

FOR FUTURE WORKSHOP

KEEP IT CLEAN.

1. Volunteer to clean up SLP twice a year. Could be tied to the Substance volunteer clean up in July and Earth Day in 2024.
2. Send out appropriate letters to businesses in SLP to clean up their property.
3. Signs for areas in SLP where there always is a buildup of trash. Two of these are the corner of Filmore and the service drive, and west of Legends where people sit in their vehicles while waiting to be drug tested.
4. Give authority to our police to give out citations for littering.
5. Have SLP swept a third time during the season and find out if it could be paid for with a grant from Coon Creek, Rice Creek, or Bowser in our attempt to keep storm water as clean as possible to enter into the lakes and rivers.
