**ANNEXATION & REZONE:**

The applicant is requesting approval of an annexation and zoning (R-7), with a rezone application of Residential (R-4 to R-7) on 3.39 acres. This zoning district would allow for a maximum residential density of 10 dwelling unit per acre. The Comprehensive Plan Future Land Use Map indicates that these properties are within the Compact Residential designation. The property is located in an area that will be serviceable with central sewer and water provided by Star Sewer and Water District. The property will be accessed by a public road and all roads in the development will be public. The rezone request includes a development agreement that will address future density and development standards.

**PRELIMINARY PLAT:**

The Preliminary Plat submitted contains 26 single family residential lots and 3 common area lots on 3.39 acres with a proposed density of 7.67 dwelling units per acre. The lots will have access and frontage from public streets. Lots will range in size from 3,434 square feet to 6,687 square feet with the average buildable lot being 3,979 square feet. The submitted preliminary plat is showing a local road with a 50-foot wide right of way with paved streets measuring 36 feet from back of curb to back of curb. Primary access for the development will be from N. Center Street. Sidewalks are proposed to be attached with a 5-foot, concrete sidewalk. Street names must be obtained by the Ada County Street Naming Committee prior to signature of the final plat. The applicant is proposing 0.51 acres (15%) of usable open space which satisfies the Unified Development Code.

The Unified Development Code, Section 8-4E-2 requires a development of this size to have a minimum of 1 site amenity. The applicant is proposing a walking path with connections to the north and south, enhancing community connectivity.

K. *Comprehensive Plan and Unified Development Code Provisions:*

Comprehensive Plan:

8.2.3 Land Use Map Designations:

Compact Residential

Suitable primarily for residential use allowing a mix of housing types such as single family, two family, and multifamily. Densities range from 5.01 units per acre to 10 units per acre.

8.3 Goal:

Encourage the development of a diverse community that provides a mix of land uses, housing types, and a variety of employment options, social and recreational opportunities, and where possible, an assortment of amenities within walking distance of residential development.

8.4 Objectives:

- Implement the Land Use Map and associated policies as the official guide for development.
- Manage urban sprawl in order to minimize costs of urban services and to protect rural areas.
- Encourage land uses that are in harmony with existing resources, scenic areas, natural wildlife areas, and surrounding land uses.

8.5.3 Policies Related Mostly to the Urban Residential Planning Areas:

A. The Neighborhood Residential Land Use is to encourage urban style development densities to limit urban sprawl.

B. Low densities within the Neighborhood Residential Land Use are to be designed within the floodplain, ridgeline developable areas, hillside developable areas and where new residential lots are proposed adjacent to existing residential lots of one acre and larger where those existing larger lots are not likely to be subdivide in the future.

8.5.9 Additional Land Use Component Policies:

- Encourage flexibility in site design and innovative land uses.
- Work with Ada County Highway District (ACHD), Canyon Highway District #4 (CHD4), and Idaho Department of Transportation (ITD) for better coordination of roadway and access needs.

- Support well-planned, pedestrian-friendly developments.
- Dark sky provision should be adopted within the code to assure down style lighting in all developments and Star should consider joining the International Dark Sky Association.

#### 18.4 Implementation Policies:

- F. Development Agreements allow the city to enter into a contract with a developer upon rezoning. The Development Agreement may provide the city and the developer with certain assurances regarding the proposed development upon rezoning.

#### Unified Development Code:

#### **8-1B-1: ANNEXATION AND ZONING; REZONE:**

##### B. Standards:

A development agreement and concept plan shall be required for any rezone to a mixed-use zone, high density zone or land which includes steep slope (land over 25%) or floodway.
3. The termination of a development agreement shall result in the reversal of the official zoning map amendment approval and applicable development approval for any undeveloped portion of property subject to the development agreement. The undeveloped property subject to the development agreement shall be rezoned to the district classification as designated by the development agreement. When no designation is provided, the property shall revert to its original zoning or, if the original designation no longer exists, to the closest current equivalent zoning as determined by the current Comprehensive Plan Land Use Map designation.
4. An amendment or termination of a previously recorded development agreement shall be recorded in the office of the county recorder by the clerk.
5. An approved development agreement must be executed within ninety (90) days of the meeting at which the development agreement is approved by the city council. A one-time administrative extension of maximum thirty (30) days may be granted by the zoning administrator. Additional extensions may be approved by majority vote of the city council. Failure to execute the development agreement within the required timeframe will result in the

denial of all related applications.
