11.40.010 Purpose

The purpose of this chapter is to prohibit massage businesses and services to the public except those licensed as therapeutic massage enterprises and massage therapists pursuant to this chapter. The licensing regulations prescribed herein are necessary in order to protect businesses that are operating legitimate enterprises, to prevent criminal activity and to protect the health and welfare of the community. The purpose of this chapter is not to impose restrictions or limitations on the freedom of protected speech or expression.

11.40.020 Findings

The City Council makes the following findings regarding the need to license therapeutic massage enterprises and therapists and to prohibit all other types of massage businesses and services to the public.

1. Persons who have bona fide and standardized training in therapeutic massage, health, and hygiene can provide a legitimate and necessary service to the general public.
2. Health and sanitation regulations governing therapeutic massage enterprises and therapists can minimize the risk of the spread of communicable diseases and can promote overall health and sanitation.
3. License qualifications on therapeutic massage enterprises and therapists can minimize the risk that such businesses and persons will facilitate prostitution and other criminal activity in the community.
4. Massage services provided by persons with no specialized and standardized training in massage can endanger citizens by facilitating the spread of communicable diseases, by exposing citizens to unhealthy and unsanitary conditions, and by increasing the risk of personal injury.
5. Massage businesses which employ persons with no specialized and standardized training can tax city law enforcement services because such businesses are more likely to be operated as fronts for prostitution and other criminal activity than operations established by persons with standardized training.
6. The training of professional massage therapists at accredited institutions is an important means of ensuring the fullest measure of protecting the public health, safety, and welfare.
7. Massage services conducted within hotel or motel guest rooms present heightened risks of unlawful activity, including prostitution and human trafficking, due to the temporary nature of occupancy, reduced public visibility, and limited access for regulatory inspection and law enforcement oversight. Regulating the locations where massage services may be performed is necessary to protect the public health, safety, and welfare.
