# 2021 Anoka County Municipal Waste Abatement Grant Funding Application Applications are due September 30, 2020

The **City of Spring Lake Park** is requesting the following funding for their 2021 Anoka County municipal waste abatement program efforts.

#### **General Instructions**

- Please review and complete each section of this grant application carefully and in its entirety. How completely you fill out this form will affect our ability to process your request and the amount of funding that is awarded.
- If the County does not receive a completely filled out funding application from your municipality by the September 30, 2020, deadline, you will not receive funding. If there is nothing filled out in a section for how you plan to spend the funds, and you only list a dollar amount, that will be considered an incomplete section, and the application will be returned to the applicant.
- All funding is reimbursement funding. Reimbursements are processed twice per year. No funds are processed until proof of expenditures are submitted to the county semi-annually in July and January as specified in the municipal contract.
- The County reserves the right to reduce the funding provided in the event the municipality does not complete the additional grant projects referenced in this application. The County also reserves the ability to reallocate unused SCORE (Select Committee On Recycling and the Environment) and LRDG (Local Recycling Development Grant) funds mid-year if any participating municipality demonstrates the need for additional funds and if funding is available.
- Any calculations based on the number of households or population of each community are established by using the latest Met Council data available when the contract documents were prepared.

#### **Eligible Expenses**

The following items are examples of eligible expenses allowed for reimbursement.

<u>Collection Expenses</u>: If residents are charged recycling fees for curbside or recycling events, waste abatement funds will reimburse the difference between the fees collected and the cost of recycling or composting the materials.

<u>Equipment</u>: The cost to purchase, maintain and repair equipment that is used **exclusively** to operate the recycling or composting program.

Containers: The cost for recycling or organics containers.

<u>Promotion</u>: The entire cost of a publication if totally dedicated to waste reduction, recycling or composting information or a percentage of the cost for the portion of a municipal publication dedicated to waste management information.

<u>Staffing</u>: Salary and benefits to cover a portion of full-time or part-time recycling program staff who are **directly** working on the planning, implementation and promotion of waste reduction, recycling and composting programs can be covered with base funding.

#### **Ineligible Expenses**

The following general operating expenses should NOT be submitted for reimbursement.

<u>Standard Operational Expenses/Building Overhead</u>: Since most of the municipal recycling coordinators are part-time positions and staff serve multiple roles at the municipality, standard operating expenses including office space rental, leasing office equipment and general office supplies, are not eligible for reimbursement.

Project Expenses: Specific to transportation, energy or ground water protection.

<u>Collection Costs</u>: The costs for general waste and recycling collection at municipal buildings, trash costs when advertised as being accepted at a recycling/cleanup day, and costs associated with road side cleanup of illegally dumped materials should not be included in this application.

General Municipal Staff: Staff time related to standard municipal operations (city administrator, office administration, facilities management, finance and legal staff) are not eligible for reimbursement. If municipal staff do not assist the recycling coordinator directly on activities to help the municipality achieve its recycling goal, e.g. communications and collecting, processing or marketing recyclable materials and organics, their time will not be reimbursed.
