Hi SLP City Council,

Good evening. I wanted to reach out and let you know it appears the parking situation from the Northtown Apt residents on the University Service Rd is picking up again along with seeing litter due to the traffic. The same 3 work vans you see in the picture below are repeatedly there as of late along with a couple of the other cars. Is there anything that can be done to eliminate this? It had cleared up for a while but is gradually getting worse. Your help is much appreciated. Thank you kindly.

Kind Regards,
Amy

Hello SLP City Council,

Good evening. I hope you all had a nice Thanksgiving. I wanted to drop a quick note to say "thank you" for the improvements made to the University Service Rd. It has been free of cars blocking the road, litter has gone down and no dumping of large items that I've seen in the ditch. It feels overall cleaner and safer. Thank you kindly and I hope you all have a great Christmas and New Year's holidays.

Kind Regards,
Amy

Hello SLP City Council Members,

Good afternoon. My name is Amy Nikrad. I live at 325 Rosedale Rd (by Living Springs Church). I wanted to reach out about a concern I have regarding the University Service Rd by my home as I live kitty corner from this road.

The service road has become congested due to residents from the Northtown Apts parking on both sides of the street and at times, working on their cars where they park and including other misc. activity. At times, you almost can't get through, let alone an emergency vehicle access if needed.

Additionally, trash being littered on this road has increased to the point where I have recently seen a couch and old tire being dropped off in the ditch next to the road. There is no reason for this area to become a dumping ground for trash.

Lastly, I have also noticed a resident starting to park his car on my street and moving it each day so he's not towed. I may not know all of the facts, but I don't understand why the residents need to be parking their cars all over this area when there are lots for them to use. I have been living in my home for almost 20 years and have seen this progressively getting worse over the last 1-2 years.

I am sure you are likely aware of these issues happening, but I wanted to kindly reach out to see if anything could possibly be done to keep this area from becoming run down and eliminate the congestion. Could there be "no parking" signs being put up? I have enjoyed my time living in SLP and do not want to see our nice little city be run down by people who don't care in taking care of our city.

Thank you for your consideration.

Kind Regards,
Amy Nikrad
