Parking & Traffic Commission Request CITY OF SONORA

GARY ANDERSON

Address:

Home Phone #

| Work Phone #

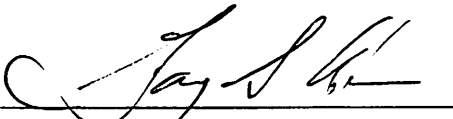

Location of Concern: 375 S. Shepherd St. Sonora

Nature of Request: Enforcement of KEEP CLEAR Zone for sidewalk access in front of 375 S. Shepherd St. Sonora.

As memory serves me this zone was established in the late eighty's after the removal a dirt sidewalk and several trees in front of the above address. At that time the City installed steps and access from the existing sidewalk coming from the north in front of 365 S. Shepherd St. At the same time the City installed a block wall with a planter replacing the dirt sidewalk. This Keep Clear Zone serves a secondary purpose for our driveway directly across from the zone allowing us to take three plus vehicles off this narrow street. The zone allows us to swing over for a straight shot down our narrow driveway along with the need to back and park a pickup.

It is only recently this access to the sidewalk and our vehicles has become an issue. The current resident at 375 S. Shepherd St. has increasingly parked in the zone. I believe Public Works has been by several times to freshen up the paint but were unable due to vehicles parked there.

Is it possible to change the zone to a no parking zone?
