83 The consultant submitted the draft plan to DCM for their required review on November 1st and
84 we received their comments on November 27th. Most of the comments can be addressed by
85 updating the CAMA matrix in Appendix A. Two new maps also need to be added (water supply
86 and wastewater) along with new descriptions and one policy clarification. The consultant should
87 have the comments addressed within the next couple of weeks and they're looking into whether
88 the revised plan will need to go back to the Planning Board before resubmittal to DCM.

99 Town Manager Cliff Ogburn presented the following operational highlight:

- 100 ○ Ripple Fiber- their projected end date for the conduit installation was sometime in mid- January
- 101 but they have slowed down in large part because they're just so few utility line locator crews.

- 103 complete) and Kimley Horn will be making a presentation at the February meeting.

- 111 ○ Chicahauk Sidewalk-The contractor of the new construction house at Chicahauk has been

122

123 **General Public Comment**

124 Steve Gudas- 156 Wax Myrtle-encouraged the Town to seek historic designation for the flattop
125 property at 13 Skyline Rd. which was recently purchased by the Town. He feels the Historic Landmark
126 Commission is the most logical citizen entity to be involved with providing input regarding preservation
127 of the property and designation by the Historic Landmark commission. They would help balance the
128 many practical needs for the town use of the building with the important need for preservation of the
129 Frank Stick designed home in his legacy.

130

131 **New Business**

132 Budget Amendment-Sand fence and Beach Grass

134 that was to install sand fence and 5,000 of that was to make sure that we had the funding available to
135 keep up the Better Beaches folks. There are approximately 112 50-foot rolls of sand fence that were
136 left over from the beach nourishment project, and staff would like to get them installed. The quote was
137 \$39.80 to put out a 10- foot section and staff is requesting an additional \$12,288 be added to the
138 budget amendment to have the fence installed.

139 Council Member Batenic asked if that included all costs and when it would be installed. Town Manager
140 Ogburn stated the quote covered all fees and the hope is to get it installed quickly to capture as much
141 sand as possible this winter.

142 Mayor Morey asked if CAMA was being advised of the installation. Town Manager Ogburn stated the
143 sand fence will be installed per CAMA guidelines and if staff have any questions they will reach out to
144 CAMA for clarification.
