**Subject:** Addition to November 14 Workshop Agenda

Good Day All,

I would like to add an agenda item, if we have time, to our November 14 Workshop.

It is:

Council Workshops - Purpose and Outcomes

- When we meet as a council at a workshop, is consensus expected?
- If we do seem to meet a consensus, why do council members disagree with the outcome at a later date?

Over the last several months, we seemed to have reached consensus on moving forward with decisions that were part of our workshop agenda, yet either at a regular council meeting, or outside of a council meeting, members seem to move in their own direction in spite of any decision reached at a workshop.

I want to make sure that positions and actions align with the council wishes as opposed to some personal agenda.
