-Fund Borrowing / Transactions Policies: Administrative fees charged by the General Fund to the City’s enterprise funds will be charged based on direct and allocated costs. These fees will be reviewed and adjusted annually during the budget process.
- Inter-fund borrowing shall only occur in an emergency status situation where reserves are insufficient to meet projected needs. Inter-fund borrowing must be approved by the City Council by Resolution.

- Inter-fund transfers will only occur once per funding source and must be identified as to the specific purpose of the expenditure. No transfers shall be made as a contribution to a fund balance, which has not been earmarked for a specific project.
- Inter-fund transfers shall have a set timeline for remittance to the fund from which funds are transferred.

Compensation Committee: Employee compensation is the City’s most significant expense. By resolution, the City has established a Compensation Committee, with Council, management, and citizen members tasked with annually reviewing employee pay and benefits. After consideration of costs, market conditions, recruitment, retention and sustainability, the Committee is charged with making specific recommendations to the entire Council in a collaborative process, early in the budget cycle.

Risk Management: The City operates a risk management and loss prevention program to minimize losses and injuries. The City is self-insured and appropriately finances and insures the cost of claims, injuries and losses.

Budget Adjustments:

- Budget transfers (non-personnel related) between accounts within a department budget requires the Department Director’s authorization.
- Budget transfers between departments, but within the same fund, requires both Department Directors authorization.
- Budget transfers between funds require City Council approval which is obtained through the budget amendment process.

Budget Oversight: The Budget Officer has authority to move line items to a “frozen appropriation” status or seek appropriate cuts if revenues fail to keep pace with projections, after consultation with the City Council and consideration of the actions proposed on the Wages and Benefits, Operations, and Capital Expenditures spending ratio. No project requiring funding shall be approved by the City Council unless funding has been identified and

proven available.

Priority Based Budgeting: A priority-driven budget process allocates resources based on how effectively a program or service achieves strategic priorities, goals and objectives that are of greatest value to the community. South Jordan City implemented this philosophy in FY 2015-16, by first, identifying the communities most important strategic priorities; and then, through a collaborative, evidence-based process ranked programs or services according to how well they align with the priorities and then allocated funding in accordance with the ranking.

Financial Reporting and Monitoring: The Finance Department will provide monthly financial reports reflecting the operations of individual funds. Such reports contain information by which City Management can manage city departments and services effectively. These reports are in part designed to alert impending short falls in revenues or overruns in expenditures. The City will monitor revenues against expenditures.

Audit Committee: The Audit Committee is responsible for the selection of an independent auditing firm and management of the auditing and reporting process.

Independent Audit: State statutes require an annual audit by independent certified public accountants. Generally accepted auditing standards and the standards set forth in the General Accounting Office’s Governmental Auditing Standards will be used by auditors in conducting the engagement. The selection of the Auditor and management of the auditing and reporting process will be directed by the City’s Audit Committee.

Description

Property Tax is an Ad Valorem Tax levied against the taxable value of property. The rate is applied to the most recent taxable assessed value. Taxable assessed value equals total assessed value less allowable exemptions.

Property Tax is South Jordan City's second largest source of revenue, accounting for approximately 23% of general fund revenue. Relevant factors in the preliminary property tax forecast include changes to the certified tax rate, property value appreciation, or depreciation, and new growth.

In order to understand property tax in Utah, it is necessary to understand a section of Utah State law known as "truth in taxation". The county is responsible for administering property taxes and each June it submits to the cities a certified tax rate, a rate that will generate the same amount of revenue as the previous year plus any new growth. The certified tax rate does not provide for additional tax revenue due to increased valuation of existing property. If the city chooses to adopt a tax rate higher than the certified rate, state law has very specific requirements for newspaper advertisements and public hearings from which the name "truth in taxation" is derived.

For FY 2026-2027, the City accepted the certified tax rate set by the county in order to maintain a stable balance of revenues and to compensate for the increased cost of providing service to South Jordan residents. As illustrated

in the Property Tax Comparison chart at the bottom of the page, South Jordan's property tax rate is comparable to other cities in the Salt Lake County.

Summary

Sales tax in SL County is a consumption tax imposed on the sale of goods and services purchased at the retail level. The tax is collected and remitted by businesses/retailers on a regular basis.

Sales tax is the largest revenue source for the City of South Jordan, making up approximately 27% of the overall general fund revenues. Sales tax revenues are forecasted utilizing existing collection trends, state budget forecasts, and other economic data which may influence the level of sales within the city.

Change in population is one factor that currently influences the distribution of sales tax revenue in South Jordan City. From the 2000 census to the 2010 census, population growth in South Jordan (71%) far exceeded the population vs Utah State as a whole (29%). This population growth resulted in South Jordan receiving a larger amount of tax revenue, as the Utah State Tax Commission uses new population estimates to distribute sales tax revenue.

Fund Balance and Reserves

South Jordan City defines fund balance for governmental and enterprise funds as the difference between a fund’s current assets and current liabilities. The City accumulates fund balances in its various funds for the following purposes:

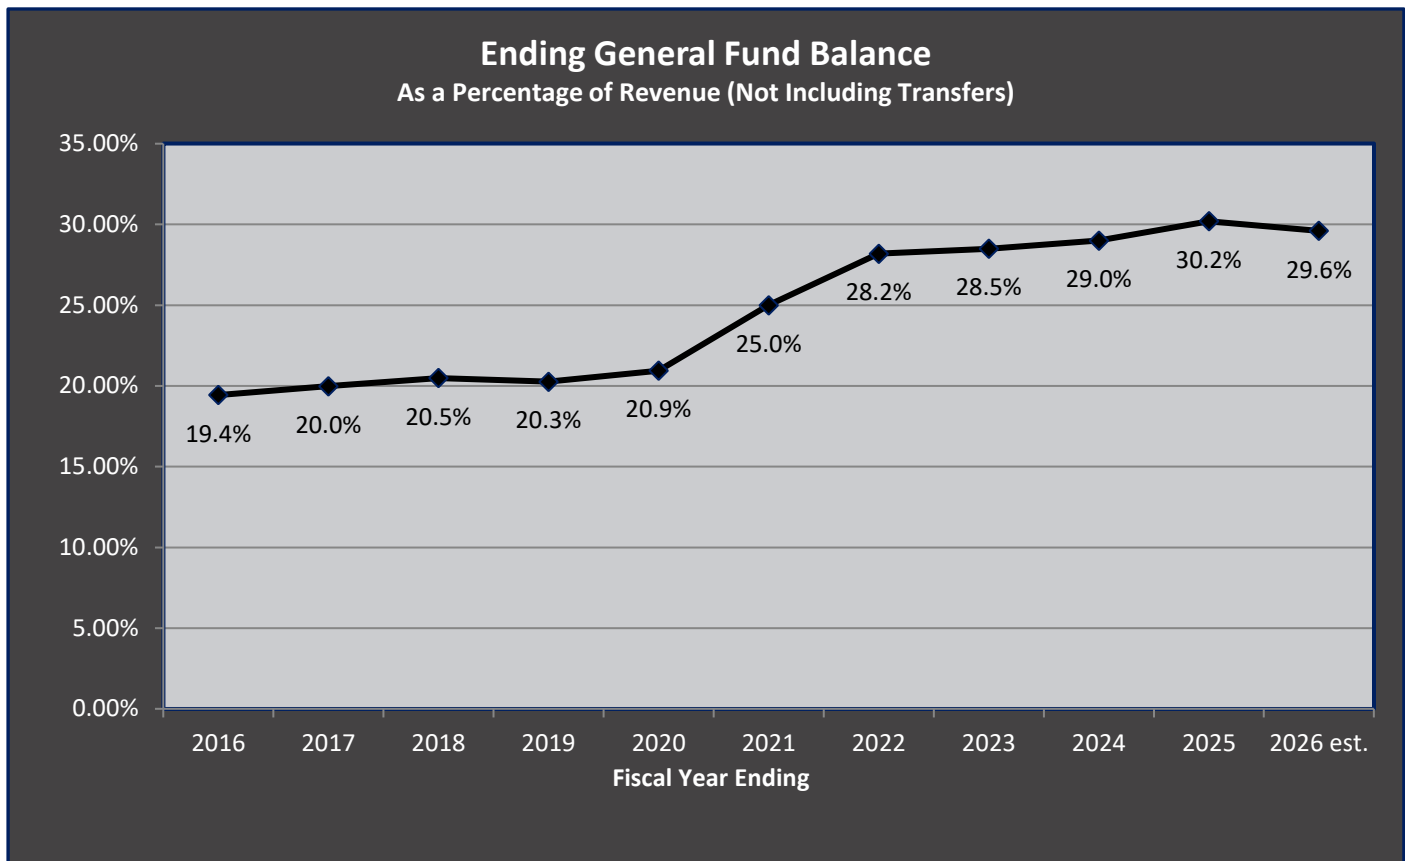

- To have adequate funds in case of an emergency or unexpected events
- To secure the City’s debt and related bond ratings
- To meet requirements for liabilities already incurred but not yet paid
- To avoid short-term debt
- To provide for planned and unplanned capital expenditures

According to Utah Code 10-6-116, as amended in 2021, cities are allowed to accumulate retained earnings or fund balances in any fund. However, the law imposes a limit on general fund balance which is 35% of total estimated general fund revenue. Any fund balance in excess of 5%

and less than 35% could be utilized for budget purposes. Any fund balance less than 5% of the estimated revenue could be used for working capital, certain emergency expenditures, or to cover a pending year-end excess of expenditures over revenues from an unavoidable shortfall in revenues. Any funds in excess of 35% of general fund revenues could be retained if they were earmarked for specific future capital projects. The City maintains a 5-year CIP plan.

The following graph depicts the City’s reserved fund balance over the last 10 years.

Reserve fund balance for FY 2025-2026 is estimated to be at 29.6% in the amount of \$19,407,050. The City will continue to keep its reserve below the 35% maximum.

Community Development Block Grant

Special Revenue

Grant Purpose

The City administers Community Development Block Grant (CDBG) Funds received from the U.S. Department of Housing and Urban Development (HUD). With the population reported by the Census, the City became eligible to receive CDBG funds directly from HUD. Annual funds received are determined by a formula which accounts for such things as total population, growth and poverty.

Interfacility Transfers

Program Purpose

As part of the progressive and proactive Emergency Medical Services program in South Jordan, the South Jordan Fire Department provides Advanced Life Support (ALS) treatment and transport capabilities from all four of its fire stations. This advanced EMS program includes top-tier interfacility Transport services from the University of Utah South Jordan Health Center. These transport services include Basic and Advanced Life Support treatment, respiratory and ventilator care, advanced cardiac monitoring, and medication therapies for both pediatric and adult patients.

CORE PROGRAMS

1. Interfacility Transport Services

Department Purpose

The Storm Water division is responsible for the maintenance, cleaning and inspection of storm water infrastructure within the City to ensure that it is working properly during storm events to mitigate flooding and any subsequent damage. This includes street sweeping which prevents debris from entering the storm drain system thus hindering it from functioning properly. The Storm Water division is also responsible for maintaining compliance with Federal and State permits. Some of the activities to maintain compliance include public education and outreach programs, location, investigating and eliminating illegal discharges into the storm drain system, monitoring and enforcing runoff and erosion control processes concerning construction activities and minimizing adverse impacts on storm water quality after construction.

A capital project is a new construction, expansion, renovation, or replacement project for an existing facility or facilities. It is a project that helps maintain or improve a Water asset, often called infrastructure.

The City Council appropriated \$1,964,250 toward Culinary Water Projects and \$100,000 toward Secondary Water Projects for FY 2026-2027.

The Water fund maintains a revenue stabilization reserve at a minimum 25% of the budgeted revenues.

Projects approved by the Council are listed below.

Any projects that may need to be addressed during the fiscal year may be funded through the following Project Approval Process:

- Project Manager or Department Director fills out a Project Funding Request Form
- Finance Department verifies availability of funds
- City Council reviews and approves proposed projects with the annual, mid-year (as needed) and year-end budgets.

5-Year Capital Planning Process

The five-year Capital Improvements Plan (CIP) is the City's planning document for infrastructure development and improvements. Projects identified in the CIP are guided by various development plans and policies established by City Council and City Administration. Some of the studies and documents that influence CIP include: the General Plan, Transportation Master Plan, Storm Drain Master Plan, Culinary & Secondary Water Master Plans, Parks & Recreation Master Plan, Police & Fire Safety Master Plan, the Municipal Code, South Jordan's Mission Statement,

and Service Values. The CIP details the priorities and estimated costs of the projects that may be used as a tool by City Administration in developing the final budget. However, funding sources for projects will not be allocated until the final budget is approved by City Council. The five-year CIP Plan will be updated annually to account for changes in priority, schedule and construction costs.

The General Debt Service Fund is used to account for the accumulation of resources and for the disbursement of debt service payments for all debt not tracked in any other fund. Transfers to the General Debt Service Fund are made from other City funds. Regular payments are then made to the City's creditors according to the requirements of each individual debt. The City of South Jordan uses debt in a method consistent with the policies set forth in the City's Key Fiscal Management Practices. The primary components of these practices in relation to debt are as follows: Under state law, the City's outstanding general obligation debt should not exceed 12% of total assessed property value. Of this percentage, a maximum of 4% may be used for general purpose. The remaining 8% and any unused portion of the 4% is available for general purpose up to a maximum of 12% may be used for water, sewer, and electrical projects.

Includes:

- 2017 Sales Tax Revenue Bond - This was a refund of the 2006 Series Bond, which was issued for constructing a new Public Safety Building, City Hall construction projects, and road improvements.

Capital Improvement Program

A capital project is a new construction, expansion, renovation, or replacement project for an existing facility or facilities. It is a project that helps maintain or improve a City asset, often called infrastructure.

There is \$3,900,000 in general capital funds available for FY 2026-2027. City Council has allocated these funds on capital projects established in the Capital Improvement Program Plan.

The City estimates a revenue stabilization reserve at a level equal to 21% of the General Fund budgeted revenues. Cities are allowed to retain a maximum of 35%. Funds in excess of 35% may be retained if they are earmarked for specific future capital projects.

Projects approved by the Council are listed starting on page 182. Capital equipment to be purchased during this fiscal year are listed on page 183. There are no major non-recurring projects for FY 2027.

In addition, the Council approved leasing of public safety vehicles, replacing 21 vehicles.

Any projects that may need to be addressed during the fiscal year may be funded through the following Project Approval Process:

- Project Manager or Department Director fills out a Project Funding Request Form
- Finance Department verifies availability of funds
- Funding Request is presented to the City Council for approval.
- City Council reviews and approves proposed projects with the annual, mid-year (as needed) and year-end budgets.

5-Year Capital Planning Process

The five-year Capital Improvement Plan (CIP) is the City’s planning document for infrastructure development and improvements. Projects identified in the CIP are guided by various development plans and policies established by City Council and City Administration. Some of the studies and documents that influence CIP include: the General Plan, Transportation Master Plan, Storm Drain Master Plan, Culinary & Secondary Water Master Plans, Parks & Recreation Master Plan, Police & Fire Safety Master Plans, the Municipal Code, South Jordan’s Mission Statement, and Service Values. The CIP details the priorities and estimated costs of the projects that may be used as a tool by City Administration in developing the final budget. However, the funding sources for projects will not be allocated until the final budget is approved by City Council. The five-year CIP will be updated annually to account for changes in priority, schedule and construction costs.

History of South Jordan

South Jordan, Utah is a rapidly growing community located eleven miles south of Salt Lake City. South Jordan is known for being a trendsetter within the valley while maintaining a rural environment creating an ideal place to raise a family. South Jordan has a distinct air of uniqueness from the other metropolitan areas within the county. A rural atmosphere exists with large well kept yards, modern homes, immaculate parks, and annual events that celebrate the history of South Jordan.

The City of South Jordan has become a premier place within the county to live. Known for its beauty, cleanliness, pristine parks, quality schools, amazing community center, and abundant neighborhoods the city attracts both residential and commercial interests.

Settlement

The community of South Jordan's first residents were Alexander Beckstead and his family as they settled a tract of land along the west side of the Jordan River in 1859. Alexander had immigrated from Canada in 1837 after joining The Church of Jesus Christ of Latter-Day Saints (LDS). Most early settlers were also members of the LDS faith and came from Europe by ship, then crossed the plains eventually settling in South Jordan.

The abundance of water, wildlife, and native grasses along the Jordan River drew settlers to the area who had a hope of farming the land. Farming required a managed water supply, therefore Mr. Beckstead and others hand dug a two and a half mile canal to divert water from the Jordan River. The canal, appropriately name "The Beckstead Ditch", was one of the main reasons the South Jordan settlement became a permanent community and continued to grow.

Initial settlers nicknamed the community "Gale" due to the southwest prevailing winds which blow frequently through the area. In fact, the town's first train station was called the Gale Station and the first post office was called the Gale Post Office.

Early Homes

Hillsides along the Jordan River provided the first homes for settlers of the South Jordan community. The settlers would literally dig a hole in the side of the hill to obtain shelter. As time permitted, more permanent type dugouts were built

which would extend beyond the front of the hillside using adobe brick for walls and logs for the extended roof. John W. Winward became one of the first adobe brick makers in the South Jordan area. Building a kiln on his property, he produced bricks for adobe homes which eventually replaced the hillside dugouts. Early pioneer homes in the area usually began with two rooms and as additional resources became available, and as the family grew, other rooms would be added.

Farming & Business

Alfalfa hay and grain were the predominant crops raised in South Jordan's early history. Sugar beets were introduced in 1910 and became the mainstay of South Jordan's agricultural industry after a sugar factory was built in Lehi, Utah. The first flour mill was built in 1895 and ran exclusively on water power. Many farmers brought wheat to the mill for processing and many found employment there as well.

The Jordan Mercantile was the first official retail operation in South Jordan. Operated by the Joseph Holt family, the store offered commodities, household items as well as a shoe department. The first business to offer gas and oil in South Jordan began operations in 1928.

Industry

Although agriculture was the main sources of sustenance for early settlers in South Jordan, many also worked at the United States Smelting and Refining company in Midvale, Utah to earn

History of South Jordan

additional income. The Bingham Canyon Mine, now called Kennecott Copper also had a major influence in South Jordan’s history. Several families earned a living providing teams and wagons to haul ore for the mine. Mining operations began in 1903 and have continued for more than 100 years.

Incorporation

In 1935, with a population of more than two hundred residents in the South Jordan community, members of Voting District 329 petitioned for the right to become a town. The petition was accepted by the Board of Commissioners of Salt Lake County and the Town of South Jordan was officially created on November 8, 1935.

The Town of South Jordan operated under the leadership of a Board of Trustees for thirty-two years following incorporation. The first Board President was J.R. Peterson who served for five years. Marie Holt Palmer was hired as the first town clerk and initially Town Board Meetings were held in her home.

City of Second Class Designation

Lieutenant Governor Spencer J. Cox signed an Executive Proclamation on July 28, 2016 designating South Jordan as a city of the second class. Each Utah municipality is classified according to its population. A municipality with a population of 100,000 or more is a city of the first class. A municipality with a population of 65,000 or more but less than 100,000 is a city of the second class. A municipality with a population of 30,000 or more but less than 65,000 is a city of the third class. A municipality with a population of 10,000 or more but less than 30,000 is a city of the fourth class. A municipality with a population of 1,000 or more but less than 10,000 is a city of the fifth class and a municipality with a population under 1,000 is a town.

Tragic Event

Tragedy struck South Jordan in December of 1938. Farold “Slim” Silcox one of Jordan School District’s most experienced drivers was driving the new yellow school bus to school in a snowstorm. The bus carrying 39 people stopped at the tracks and then appeared to have some trouble climbing over the tracks, according to eyewitnesses. This could have been due to the heavy snow or trying to shift gears to navigate the incline.

The “Flying Ute” freight train was running a couple hours late due to the weather after leaving Denver. The locomotive was pulling eighty-four freight cars and traveling at about 52 miles per hour. The engineer, with over 32 years experience, saw the bus stopped on the tracks and ordered an emergency stop. The train did not stop and the impact sheared the bus in two. The

bus motor was found 225 yards to the north, the frame of the bus was carried two blocks wrapped around the locomotive, and the shell of the bus was crunched like tin foil.

The driver and 23 people died leaving only 15 survivors, three of whom would later die due to injuries from the collision. It is as though time stands still as locals recall the train-bus tragedy that is the worst in South Jordan’s history.

Growth

South Jordan has seen dramatic increases in population over the years as housing has gradually replaced farmland. Between 1990 and 1999 South Jordan had the second highest growth rate in the State of Utah averaging more than 9.4% per year. The City encompasses 25.74 square miles and is home to more than 87,000 residents. The average household size is 3.56 persons. South Jordan’s population is expected to increase by approximately 30,000 additional residents over the next twenty years.

Glossary of Key Terms

Accrual Basis of Accounting – A method of accounting in which revenues and expenditures are recognized at the time they are incurred, as opposed to when cash is received or spent.

ACFR – (see Annual Comprehensive Financial Report).

Ad Valorem Tax – Taxes levied on both real and personal property according to the property’s valuation and the tax rate. Also known as Property Tax.

Administrative Fees – Fees allocated to Special Revenue Funds and Enterprise Funds to cover support costs incurred by General Fund divisions.

Adopted Budget – The annual budget approved by the City Council that establishes the legal authority for the expenditure of funds in the fiscal year.

Allocation – The assignment of one or more items of cost or revenue to one or more segments of an organization according to benefits received, responsibilities, or other logical measures of use.

Annual Comprehensive Financial Report (ACFR) – The audited annual report of the City’s financial condition at the conclusion of the fiscal year.

Appropriation – Legal authorization granted by the City Council to make expenditures and incur obligations for specific purposes.

Assessed Valuation – A valuation set upon real estate or other property by the Salt Lake County Assessor as a basis for levying property taxes.

Assigned Fund Balance - The portion of a fund balance that has been set aside for a specific purpose by City Administration.

Audit – A review performed by an independent certified public accountant to form an opinion regarding the legitimacy of transactions and internal controls.

Balanced Budget – A budget in which current revenues equal current expenditures. The State or local government may set the

legal requirements for a balanced budget.

Basis of Budgeting – The City’s budget is based on the modified accrual basis of accounting for its governmental and proprietary funds. (See modified accrual basis of accounting).

Bond – A written promise to pay a specified sum of money, called the face value or principal, at a specified date or dates in the future, called the maturity date(s), together with periodic interest at a specified rate.

Bond Proceeds – Funds received from the sale or issuance of bonds.

Bond Rating – A methodology used to measure the fiscal health of the City. Generally, analyst firms such as Standard and Poor’s, Moody’s Investor Service, and Fitch Ratings provide bond ratings to municipalities. Bonds rated AAA/Aaa are judged to be the best quality and carry the smallest degree of risk and, together with AA/Aa bonds, comprise high grade bonds. Ratings including “++ or “1” designate the strongest bonds in the rating category. Generally, highly rated bonds result in lower interest rates.

Bond Refinancing – The payoff and re-issuance of bonds to obtain better interest rates and/or bond conditions.

Bond Refunding – The redemption of a bond with proceeds received from issuing lower-cost debt obligations.

Budget – A financial plan consisting of an estimate of proposed expenditures and their purposes for a given period and the proposed means of financing them.

Budgetary Control – The control of management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of authorized appropriations and available revenues.

Building Authority Bonds - Bonds secured by specified asset.

Call Date - Date on which a bond can be redeemed before maturity. Earliest date on which bonds can either be paid off or refinanced.

Capital Assets – Assets of significant value and having a useful life of several years.

Capital Carryovers – Any unspent appropriation for capital projects that are authorized by City Council to be reappropriated in the following year.

Capital Equipment - Equipment with an expected life of more than one year, such as automobiles, computers, and furniture.

Capital Improvement Program – 5 year plan, updated annually to prioritize infrastructure needs. The plan includes capital project and maintenance expenditures for public facilities and infrastructure (buildings, streets, etc.), with estimated costs, sources of funding, and timing of work over a period of time.

Capital Outlay – Expenditures which result in the acquisition of capital assets.

Capital Project – Projects involving the purchase or construction of capital assets.

Career Ladder Increases - Career ladders are pay increases within a job series conditioned on obtaining required service experience and specified skills, training, and/or certification. They are typically used for jobs with critical or rapid learning curves to bring entry level employees to full productivity. They also act to encourage retention with the City, by discouraging movement to other employers after the City has invested resources in training and certification. Existing career ladders correspond with similar career ladders in the City’s relevant job market. This year’s budget includes several new career ladders which also correspond with the job market.

CDBG – (see Community Development Block Grant).

Certified Tax Rate – The tax rate that would generate the same amount of revenue as the previous year plus any new growth.

CIP – (see Capital Improvement Program).

Committed Fund Balance – The portion of a fund balance that has been set aside for a specific purpose by the City Council.

Community Development Block Grant (CDBG) – The Housing and Community Development Act of 1974 provides funds to cities and counties to develop urban communities and expand economic opportunities principally for low- and moderate-income persons.

Consolidated Budget – City budget that includes all funds – governmental and proprietary.

Consumer Price Index (CPI) – A statistical description of price levels provided by the United States Department of Labor. The change in this index from year to year is used to measure the cost of living and economic inflation.

Contingency – An appropriation of funds to cover unforeseen expenditures which may occur during the budget year.

CPI – (see Consumer Price Index).

Debt Service – The payment of principal, interest, and service charges related to long-term debt.

Debt Service Fund – A fund established to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Deficit – An excess of expenditures or expenses over revenues.

Department – A major administrative division of the City that indicates overall management responsibility for an operation or group of related operations within a functional area.

Depreciation – Expiration in the service life of fixed assets, attributable to wear and tear, deterioration, action of the physical elements, inadequacy, and obsolescence.

Division – A sub-section within a department that provides specific services.

Encumbrances – Obligations or commitments in the form of purchase orders or contracts, the expenditure/expense of which has not yet occurred.

Enterprise Fund – A fund established to account for operations that are financed and operated in a manner similar to private business enterprises – the services are predominantly self-supported by user fees and charges. Examples are water and sanitation.

Expenditure – The actual spending of governmental funds set aside by an appropriation.

Expense – The actual spending of proprietary funds set aside by an appropriation.

Fiscal Year – The twelve-month period of time to which a budget applies. The City of South Jordan’s fiscal year is July 1 through June 30.

Franchise Tax – A tax levied at the state level against businesses and partnerships chartered within that state. South Jordan charges a 6% franchise tax for electrical and natural gas utilities.

FTE – (see Full Time Employees).

Full Time Equivalent – The hourly equivalent of a full-time employee. An FTE can be made up of either one full-time employee or two or more part-time employees whose total hours equal 2,080 per year.

Fund – A fiscal or accounting entity with a self-balancing set of accounts established for the purpose of carrying out specific activities in accordance with clearly defined restrictions and/or limitations.

Fund Balance – The difference between a fund’s assets and its liabilities.

Funding Source - Source of money pledged to pay principal and interest.

GAAP – (see Generally Accepted Accounting Principles).

GASB – (see Governmental Accounting Standards Board).

General Fund – The primary fund of the City used to account for all financial resources except those identified for special purposes or required to be accounted for in another fund.

Generally Accepted Accounting Principles (GAAP) – Uniform minimum standards for financial accounting and recording.

Governmental Accounting Standards Board (GASB) – The group that develops standardized reporting for government entities.

General Obligation Bonds – Bonds used for various purposes and repaid by the regular revenue raising powers of the City.

Grant – Contributions, gifts, or assets from another government entity to be used or expended for a specified purpose, activity, or facility.

Haircut Provision - Utah code related to redevelopment areas that allows portions of tax increment to be allocated and spent toward recreational purposes.

Impact Fees – Fees used to offset the additional burden on city infrastructure caused by new development within the city. The fees are collected and accounted for separately to be used for projects relating to the impact of the additional development.

Infrastructure – Facilities or assets on which the continuance and growth of a community depend, such as streets, waterlines, etc.

Interfund Transfers – Monies transferred from one fund to another to either finance the operations of another fund or to reimburse the fund for certain expenditures/expenses.

Intergovernmental Revenue – Money collected by one level of government and distributed to another level of government.

Long-term Debt – Debt with a maturity of more than one year after the date of issuance.

Maturity – The date on which the principal or stated values of investments or debt obligations are due and may be reclaimed.

Merit/Wage Compression Increase - Typically government employers recognize performance and increased experience with annual merit increase. Unlike most other government employers, however, South Jordan has an open range, rather than a step plan. In a step plan, the annual percentage is preset. In an open range it is not. City employees have not received merit increases during the economic downturn, although the number of employees has not grown in spite of population and service growth.

Modified Accrual Basis of Accounting – A method of accounting in which revenues are recognized in the period in which they become available and measurable and expenditures are recognized at the time a liability is incurred.

Motor Vehicle Fee – Fee imposed on passenger cars, light trucks, sport utility vehicles, vans, motorcycles, and recreational vehicles and due at the time of registration.

Operating Expenditures – The cost for materials and equipment required for a department to perform its functions.

Operating Revenues – Funds received by the City as income to pay for ongoing operations.

Ordinance – A formal legislative enactment by the City Council. It has the full force and effect of law within City boundaries unless preempted by a higher form of law. An ordinance has a higher legal standing than a resolution.

Property Tax – An ad valorem (according to value) tax based on the fair market value of real property (land and buildings) and personal property (business equipment). Fair market value is determined by the county as of January 1 of each year.

RDA – (see Redevelopment Agency).

Redevelopment Agency – A separate entity established to revitalize blighted and economically depressed areas of a community and to promote economic growth.

Refunded - Refinanced to take advantage of lower interest rates.

Reserve – A portion of a fund balance which has been legally segregated for a specific use and is, therefore, not available for further appropriation or expenditure.

Resolution – A special order of the City Council that requires less legal formality and has a lower legal standing than an ordinance.

Revenues – Sources of income such as taxes used to finance the operation of government.

Revenue Bonds - Payable from specified revenues such as Sales Tax, User Fees.

Sales Tax – Tax imposed on the taxable sales of all final goods. South Jordan receives part of the 6.85% sales tax charged in Salt Lake County.

Special Assessment – A tax on property owners who receive a benefit not received by all other taxpayers.

Special Improvement District (SID) – An area of the city where the property owners come together and vote on incurring the costs of making special improvements to the area (such as putting in custom streetlights). A special improvement district is created and a bond is issued to pay for the project. Then the property owners within the district pay a special assessment in addition to their taxes in order to repay the bond.

Special Revenue Fund – Fund used to account for specific revenue sources that are legally restricted to be spent for specified purposes. Examples are storm drain and risk management.

Tax Base – The total taxable value of property within the local government's legal boundaries.

Tax Increment – Property tax that is collected as a result of increased valuation within an RDA area.

Tax Rate – The amount of tax levied for each \$100 of assessed valuation.

Taxable Value – The assessed value of property less exemptions.

Taxes – Compulsory charges levied by a government for the purpose of financing services for the common benefit of the people.

Transfers – Legally authorized intra-city transfers of appropriations from one City fund to another City fund. Revenues and expenditures are accounted for in both funds.

Truth in Taxation – Legal requirement for Utah cities to hold public hearings in the event the city chooses to adopt a tax rate higher than the certified tax rate.

Undesignated Fund Balance – A portion of a fund balance that has not been designated or reserved for any specific use.

User Fees – The payment of a fee for direct receipt of a public service by the party benefiting from the service.
