DESCRIPTION OF PROPOSED WORK: including a start date and completion date:

INSTALL 6 ANODES ON STEEL MAIN. 6 - 10" DRILL HOLES USING VAC TRUCK

START DATE: 03/15/2024

COMPLETION DATE: 12/31/2024

The City of Spring Lake Park reserves the right to modify the schedule as necessary in the issuance of the permit. Therefore, the dates stated on this application may not necessarily match actual approved dates.

EXPLANATION OF RESTORATION:

The site of each 10"-diameter drill hole is to be restored by our contractor, NPL, to each site's previous or better condition. This typically happens right after the hole is refilled, so from beginning of excavation to completion of restoration (if all goes as things should) typically takes 1.5 - 2 hours per hole.
