

Protecting, Maintaining and Improving the Health of All Minnesotans

November 17, 2020

Spring Lake Park City Council
c/o Mr. Dan Buchholtz, Administrator
Spring Lake Park City Hall
1301 81st Avenue NE
Spring Lake Park, Minnesota 55432

Dear Council Members:

SUBJECT: Sanitary Survey Report for Spring Lake Park Public Water System (PWS), Anoka County, PWSID 1020029

Enclosed is a copy of the sanitary survey report summarizing an on-site inspection of your Community Public Water System. This report includes a review of the system's water source, facilities, equipment, operation, maintenance, and monitoring compliance for the purpose of evaluating the adequacy of the facilities for producing and distributing safe drinking water. Technical and management information regarding the operation of the system may also be provided. Conducting sanitary surveys on a regular basis is an important element in preventing contamination of drinking water supplies and in maintaining compliance with the National Primary Drinking Water Standards. Ken Prokott was present during this inspection.

Please take appropriate action to address any deficiencies or recommendations identified within this report. A deficiency may lead to a contamination of the water supply or failure of the system to be in compliance with the Safe Drinking Water Act. The enclosed report must be kept on file and made available for public review for not less than ten (10) years.

The Minnesota Department of Health (MDH) continues to monitor your PWS for contaminants identified by state and federal drinking water regulations. The results of such monitoring are not part of this report. They are sent to you under separate cover as they become available.

If you have questions concerning the information contained in the report, please contact me at 651/201-4683.

Sincerely,

Brian A. Noma, P.E.
Public Health Engineer
