TRANSCRIPT OF RECORDED COUNCIL MEETING TUESDAY, MAY 9, 2023

COUNCILMEMBERS PRESENT:

TREVOR A. CHADWICK, MAYOR
DAVID HERSHEY, COUNCIL PRESIDENT

KEVIN NIELSEN, COUNCILMAN

JENNIFER SALMONSEN, COUNCILWOMAN

KEVAN WHEELOCK, COUNCILMAN

TRANSCRIBED BY:

JEFF LaMAR, C.S.R. No. 640

Notary Public

(Beginning of video file.) 1 2 MAYOR CHADWICK: I'm going to call the Star City It's Tuesday, May 9th, 2023 Council meeting to order. 3 at 7:02 p.m. We're at a City Council special meeting 4 at the LifeSpring Church at 174 North Star Road. 5 I'm going to ask you all to please join me 6 7 in the pledge of the allegiance. 8 I pledge allegiance... 9 That is beautiful sound there with 10 everybody doing that. 11 Tonight we're going to have our invocation 12 by LifeSpring Church here. Please join us in the 13 invocation. 14 PASTOR TIM NAY: Would you please pray with me. 15 Father, we come to you this evening and we 16 pray first and foremost for grace. We pray for your 17 grace upon us, and we thank you for your loving kindness. We pray, God, for this country and for this 18 19 city. We pray for our Mayor and the City Councilmembers and for each person here in this town, 20 God, that you can give us wisdom and clarity and 21 22 direction in all that we do. And we leave this in your 23 hands. In Jesus' name. Amen. 24 ALL: Amen. 25 MAYOR CHADWICK: Thank you.

No, you got to speak in your 1 Roll call. 2 microphone. Wait. Hang on. They got to turn it on. We need Jacob's -- there we go. Go ahead. 3 THE CLERK: David Hershey. 4 COUNCILMAN HERSHEY: 5 Present. THE CLERK: Kevan Wheelock. 6 COUNCILMAN WHEELOCK: 7 Here. THE CLERK: Trevor Chadwick. 8 9 MAYOR CHADWICK: Here. 10 THE CLERK: Jennifer Salmonsen. 11 COUNCILWOMAN SALMONSEN: Here. 12 THE CLERK: Kevin Nielsen. 13 COUNCILMAN NIELSEN: Present. 14 MAYOR CHADWICK: Okay. Thank you. We're all 15 present and accounted for. 16 We're going to move on to item 4, the 17 consent agenda. Mayor Chadwick. 18 COUNCILMAN NIELSEN: 19 MAYOR CHADWICK: Do we have a motion? 20 Mayor Chadwick. COUNCILMAN NIELSEN: MAYOR CHADWICK: Councilman Nielsen. 21 22 COUNCILMAN NIELSEN: I move that we approve the 23 consent agenda consisting of items 4A, final plat Moon 24 Valley Subdivision, Phase 7, and 4B, final plat River Park Subdivision, Phase 1. 25

1	MAYOR CHADWICK: We have a motion.
2	Do we have a second.
3	COUNCILWOMAN SALMONSEN: Second.
4	MAYOR CHADWICK: We have a motion and a second
5	by Councilwoman Salmonsen.
6	Any further discussion?
7	Hearing none, roll call.
8	THE CLERK: Hershey.
9	COUNCILMAN HERSHEY: Aye.
10	THE CLERK: Wheelock.
11	COUNCILMAN WHEELOCK: Aye.
12	MAYOR CHADWICK: Salmonsen.
13	COUNCILWOMAN SALMONSEN: Aye.
14	THE CLERK: Nielsen.
15	COUNCILMAN NIELSEN: Aye.
16	MAYOR CHADWICK: Okay. That motion carries.
17	We're going to move on to item 5, which is
18	the public hearing tonight that we're all here for.
19	Just one public hearing. I think this is the largest
20	audience ever for a public hearing.
21	Yeah, hey. Public's out here. Folks, you
22	know what? Having folks here is part of the process.
23	And I've always been a fan of people being part of the
24	process.
25	So just to let you guys know the ground

rules of this process. You guys must sign up to speak if you wish to speak. Even if you don't want to speak and you just want your voice heard, you could sign up and check "No."

I'm going to open the public hearing. I will ask the Council if there's any ex parte contact or communication regarding the project. Our planning staff's going to present the application to the Council. And the applicant will then have 25 minutes to present their project. Council will ask the applicant and staff questions during that time frame.

And then we'll have public testimony, which is three minutes per person. We do have, I believe behind me, a clock up here behind me that will testify with -- I'm sorry, that will have your timing on there. And we're going to have those for the project speak first, those against it, and then those who are neutral to speak next.

The Council can ask the individuals speaking follow-up questions, which doesn't count towards your three minutes, if they choose. We are going to have a stop tonight at 11:30. It's very possible we're not going to get to everybody's comments tonight, meaning that on June 20th we're going to reconvene the meeting here and continue the public

1 hearing at that point.

If by chance we get through the public hearing, all the testimony, we're still not going to make a decision tonight. The decision's going to be made on June 20th. Okay? Just so everybody's fully aware of that.

We are going to take some breaks throughout the night too. We got a lot of folks here. I want to make sure that we get the facilities used so everybody who's here can hear and listen to what's going on.

Let's see here. The one thing, guys, is we're not -- only the person at the podium has the right to speak. No one else can -- cheering, jeering, doing all that stuff, holding up signs, creating distraction, you'll be asked to leave. And we have some deputies here that will ask you to leave from that. It's supposed to be a civil process; right? And civility is a big thing, and we're losing that in our country. And I refuse to lose that in my town here. Okay? So let's please be civil, because everybody's going to have an opportunity to be heard, regardless if you're for it or against it. All right?

Oh, and then at the end of the public testimony, the applicant will have a rebuttal time of 15 minutes. The Council can ask the applicant and

1 staff questions. I will then close that public 2 hearing, and the Council will deliberate. And they're either going to make a motion to approve, approve with 3 4 conditions, deny, or table the application to a date 5 certain in the future. At the end of tonight at 11:30, we are 6 7 going to make a motion to continue the hearing to 8 June 20th. Okay? So you won't see any of those other 9 motions at that point. Okay? 10 So with that said, it is 7:08, and I'm 11 going to open the public hearing and ask the Council if 12 they have any ex parte contact or communication 13 regarding this project? 14 COUNCILMAN HERSHEY: None. 15 COUNCILMAN WHEELOCK: No. 16 COUNCILMAN NIELSEN: None. 17 MAYOR CHADWICK: Okay. Very good. And one real quick thing. 18 19 COUNCILWOMAN SALMONSEN: Excuse me. 20 MAYOR CHADWICK: I'm going to read several names on the list. 21 22 COUNCILWOMAN SALMONSEN: Sorry. 23 MAYOR CHADWICK: And we have -- I'm sorry. 24 Councilwoman Salmonsen. COUNCILWOMAN SALMONSEN: I don't know. 25 I was a

1 little slow there. 2 I would like to say I have read some things on Facebook and I have seen an article in the 3 4 newspaper, so I just want to disclose that. otherwise, I don't think, you know, that it's going to 5 affect my decision-making tonight. 6 MAYOR CHADWICK: And Chris is agreeing. 7 8 shaking his head yes. 9 Okay. Very good. Anything else from 10 anybody else before we move on? 11 Okay. Let's see. We will have -- you 12 have -- oh, okay. The bullpen. The seats that are up 13 here, I'm going to call names ahead of time so we get 14 people up here seated that are going to be speaking next. All right? So we can roll through the process 15 16 and try to get everybody heard as quickly as we can. 17 All right. With that said, Shawn, I'm going to have you -- oh, you're going to do it right 18 19 Okay. Very good. there? 20 SHAWN NICKEL: Test the audio. 21 MAYOR CHADWICK: You what? 22 SHAWN NICKEL: You can test the audio. 23 MAYOR CHADWICK: Test it out for us. 24 And, guys, real quick, we just need to thank LifeSpring Church for allowing us to utilize this 25

1 facility tonight, you know, so thank them very much. 2 All right. Go ahead, Shawn. The floor is 3 yours. SHAWN NICKEL: Thank you, Mr. Mayor and Council. 4 For the record, Shawn Nickel planning 5 director, City of Star. 6 Staff has before you this evening an 7 8 application for annexation and zoning with a 9 Development Agreement with a requested R-2 zoning 10 The requested density of 1.5 dwelling designation. 11 units per acre, which equates to a maximum of 1,094 12 dwelling units. 13 The Development Agreement is before you to 14 establish conditions of approval within the 15 development. The Development Agreement is also being 16 used in lieu of a conditional-use permit for approval 17 of Phase 1 of the development for the golf course 18 facility. 19 The Unified Development Code allows Development Agreements to be used in lieu of to approve 20 21 two or more conditional uses. The applicant is 22 requesting approval of the golf course facility and the 23 municipal or civic uses for the approval of the future 24 sewer treatment facility. 25 MAYOR CHADWICK: Is it moving?

There we go. 1 SHAWN NICKEL: Sorry. 2 MAYOR CHADWICK: Okay. I told you I was a guinea pig. 3 SHAWN NICKEL: Regarding the application submittal 4 process, the application submittal process meets the 5 Unified Development Code requirements, including 6 submittal of the application. The original submittal 7 8 and acceptance date of this application was July 15th, 9 2021. Revised information was submitted on June 23rd, 10 2022. Excuse me. This includes removal of the Canyon 11 County side of the development and removal of the 12 original planned unit development. 13 All submittal requirements have been 14 completed, including pre-application meetings, 15 neighborhood meetings, and a completed, signed 16 application packet. 17 The application review process: Agencies were transmitted the application for review and 18 19 This includes ACHD, ITD, Canyon Highway comment. District No. 4, West Valley -- or excuse me, West Ada 20 21 School District, Star Fire District, Star Sewer and 22 Water District, among other agencies. 23 The agencies provided comments provided in 24 the Council packet. Staff provided the Council with a summary transportation analysis of all transportation 25

agencies and the Star Transportation and Pathway Committee.

The applicable Comprehensive Plan and land-use map and applicable Unified Development Code for this application is the 2020 version, which was then placed at the time of submittal and acceptance of the application. Idaho case law establishes review criteria as of the time of submittal of the application.

Some of the development features highlighted in the submitted conceptual plan include a density of 1.5 dwelling units per acre. This is less than the maximum allowed three dwelling units per acre per the applicable Comprehensive Plan land-use map from 2020.

Open space and amenity review: The entire development requires 109 acres, or 15 percent of total open space, with 73 acres of that being usable open space, and 10 percent. The application provides 130-and-a-half acres or 18 percent qualified total space, including 73 acres of qualified usable, or 13.7 percent. This open space does not include the 176-acre golf course in the calculations.

The applicant will need to provide 15 qualified amenities in the development per the Unified

Development Code.

And the concept plan that was submitted by the applicant. Whoops. And the development data submitted, which includes the breakdown of the acreage, open space, residential areas.

Regarding community review, staff created a separate website on the City website devoted to Willowbrook information, including application materials, agency reviews, public input letters, and workshop videos. All public input letters received were included in the Council packets. All late exhibits after the packets were sent out have been provided to the Council, including the submitted petition and late public input letters. And you have those in front of you this evening.

Staff recommendations: Staff recommends that if approved Council prepare conditions of approval to include the Development Agreement for the application. Staff recommends Council adopt specific conditions of approval from reviewing entities, including, but not limited to, ACHD, ITD, Canyon Highway District 4, and the Star Transportation and Pathways Committee, including future traffic-impact study updates.

Staff recommends Council consider staff

recommended conditions included in the staff report and Council packet, including future applications for planned-unit development, preliminary plats, and certificates of zoning compliance and design review applications for all commercial uses, including review of open space and amenities, pathways, streets, and subdivision standards.

Staff is recommending a minimum of one-half acre transitional lots adjacent to all existing 1 acre residential lots within the development.

Again, the Development Agreement will be drafted by staff if approved by the Council with the conditions that come about as a part of these proceedings.

Regarding Council findings of fact and conclusions of law for approval, Council should direct staff to provide findings of fact, conclusions of law upon a Council decision on this application. If approved -- if approval is granted, provide conditions of approval in the Development Agreement for acceptance by the City and applicant for future recordation.

The Development Agreement should condition the following at a minimum: Staff recommended conditions of approval, adoption of the traffic agency conditions of approval, and any Council-adopted

1 conditions of approval. 2 Finally, staff submits -- submits that all procedures, application processes, and applicable codes 3 4 and plans have been followed in the presentation of this application before the City Council tonight. 5 staff report and Council packet has been provided to 6 the Mayor and the Councilmembers, the applicant, and 7 8 the public. 9 Thank you. 10 MAYOR CHADWICK: Okay. Thank you. 11 At this time we're going to call the 12 applicant up. I'm sorry. Hang on one sec here. 13 Can you turn on Councilman Nielsen's mic. 14 COUNCILMAN NIELSEN: Test. Thank you. 15 Mayor Chadwick. MAYOR CHADWICK: Councilman Nielsen. 16 17 COUNCILMAN NIELSEN: Thank you. If we go back a few -- few pages, 18 19 Willowbrook Development staff recommendations where you started talking about the Council should prepare a 20 21 conditions of approval. There's one item in there -- and I know 22 23 we're not at that point yet, but before we set an 24 expectation I want to set -- get -- make sure that there's clarity and understanding. One of the 25

recommended things that staff said we should adopt is including future traffic-impact study updates.

Typically the future is unknown by design; right? And so I just want to get clarity on what potential future things could we put into an adoption today? And can we -- first of all, I'm not sure we can do something based on a future unknown. But what did you have in mind there.

SHAWN NICKEL: I -- Mr. Mayor and Council, I think if you adopt the conditions of approval from the traffic agencies, they have that built in, that they will require traffic study updates with every phase of the development.

COUNCILMAN NIELSEN: Got it.

SHAWN NICKEL: Yeah.

COUNCILMAN NIELSEN: Thank you.

MAYOR CHADWICK: Okay. Any further questions for Shawn?

Okay. Thank you, Shawn.

Hearing none, we will have the applicant come up and present the project. And do they have to pull the project up there? Oh, is it already up? I can't see behind my head so -- can we turn on these TVs in the back right here so we can watch where we're at, by chance?

Some of these folks back up here on the front might be able to see that as well. Need a bigger TV in the back. Okay. Hang on one second here.

Shawn, do you got the timer here? So go ahead and get started there, sir. State your name and address for the record, please.

NATE MITCHELL: Nate Mitchell, Willowbrook Development, 1470 North Rook Way, Star, Idaho.

Councilmembers, Mayor, staff, we appreciate the time tonight.

I'm going to be brief. In front of you we've got a slide of the development team that we've put together. We've got myself, Mr. Phillips,
Mr. McKozian [phonetic], Mr. Kinkela, and Deb Nelson and Danielle here tonight from Givens Pursley.

Danielle -- sorry. Deb Nelson's going to do the majority of the presentation tonight. I just wanted to take a second of our time and thank you guys for your patience. We've had about a five or six-year ongoing conversation about this project. It's changed several times. We've tried to be reactive to what we've heard from our neighbors. We've tried to narrow the scope of this development down to something that fits the comfort level of everybody involved.

I can't say enough about your staff and how

patient they've been and how helpful they've been for us and for the public keeping track of this information. We appreciate everything that Shawn and his team has done, and we look forward to a great conversation tonight.

And I'll turn it over to Deb Nelson with Givens Pursley.

DEBORAH NELSON: Good evening, Mayor, Members of the Council, Deborah Nelson, 601 West Bannock Street in Boise, here on behalf of the applicant team.

The application that's here before you as Shawn has described is for the annexation of 726 acres into the City of Star with R-2 zoning and a Development Agreement. The Development Agreement, if approved by the City, does include approval of two conditional uses in the R-2 zone, that includes a golf course and the municipal infrastructure uses. This will include a lift station for the Star Sewer and Water District.

The DA also contemplates a conceptual Master Plan and will include conditions of approval that limit the scope of development.

I want to start briefly with an overview of the entire planned development as illustrated by the conceptual Master Plan, even though some later phases will require additional approvals. The Willowbrook golf community is a mixed-use residential and commercial community nestled in the Star foothills surrounding a proposed 18-hole championship golf course that will be open to the public. The golf course was designed by Tom Weiskopf and Phil Smith, who have designed some of the most beautiful courses in the world. This will be an exceptional gem for the City and the community and creates a prestige recreation destination for the area's golf community.

The areas that are shown in orange centrally include the clubhouse, plus along the western edge there on Can-Ada, some neighborhood commercial uses for a total of 110,000 square foot of commercial proposed.

The red area that's along Can-Ada on the west side there includes approximately 2 acres for municipal uses, including the lift station use, as well as space for donation of land for fire, where also emergency services and police may be co-located.

Once built out, the development would include 1,094 single-family detached residences, for a density of 1.5 homes per acre, below the allowed density in the R-2 zone that we're requesting.

In addition to the large amenity of the

golf course, Willowbrook will preserve 99 acres of usable natural areas and open space with access to BLM lands to the north.

This is an overhead view of the property, which, as you can see, is embedded within the Hillsdale Subdivision, providing an infill opportunity with existing residential nearly surrounding the site, rather than sprawling into open, rural lands.

In the middle of the development you can see on this image was a gravel pit that was approved by the County for Hillsdale roads. This development will now be improving into residences and golf course space.

The Master Plan for this application has evolved based on the feedback that we've received over the lengthy time period that this has been in discussion. Canyon County areas have now been removed, taking out over 1500 acres, and 1600 homes that were in the Ada County portion have been reduced down to 1,094. We've also eliminated the townhomes. So there's only single-family detached. And as noted the zoning is R-2 now, rather than R-3.

You may also recall that the City originally approved Willowbrook with R-2 zoning back in 2018 without the golf course.

Sorry, I'm having a hard time getting this

to click.

Residential development cannot proceed until there's a preliminary plat approval and any accompanying planned-unit development. The plat must comply with conditions that are in the Development Agreement, such as a maximum density of 1.5.

Additional future uses, including neighborhood commercial outside of the golf course also cannot proceed until the preliminary plat and planned-unit development are approved. A Development Agreement modification will be required at that time to incorporate any new conditions or plan updates.

The plan -- the preliminary plat -- looks like it skipped twice -- and planned-unit development and DA modification will require a public hearing with notice to all the neighbors and an updated traffic-impact study that will have to be approved by the transportation agencies.

Focusing in on the golf course. This golf course merits particular attention in this application because it will be truly a world-class amenity for the City of Star, providing a quality commercial business, natural resource-based recreation asset, an economic development tool, and water savings device all in one.

The design was finished by professional

golfer turned golf course designer Tom Weiskopf prior to his death. Tom was the designer of some of the best golf courses in the world, including many that are on the PGA Tour. So it is truly a privilege for the City of Star to have one of his designs. Phil Smith, working with him, and remains -- remains part of this team and will see this vision to completion.

The design includes a practice fairway 350 yards long, winter practice facilities that are built into the course hillside. The course will also incorporate many sustainable features, including most significantly the use of recycled water from Star Sewer and Water District's wastewater treatment plant for irrigation of the course.

Recycled water will put the class A treated water that would otherwise go into the Boise River back into use and ultimately into the aquifer, reducing demand for irrigation water that would be needed to irrigate the course, thereby benefiting all well users in the area.

Other sustainability measures at the course include low-water turf grass, appropriate for the high desert climate, efficient gravity drainage, water harvesting measures to reduce energy and combat water evaporation, and efficient irrigation heads. The

world-class amenity will be an economic benefit to Star.

Golf is a significant economic driver, creating \$191.9 billion in total economic impact across the country and generating \$25.7 billion in secondary spending from visiting golfers, according to studies from the PGA Tour.

While many industries shrank during COVID, national and global interest in golf grew. And the golf industry is seeing that growth continue as golfers continue to engage with a hobby they may have picked up just a few years ago.

Golfers patronize other Star businesses, adding revenue at the course and in surrounding community. A golf course also offers numerous community benefits, including youth development and a lifetime sport and special events opportunities.

Let me go back here.

I'm going to click through some of the images so you can see what this truly special amenity can provide. In addition to the golf course, as you mentioned, there will be 99 acres of natural hiking trails in the foothills. The development will exceed the 15 percent open space requirement and 10 percent usable open space, without including the golf course in

those calculations.

The project will also provide the minimum 15 amenities that will be required for a development of this size. The pocket parks and other amenities, clubhouses will all be identified through the preliminary plat and planned-unit development process as is appropriate.

As requested by the Parks Committee,
Willowbrook will be providing north-south and east-west
pathway connections through the site, and will provide
connection to BLM with a public parking area that can
serve equestrian users from around the city.

Star City Code allows for transitions and calls for transitions between abutting residential lots. These transitions may be accomplished by matching setbacks, a buffer strip, or providing one-half to 1 acre size lots adjacent to rural residential lots.

Staff has proposed half-acre lots for perimeter lots adjacent to the existing residential. Willowbrook is agreeable to staff's proposal. But in the southwest portion of the site, we do request to add a landscape buffer as the transition consistent with code. You can see that highlighted there in the box in the lower left.

This area is very central to the golf course core, near neighborhood commercial and the main entrance at Can-Ada, making this a great place for walkability.

Also, these particular lots border larger lots in the Monument Ridge Development where homes are set back approximately 40, 50, and 70 feet.

The intent with the development design is to concentrate smaller lots central to the development along the golf course. This helps contribute to housing diversity and supply in the city of Star, while also preserving some of the larger areas for the usable golf course and the natural open-space trails for public recreation.

The R-2 zoning with a 1.5 units per acre density cap is an appropriate transition from City adjacent and nearby zoning. R-2 zoning is consistent with recent developments approved in the City of Star, including Oliver Estates at R-3 with a PUD at 2.34 dwelling units, the final plat for River Park Estates subdivision zoned R-2 at two dwelling units, and Medici Hills at R-2 with 1.52 dwelling units.

Nearby subdivisions are also at densities over two units per acre, including Cresta Del Sol, Kendall Estates, Trident Ridge, and Collina Vista.

Willowbrook is aligned with the goals of the Star Comprehensive Plan, as well as the plan's implementation policies. This mixed-use community will help fulfill Star's goals to enhance and develop the economy with a world-class golf course that has secondary economic benefits for other Star businesses, as well as providing walkable, commercial uses.

The golf course will diversify the economy and the protection of visual open space at the golf course and the additional natural open-space areas within the development will enhance the city's natural resources, providing a climate where businesses can thrive, consistent with your plan's goals.

The Willowbrook concept plan facilitates a walkable community with commercial space concentrated near residential and surrounding a large community amenity available for public use and enjoyment.

Consistent with your plan, Willowbrook's residences will be proposed in a variety of size, targeting different kinds of folks with patio homes near the golf course, likely for empty nesters, all the way up to traditional, single-family detached homes at the periphery.

The golf course's use of treated wastewater for irrigation will support groundwater conservation,

which is directly aligned with the plan's goals and will benefit Star residents.

There's been a great deal of public engagement, including multiple public meetings, work sessions with the Council to discuss opportunities to address the project and area growth concerns with local highway districts, the school, other service providers.

Information about Willowbrook has also been on the City's website, and the Willowbrook team has conducted multiple neighborhood meetings. Some of the main concerns from those meetings are in regard to traffic, sewer and water, comments that we will address in further detail.

Beginning with traffic, a traffic study was conducted for the development in the fall of 2022. With the elimination of the Canyon County property, the study scope included an 18-hole golf course with clubhouse uses, and at that time also considered 330 residential units in Phase 1 with townhomes with a 2030 build-out, but also studied the full project through the build-out of 2045.

That Phase 1 scope has narrowed as we're not asking for the 330 residential uses at this time.

In fact, Phase 1, as I've described and is explained in the application materials, will only include the golf

course and initial public infrastructure uses.

The TIS also did evaluate the golf course only use, as requested by transportation agencies. The number of trips generated for the golf course is 526 daily trips. At that threshold it would not trigger a traffic study in and of itself. And of course, the TIS did evaluate the full build-out.

For context, Willowbrook is part of a growing Star community, as you and everyone in this room well knows. Even without the addition of this development, there will be a need for more road capacity in the coming years, as evidenced by COMPASS modeling, the TIS, the Star Comprehensive Plan, all of which have identified a number of improvements.

Many road improvements are actually planned and funded already in ACHD's and Canyon County Highway District's capital improvement plans.

Willowbrook will be working with the transportation agencies to build new road connections and improvements to alleviate congestion. Project plans to construct Aerie Way between Deep Canyon Drive and Highway 16 to provide alternate highway access to Deep Canyon.

I think I skipped a slide. No. Okay. Let me -- I want to show you a map when I go through that.

So let me skip to comments that we received from the transportation agencies.

These are some general comments that are summarized here. All of them want us to do the updated traffic studies, as was noted. ACHD commented that it's important to keep local roads under their planning thresholds, which is 2,000 average daily trips. ITD has improvements that they want to see when Aerie Way is connected up to Highway 16 that I'll show you on a map.

And once that is -- Aerie Way is constructed, they have improvements that they want to see around that interchange that's within ITD's jurisdiction. They want us to coordinate with Spring Valley at that intersection since they also have requirements there.

Canyon County comments were focused on Can-Ada and Purple Sage Roads, and also proportional funding to these intersection improvements. All of this has been incorporated into Shawn's memo where he summarized the conditions and incorporated those into conditions of approval. So those have all been added to conditions, proposed conditions for you to approve the Development Agreement. And we're in support of that.

Here we go. Now we could see the map here.

So we'll be working with transportation agencies on
these road extensions and improvements in particular.

You can see that future Aerie Way at the top connecting
up to the Highway 16.

We will -- we have already begun

we will -- we have already begun discussions with BLM. We will need to get permission from BLM in the form of a right-of-way, which is a lengthy process, that we've begun that process with them with an informal meeting. We'll file a formal application once we have approval from the City.

The project also plans to extend Wing Road up to Lanktree Gulch to serve the project with another north-south connection into the development.

And other mitigations identified in the TIS that are significant include improvements to Can-Ada Road, improvements to intersections along Can-Ada and along Beacon Light and Floating Feather.

There's a lengthy list. These are contributed by existing conditions, background conditions, and the project. And as you know, the TIS breaks out each one of those, and everybody has a share of that. Each of those items will be evaluated in these future traffic impact studies as we come forward with preliminary plat so that no residential can go

1 forward until those specific mitigations by phase have been identified.

Turning to sewer. The Star Sewer and Water District will be the water and sewer agency serving the development. Willowbrook will be constructing and dedicating a new lift station and pressure sewer line to allow treated sewer water from the City to be used for land application.

Willowbrook will be extending the sewer system up to the project and through the project and will stub to adjacent properties so that they can connect in the future if they so desire.

A large amount of treated wastewater will be pumped back up to the golf course, as I mentioned, for land application, as well as irrigation of common areas.

If that wastewater were not land-applied in Willowbrook, it would need to be cooled to an appropriate temperature and discharged to the river. That cooling process takes a great deal of energy. water does not wind up in the aquifer where it came from.

Here instead, because the treated wastewater will be used at Willowbrook, it does wind up in the aquifer. So not only will this wastewater

recycling program save Star significant money in energy cost it would otherwise take to cool it, the water is put to use and placed back into the area's aquifer, rather than being discharged in the river and going downstream.

For water, Star Sewer and Water will be serving the development. As noted in the Star Sewer and Water District comment letter, Willowbrook will be transferring 5 cfs of Willowbrook's water rights to the District as part affidavit of an annexation agreement. This will only add to the surplus of water that the District already has.

Additionally, it's important to note that water availability for domestic or temporary irrigation use, pending the kickoff of the recycling program, is not a concern, as evidenced by the District's comments and also the discussion at the work session. And that information, that transcript, is in the record that Star Sewer and Water District has more than enough water to serve the development.

The improvements that are being provided by the development will help further Star Sewer and Water District's plans, will also be upsized in various locations to serve the broader community. The developer will be paying for a water tank storage

facility to store 500,000 gallons of water, will be providing new wells to Star Sewer and Water District, a 12-inch mainline, booster station, and pressure station.

As we've discussed already, Willowbrook will be constructing or contributing funds towards significant road improvements, will also be providing sewer and water improvements that are upsized to serve more than the project.

Willowbrook will be extending fiberoptic

Internet connection to the area with stubs available to
adjacent residential developments.

Additionally, this development will include public dedications to Star Fire for a future fire station site, with co-location space for police and EMS. We'll have dedications to Star Sewer and Water for the lift station and water tank, and to West Ada School District for an elementary school site, if that's required by the District.

The development will also be paying impact fees and additional mitigation fees to address general jurisdictional increases in cost to pay for public services like police, fire, emergency services, et cetera. You see those here. This was described in the staff report.

These fees are significant. This excerpt taken from the staff report, which is required as part of your code for all developments, if you magnify that by the number of residential lots, we're already at 10.5 million, add in some commercial fees, we're at 10.6 million.

This includes impact fees and mitigation fees. So this is not limited to capital improvements only with the mitigation fees. It helps with the service.

Willowbrook meets the annexation approval required under Star City Code. The amendment will comply with provisions of your plan, as we've already walked through. It complies with the regulations and the R-2 zone, meeting all the open-space requirements, providing allowed uses.

Residential uses are not materially detrimental to public health, safety, and welfare, neither are -- is a golf course or municipal services. This does not result in an adverse impact on the delivery of services. The development will mitigate impacts with direct improvements, land donations, and payment of impact and mitigation fees, and proportionate share contributions.

The annexation is in the best interest of

1 the City and will help align housing, economic, and 2 walkability goals. We also meet the criteria for CUP. 3 4 Development Agreement can be used in lieu of a conditional-use permit. The site is large enough for 5 The uses comply with the Comprehensive Plan. the use. 6 As described, they do not create adverse impacts or 7 8 noxious uses and are not detrimental to the general 9 public. 10 MAYOR CHADWICK: Okay. Thanks, Ms. Deb. 11 Appreciate that. 12 We'll move on to the public testimony 13 portion of this. 14 DEBORAH NELSON: Mr. Mayor, may I. 15 MAYOR CHADWICK: Oh, I'm sorry. Hang on one 16 second. 17 DEBORAH NELSON: May I ask for an accommodation to at least show you the request, because the public 18 19 needs to be able to respond to our change in the 20 conditions? 21 COUNCILMAN NIELSEN: Mayor Chadwick. 22 MAYOR CHADWICK: Councilman Nielsen. 23 COUNCILMAN NIELSEN: I do have some questions 24 for the applicant. 25 MAYOR CHADWICK: You're right. I get that.

We're going to -- let us ask some questions, and then 1 2 we'll have them. 3 **DEBORAH NELSON:** Okay. MAYOR CHADWICK: So we'll go on to asking you 4 some questions there. 5 **DEBORAH NELSON:** Thank you. 6 MAYOR CHADWICK: So do you have some questions, 7 8 Councilman Nielsen, you want to start out with? 9 COUNCILMAN NIELSEN: Thank you. 10 MAYOR CHADWICK: Okay. 11 COUNCILMAN NIELSEN: You mentioned that the 12 irrigation water is anticipated to recharge the 13 aguifer. And we did have the water authorities in, you 14 know, workshop meetings kind of talk to that. 15 I just want to make sure that we're clear 16 on -- on the statement that that recharge will 17 benefit -- I think what you said is it will benefit all users -- all well users in the area. And part of my 18 19 recollection, and it's been awhile, so that's why I'm asking the question. But part of my recollection is 20 21 that the aquifers that we draw the water from are 22 hundreds of feet deep, whereas a lot of times the 23 aguifer, the runoff and seepage into the ground hits, 24 there's often layers in there. So the aquifer that may

be recharged could be different than the aquifer that

25

we're drawing from.

Could you speak to that, or perhaps Mr. Mitchell could.

DEBORAH NELSON: Mr. Mayor, Councilman Nielsen,

I'll start it, and then maybe our engineer can jump in

if we've got -- or Nate if we've got additions to that.

So the primary benefit to the water users that I was describing comes from not needing to use the irrigation rights that are already being used on the property and applicable to the property once we're able to generate the wastewater application onto the property. And so that water will simply stay in the aquifer, so you don't even need to return water to it. We will leave the water in there to begin with. It won't need to be taken out to irrigate the golf course once we're able to use that wastewater recycled reuse. So that's the most important benefit.

But then yes, once the treated, class A water can be delivered back to the golf course and used for land application, then that will eventually, yes, seep into the aquifer. The extent of that, I won't pretend to be a hydrogeologist to say how much of that, but that is what's reported by the -- by those that have weighed into this before, including at the work session, that at least, then, it's coming back into the

ground.

COUNCILMAN NIELSEN: Thank you.

And I think that perhaps answers my question. My primary concern was the tie-in of the benefit to those users up there already. And I did notice in your packet, although I don't believe it was stated, that there won't be a net increase in water draw. In fact, it will be neutral and likely less than what's currently being drawn for irrigation, so --

DEBORAH NELSON: That is correct.

COUNCILMAN NIELSEN: And then I did have questions, of course, on the materials that are not covered here. And you've got just a few pages to go here.

And, Mr. Mayor, I don't know what you had in mind for that, but --

MAYOR CHADWICK: I was going to have her take one minute to -- I think you want to talk about the conditions.

Is that what you said?

DEBORAH NELSON: Mr. Mayor, if that's okay. And I would like to just say for the public's understanding, I've handed to the Mayor and Councilmembers copies of the slides that are on the screen. That's all that's in there. And there is a

condition change that we wanted to ask for the Council's consideration, and we want to be sure that everybody has the opportunity to rebut that when they're coming up.

If you would allow me a minute or two to walk through the last two slides, I'd be happy for the opposing counsel, neighborhood association, to have that courtesy as well. It's up to you.

MAYOR CHADWICK: Yeah, I'll give you a minute here to talk about that real quick.

DEBORAH NELSON: Okay.

MAYOR CHADWICK: Yep.

DEBORAH NELSON: Just briefly, then, we're just asking for this change to condition No. 2 that was recommended by staff that previously said the restaurant and bar at the clubhouse would have to wait for a conditional-use permit.

The code defines golf course to include restaurant and bar. So that restaurant and bar would come in with the clubhouse. That's always been contemplated with the clubhouse uses. So we're asking for clarification that that would be allowed with this Development Agreement in lieu of CUP. Any other restaurant and bar and commercial use would follow with later applications.

24

25

And this slide simply showed additional conditions to capture the various commitments that we've made out loud to say that we would like for those things to also -- and support those things also getting included into the Development Agreement as conditions. Those are items that I already said. Just wanted to capture them in one place. Thank you very much. MAYOR CHADWICK: So just with that, on the first one here, you said residential density capped at 1.5 units per acre. I would almost prefer to put a cap, a total number of units based on the discussions we're having here. Right now you have 1,094, you know, and have that cap in there. I know it's probably the same --**DEBORAH NELSON:** Mr. Mayor. MAYOR CHADWICK: -- but it's just -- it's more cleaner, I think, in my opinion, on capping the number of units if that goes that direction. Any questions of Ms. Deb? Okay. COUNCILMAN WHEELOCK: Yes. MAYOR CHADWICK: Councilman Wheelock. You want to pull that microphone to you so everybody can hear you.

So with the water usage

COUNCILMAN WHEELOCK:

25

being recycled, what's that time frame look like? we talking about being able to recycle the water up there at 2045 at completion of project or at 2026 when this kicks off or whatever? **DEBORAH NELSON:** Mr. Mayor, Councilmember Wheelock, we expect that to be within a That timing is going to depend on Star few years. Sewer and Water District's needs as well, and the applicant will continue to work with them. But initially when the golf course is constructed, we will go ahead and use the irrigation rights that are available to it. But in -- within -and I don't know if you want to give any more precise timeline. We expect within a year or two that that would be -- okay, within a year or two that that would still -- but as fast as we can get it worked out with Star Sewer and Water District, we want to get that water in use. COUNCILMAN WHEELOCK: Thank you. MAYOR CHADWICK: Any further questions of the applicant at this time? I'm going to ask you a question here real quick. On condition 3 you have suggest -- project will provide an elementary school site preliminary plat

2

22

23

25

if needed by West Ada School District. I'm going to suggest that we do put that elementary school on site, regardless of what West Ada says at the current date, because they seem to be short-sighted, because your development, in my opinion, when it says that it's going to create 500 elementary school children, we're going to need a school for that. And so I would say that we think about it and talk about this on creating a 10-acre site for an elementary school, which is the minimum size required for West Ada School. DEBORAH NELSON: Mr. Mayor, and understand that may be the City's direction. From our perspective we can't force the District to accept a site. MAYOR CHADWICK: Again --DEBORAH NELSON: And so we just want to make it 17 available if they want it. MAYOR CHADWICK: Yep. Okay. Any further questions of the applicant? COUNCILWOMAN SALMONSEN: Mayor Chadwick. MAYOR CHADWICK: Councilwoman Salmonsen. COUNCILWOMAN SALMONSEN: So regarding the total phasing -- and you probably can't answer this right 24 now, but can you give us just a general idea like the

first phase will be the golf course and the municipal

facility. What -- can you kind of lay it out in the future how the rest of it, the building phasing would go.

DEBORAH NELSON: Mr. Mayor,

Councilmember Salmonsen, in general we expect the golf
course to come online around 2026. And then that is
the first time that we might come back and start to
begin with residential is upon the golf course
completion. And so that would be the first phase.

Now, we may work on planning and design and entitlements and -- in that period to be working with you on it, but that's our expectation of timeline when the residential may occur.

So with the first preliminary plat then, the conditions of approval that have already been proposed by your planning staff, we're required to bring back a phasing plan at that time with the first preliminary plat. And that will be coordinated with updated traffic studies that have to be approved by the transportation agencies so that as each phase rolls out, we can tie the necessary improvements to those phases.

At this time I don't think we know what those phases will look like. But we -- but that's part of why we tried to present the entire development so

25

you can see the maximum amount we'll be asking for. do expect it to be a lengthy build-out. Just it's a large property. We want to focus on the golf course. We want to focus on quality and roll this out as appropriate. Necessarily there's going to be some things we can't do until road improvements. So it's going to -- it's going to depend on a lot of that analysis. So we've -- we've planned out to 2045. Hopefully the market and improvements don't make it take that long, but it possibly could. So we'll have a better idea of how that may break out between the end of the golf course and that window. Anything else you want to add? Okay. COUNCILWOMAN SALMONSEN: So just to make sure I understand correctly, so you're saying you'd probably be -- if it's approved, you'd bring back a preliminary plat for approval in '26, 2026? Am I understanding correctly, somewhere around there? Councilmember Salmonsen, that's DEBORAH NELSON: right. Yeah, like I said, we could start the entitlement process before then. But that's our planned expectation. MAYOR CHADWICK: I apologize for that. I tried to cover that.

24

25

That's our expectation of when **DEBORAH NELSON:** the golf course would be done. And so our plan is to have the residential come after. We can't bring forward the residential until we go through this additional permitting process either way. But our plan is to time it at the end of the golf course. COUNCILWOMAN SALMONSEN: Okay. MAYOR CHADWICK: Okay. Any further questions of the applicant at this time? COUNCILMAN HERSHEY: Yes, sir. MAYOR CHADWICK: Councilman Hershey. COUNCILMAN HERSHEY: It's more of just a recap. Just for absolute clarity, what you're asking for tonight is the golf course. That's what I'm capturing. Everything else would have to come back as a preliminary plat and a new traffic study. So I do appreciate the fact you showed the entire magnitude over this you're saying 22-year build. And yeah, I can see why people would think that looks scary, yes. So the golf course, all that will be done, then and only then will we look at any type of housing units? You're just trying to set the framework? DEBORAH NELSON: Mr. Mayor, Councilmember Hershey, that's correct.

But I also just want to set it in the right 1 2 context too. I mean as you know, when we annex, we 3 have to zone. COUNCILMAN HERSHEY: 4 Yes. DEBORAH NELSON: So while we can't build 5 residential, we are asking for residential zoning. 6 And so at this time we are asking for R-2. 7 It also provides the City an opportunity to 8 9 provide conditions on the larger plan that will govern 10 how we come back with future applications. It doesn't 11 mean you can't add conditions later, because you can, 12 because that's when you'll see a lot of the details. 13 But it also does give that opportunity, a Development 14 Agreement. 15 So we are asking for residential zoning of 16 R-2, and we're asking for an initial approval of the 17 golf course and appropriate public infrastructure uses. 18 Beyond that, we won't be able to continue 19 to build out any other uses, even though they're allowed in the R-2 zone, because we haven't achieved 20 all of the boxes that need to be checked for those. 21 22 Does that --23 COUNCILMAN HERSHEY: Thank you for that clarity. 24 I'm just --25 **DEBORAH NELSON:** Yeah.

1 COUNCILMAN HERSHEY: -- making sure it's very 2 clear. **DEBORAH NELSON:** 3 Yes. Thank you. COUNCILMAN HERSHEY: I'm the slowest one in the 4 Council. 5 MAYOR CHADWICK: Just real quick on the Council, 6 we have like 65 people online. We need to make certain 7 8 that we're talking into the microphone so they can 9 actually hear us. They can hear everybody else, but 10 you two. 11 UNIDENTIFIED SPEAKER: They heard you cough. 12 MAYOR CHADWICK: They heard me cough. I think 13 the world heard me cough on that one, so okay. 14 COUNCILMAN NIELSEN: Mayor Chadwick. 15 MAYOR CHADWICK: Any further questions? 16 COUNCILMAN NIELSEN: Yes, Mayor Chadwick. 17 MAYOR CHADWICK: Hang on. Councilman Wheelock pinged me first. 18 19 COUNCILMAN NIELSEN: Yep. 20 Go ahead, Councilman Wheelock. MAYOR CHADWICK: 21 COUNCILMAN WHEELOCK: On your packet here you 22 showed all the beautiful golf courses out in the 23 country, and not one house. I'm sure that people are 24 interested in what that looks like with houses, because the open space that's currently there has no houses. 25

But that would help in the illustrations, from my point of view.

The roadway, Aerie Way, that future

Highway 16 connection, would that be constructed before

you came in for housing as the traffic study asked for,

or would that be after the golf course?

Mr. Mayor,

Councilmember Wheelock, so it would be after we commence on this initial use with the golf course. It would not be before the golf course. It would be part of the updated traffic study plan to see what, if any -- you know, what's the level of uses that can proceed before that is completed or in what timing -- you know, how it correlates to that improvement.

DEBORAH NELSON:

ACHD has included a specific condition in their comments about -- that that road will need to be completed before they will allow additional trips to go onto Deep Canyon that could exceed that 2,000 ADT, that local planning threshold.

And so I'm sure they're going to continue to look at that very closely when they look at a specific proposal that they're commenting on.

COUNCILMAN WHEELOCK: Does the BLM have a time frame that it takes to have that go through their system for an approval? And do you know that?

1 **DEBORAH NELSON:** Mr. Mayor, 2 Councilmember Wheelock, yes, we did visit with BLM 3 about that. It's a lengthy answer, and it's a lengthy 4 And the length of the process depends on the 5 status of slickspot peppergrass surveys and where you 6 might find it. And if you find it, then it extends the 7 8 process. 9 So it does involve a very careful 10 environmental review, and depending on what you find in 11 initial surveys or what initial surveys have been done 12 in the area where the road will go through, it could be 13 a longer process than a shorter process. 14 And so I think the minimum time frame is 15 about a year. And it could be much longer. It could 16 be a multiyear process. And so that's something that 17 will commence immediately upon having City approvals. It's -- it's just a very involved process. 18 It doesn't 19 make sense if we don't have approval to annex into the City or a decision on the development. 20 21 COUNCILMAN WHEELOCK: Thank you. Okay. 22 MAYOR CHADWICK: Councilman Nielsen. 23 COUNCILMAN NIELSEN: Thank you. 24 Mayor Chadwick, I think this is perhaps a clarifying question for you regarding the lot for a 25

potential elementary school. I know that near Star 1 2 Middle School there's already a potential elementary school lot. 3 Do you know, is this -- is what is in your 4 mind in addition to that, or is that -- and we also 5 have one, I think, next to Roselands; right? 6 MAYOR CHADWICK: Yeah, this would be in 7 8 addition, another site for up in that area. 9 COUNCILMAN NIELSEN: Okay. Thank you. 10 MAYOR CHADWICK: Yep. 11 Any further questions of the applicant at this time? 12 13 COUNCILWOMAN SALMONSEN: Mayor Chadwick. 14 MAYOR CHADWICK: Councilwoman Salmonsen. 15 COUNCILWOMAN SALMONSEN: I actually have a question for Mr. Mitchell, if that's okay. 16 Yep. Absolutely. 17 MAYOR CHADWICK: So one of the findings 18 COUNCILWOMAN SALMONSEN: 19 that we have to make is that the annexation is in the 20 best interest of the City. And so as a resident, I would like to hear 21 22 from you why you think that this project is in the best 23 interest of the City for the current residents. 24 NATE MITCHELL: You bet. Nate Mitchell, again 1470 North Rook Way. 25

I think Deb's presentation outlined our 1 2 thoughts on why this is a positive thing for the City. As a resident, I think the additional economic 3 development that the golf course will bring is positive 4 for not just the golf course but the rest of the 5 businesses in Star. It adds to our commercial tax 6 7 base. And I think frankly the -- I don't know if 8 anybody's noticed, but people want to move to Star. 9 10 lot of people want to move to Star. I think we can 11 provide an unparalleled housing product that hasn't 12 been offered in the Valley with the amenity of the golf 13 course that provides for an active adult lifestyle, a 14 lot of the -- a lot of the demographic that's moving 15 here is empty nester baby-boomers, and this is a 16 product that we think fits that very well. 17 MAYOR CHADWICK: Okay. 18 COUNCILWOMAN SALMONSEN: Thank you. I 19 appreciate your answer. 20 MAYOR CHADWICK: Any further comment of the applicant at this time? 21 22 Okay. With that said --23 **DEBORAH NELSON:** Thank you. 24 MAYOR CHADWICK: -- thank you, Ms. Deb. And we're going to use this as -- before we 25

get into public testimony, as a natural break to take a 1 2 facilities break. So we're going to recess at 8:03 and come back at 8:08. Okay? 3 (Recess. Video file silent from 1:00:40 to 4 1:05:37.) 5 MAYOR CHADWICK: Okay. There we go. Let's get 6 7 everybody seated, please. He's coming. All right. 8 got -- yeah, we got the guorum of the Council here. 9 Councilman Hershey will be back up here in just a 10 second. 11 Just a reminder, folks, when we come up to 12 testify, I need you to please state your name and 13 address for the record. We have three minutes each to 14 testify tonight. We do -- I think it's behind me still; right? The clock is up behind me. 15 And 16 Mr. Shawn right here will control that. 17 I'm going to call several people up to get 18 set up here in the bullpen area so we can move on with 19 the process. And we talked -- said those that are in favor will speak first. 20 21 UNIDENTIFIED SPEAKER: It's like 33 22 [unintelligible]. 23 MAYOR CHADWICK: And is that -- that's not right 24 now, though, I don't think; right? 25 UNIDENTIFIED SPEAKER: [Unintelligible.]

Okay. So we're going to call 1 MAYOR CHADWICK: 2 in the in-favor side of this to start out. Chad Kinkela, if I said that right, if you 3 4 could come up and state your name and address -- I'm It's 8:09 that we're starting the public 5 sorry. hearing back up. Sorry about that. 6 Mr. Chad, are you here? Chad? 7 UNIDENTIFIED SPEAKER: Moving on. 8 9 MAYOR CHADWICK: We'll move on here in a sec. 10 Chad Kinkela? 11 UNIDENTIFIED SPEAKER: [Unintelligible.] 12 MAYOR CHADWICK: Oh, that's your engineer? 13 UNIDENTIFIED SPEAKER: He's our engineer. 14 MAYOR CHADWICK: Oh, okay. All right. Then we don't need to -- then we're good there. 15 16 We'll move on to the public testimony for 17 those that are against. We'll start out, we have Nancy Collins that's going to start. We have Todd Collins in 18 19 the hole, and Layne Galbraith and Sabrina Newberry. please come sit up here at the front for us, and we're 20 21 all ready to go. 22 Okay. So hang on one second. We got a 23 PowerPoint. 24 UNIDENTIFIED SPEAKER: All right. All right. 25 UNIDENTIFIED SPEAKER: Thank you.

1 MAYOR CHADWICK: You ready, Shawn? 2 NANCY COLLINS: I'm not. 3 MAYOR CHADWICK: You're not? Is your -- is your 4 little clicker working? I don't need that right now. 5 NANCY COLLINS: MAYOR CHADWICK: You don't need that right now. 6 7 So please state your name and address, Okay. 8 please, for the record. 9 NANCY COLLINS: Okay. Good evening, Mayor and 10 City Councilmembers. My name is Nancy Collins, 4718 11 North Echo Summit Way, Star, Idaho. 12 MAYOR CHADWICK: Okay. 13 NANCY COLLINS: Ready? 14 I'd like to present the Willowbrook Golf Course Annexation and Rezone Petition. As of Monday 15 16 morning at nine o'clock, we have received over 800 17 signatures. Tonight we accumulated another hundred. 18 And I just want to read the petition to you so you know 19 what you have. 20 We are opposed to the annexation of this 21 development for some or all of the following reasons: 22 Incomplete, inaccurate application; improper use of 23 site amenities; unresolved, unfunded mitigation 24 measures for Star Road, Can-Ada Road, Wing Road, Beacon Light Road, Floating Feather, New Hope; increase in 25

traffic, parking issues, and demand on roads; trisects the BLM, making it unusable; Star Transportation and Pathway Committee proposes two new roads through the BLM; decrease in road safety for children with only two exits for 1409 dwellings and changing the classification of Lanktree Gulch Road, Deep Canyon Road, Purple Sage, and Can-Ada due to increased number of trips. This will decrease safety. Overcrowding at nearby schools; lack of police coverage; increased burdened on understaffed police and fire departments; increase in density; incompatibility, all surrounding neighborhoods are rural, residential, single-family, detached homes on 1 acre to 10-acre lots. This project creates density up to 10.5 homes per acre that are unlike the existing lots in Hillsdale and Monument Ridge. Noncompliance with the Comprehensive Plan, special transition overlay zone. Cumulative impact of already approved projects is having a harmful effect upon the desirable, open, and rural characteristics of Star. Undetermined --MAYOR CHADWICK: So, guys, here, no speaking I'm telling you we're going to let you -- have you leave. We're going to keep it civil.

1 out. Only the person up here gets to speak, please. 2 Thank you. UNIDENTIFIED SPEAKER: [Unintelligible.] 3 NANCY COLLINS: Undetermined designation 4 approval of additional roads acquired by -- or required 5 by ACHD, ITD. Commercial development. Proposed 6 commercial development in the foothills not a part of 7 8 Star Comprehensive Plan. For these reasons we ask the City Council 9 10 to honor their process and ensure full due diligence is 11 complete. 12 In addition, we ask that the Council review 13 the conceptual plan and ask that the applicant revise 14 their plan to conform with the Star Comprehensive Plan, one that will ensure this project will add to the 15 16 prosperity and be a benefit to the City of Star. 17 Therefore we request that the City of Star cancel, deny this application for Willowbrook Golf 18 19 Community until it has been revised with lower density to accommodate road capacity and follow the 20 Comprehensive Plan and until a complete application has 21 been submitted and reviewed. 22 23 That's all I have. 24 MAYOR CHADWICK: All right. 25 NANCY COLLINS: Thank you.

Thank you. Nice job. 1 MAYOR CHADWICK: Got that 2 in three minutes. So real quick, did the applicant get a copy 3 4 of this? Did you get a copy? 5 Okay. Very good. So then we have Mr. Todd Collins, you're 6 7 on. 8 We got Ms. Rachel -- or Rochelle Henson, 9 please come on down. Okay, Todd. 10 TODD COLLINS: Good evening, Mayor and 11 Councilmembers. 12 MAYOR CHADWICK: State your name and address. 13 TODD COLLINS: This is Todd Collins, 4718 North 14 Echo Summit Way, Star, Idaho. 15 This should be a piece of cake; right? 16 Applicant is just wanting a zoning of R-2 DA for his 17 entire property. So R-2 works with the Comp Plan, or 18 Okay. 19 at least with the Comp Plan that the staff says we have to use. Oh, but then the applicant wants to put in a 20 That would typically require a 21 golf course. 22 conditional-use permit. And then he wants or needs to 23 have a sewer treatment facility on the property. 24 Another CUP. And on top of that, 110,000 square foot of 25

commercial space. There must be some amazing details within the application, the narrative, and the concept plan to request such an ask of the City Council, such detail that the Council could feel confident that they could just blanketly approve the entire conceptual plan under an R-2 zone.

Unfortunately, the details are not there. From the very start of this application, the details were lacking and uncertain. In the application it mentions the development will be adjacent to other developments.

They failed to mention that this will be a major infill project wherein their urban, commercial development will be intertwined with an established rural development. They don't mention that they will be needing to use the narrow, unimproved rural roads within the existing development to access their development.

Willowbrook did take the time to put together a concept plan, but didn't bother to show any details, such as paved pathways for pedestrians and bike riders, amenities in appropriate places, accommodation for transition overlay zones, no transition between commercial and rural lots, no house clustering.

In fact, if you ignore the pretty fairways and greens, you see that there is a solid wall of houses across the entire 2 mile length of their development. No accommodation for the wildlife that live and migrate through the area. Not just the fox and turkeys mentioned in the application, but also deer, badger, pheasant, raccoon, mountain lion, rabbit, and others.

No elevations of the clubhouse or maintenance facility. No elevations of what they envision for the 110,000 square feet of commercial space. They want you to approve on the conceptual map under this R-2 DA zoning request.

The elevations they do show are just a bunch of random home styles that anyone could pull off the Internet. No access to the BLM. No indication they respect the existing neighbors in regard to the placement of the golf range and maintenance facility in regards to the impact this development will have on the rural, residential, unimproved local roads.

There is sufficient detail already for you to know that this project cannot possibly be built as proposed without getting more clarification. So do not move this forward for expedience sake.

The staff report gives all the details for

handling the various requests under this application 1 2 for CUP and PUD processes. I think they put them in there for a reason. 3 Follow the processes so that you can be 4 certain, so that the applicant can be certain, so that 5 we can be certain, and trust the process. 6 MAYOR CHADWICK: Okay. Thank you, Mr. Collins. 7 On to -- let's see. Let's see. Richard, 8 9 Mr. Moore, you're on. You're not up yet, but you're in 10 the hole down here. 11 Mr. Layne Galbraith. 12 JOSEPH GALBRAITH: Mr. Mayor and Councilmembers, 13 we appreciate the opportunity to speak with you 14 tonight. 15 Star leadership --16 MAYOR CHADWICK: So real quick, state your name 17 and address, please, for the record. My name is Joseph Galbraith. 18 JOSEPH GALBRAITH: 19 I live at 9758 West Lanktree Gulch Road in Hillsdale 20 Estates. Star leadership is in the wonderful 21 22 position of being able to plan a city that provides for 23 a variety of lifestyles, to create a community that 24 meets the varying needs and desires of its citizens from low-density country homes to medium and higher 25

density homes.

It is possible now to create a well-planned city that is beautiful and functional. Hillsdale Estates and the neighboring Monument Ridge were originally conceived and developed over the last 25 years in seven phases by Dick Phillips, a primary owner and developer of Willowbrook.

Is there a slide two anywhere?

It was originally conceived to offer a low-density, country living option that hundreds of residents have now invested in. When it was conceived, the appropriate housing density for this area was 1 to 3 acres per house, with larger lots up to 5 acres in Purple Sage, and 10 acres in Monument Ridge.

It offered opportunities for raising and caring for animals, bordered by farmland and public recreation areas.

Slide three, if you can.

Amenities that were promoted included a network of pathways and trails upon and wetlands, park and picnic area, an equestrian center, and acres of open space. Willowbrook's current proposal is a radical departure from the initial plan.

Today the current Willowbrook proposal wants to fill the open spaces with much denser housing.

The whole area will be transformed away from a country
lifestyle that includes -- that hundreds of people have
invested in. There are currently 315 homes in
Hillsdale and 29 in Monument Ridge.

This proposal includes over a thousand new houses, a golf course, a shopping center, and a sewage plant, just for starters. The plan doesn't just intend to build higher density homes next to the current neighborhoods, but insert them throughout the current neighborhoods.

We support Willowbrook developing their land. The original design for this area was rural. The next building phase should support that. A rural, country appearance, with one residence on a minimum of 1 acre will accomplish that.

We request that this proposal and the annexation be denied and a minimum 1 acre lot size be set for the new development, consistent with the existing neighborhood that Willowbrook initially designed, instead of R-2 that turns into a much higher visual density when implemented and clustered.

The next speakers will explain further why this proposal should be declined in its present format. We hope that you'll give some thought to modifying this extreme proposal.

1 Thank you. 2 MAYOR CHADWICK: Okay. Thank you. Ms. Sabrina Newberry, Ms. Colleen Moore, 3 you're down here in the bullpen. 4 So state your name and address, please, for 5 the record. 6 SABRINA NEWBERRY: Good evening. I'm Sabrina 7 8 I'm at 9909 West Lanktree Gulch Road. Newberry. 9 The City of Star Comprehensive Plan calls for this area to be rural, and we request that the 10 11 Willowbrook proposal align with this adopted Comp Plan 12 and Uniform Development Code. 13 We realize the staff report reviews the 14 application per the obsolete 2020 Comp Plan and 15 Development Code. We disagree with this approach. 16 The current Comprehensive Plan was adopted 17 in June of 2022 and provides the overall framework for the City and future development. It is a good plan and 18 19 it needs to be followed. 20 However, in reviewing both documents, a lot of the text remains the same. The allowed land use 21 22 density is less stringent in the old Comp Plan. 23 Comprehensive Plan identifies the area of Willowbrook's 24 proposal as low density -- low-density residential, max 25 one unit per acre.

Audio Transcription The corresponding municipal code zoning designations for this land use are RR or R-1, not R-2. We understand R-2 is allowed under the old Comp Plan, but believe RR or R-1 zoning is more compatible with the existing, developed rural area. There are commercial sites proposed within the development, but only R-2 zoning proposed. Commercial is not allowed in residential zoning. Staff says a PUD may be submitted later, but zoning and annexation is being proposed now. How can the zoning and annexation be approved if the PUD standards are not provided to fully review the proposed uses. At this point there's just a proposal for commercial sites in R zoning, which is not allowed.

Golf course requires a CUP in residential zone districts. The applicant is asking for approval as part of the DA, but no details have been provided on the proposed use associated with a CUP application.

In the Comprehensive Plan there are three objectives in the land-use chapter that speak directly to the proposed Willowbrook Development and the existing neighborhoods of Hillsdale Estates and Monument Ridge.

As highlighted in this slide, the

1 objectives state "to manage urban sprawl; protect, 2 retain, and encourage rural areas; and encourage land uses that are in harmony with surrounding land uses." 3 The Comprehensive Plan does a decent job of 4 providing denser land uses at the city center and 5 calling for less dense development as you reach the 6 city edge with -- to blend with the county development. 7 8 This is good standard planning practice. 9 However, the proposal includes 1,094 10 residential lots, a golf course, 110,000 square feet of commercial and various civic uses that are not in 11 12 harmony with the existing land uses. 13 As designed, this is a very dense 14 development with a lot of very small lots and a complete departure from what is already built in the 15 area and the objectives laid out in the Comp Plan. 16 17 Thank you. 18 MAYOR CHADWICK: Okay. Ms. Rochelle Henson. 19 And then we have Benjamin Shields in the hole. ROCHELLE HENSON: Good evening, Mayor and 20 Members of the Council. 21 My name is Rochelle Henson. Ι 22 reside at 5233 North High Prairie Place in Star. 23 As you can see in this slide, which is from 24 the staff report, Willowbrook is being proposed within

the Hillsdale and Monument Ridge neighborhoods, not

25

adjacent to it. Therefore, we believe the project should be built at the same density and with similar lot sizes and design features to blend with the existing neighborhoods that it is being built within.

However, we also know that this is part of a special transition overlay area. Development adjacent to this area is to provide for an appropriate transition between existing and new homesites.

The exhibit in this slide is showing the lots adjacent to existing lots highlighted in red. The staff report says the highlighted lots should be a minimum of one-half an acre in size. The 2020 code says transition area lots are to be one-half acre to 1 acre in size. The recommendation in the staff report is for one-half acre minimum.

The surrounding lots are 1 to 10 acres in size, so the transitional lots should be more closely aligned with the sizes of the existing lots, and should be a minimum 1 acre in size.

Next slide.

We have highlighted some relevant sections of the Comp Plan related to residential development.

Low densities are supposed to be built in the hillside areas and adjacent to larger lots that will not subdivide in the future, such as of the existing

neighborhood.

There needs to be an adequate transition from the existing, rural, residential development to the suburban development that's being proposed. The housing objective states that existing, rural, residential housing developments need to be preserved and maintained. This area is one of the only rural, residential developments in Star.

Allowing this proposed development with its current design and density will take away the opportunity to preserve the rural feel at the city's edge adjacent to the county development and the BLM land.

Next slide.

The proposal by the developer for a DA that uses the entire site acreage to blend and average out densities would allow for much smaller lot sizes, with the majority of the proposed lots smaller than 9,000 square feet, and some as small as 3800 square feet. This is much smaller and does not comply with the existing lots in the area.

The picture above on the left shows a typical lot developed in the area, and the photo on the right is a sample of the housing types Willowbrook is proposing. Clearly this lot type does not fit in with

1 the existing neighborhood, the vision of the 2 Comprehensive Plan, or the Development Code standards for RR, R-1, or R-2. 3 We would like the City to require 4 Willowbrook to provide the necessary application 5 materials previously mentioned for a conditional-use 6 permit and PUD, as well as require them to follow the 7 8 adopted Comprehensive Plan and Development Code and 9 develop this area compatible with the existing, rural 10 development that has been there for the last 20 years. 11 Thank you. Okay. 12 MAYOR CHADWICK: Thank you. Thank you. 13 Mr. Richard Moore and Ms. Cherie Shields. 14 RICHARD MOORE: Mayor Chadwick, Council, thank 15 you for your time. Richard Moore, professional 16 engineer with a master's in civil engineering from 17 Brigham Young University. I need your address. 18 MAYOR CHADWICK: 19 RICHARD MOORE: 25385 Desert Spring Circle. 20 Pardon? 21 MAYOR CHADWICK: I need your address. Address 22 first. 23 RICHARD MOORE: 25385 Desert Spring Circle, 24 Star, Idaho. 25 MAYOR CHADWICK: Okay. Thank you.

RICHARD MOORE: Willowbrook has resisted doing a traffic-impact study ever since this development was first proposed. The City Council required them to do a development -- to do a traffic-impact study prior to Development Agreement approval. Thank you. That was a very good decision.

Now that the traffic study is complete, it is apparent why Willowbrook did not want to do one. It shows this project is unfeasible as proposed. I have read the traffic study and only understood enough to get scared.

Consequently, I arranged a meeting with Mindy Wallace from ACHD. She provided clarity, and I realized my fears were founded. Adding over 1,000 homes to this area generates over 12,000 trips per day, per the traffic study.

Next slide, please.

This area is constrained by rural roads, which only permit 2,000 trips per day. The current traffic on these roads is about 1200 trips per day, not leaving much room for increased traffic.

Willowbrook's solution, as first suggested in the first traffic study, was to widen Deep Canyon and Lanktree Gulch to five lanes.

Next slide.

This is a small section of Deep Canyon

Drive to indicate how much private property would need
to be given up by the homeowners in order to develop a
road size to handle the traffic Willowbrook will
generate. This clearly shows the infeasibility of this
project.

Having been told by ACHD that expanding these roads was not possible, Willowbrook did withdraw this request for the expansion of these roads without providing an alternative for the increased traffic, other than changing -- requesting a change of the designation of the road to collector.

Now, you don't need a degree in engineering to know that simply changing the designation of the road is not going to allow you to fit five lanes of traffic in two lanes.

Next slide.

The impacts are not limited to areas immediately around the development, but extend as far south as State Street, as far east as Highway 16, and as far west as Blessinger, and even beyond.

Here are a few of the roads impacted by Willowbrook. The mitigation of these roads is not funded, not planned, and in some cases not even possible because of issues with right-of-way.

Next slide. 1 2 Here are 25 more roads requiring significant mitigation to accommodate the proposed 3 4 development, many with the same issues as the previous slide. This list is by no means complete. 5 example, High Country Way will need mitigation if Wing 6 7 Road is installed, because it will become a throughway 8 to Deep Canyon. 9 Next slide. 10 Sorry. My time's up. 11 MAYOR CHADWICK: Yeah. Thank you, sir. 12 Appreciate it. 13 We got Ms. Colleen Moore and Ms. Ana Deane 14 Galbraith will be in the hole up here. 15 COLLEEN MOORE: Mayor, Councilmen, thank you 16 very much. My name is Colleen Moore. I live at 17 25385 Desert Spring Circle, Star, Idaho. Follow-up from Mr. Moore, the roads 18 19 surrounding the Willowbrook Development as currently proposed do not and cannot support the additional 20 traffic this development will generate. There's no 21 viable solutions to override this reality. A cap on 22 23 the number of additional homes created by this

development consistent with existing road capacity must

24

25

be established.

The Council has consistently sought facts and expert testimony prior to making decisions. The hard facts from the transportation study and expert testimony from ACHD demonstrate this development, as proposed, is inappropriate for this area.

Additionally, I have been learning a lot about sheep lately. The daughter of a sheep farmer, Jane Mallen, tells of the year a huge storm hit right after they had sheared their sheep in Wyoming. They lost 1,000 ewes that year, among them mothers of 350 lambs. Despite valiant efforts to feed the orphaned lambs that summer, 60 percent of them died.

Now, Ms. Mallen's father had no control over the weather. When he sheared his sheep, he had no forecast even suggesting there was a violent storm coming, so he went ahead, sheared the sheep, and buried many carcasses over the next six months.

The Star City Council has no control over roads and infrastructure. That is the jurisdiction of ACHD and ITD. However, the traffic study that Council has wisely requested is, in effect, a forecast of an impending, violent storm of cars and traffic congestion which will occur if 1,094 new homes are added to the existing roads.

Trying to suggest that rerouting traffic

through Aerie Road will take care of all potential congestion due to the demand of the 12,000 additional road trips per day resulting from the new development is much like believing that if you push hungry lambs to a trough filled with milk they will willingly go there and drink their fill. Not practical. Not realistic. Ultimately, it will prove completely unsuccessful.

I urge the City Council to study and heed the warnings evident from the traffic study. The roads are in place. Please cap the number of additional new

Thank you very much.

MAYOR CHADWICK: Thank you.

the additional traffic.

All right. Mr. Benjamin Shields is up.

Ms. Lisa -- is it Priapi? All right. Thank you.

homes such that the roads can reasonably accommodate

BEN SHIELDS: Mr. Mayor, Councilmembers, my name is Ben Shields. I live at 9947 West Lanktree Gulch Road in Star, Idaho.

After attending multiple meetings, we have heard numerous times that what is presented must be fact, not emotion or opinion. We ask that the standard be held with the applicant to ensure that the City can make a sound vote that guarantees the protection and advancement of the City of Star. I will review some of

1 the opinions that Willowbrook's application and 2 Development Agreements state. Next slide. 3 Willowbrook states housing will be 4 compatible with surrounding areas. The Hillsdale and 5 Monument Ridge homes on the left, versus the townhomes 6 and small homes on the right. As stated before, in 7 8 design, size, and density, they are not similar. 9 Next slide. 10 They state the golf course will be the 11 focal point. Not sure how you can -- not sure how that 12 is when you cannot see it through the wall of 13 townhomes. 14 Also states compatible with surrounding 15 uses and existing, intended character of the vicinity. Next slide. 16 17 Stating a driving range, commercial and clubhouses is in alignment with the intended character, 18 19 which is rural homes and raising animals, is opinion. As you can see the arrow, this 20 21 undetermined, neighborhood commercial space lacks any addition -- lacks any details to the intended use. 22 23 There needs to be clarification to understand the full

impact of these facilities. TIS does not factor in

24

25

commercial traffic.

Next slide.

This small space is going to house a multimillion dollar water filtration system, generators, fire stations, police station, and EMS services. How is all that going to fit in that tiny, little space?

Intended -- included in the open space and amenities is multiple commercial items. They state these commercial amenities will not constitute nuance activities. That is an opinion. Nuisance activities. Excuse me. That is an opinion. Having a driving range and clubhouse so close to your home is the perspective of the homeowner and the animals.

Idaho code requires analysis of provision to ensure that land use does not violate property -- private property rights, values, or unnecessary technical limitations. The -- the developer builds and leaves and the homeowner remains.

And just I was thinking, kind of going off script here, we're talking about a commercial -- or a championship golf course. I haven't once heard if the PGA Tour decides to come to this area with thousands of people deciding to watch a championship golf, parking, traffic overwhelming all the streets. Where are those people going to go? Where are they going to park?

1 Where are they going to eat? 2 UNIDENTIFIED SPEAKER: And use the bathroom. 3 UNIDENTIFIED SPEAKER: Where are they going to 4 stay? 5 MAYOR CHADWICK: Hey, guys, enough. Seriously, enough. 6 BEN SHIELDS: So just something to consider. 7 8 Because I was looking at the map, I don't see any 9 parking lots. I don't see anything that's going to 10 accommodate some of those commercial uses for such a 11 magnificent golf course. Thank you. 12 13 MAYOR CHADWICK: Thank you. 14 Ms. Cherie Shields, and then we have Ms. Abigail Germaine. 15 16 Is she here? There you are. Okay. 17 Okay, Ms. Shields. CHERIE SHIELDS: All right. Mr. Mayor, Council, 18 19 my name is Cherie Shields. I live at 9947 West Lanktree Gulch Road, Star, Idaho. 20 For the 175-acre golf course, Boisedev 21 22 published in an article on 5/3/23 that the course will 23 be privately owned and maintained and that the public 24 will be welcome to enjoy it. Because Willowbrook will be receiving profit and income from this golf course, 25

per Star City Code 8-4E-1, all open space and amenities 1 2 must be owned, maintained by the applicable HOA. Therefore, the 175 acres should not be used in 3 calculating zoning density. 4 Special transition overlay is also a 5 concern. This golf course and amenities leave multiple 6 questions about that, operating hours, light pollution, 7 8 noise pollution, and if it can be used for zoning. 9 Then there's a matter of opinion. 10 Number one, that it will not adversely are opinions. 11 affect properties, but it will add over 12,000 trips a 12 day. 13 Number two, it will enhance property and 14 aesthetic values, but creates a wall of patio homes 15 with fences impeding our views and open space. Number three, it encourages walkability. 16 17 But with a wall of homes, a golf course that we cannot 18 use, and multiple areas up to 25 percent grade, that is 19 not feasible. Number five, commercial adjacent to the 20 area with similar use. But horse stables and farming 21 22 is not similar. 23 Then we go into the unknown. Number one, 24 by building some commercial first, we do not know the The TIS did not project daily trips for the

25

impacts.

commercial use due to the lack of detail.

Number two, that the CUP requirements are met. But these findings are more opinion, per their letter submitted to the Council.

Number three, future commercial that lacks the proper PUD applications. Again, no clarity.

Number four, pathways, that, again, are unusable in high grade areas, and I'm only seeing very few.

That this will minimize impacts on our road when the TIS was only conducted on a small portion of Lanktree Gulch and the entrance of Deep Canyon. They did not fully study Can-Ada. And also there's concerns with that steep grade.

The increased tax base for the City with impact fees, golf course tax, and property tax. But what about all the required infrastructure costs that will be incurred?

Approving the application based on a seven-page boilerplate document removes the public from being able to provide accurate feedback on how the DA will truly impact its citizens. You each have business savvy and accountability that I know you will use to ensure that Willowbrook is held to the same standard as its citizens.

Willowbrook's DA is seven pages. 1 2 although it plans to be revised in the future, statements that Willowbrook has made, that without the 3 thousand homes to offset their cost, the project isn't 4 worth it. What happens if we annex and they cannot 5 exceed ACHD's recommendation of 213 homes? 6 Spring Valley's DA was 135 pages long and 7 8 protects Eagle. Willowbrook, being the largest project 9 in Star, I implore you to deny this annexation and 10 rezone until all information is found out, agencies are 11 approved, and the impact is minimal. 12 Thank you. 13 MAYOR CHADWICK: Thank you. 14 Okay. We have Ms. Ana Galbraith. 15 And then we got Jim Junge, if you'd come up 16 here in the hole, please. There you are. Okay. 17 Ms. Ana, the floor is yours. ANA DEANE GALBRAITH: Hello. 18 My name is Ana 19 Deane Galbraith. I live at 9758 West Lanktree Gulch 20 Road. 21 And I have just four quick comments that I'd like to make. 22 23 First, just to reinforce, the area that 24 Willowbrook wants to develop in is a rural area. Can you -- is there anybody doing the 25

clicker?

2 UNIDENTIFIED SPEAKER: I'll do it.

ANA DEANE GALBRAITH: Yeah. Click for me.

There's a combination now of 344 homes, each on 1 to 10-acre lots between Monument Ridge and Hillsdale. The current Willowbrook plan will put 1,094 homes on 314.4 buildable acres. 67 percent of the total homes to be built will have a density of almost five to over ten homes per acre.

This is a dramatic departure from the current density and does not fit the existing rural neighborhoods.

Click it for me.

There are -- number two, there are no reasonable transition or buffer areas. The Hillsdale and Monument Ridge Developments are labeled special transition overlay areas and require larger setbacks and lots. New lots next to current lots should match current density. That would be 1 acre plus, not the less than half acre and lower acreage in the proposed Willowbrook plan. One of the lots has a proposed six lots abutting it, and another has five. And you can see those in the circle up there.

In addition, there are no buffers between Willowbrook and Monument Ridge, which you can see on

the left. There is dense housing and a driving range right next to the 10-acre lots.

There are also no buffer areas on the homes abutting the road. So the road -- the houses sit right on the road.

Point number three, the Willowbrook plan conflicts with the current City Comp Plan, which I understand you don't have to hold them to that, but we are hoping that you will. Our own City plan calls for low-density development in the outer perimeter of the city. Both Hillsdale and Monument Ridge are located at the edge of Star city limits, an area designed to be rural.

If rural areas are not preserved here on the very edge of the city, where are you going to have them? As per City plan, new residential lots should match density with current ones.

Point number four, rural amenities will disappear with this plan. The rural areas now have low lighting, open fencing, country roads with no curb and gutter. All these will disappear with this Willowbrook plan.

In summary density matters. Going from one home per 10 acres -- oh, yeah, at the top left, down to 10.5 on the lower right is unreasonable for this area.

1 Please keep this area rural. Please hold to the vision 2 defined in the City plan and require R-1 zoning. MAYOR CHADWICK: 3 Okay. ANA DEANE GALBRAITH: Doing that will ensure our 4 City offers -- okay. I'm done. 5 Thank you. 6 MAYOR CHADWICK: Your time's up. Thank you. 7 Okay. Ms. Lisa. Then we have, let's see, 8 9 Mr. Derrell Foote in the hole up here. 10 LISA PRIAPI: Hi. I'm Lisa Priapi. And I 11 reside at 10325 West Lanktree Gulch Road. 12 And I'm going to offer some final thoughts. 13 We're here tonight to talk about how the Willowbrook 14 Development will impact all of us. We do believe in property rights, property rights for all property 15 16 owners to hold and enjoy their property. 17 There is a reasonable way for Willowbrook 18 to develop this property, but this current proposal is 19 not it. Mr. Phillips himself over 20 years ago 20

not it. Mr. Phillips himself over 20 years ago
envisioned and set in motion the pastoral community of
Hillsdale Estates and Monument Ridge. He designed 317
1 to 5-acre lots, 29 10-acre lots, the roads,
amenities, HOAs, et cetera, to align with his vision
for rural living, a place where people who desired this
rural lifestyle could live. He implemented this vision

21

22

23

24

25

1 over seven phases to what exists today.

Now he's dramatically departing from his long-term design. This is not phase eight of Hillsdale, a plan that should seamlessly integrate with the existing rural neighborhoods, but rather an incompatible, urban, multiuse development that injects 1,094 homes packed onto 314 acres, along with a golf course, sewage treatment facility, and commercial space weaving within and throughout an R-1 zoned rural neighborhood.

We end up with a development that appears like a densely crowded bedroom -- densely crowded bedroom communities that we expect closer to town.

This proposal bypasses the current Comprehensive Plan and City codes and doesn't consider the existing neighborhood, nor the people who live in Star.

Both the proposal and the Development

Agreement are incomplete and missing key information

needed to evaluate the plan and receive accurate input

from the public.

Next slide.

The plan puts a strain on a road infrastructure that can't support it and will come at the expense of the existing homeowners and Star citizens. Its dependent on the mitigation of many

roads that are either not funded for mitigation, do not have plans for mitigation, or just not possible to implement the mitigation required.

Even ACHD acknowledges the problem with the road infrastructure in their April 27th letter, stating that with the Wing Road extension and the golf course traffic only 213 homes can be built before exceeding the local street traffic limits.

It's concerning that the City staff report only calls out a single minor recommendation, and that is to slightly increase the size of the lots that abut the existing homes in these neighborhoods.

Your current Comprehensive Plan shows this as R-1, and Willowbrook should be required to have like kind development at a minimum of 1 acre lots. This approach would resolve all issues.

So we're asking, please, require 1-acre minimum lots for this development. Deny the annexation until we have the entire picture from Willowbrook. Fix the roads first and protect the residents -- current residents and the citizens of Star with a well-written Development Agreement.

We elected you to hold the vision of Star so that we can trust this process.

Thank you.

Okay. We have Ms. Abigail and 1 MAYOR CHADWICK: 2 then Mr. Greg Miller. I skipped you. Sorry. You're up here in 3 4 Sorry about that. the hole. Good evening, Mr. Mayor, Members 5 ABI GERMAINE: of the Council. For the record, Abi Germaine with 6 Elam & Burke, 251 East Front Street, Boise, Idaho 7 8 83701. 9 I'm here on behalf of the Hillsdale Estates HOA, Homeowners' Association. I will try and make my 10 11 comments very brief and not cover what's already been discussed. 12 13 I would refer the Council to the comments 14 that were submitted by the HOA on April 24th. gives a full outline of our position and some of the 15 16 issues that we're concerned with the application as 17 it's presented. I would note that those comments were 18 19 submitted prior to some of the information that's currently on the online site, so some of those comments 20 may be a little bit different based on that new 21 22 information. 23 There's three main themes I want to talk 24 One is the lack of detail, the traffic issues,

and the water.

25

As it relates to the lack of detail, what we have before you this evening is a request for an annexation and a rezone and an approval of the Development Agreement.

Based on the application that we have before us, I do not believe that the City Council can find that the requirements of an annexation and a rezone have been met because the Development Agreement and the conceptual Master Plan lack the details necessary.

In Star City Code it specifically states that in order to approve an annexation and rezone there must be a Development Agreement, and it must show building elevations, including front and rear, and a concept plan.

The concept plan that's attached to this application does not have sufficient detail for the Council to appropriately condition it in order to ensure that it meets the requirements.

In addition, the applicant has asked for several conditional uses to be approved through the Development Agreement. We recognize that that's allowable, that they don't have to come with the CUP, they can do it through the Development Agreement. But again, there's not sufficient detail on what those

conditional uses will be.

Tonight we even heard that the conditional use of the clubhouse will be changing to add the restaurant and to add the more commercial uses, and that hasn't even been considered by staff at this point. So we would ask that the Council consider that when deciding whether or not to approve the Development Agreement this evening.

As it relates to traffic, one thing that I haven't heard discussed is that the traffic studies and the agency reports do not address the impacts to the roads actually within Hillsdale's Estates, so it looks at the bigger ingress and egress roads and highways, but it doesn't look at what's actually going to happen if traffic has to go through Hillsdale Estates.

And then as it relates to water, I would say that we did hear a lot more information from the applicant as it relates to the reuse plan, but none of that is really included in the actual application and what is before the Council today.

So what we're doing is we're considering how there might not be impacts to water in the future if this kind of reuse program is approved. And there's a lot of condition -- there's a lot of permits and approvals that they need in order to do that. So today

we don't have any assurance that the Council is 1 2 confident that the resources there to support this development exist. 3 As has been noted, the Comp Plan that the 4 staff has reviewed this under is the older Comp Plan. 5 The Council, though, can certainly condition this in a 6 way that meets the future Comp Plan. 7 And with that, I would stand for any 8 9 questions. 10 MAYOR CHADWICK: Okay. Thank you. 11 We will go to Mr. Jim Junge. 12 JIM JUNGE: This is an increasingly difficult 13 act to follow. My name is -- my name is Jim Junge. 14 live at 24862 Valley Run Place, Star, Idaho. 15 I do not play golf. Let's go. 16 MAYOR CHADWICK: All right. 17 JIM JUNGE: Excuse me. I'm not going to be redundant with all the numerous, excellent points. 18 19 just hope you folks are getting this and not paying lip service to the people in this room, which is 20 21 unfortunately too often the case. 22 By the way, the traffic study that you 23 commissioned with Keller four years ago, okay, is 24 completely contrary to what our friends at Willowbrook

Okay?

are trying to put across to you.

25

The Keller report indicates many more vehicles on the affected roads than what Willowbrook is trying to lead you to believe. That's important.

The second thing here is I have a question.

The second thing here is I have a question. So we've heard about a lift station. Where is the outfall line from that lift station going?

I heard a nasty rumor that it was going to go down Purple Sage, through the front yards of some of the people on Purple Sage, cross Purple Sage, go through the back yard of a number of people on Sage Canyon Way. It's a rumor. I don't know. I would like you to find that out and address it, because that's important.

Also, let me say, make a comment about water. I want to see if I have this straight. So Willowbrook wants to take the fresh water from the aquifer and then replenish the aquifer with their treated water. And I -- I just -- I just find that absolutely crazy.

Okay. So to summarize and turn the mic over to somebody else with something else to say, given the lack of details. Given the lack of -- I mean you have the poster child for bad development here. And it's incumbent upon you to follow the law.

And with that, I'm going to quote

1 Councilman Nielsen from 2017. "The will of the people 2 is embodied in the Star City Code, Idaho State law, and Star's formally adopted Comprehensive Plan. While it's 3 4 normal that not everyone agrees with the laws of the land, the general will of the people is that elected 5 officials follow the laws and adopted plans for 6 growth." 7 8 Okay. What you've been presented with 9 tonight, and will continue to be presented here, is a 10 plea for people, by people, for you to follow the law, 11 okay, and deny this application as it presently stands. 12 Thank you. 13 MAYOR CHADWICK: Okay. Thank you. 14 Real quick, folks. We have a Okav. vehicle that's a Ford something that has a license 15 16 plate BUILT4U that is blocking a driveway, and it needs 17 to be moved or it's going to get towed, just so you're You can't block somebody's driveway out there. 18 aware. 19 Okay? I'm going to start with --20 All right. 21 we're going to go to Mr. Greg Miller before I go to 22 Mr. Derrell, just because I accidentally skipped you. 23 GREG MILLER: I have my speech in hard copy. 24 Do you want it for the record or --Yes, the clerk would love your 25 MAYOR CHADWICK:

copy for the record.

UNIDENTIFIED SPEAKER: [Unintelligible.]

GREG MILLER: Good evening. My name is Greg Miller. I live at 11950 West Deep Canyon Drive in Star.

I could go on for a long time, but I will try to focus on just a couple aspects. First of all, to be clear, I ask and encourage the Star City Council to not approve this annexation and related development. I briefly want to touch on traffic and required road changes if this development is approved.

There are quite a lot of streets that, according to ACHD, would need to be reclassified and/or widened. One in particular is Star Road. Right outside. It would need to be enlarged to five lanes.

To do so would mean the partial loss of two community parks, the parking lots of the school, the parking lots of two churches, including this one, and the back yards or safe setback spaces of numerous homes. That's just on one street quite far from the actual development, and it doesn't consider the cumulative impacts of other developments in the city either that are in progress and pending.

Most, if not all, of these road expansions are just not feasible. For that reason alone, this

project should be a common sense denial.

I also want to share a personal experience. Before moving to Star, I lived in a golf course community in a semi-rural area on the edge of town. The third hole was directly across the street from our house. And being at a higher elevation, that area had a great vantage of the city lights and views for many miles.

The developer owned that golf course, as well as a second golf course in another neighborhood about 1.3 miles away. It is very similar to our area with another golf course nearby off Highway 16.

For a dozen or so years they maintained both golf courses and even provided security to shoo away non-customers, especially teens who tried to gather on the hill on weekend nights.

Without any sign of trouble, the developer announced that both golf courses weren't making money. They closed them both down, and then immediately submitted to redevelop both areas with multistory, commercial, residential buildings, townhouses, and homes much smaller and not in harmony with the surrounding homes.

When the neighborhoods expressed their displeasure of the redevelopment, the developer doubled

down by eliminating most maintenance, letting the fairways and cart paths get overrun with weeds and scrub and cancelling their security.

In short order, that area became a teenage party zone. Every weekend, non school night, and all summer long, large groups of teens arrived to hang out on the golf course, play music, drink alcohol, smoke, set off fireworks, and cause a general ruckus. Every morning after, I would have to pick up it trash that was thrown in the street and in my yard.

Neighbors called the police numerous times for general dispersal. I personally called the fire department for one of two hillside fires that they caused. And I personally called the police to report a group that brought and brandished a gun.

Golf is a consistently declining sport. In my personal experience, two nearby golf courses shut down because they didn't make enough money to remain viable. Here Willowbrook is proposing a golf course as a selling point just down the road from another golf course that was a selling point.

I swear, developers must all attend the same yearly trade show and convention. Build a golf course, run it for a dozen or so years, and then shut it down and redevelop that land with even more crowded

1 housing to make even more money. 2 Please do not annex this land into the City of Star and do not approve this development. 3 Thank you. 4 MAYOR CHADWICK: Okay. All right. 5 So it's nine o'clock, guys. We're going to take a five-minute 6 7 recess to 9:05 to use the facilities, and then we'll 8 get back to the public testimony. 9 When we come in, we'll have Mr. Derrell 10 Foote and Lauralee Foote up here, and Ben Pelka, I 11 think. Video file silent from 1:56:49 to 12 (Recess. 13 2:02:02.) 14 MAYOR CHADWICK: Uh-huh. Okay. We're going to 15 call this meeting back to order. It's 9:05. And we will move on with the public testimony. 16 17 Mr. Derrell Foote advised me that everything has been said, what he wanted to speak, so 18 19 he does not want to speak. 20 [Unintelligible.] UNIDENTIFIED SPEAKER: MAYOR CHADWICK: Derrell Foote. So we'll move 21 22 on to, let's see, Mr. Ben -- I think it's Pelka. 23 Is that correct? Okay. And hang on one 24 second, sir. Then we've got a Kim Yanecko, if you'd come 25

1 up here for me. 2 And then Mr. Gordon Sonne, if you could come up here, sir, for me as well. 3 All right, sir. The floor is yours. 4 Please state your name and address, please, again, for 5 the record. 6 BEN PELKA: Ben Pelka, 2284 North Finsbury Way 7 8 in Star. 9 And I do not live up in that area. I live 10 down here just off of Munger. So I am not impacted by 11 what they're talking about, but I do appreciate the 12 immense burden that you are undertaking with this. 13 Is the project of value? I think it is. 14 But after hearing everything, I'm coming up with two 15 conclusions. One is there is a lot -- there are a lot of 16 17 unknowns that could really play into this whole thing. The developer tells you one thing, and five years later 18 19 something else mitigates them doing it, and you have to modify. And then you end up what you didn't want. 20 The other thing is it looks like a great 21 22 development, but maybe it's in the wrong spot. And I 23 really think that, that you're trying to stick an apple

I do appreciate -- one of the things I

24

25

in a bunch of oranges.

thought of is, Jeez, what if I live there and I've got 1 2 the -- I look at Top Golf and the lights, you know, as you come down the freeway. What if you're by that 3 driving range? What is the, you know, light pollution 4 going to be for you? 5 I was joking around. Maybe I would like 6 7 four of those little, small homes. And you know what? 8 I'm going to put them out on VRBO. Now I'm sure 9 they've thought about that. But I was in a condo 10 development over in Sparks, and it was really tough to 11 stop somebody from saying, "Well, you know what? Ι 12 have a hardship. I need to rent this out." 13 So is this going to be a development where 14 a lot of the property turns into rental property? And the gentleman, I think, stated what I 15 was also thinking of, where do you stay? You're not 16 17 going to attract somebody from Arizona or California or something to come here and golf. 18 I just -- I really 19 don't see that. I don't see that we have a destination yet for that here. 20 So there are a lot of pieces to this that's 21 22 making me, even though I live down here, feel really 23 uncomfortable about what's being proposed up there. just please consider it all. You're very smart people. 24 25 I know you love Star every much as I do, and I've only

This is why I moved here. 1 been here 18 months. 2 And I just hope that you go forward and have the wisdom to make the right decision. 3 Thank you. 4 Thank you. 5 MAYOR CHADWICK: Okay. Okay. Ms. Kim, state your name and address 6 7 for the record, please. 8 KIM YANECKO: It's a tough last name. It was 9 hard for me to marry into. 10 MAYOR CHADWICK: Hang on one second. 11 Then, Mr. Niles Nordquist, if you'd come up 12 here. 13 And, Mr. Doug Stewart, if you could come up 14 here, too, and sit down, that would be awesome. Thank 15 you. 16 Okay. Go ahead, ma'am. 17 KIM YANECKO: My name is Kim Yanecko, 18 13038 Skyview Street in Nampa. 19 My husband is 30-year L.A. County sheriff. I think behind me is probably a whole lot of people 20 that moved here from the C word, but that doesn't make 21 22 us bad people. And I think actually there are a lot of 23 us who don't want to see Idaho changing like it's 24 changing. What I'm seeing here tonight is a lack of 25

infrastructure or missing infrastructure before this development goes forward. So I'm going to talk about police -- policing.

How many sworn officers currently are on staff in Star? 11. Ada County -- I could be wrong, but I believe 11, because I looked it up today. Ada County Sheriff is contracted for law enforcement for services in Star.

The police national average says 2.4 sworn officers per 1,000 residents. The current population of Star is 12,912, according to the 2021 census, or whatever the stats were that I got today on the Internet. That would mean that there should be 31 officers that represent Star. And so you're already down 20 officers.

What will that -- what would the population be when the already-approved homes in Star are built? National average per -- for residency is 3.15 persons per household. So to bring staffing just to current, not including the homes that have already been approved. Retention equals pay, because we all know it's hard to keep cops here, right, because there's better pay elsewhere. Unfortunately, Idaho is lacking in salaries and benefits.

So the current salary for a three to

1 five-year experience plus benefits, do we know? 2 Average is 68,000 in Ada County, not including So times the 20 staff that you're under, 3 that's 1.6 -- or \$1.36 million. One-time impact fees 4 by this developer result in taxpayers absorbing the 5 needed infrastructure to have proper policing. 6 So people that move here expect that we are 7 8 going to be covered properly for safety. And I believe 9 that's lacking all over this state. 10 So Willowbrook alone requires an additional 11 seven officers, 500,000 on top of the current deficit 12 and staffing, and an adjustment for already approved growth, which I believe you guys haven't already 13 14 accounted for. 15 So who will police the community park that 16 they're trying to install and the -- the golf course 17 that they're talking about? That has to be covered. Kids will come up there. 18 That's just the way kids are. 19 I was one of them. Don't tell my husband. I know. Policing budget is based on Ada County 20 21 salaries. You have no control over those salaries, but 22 you're contracting them to do the work for you. 23 many additional hired already, approved development in 24 Star, how many of those have been already hired for the homes that you've already approved? 25

These cops are here. They're doing their 1 2 And they're risking their lives every single day. And it's not -- you guys are not protecting them, and 3 you're not protecting your citizens. 4 So real quick, all these people are here in 5 opposition. And the fact you have 800 people 6 7 signing --8 MAYOR CHADWICK: Time is up. Time is up, ma'am. 9 KIM YANECKO: -- I think gives you the clue that 10 this is probably not the time or place for this 11 development. 12 Thank you very much. 13 MAYOR CHADWICK: So I -- I'm going to invite you 14 after the hearing's over to call me and talk to me 15 about the policing, because we're very on top of the 16 policing in the City of Star. So I would encourage you 17 after June 20th when this is all done, contact me, and I'll give you a whole bunch of information on policing 18 19 in Star, because I'm passionate about that. 20 Gordon, are you here? Okay. 21 UNIDENTIFIED SPEAKER: He's right here. 22 MAYOR CHADWICK: There you are, sir. The floor 23 is yours. 24 And we have Mr. Niles and Mr. Doug Stewart, 25 are you up here Mr. Doug?

Okay. Go ahead, sir.

GORDON SONNE: Mr. Mayor, Council, Ladies and Gentlemen, my name is Gordon Sonne. I live at 12670 West Deep Canyon Drive, Star, Idaho.

All the folks that spoke before me tonight have covered 99 and 9 percent of the issues that we are facing right now. What I would ask you -- I'm going to get right to it.

Don't go along with this annexation and this R-2 zoning issue. And I'll tell you why, among others. Too many unknowns, too many promises, and quite frankly, I don't believe will ever be carried out.

We -- this is about the fourth time we've seen this movie, and it's always the same thing. Things change, change, change, change, and it's always the same thing. Trust us now, annex us in, give us the zoning, and we'll take care of it at a later date. There's too many unknowns. All the roads, all the lack of infrastructure, schools, everything. There's just not enough of it in place right now.

If Willowbrook wants to build up here, let them do all the infrastructure. Let them build all the roads. Let them do everything they want to do, then let them put in the golf course, and then see what goes

from there. I don't think it will happen.

And I'll tell you something else. It may not be accurate, but it was as of several months ago. I had a meeting with BLM, and at that particular point in time they didn't know anything about having a road out through the BLM. They didn't know anything about it. So I'm just saying, maybe things have changed in the last couple of months, but I don't think so.

Lastly, because I live in Hillsdale, I'm not in favor of this. I realize the owner, this guy Phillips, has a right to build on his property. I don't deny him that. But what I will say is that think about the residents of Star and what this is going to do to them, along with the other how many, 7700 more homes that are being built, and all the traffic that that's going to introduce into Star. Star is nothing but a parking lot now. How much worse can it get before you can't even back out of your driveway?

And then, Mr. Mayor, I'm going to ask you to recall a meeting that I came to, Niles came to, and Scott from Hillsdale came to, and among the conversations we had I asked you not once, but twice, "Can the City Council make Willowbrook adhere to the present day Comp Plan?"

You said not once, but twice, "We may." In

```
other words, you can, but you didn't say that you
1
2
    wouldn't. And I'm going to -- I took you at your word
    at that, that you may, the City Council may require
3
    Willowbrook to adhere to that -- to the new Comp Plan.
4
    I would ask that you do that.
5
                But first of all, until all these issues
6
7
    are cleaned up and there's more than just promises and
8
    "Trust me, I'll do this later on," make sure that all
9
    this is infrastructure.
                              If you go ahead and annex them
10
    in that this infrastructure has taken place.
11
                 If they want to -- if they want to build up
12
    there, let them stay in the county.
                                          The question is,
13
    why wouldn't they? Because there's no money in it if
14
    they have to stick to 1 acre per parcel.
15
           MAYOR CHADWICK:
                             Okay.
16
           GORDON SONNE: And I don't know about a golf
17
    course.
                             All right.
18
           MAYOR CHADWICK:
                                         Thank you, sir.
                           Thank you.
19
           GORDON SONNE:
20
           MAYOR CHADWICK:
                             Okay. Let's see.
                                                We got
    Mr. Niles.
21
22
           NILES NORDQUIST: Good evening.
23
           MAYOR CHADWICK:
                             Just real quick, is Doug
24
    Stewart here?
25
                Okay.
```

1 NILES NORDOUIST: Yeah. Mayor, Councilmen, 2 Councilpeople, Niles Nordquist, 4652 North Echo Summit Place, Star. 3 You've heard a variety of different 4 criticisms of what's been proposed here. 5 I would like to just focus on one aspect of it. And I think it's 6 7 primary to everything you're considering. 8 Right now you have a golf course that's 9 taking up one-quarter of the total site that you're 10 considering. It's taking up one-third of all the 11 developable land you're considering. And yet that 12 seems to have no influence on the number of homes 13 they're asking for. 14 The reality is this is a commercial 15 It's no different than an office park or any business. 16 kind of other commercial development. It is not 17 designated for residential development, period. It's not available for it. 18 19 You've heard the stories about what happens when a golf course goes down. If this whole thing 20 21 builds out and you have 1,094 homes here and the golf 22 course goes down, don't you think that developer is 23 going to come back in and say "Hey, I got R-2 zoning, 24 and I got 175 acres"? What will the -- probably not -- you might 25

not be sitting in this Council at that time. But what 1 2 would that do to the traffic up there? So I urge you to have a complete 3 4 reconsideration for how many homes are here, be it R-2 or R-1, as your Comprehensive Plan has. And you have 5 the prerogative to ask for that R-1. You have a reason 6 why R-1 is in your current Comprehensive Plan. 7 8 there's very good reasons. There's reasons why things 9 changed. Stick with what you have. 10 Thank you very much. 11 MAYOR CHADWICK: Thank you. 12 Okay. So we have David Welch is up, Russ 13 and Dorothy --14 UNIDENTIFIED SPEAKER: Smerz. 15 MAYOR CHADWICK: -- Smerz. Okay. Russ and Dorothy Smerz, if you'd come up here. And then Michael 16 17 Flanagan, please come up here as well. 18 DAVID WELCH: Good evening. 19 MAYOR CHADWICK: Mr. David Welch? 20 I'm David Welch. DAVID WELCH: Yep. 21 MAYOR CHADWICK: Okay. 22 DAVID WELCH: Good evening, Honorable Mayor, 23 Members of the City Council. For the record, David 24 Welch. I live at 4635 North High Prairie Place here in Star, Idaho. 25

I am a Hillsdale Estate resident. 1 2 actually don't really oppose the golf course. I did write a previous letter on April 23rd that was 3 submitted with your Council packet. I hope you all had 4 a chance to look at that, but briefly I'll provide some 5 updates on that. 6 My main concern really with this project is 7 8 that you're building a bunch of small houses 9 kitty-corner to my back yard, right where I live, on 10 Lanktree Gulch Road. I won't be able to see the golf 11 course. And it's not compatible with what's out there 12 already. 13 You've heard already tonight R-1. 14 guess what? Your current Comprehensive Plan, low-density residential, that's R-1, one lot per acre. 15 That's what we all want here. That's what we're 16 17 looking for. But, you know, this project here, there's 18 19 traffic impacts. I mean ACHD has basically said, hey, Lanktree Gulch Road will never be a collector. 20 21 no mitigation for that, other than to redesign the 22 project or reduce the density. That's what we're after 23 Reduce the density. We all want R-1. That's here. 24 what we want. And that's why I recommend that you 25 reject this proposal as currently planned.

However, if you're going to sell us 1 2 Hillsdale Estates residents out, please, I beg you, do me a favor, at least take -- where all those patios are 3 going to be right across from my view of the back yard, 4 at least make them minimum half-acre lots. 5 At least that would be consistent with staff's recommendation 6 for this project. 7 8 And I don't have a pointer up there, but 9 you can see all those homes in between High Prairie 10 Place and Ptarmigan Road are all patio homes there. 11 They're tiny. They're not compatible with the 12 surrounding uses there. So please, increase those to 13 larger lot sizes, and this might be more tolerable for 14 us. 15 But that's the reasons why I disagree with 16 this project, and I respectfully request that, you 17 know, Council take a look at planning to the current Comprehensive Plan, which you approved last year. 18 19 Thank you for your consideration, and 20 please do us proud. Make us proud Star citizens here. 21 Thank you very much. 22 MAYOR CHADWICK: Thank you. 23 Mr. Russ. 24 Is Michael Flanagan here? 25 Oh, you're right there in the front. Okay.

Russ, you've got the floor, sir. 1 2 And then is Ms. Dorothy going to speak, or just you? 3 RUSS SMERZ: Dorothy is not going to speak. 4 She 5 sent me up here. MAYOR CHADWICK: She sent you up here. Perfect. 6 Okay. And then we have Randy Biddle, 7 8 please come up here as well, if you're here. 9 Okay. Go ahead, sir. 10 RUSS SMERZ: Okay. My name -- my name is Russ 11 Smerz. I live at 4498 North High Prairie Place. 12 MAYOR CHADWICK: And will you do me a favor and 13 spell your last name for the clerk. 14 RUSS SMERZ: s-m-e-r-z. 15 MAYOR CHADWICK: Thank you. 16 RUSS SMERZ: It's like Smurf, but Smerz. 17 MAYOR CHADWICK: Smerz. RUSS SMERZ: And I'd just like to make a point 18 19 of clarification for the audience here. 20 MAYOR CHADWICK: But you've got to talk to the 21 phone. 22 RUSS SMERZ: I --23 MAYOR CHADWICK: You can't speak to them. 24 You've got to speak to the Council, and they'll hear 25 you.

Okay. If you'll look at that map 1 RUSS SMERZ: 2 up there, all that green property is not Hillsdale That surrounds Hillsdale Estates. 3 So correct me if I'm wrong on this, you are 4 not asking to annex Hillsdale Estates into the City of 5 Star? 6 MAYOR CHADWICK: Correct. The current 7 8 application does not annex in the current Hillsdale 9 Estate folks. 10 Okay. Well, I just want to make RUSS SMERZ: 11 sure everybody understands that, because I think most 12 of the people here are from Hillsdale Estates. 13 A couple of quick comments. This has been 14 going on for years. Several years ago Willowbrook got 15 the support of Hillsdale Estates because they agreed in 16 a Development Agreement to do matching lots to current 17 lots, 1 acre to 1 acre, 2 acres to 2 acres, whatever. Well, that's changed. 18 And now it's 19 half-acre lots to existing lots. Not what we want. 20 The first exception that Willowbrook asked 21 for in their list up there was to change it from half 22 acre to whatever was necessary in order for this 23 project to make -- make money for them, I would assume. 24 So what we want to make sure is that if 25 we're going to go and get the support of Hillsdale

Estates, we want matching properties. 1 2 Secondly, and they sort of blew by this Not many people, I don't think, are familiar with 3 4 the Pathways Project. Pathways Project, folks, is a group of citizens in Ada County -- and again, you could 5 correct me on this if I'm wrong -- who are developing a 6 pathway, similar to the Greenbelt, as a matter of fact, 7 8 it will attach to the Greenbelt, through Hillsdale 9 Estates. And that could go right through or by your 10 back yard. 11 And we're talking about whatever number of 12 people, dogs, whatever, going right alongside your 13 property that are not affiliated with Hillsdale 14 Estates. 15 So that's really all I -- I have. I want 16 these folks to be aware what Pathways Project is 17 because it is going to impact us. And to my knowledge, very few of the citizens here from Hillsdale are aware 18 19 of it. 20 So I urge you not to vote yes on this 21 project --22 MAYOR CHADWICK: Okay. 23 RUSS SMERZ: -- until we get clarification. 24 Thank you. Thanks, Mr. Russ. 25 MAYOR CHADWICK:

1 COUNCILWOMAN SALMONSEN: Sorry. One question. 2 MAYOR CHADWICK: Oh, okay. Mr. Russ, Ms. Jennifer has a question for 3 4 you. 5 COUNCILWOMAN SALMONSEN: So Pathways to Project, is that what you called it? 6 RUSS SMERZ: Yes. 7 8 COUNCILWOMAN SALMONSEN: And where would one 9 find information about this? 10 RUSS SMERZ: The way I found out about it is 11 going to a City Council meeting. 12 MAYOR CHADWICK: So this is -- you're talking 13 about our Parks and Pathways Committee that -- or I'm 14 sorry, Transportation and Pathways Committee creating our master pathway plan from the City. 15 16 COUNCILWOMAN SALMONSEN: Oh. 17 MAYOR CHADWICK: Not some other project. RUSS SMERZ: Well, doesn't it do all of western 18 19 Ada County? 20 MAYOR CHADWICK: No. 21 RUSS SMERZ: Is it just Star? It's just Star, yes. 22 MAYOR CHADWICK: 23 RUSS SMERZ: Okay. Well, we need to know what that is. 24 MAYOR CHADWICK: 25 Yep.

1	COUNCILWOMAN SALMONSEN: Okay. So
2	RUSS SMERZ: And in the presentation, their
3	presentation, it was unclear it was just something else
4	in addition to COMPASS, which I think most people are
5	familiar with. COMPASS is
6	MAYOR CHADWICK: It's a regional planning
7	transportation planning agency, yes.
8	RUSS SMERZ: Right, which are going to put all
9	of us on bicycles.
10	MAYOR CHADWICK: So this doesn't run our
11	stuff doesn't run through COMPASS on the Pathways.
12	RUSS SMERZ: I'm sorry?
13	MAYOR CHADWICK: Our stuff doesn't run through
14	COMPASS on the Pathways, just so you're aware.
15	RUSS SMERZ: Well, Pathways definitely.
16	MAYOR CHADWICK: Not on the Pathways, it
17	doesn't.
18	RUSS SMERZ: Okay, good.
19	MAYOR CHADWICK: Just so you know.
20	RUSS SMERZ: Good answer.
21	MAYOR CHADWICK: Okay. All right.
22	RUSS SMERZ: Thank you.
23	MAYOR CHADWICK: You're welcome.
24	COUNCILWOMAN SALMONSEN: So, Mayor Chadwick, I
25	would add, for anyone in the audience, if you're

1 interested, I believe you're referencing the City of 2 Star Transportation and Pathway Committee. And we do 3 have a Master Pathway map. And so if you're interested in viewing 4 that, you can go to the City of Star website and look 5 at the -- and view the map. So I will just put that 6 info out there. 7 8 MAYOR CHADWICK: Yeah. 9 RUSS SMERZ: Thank you. 10 COUNCILWOMAN SALMONSEN: Thank you. 11 MAYOR CHADWICK: Okay. Thanks, Russ. 12 Okay. We've got Mr. Michael Flanagan. 13 we have Randy, Kelsey Roy -- Royball and Scott Emerich 14 down here in the hole. 15 MICHAEL FLANAGAN: My name is Michael Flanagan. 16 And I'm at 12076 West Deep Canyon Drive in Star in this 17 part of Hillsdale. I object to Willowbrook's development plan 18 19 as proposed. Allowing a mixed-use development in this residential area would be a mistake that would have 20 21 long-term negative consequences for the residents of 22 Star. 23 The subject area is nowhere near contiguous 24 to any current mixed-use parcels in the city of Star. Allowing a mixed-use rezone would establish a precedent 25

1 in the City of Star, and would likely open the 2 floodgates for additional developers to request mixed-use rezones in Star's areas of City's impact 3 lands. 4 Star's Comprehensive Plan states that the 5 commercial ventures ought to be near major 6 transportation corridors and other commercial areas. 7 8 bar, a restaurant, and other commercial enterprises 9 miles from downtown Star and State Highway 44 is 10 contrary to the precepts of Star's Comprehensive Plan. 11 The Star City Council recent zoning changes 12 specified that the Willowbrook property should be 13 developed with a single residential house per acre. Ιt 14 did not envision commercial ventures like those The Comprehensive Plan does not envision 15 proposed. another sea of roofs in these beautiful foothills. 16 17 Willowbrook's development proposal is akin to the Kevin Costner movie Field of Dreams, "Build it 18 19 and they will come." The "it" is the golf course. 20 In one of the earlier public information meetings, Nate Mitchell, Willowbrook's spokesperson, 21 22 stated that the golf course was a breakeven affair. He 23 said they would spend \$20 million developing this 24 course.

It's obvious that this breakeven venture is

25

merely to attract people to purchase homes in a proposed Willowbrook Development and fill the coffers of the other planned commercial enterprises. Doubtless many of the future owners of the patio homes surrounding the golf course will not be full-time residents, rather the owners will be renting out these patio homes on a nightly/weekly basis in order to fray the cost of acquisition and maintenance.

In fact, these patio homes will likely be investment properties for many owners, who expect to gain positive cash flow from the rental of these units and subsequent appreciation.

Is Willowbrook Development asking the surrounding full-time property owners to endure ruckus parties on the weekends where Treasure Valley high schoolers, college students, young adults party it up into the wee hours of the morning? This is not what should happen in an R-zoned neighborhood.

I imagine if Willowbrook Development understood that these patio homes would not be permitted, they would not invest the money to build a golf course. Star City Council is not in the business of enabling business models. Clearly this proposal is a complex business model which requires all elements of what they propose to be approved in order for them to

undertake this grand plan, starting with the golf 1 2 course. Let this foothill area of Star be an 3 4 example of a premier Treasure Valley residential neighborhood, not a Disneyland in the foothills of 5 Southwestern Idaho. The Treasure Valley is not like 6 Detroit, Michigan, where cities needed to incentivize 7 8 development. I see no reason why there should be any 9 deviations from the Comprehensive Plan as requested by 10 Willowbrook Development. 11 I feel it behooves the City of Star to 12 respond and address the varying issues raised by the 13 letter submitted by Elam & Burke, attorneys at law. 14 The City of Star, Ada County, and the State of Idaho is 15 a documented public process that must be followed. 16 MAYOR CHADWICK: Mr. Michael, your time's up. 17 Your three minutes is up. 18 MICHAEL FLANAGAN: Thank you very much. 19 MAYOR CHADWICK: Appreciate it. Thank you. 20 So we got Mr. Randy. Then we have Cash, 21 are you here still? You're on -- on -- down here in the hole, sir. 22 23 RANDY BIDDLE: Mr. Mayor, Members of the City 24 Council, thank you for the opportunity to come before

25

you.

I have no prepared remarks this evening. 1 2 And I want to commend all of the speakers who preceded me for their research, their articulate present- --3 MAYOR CHADWICK: Oh, I'm sorry. State your name 4 and address -- it's been a long night already. 5 your name and address for the record. 6 Randy Biddle, B-i-d-d-l-e. RANDY BIDDLE: 7 MУ 8 wife and I live at 10623 West Wild Iris in Star. 9 MAYOR CHADWICK: Okay. 10 RANDY BIDDLE: Just a few blocks from here. 11 Once again, I'd like to commend those who 12 spoke before me for their research, for their 13 thoroughness, for their passion, and for their 14 articulation in opposition of this patently absurd project. And I want to enjoin my voice with theirs in 15 16 serious opposition to this being approved. 17 On the one hand, I'm amazed that it made it this far in your deliberations. 18 But on the other hand, 19 based on what my wife and I have experienced as nearly six-year residents of Star, I'm not surprised at all. 20 21 Out of respect for the gentleman who 22 preceded me, sort of stole my thunder that this concept 23 of the golf course as a Field of Dreams project, I 24 think that's an apt metaphor. I try to put myself in the position not being a golfer, if I were a golfer, 25

would this be a destination for me? And I think the answer is obvious. Of course it wouldn't be.

There are no other amenities. There are no high-end restaurants. There's no high-end shopping district. There are no hotels. There's no place to stay. There's no place to park. And to get here, I have to wrangle my way through all the traffic issues that this golf course has inflicted on the people who already live here. So I think it's terribly ill-advised.

And I would echo my friend Niles Nordquist, who's been up here I think almost 14 years, I think there's a very high likelihood that this golf course will fail for the reasons I just mentioned.

People might come here once. But are they going to come here a second time to play golf? They got lots of other better choices for all the reasons I listed.

So I think it's likely to fall into disuse, which means the maintenance will degrade, and it will be abandoned. And as has been stated earlier, having the benefit of the -- what is it? -- R-2 designation, the developer owns the property, they can come back and pepper it, carpet bomb it with as many houses as they want to under that new R-2 ruling.

The last thing I'd like to say is that not 1 2 much has been said by those of us who live south of Floating Feather. And we will bear the burden that 3 4 being downstream metaphorically of a bad idea, that we will bear that burden. And I would hate to see that 5 for the community. 6 Star is poorly planned. It's poorly 7 8 executed. And we need people who can do a better job. 9 Thank you. 10 MAYOR CHADWICK: Okay. Let's see. Ms. Kelsey. 11 UNIDENTIFIED SPEAKER: [Unintelligible.] 12 MAYOR CHADWICK: Everything's been said? Okay. 13 UNIDENTIFIED SPEAKER: [Unintelligible.] 14 MAYOR CHADWICK: Royball, it's going to be on this list right here. 15 Okay. Scott Emerich, is he still here? 16 17 Surprising. 18 Okay. Cash or John. State your name and 19 address. 20 My name is John Pickens. JOHN PICKENS: Mу address is 10200 West Scenic View Lane. 21 22 Mr. Mayor, City Councilmembers, thank you 23 for the time. 24 I own the property that Willowbrook wants to cut through to make Star -- or Wing Road a 25

So mine is a tale of bait and switch, 1 connector. 2 which, I know, it's a shocker. Most developers never do that. 3 But -- so Mr. Phillips purchased the 4 5 acres behind me and has an easement up my driveway, 5 which is great, to access his property. And I was told 6 it was just by him himself that, "Oh, we're just going 7 8 to -- I just need it in case we need to put water and sewer up there." Not a connector road that has, oh, 9 10 let's just be conservative and say 8,000 cars a day, 11 40 feet from my front door. So you can understand 12 sometimes why I don't sleep at night when I think of 13 that. 14 And, you know, the rest everyone says it so 15 well. The traffic is crazy, and that's just what we 16 need more of. 17 Anyways, thank you for your time. 18 MAYOR CHADWICK: Okay. Thank you. 19 Do we have Bob Lenigan? 20 You're up next. 21 We have Christine Welch, and then Ron Stout, if you could come up here to these seats, 22 23 please. 24 UNIDENTIFIED SPEAKER: [Unintelligible.] 25 MAYOR CHADWICK: Yes, you're up, sir. Yeah,

Hang on a second. 1 absolutely. Okay. You got to come 2 to the microphone for us. State your name and address for the record and then --3 BOB LENIGAN: Bob Lenigan, 10605 West Deep 4 Canyon Drive. Twinkle, twinkle. 5 MAYOR CHADWICK: Okay. Go ahead. 6 BOB LENIGAN: Okay. I'm 100 percent opposed to 7 8 this proposal. Number one, it's an open contract. And 9 if there's anything that you guys should know, it's 10 business. And there's nothing in there that makes them 11 do anything. Nothing. You're insulting us. 12 I'm an old businessman. I had -- I did 13 pretty well. I retired at 52. And I did capital 14 equipment. You guys are just -- you -- you people are all like Californians. High density, love that high 15 16 density, no respect for what we had. 17 This is an open contract. I remember when I came here over 20 years ago there was a little sales 18 19 office down the road here. And in there there was the plat. And the plat said that there was going to be 5 20 and 10-acre for the rest of the material -- the rest of 21 22 the project. 23 You guys are -- you go look at history, 24 because what you guys are doing is wrong, damn wrong. And I came out here from Connecticut. And I had high 25

1 density. And I came out here to enjoy the countryside. 2 And then you guys come in here with your California attitudes, and it stinks. 3 I'm sorry, but I'm -- I'm an old fart, and 4 I'm just damn sick and tired of this type of bullshit. 5 Excuse my French. We don't need it. We don't need any 6 of this. 7 And if you annex Hillsdale, think of how 8 9 many people are here. And they'll be thinking of you. 10 That's it. 11 MAYOR CHADWICK: Thank you. All right. Guys, 12 like I said, civility. 13 Okay. We have Ms. Christine. 14 CHRISTINE WELCH: Good evening. I'm Christine Welch. Address is 4635 North High Prairie Place. 15 16 And Honorable Mayor and Councilpeople, 17 thank you for letting me be here to speak tonight. I went to the trouble of making signs for 18 19 It was going to be a mostly peaceful and the protest. slightly fiery protest. And my favorite one is back in 20 21 the corner. It says, "Please don't Californicate 22 Star." 23 So on that line, I just wanted to hold up this sign, which says, "Hold the Vision, Trust the 24 This is from Star's own, you know, City 25 Process."

So hold the vision, trust the process. 1 page. 2 When I look at the Willowbrook Master Plan, 3 I don't see a process. I see greed. It's the greed of a developer. And I understand it's a business and 4 things have to pencil, but does he have to be so 5 greedy? 6 I just don't see that this development fits 7 8 with our neighborhood. Again, it's putting apples --9 it's surrounded -- we're surrounded with a totally 10 different neighborhood than what they want to include 11 And all of the issues, every single issue would now. 12 go away if they just zoned it as R-1. It's like R-1 is 13 the magic number. 14 So I realize that the developer can by 15 right build, and I realize that you're all favorable to 16 the development because tax reasons. I understand how 17 the world works, and I understand that oligarchy is a 18 thing. 19 But it would be nice to have the voice of 20 the people heard. And the people are saying please, do 21 not approve this in its current form because it just 22 doesn't fit and it -- the density does not work. 23 So thank you for your time. 24 MAYOR CHADWICK: Okay. Ron Stout. And then we have, let's see, Steven, is it 25

1 Prichlin? Lives on Echo Summit. 2 STEVEN PACKARD: It's Packard. Okay. You're down here, sir. 3 MAYOR CHADWICK: And then Pam Slendorn. You're over here as 4 5 well. All right, sir. Please state your name and 6 address for the record. 7 8 RONALD STOUT: Ronald Stout, 6227 Purple Sage 9 Road. 10 And to the gentleman who didn't like 11 California ideas, I'm from California also, and I'm 12 against this project. We live on Purple Sage, and in 13 the last year three homes sold across the house -- or 14 the road from us, and they sold for 1.1 and 1.6 million. And widening that road and taking part of 15 16 our property will have an impact on us. And who will 17 compensate for the decrease in property values? And I come a little bit experienced with 18 19 that. We come from California. I had a beautiful walnut ranch right on the Kings River. Jerry Brown's 20 21 high-speed train came through. It was projected to 22 start in 2012. Supposed to be up and running. 23 don't even have the middle third done yet. We fought 24 them for four years. They only wanted to pay for the 7 acres that ran through our property. 25

They bought the whole farm. 1 And we got an 2 attorney out of our law firm who is excellent out of Las Vegas, eminent domain, and they paid for 3 everything. The train came a quarter of a mile from 4 our house, noise from the train, the vibration in the 5 ground, they compensated everything. 6 Who's responsible for the fees if there's 7 8 litigation? Is it going to be the taxpayers or the 9 City of Star to defend the Council's decision, or will 10 it be the developer who's trying to widen these roads 11 to five lanes? 12 I see that they're paying the City impact 13 fees for fire and sewer and police, but there's no 14 compensation to the property owners for the impact on 15 their lives. 16 That's all I have to say. And I'll be glad 17 to talk to anyone about my experience with eminent domain. 18 19 MAYOR CHADWICK: Thank you. Okay. 20 Mr. Steven. Please, when you -- spell your 21 last name, too, when you're up here, sir. 22 STEVEN PACKARD: Steven Packard, P-a-c-k-a-r-d. 23 MAYOR CHADWICK: Well, that's easy to say. I 24 just couldn't read it. Thank you, Mayor and Council. 25 STEVEN PACKARD:

I live on 6052 North Echo Summit Lane. 1 2 I've listened to all the testimony. I'm an Idaho native, born and raised. 3 That's not a big 4 issue with me. We're all neighbors, and I love my neighbors up there. I don't know if anybody's really 5 looked at this. 6 So my question is, I live there. 7 8 question would be to the Council: Have you drove up 9 Deep Canyon Lane? Any of you, have you drove up there? 10 It's beautiful, but it's a windy road. If you look at 11 this, there's not a straight road up there. And it's 12 bordered by BLM land. 13 And 16, our neighbors to the north in 14 Emmett, it's increasing traffic. And I can't even 15 imagine 1200 more cars coming down Deep Canyon Lane to 16 get on 16. It will be backed up to my house. But it's 17 a wonderful idea. I'm just saying that it should stay There's -- it's just not a grid. 18 with R-1. 19 doesn't fit. 20 Thank you. MAYOR CHADWICK: All right. Thank you. 21 Thank 22 you. 23 Is this still on? Can you guys still hear 24 me? Okay. All right. Ms. Pam. And then hang on one 25

1 sec here. 2 Mr. Dave Blanchat. Everything's been said already. 3 DAVE BLANCHAT: MAYOR CHADWICK: Okay. Thank you. 4 PAM SLENDORN: Before you start my time, I 5 wanted to --6 MAYOR CHADWICK: Well, we're not starting your 7 8 time yet. 9 PAM SLENDORN: Oh. 10 MAYOR CHADWICK: So hang on one sec here. They 11 shouldn't start your time yet. 12 PAM SLENDORN: No, not yet. 13 MAYOR CHADWICK: Okay. And then, Kenneth 14 Richardson, come up here, please. And then Kathleen 15 Northrop. 16 Okay. Go ahead, ma'am. State your name 17 and address for the record. PAM SLENDORN: Well, I just want to say that I'm 18 19 pointing out those where all the houses want to be built, like --20 21 MAYOR CHADWICK: You got to state your name and 22 address first for the record. 23 PAM SLENDORN: Pam Slendorn, 5089 North Golden 24 View Court, of course Star, or I wouldn't be here. MAYOR CHADWICK: 25 Okay.

PAM SLENDORN: Okay. So the Idaho code. The Idaho statute code regarding the property rights component requires an analysis of provisions which must be necessary to ensure that land-use politics, policies, restrictions, conditions, and fees do not violate private property rights, adversely impact property values, or create unnecessary technical limitations on the use of property and analysis, as prescribed under the Declarations of Purpose in Chapter 80, Title 67, Idaho Code.

Background analysis: Private property rights encompass not only the right to develop, invest, achieve, and profit from property, but also the right to hold and enjoy property. Property rights must balance the individual's desire to do whatever I want with my land with the respect for the property rights of neighboring owners. And that's your Idaho statute code.

This is the -- outside the golf course, this is the first where a proposed subdivision is completely coming in, taking over, and intertwining in another subdivision. Normally a sub would abut another sub on flat land, but this one completely affects all the roads and canyons and way of life for over 350-plus homes and natural habitat in the -- in the canyons, and

not only Star streets and the traffic.

Most of the areas where they want to put
the homes are in deep canyons, some of which have never
been walked on and are typically not flat development
land. They are deep canyons, some in excess of
25 percent. We have roads that are not very wide, are
curvy, no sidewalks, no solid fences, and no
streetlights, homes abutting the canyon with wildlife
and natural habitat.

It is not conducive to the amount of homes they want to build within the existing subdivision.

There also has been no study done on the impact of the roads within the existing subdivision. This also completely would devalue their property.

City's that still need to be done: Soil or engineering tests done in the canyons where the homes they want to build abutting the other homes are pretty steep, water drainage studies. We also have water drainage easements where they have proposed housing.

There has been no study done on the impact of the roads within the existing subdivision. So all those windy roads you see in and out and no sidewalks, there has been no study done on these roads for traffic. And you're talking -- we have within the two fingers there, there's only like not even 250 homes,

and then you want to put the other fingers, you want to 1 2 put over -- what did we say? -- 1400 homes, and then you want to put them on all these little roads with no 3 4 sidewalks, no streetlights, and people can't even ride their bikes now, and you want to put all that traffic 5 in on there. 6 So I'm telling you this is not only 7 8 dangerous to children and pedestrians, but the 9 community. 10 Oh, dammit. 11 MAYOR CHADWICK: That's time. 12 PAM SLENDORN: Can I just conclude? Just my 13 conclusion, just really quick. 14 MAYOR CHADWICK: No, that's okay. No. You get 15 three minutes. But I would suggest that you just hand that over to the clerk --16 17 PAM SLENDORN: I know. But let me just say ---- so we can include it in the 18 MAYOR CHADWICK: 19 record. 20 PAM SLENDORN: -- if you don't approve --21 MAYOR CHADWICK: No. Ma'am, ma'am, no. It's 22 three minutes, and that's it. I'm sorry. So you could 23 hand that to the clerk. Thank you. 24 Okay. Mr. Dave Blanchat. Oh, I'm sorry, 25 you already told me that. I apologize.

Kenneth Richardson. 1 2 KENNETH RICHARDSON: Thank you, Mayor and Council. 3 Kenneth Richardson, 11370 West Lanktree 4 Gulch Road. 5 If I owned the property, I'd want to 6 7 develop it. I do love golf. A golf course will not 8 work there. I'm flying to Ireland actually Monday to I come from California. 9 play golf. I've seen golf 10 courses just fail. Okay? 11 If this golf course was so great, there 12 should have been a Harvard Business School study to 13 prove how fantastic this resort area would be. And if 14 you Google right now, you'll find six Tom Weiskopf's 15 public golf courses, and most of them are in resort 16 areas that offer skiing or some other type of 17 entertainment. So the driving range will be right abutting 18 19 my 10 acres, along with the maintenance shed. I've been on a lot of golf courses. 20 They put the 21 maintenance shed and the driving range near the 22 clubhouse, at a lower part of the clubhouse so that 23 they can get food and everything else. So I don't even

Number 18 or whatever I'm on, the traffic,

24

25

understand this design.

1 the studies, are just ridiculous, because you are in 2 la-la land. I mean I would just advise you and your traffic people to go down and watch the rodeo and see 3 4 what that traffic does on 16. That's what you need to go do --5 MAYOR CHADWICK: Please. 6 KENNETH RICHARDSON: -- if you want to get a 7 8 real study. 9 MAYOR CHADWICK: Hey, people online can't hear you speaking when you're clapping. Let him finish his 10 11 comments, please. 12 KENNETH RICHARDSON: As far as the water goes, I 13 just went down another hundred feet to hit water. 14 So I was at 380. Now I'm at 480. Okav? Okay? 15 when you say your water study's not going to be an issue, there will be an issue. 16 17 And this is all preliminary. Once --18 once -- if you approve this, once you -- if you do, 19 then the litigation's really going to start. Because that's when you're going to find out that 20 you're not meeting code, you're overriding your 21 22 decision and your legal obligations. 23 So I just -- you know, everybody that's 24 done the work before that brought in all the legal documentation, I appreciate it. But if this gets 25

```
approved as is, that just is going to start.
1
2
    all -- I'm all for R-1. If I owned it, I would develop
         I get it. You know, my constitutional right.
3
4
    actually created my constitutional right to pursue my
                That's why I bought that house.
5
                I have horses, I love to hunt, I love to
6
7
    fish, and I love golf. Right? So you created my
8
    pursuit under the constitution to pursue my happiness.
    Right? Now you get to pursue yours also, but keep it
9
10
    under R-1.
11
                Thank you very much.
12
           MAYOR CHADWICK:
                             Thank you.
13
                Okay. Ms. Kathleen Northrop.
14
           UNIDENTIFIED SPEAKER:
                                   [Unintelligible.]
15
           MAYOR CHADWICK: And then I also -- what?
16
           UNIDENTIFIED SPEAKER: What was his name
17
    [unintelligible]?
18
           MAYOR CHADWICK:
                             Yeah.
19
           KENNETH RICHARDSON: It was Kenneth Mark
    Richardson.
20
                                    Kenneth Richardson,
21
           MAYOR CHADWICK:
                             Yeah.
22
    11370 West Lanktree Gulch Road.
23
           KENNETH RICHARDSON:
                                 Yes.
24
           MAYOR CHADWICK:
                             Okay. We got Ms. Kathleen and
    then we have -- is it Marci Miller? Are you still
25
```

1 here? 2 Okay. And then we have -- that was all the 3 sign-ups. All right, Ms. Kathleen. State your name 4 and address, please, for the record. 5 KATHLEEN NORTHROP: Kathleen Northrop, 6 11334 West Collina Vista Drive in Star. 7 8 MAYOR CHADWICK: Okay. Go ahead. 9 KATHLEEN NORTHROP: Thank you, sir. 10 Mr. Mayor and the Council, I wanted to 11 bring up some present, current day things for 12 consideration. 13 We live in Collina Vista, which is right 14 off New Hope road, which is adjacent to Wing, Beacon Light, and just down the street from Can-Ada. 15 16 Current state, there are seven subdivisions 17 that are started, not completed, broke ground on Beacon 18 Light itself. There are two on New Hope. If you just 19 do an average of 100, you're looking at 900 homes right That's already been approved. 20 That's in 21 progress that's going to be using those roads. 22 So that traffic impact is huge before 23 taking on this project. And these roads, there was no timeline presented here. We have no status. 24 So as the question -- first question out of the box would be the 25

We have

roads to support this influx of traffic to support this 1 2 project, when would those be developed? We don't even have enough right now from what we've got. 3 How are we going to support that? 4 And the second thing I was going to bring 5 up was with respect to fire. There's supposed to be a 6 fire station going in at Plummer and Floating Feather. 7 8 That has not even broken ground yet. 9 We experienced a construction fire up by 10 Collina Vista. Response time was seven-and-a-half 11 minutes. If you put in the hundred -- the 900 homes, 12 the oncoming traffic, currently we don't have Brandon, 13 but all of those traffic obstacles, and you don't have 14 a fire station, which I'm quessing is probably going to be another 18 months to two years, you're probably 15 16 looking at ten-minute response times, as opposed to the 17 current seven-and-a-half minute response times. So those are things' current state, if you 18 19 could please take into consideration, because we're not in support of the project. We like the country 20 21 atmosphere that we have here with our neighbors. 22 Thank you very much. 23 MAYOR CHADWICK: Okay. Thank you. All right. 24 Marci Miller. She's not here. All right.

And we are done with the against.

25

```
a whole bunch of folks that will be part of the record
1
2
    with their names and addresses for Jacob later on
3
    there.
                We're going to do a five-minute recess
 4
    again for a facilities break before we head into the
5
    next group of letters -- I'm sorry, speakers.
6
                                                    So at
    10:01, we'll recess until 10:01. It's 9:56.
7
8
                 (Recess. Video file silent from 2:54:03 to
9
           3:00:00.)
10
                             I just got to wait a second for
           MAYOR CHADWICK:
11
    Shawn to get up here.
12
                             It's 10:03, and we're going to
                Excuse me.
13
    resume the public hearing process. We're on to the
14
    neutral sheet here.
15
                I do have Michael Keyes will be up, and
    then Chris Todd, and then a Peter Albinsen, I believe,
16
17
    then Steve Burton and Nita Metro.
                                        If you could all
    just come up here to the front. That's all we have
18
19
    left to testify. That would be fantastic.
20
                 Is Chris here or -- are you going to come
21
    up here to the front?
22
           UNIDENTIFIED SPEAKER:
                                   [Unintelligible.]
23
           MAYOR CHADWICK:
                             I'm sorry?
24
           UNIDENTIFIED SPEAKER:
                                   [Unintelligible.]
25
           MAYOR CHADWICK:
                             That was at the very beginning,
```

and there was nobody that signed up, correct.

Okay. All right. Mr. Michael, if you'd please state your name and address, please, for the record. And then Shawn will get the timer going.

MICHAEL KEYES: Honorable Mayor and Council, my name is Michael Keyes. I live at 338 South Long Bay Way. And unlike the vast majority of people you've heard tonight, I actually live in the city limits of Star.

Now, there can be no doubt that this area will eventually be developed. Star's future limits -Star's future city limits are well defined on three sides, and it's only logical that the City gains developmental control of the parcels related to this project to control Star's very destiny and ability to grow for decades to come.

But there's a giant something or other in the punch bowl here. The TIS and the ACHD staff report bring up many troubling issues that must have defined resolution before this project is approved in its current configuration.

Ironically, Mr. Phillips and Mr. Mitchell have both had a role in the decades-long history of defining our current inadequate transportation planning in that area.

However, in my opinion, they've done an admirable job in marshaling the agencies and doing the infrastructure planning for most other areas of the project. The issue of supplying police and fire protection, utilities, electricity, gas, telecom, municipal water and sewer, and irrigation water have been addressed, and reasonable plans are in place to accommodate them.

The agencies and other entities that must do so are on board and are able to perform. And certainly schools and school overcrowding are an issue, but there are definable, though not trivial, paths forward to address those. One outstanding issue regarding schools, though, is the location of an elementary school parcel within the project.

And, Mr. Mayor, you mentioned earlier about guaranteeing a parcel, and I hope you'll follow through on that.

The sole outlier, though, is that there's still no reasonable defined path forward for the Willowbrook area transportation network. This Council must take steps to ensure that an adequate transportation plan is in place to accommodate whatever project and whatever configuration moves forward in this area.

MAYOR CHADWICK:

While I'm in favor of the City gaining developmental control over the project area, I'm neither in favor nor opposed to the particular project. But I'm adamantly opposed to any project moving forward in this area without an adequate transportation network being well defined. Now, I heard some comments earlier, and I wanted to address a couple things. When it was asked if this was in the best interest of the City, I think that the City maintaining a growth path to its north I think is in the best interest of the City. Wing Road being extended through the current City park, if that happens, could be an issue. I know three of you were here when the City made a commitment to not do that. If you decide to change that, I hope that the citizens of Star get something really good in return in that detail. If we do put a road through the BLM land, I certainly hope that we can maintain our ability to go out there and still do target practice. And there was some discussion about the golf course being redeveloped. And in order to prevent a bait and switch -- and I'm sure a developer will say that will never happen.

Time's up, Mr. Michael.

Please consider having the 1 MICHAEL KEYES: 2 developer dedicate the redevelopment, redevelopment rights to the future HOA. 3 Thank you. 4 MAYOR CHADWICK: So if you don't mind, pass that 5 in to Mr. Jacob. Oh, that looks like it's tied. 6 All right. Chris Todd. 7 Okay. CHRIS TODD: Evening, Mayor, Council, Chris 8 9 Todd, 10497 West Deep Canyon Drive. 10 I have the privilege of living on one of 11 the busiest roads within Hillsdale. My lot is across 12 from the equestrian center near some of these 13 transition lots. 14 I'm here to ask that if this project is 15 approved that the lots that surround Hillsdale are true mirrored lot sizes of what's currently there. 16 17 I'd also ask that the housing be designated The reason for that, I think it will give the 18 19 Weiskopf group an opportunity to come in and actually redesign a course that meets a championship-level or 20 21 tournament-level golf course. I've been lucky to play 22 golf my entire life. 23 I want to go with Ken on Monday, if you 24 have any extra room. I'm a good caddy. The plan that Willowbrook has shown is very 25

basic, I would say bland, not a tournament-style golf course. I would say it's more similar to Eagle Hills than maybe a Banbury or a Spurwing. I think that the site lays itself out properly for some elevated and planning of the golf course to take into accord some of the land that they're not using to the southeast.

Also, the natural draws to the north of the current Deep Canyon lend itself to par 3s or par 4s similar to what's at Quail Hollow. All of these things, I think, could be roughed out and looked at in a different way.

The course, as it is right now, has 16 out of 18 holes that are fronted on -- or both sides of the hole have homes on them. I know that some of my friends would be taking out windows at least every nine.

Highway 16, I've been a canary in the coal mine on this since I moved into the city of Star eight years ago from the big city of Eagle. Highway 16 is a killer highway. The environmental study has not been completed. We hear rumors that it might be funded, but it hasn't commenced.

The improvements and connections to Aerie
Way and Spring Valley to the east need to be vetted,
studied, and an actual plan to be presented to the City

so they can understand what this transportation route 1 2 will look like in the future. The transfer of BLM land and working with 3 4 the federal government is a time-consuming process, and I come out of experience with that. 5 There is vested interest, I understand, to 6 7 develop to the north and to maintain the City's natural 8 progression to the north, as well as to our governor's 9 land that's between Chaparral and Deep Canyon for 10 future extension along that Purple Sage or Aerie Way 11 connection. This connection needs to be shown as an 12 actual plan to the City. 13 With that, I stand for any questions. 14 MAYOR CHADWICK: Okay. Thank you. 15 All right. We have Mr. Peter Albinsen. 16 PETER ALBINSEN: Mr. Mayor, Councilmen, my 17 name's Peter Albinsen. I live at 11951 West Lanktree Gulch. 18 19 And I came in here as neutral. And after hearing a lot of the very well done research a lot of 20 21 these folks have done, I am not at all neutral anymore. 22 It's -- it doesn't make any sense. And I've always 23 known that. 24 I came here 25 years ago. I'm a native I just finally, you know, made enough money 25 Idahoan.

And everybody thought I was crazy, 1 to buy some land. 2 because Star was just a little blinking light there at the intersection. 3 And I was amazed to see the old farmers 4 sitting, you know, in their -- those little folding 5 chairs, you know in the Star Merc drinking the coffee. 6 And I'd just look at them and go, Wow, Pheasant 7 8 Hunters' Breakfast was coming and all these fun things. 9 And it was just really neat and special. 10 And, you know, it's just a little dopey Idaho town. And it should stay that way. 11 You know, we 12 don't have to be big boys here. We can have a nice, 13 little, country town and try to maintain some of that 14 rural feel, you know. We really ought to think about 15 A little -- just this is your chance to really be it. 16 the -- you know, not the -- I'm trying to think of the 17 word here. It's getting late. I should be in bed. But it's really and truly your guys' chance 18 19 to, you know, keep Star and make it a real destination type of place, not a destination place for people to 20 21 all come live, because when I was here, nobody was 22 here. And now you all are here, and it's changed 23 dramatically. But the biggest thing is if you just look 24

at that land it should definitely be R-1 at the most,

25

because development's going to happen. 1 2 inevitable. We all know that. It's just going to 3 happen. This thing is a boondoggle of money, and 4 not a lot of real, you know, knowledge of what's really 5 going to happen, because they're kind of 6 crystal-balling it on a lot of things. 7 And Hillsdale, hills and dales and twisties 8 and turns, and it's gnarly. I drive 25 through 9 10 Hillsdale because I live in Monument, and the neighbors 11 look at me like, You're speeding, you know. 12 No, I'm going 25. Well, it seems like you 13 are because you got these quick, little turns and, you 14 know, it's -- it's just not meant for all of this. Ιt 15 really isn't. I have to pull out of Lanktree Gulch onto 16 17 Can-Ada, people come booming down that road, and they can't see us up there, and they're hauling ass, and I'm 18 19 pulling out because it looks clear, and then bam, there he is, deer in the headlights. Right? It just doesn't 20 make sense. Can-Ada Road is nuts. 21 22 And Lanktree Gulch, when I pull out of my house it's a bunch of blind hills. When I was teaching 23

my daughter to drive, all I kept saying is "Blind hill,

blind hill. Watch it, watch it, watch it. Stay to the

24

25

1 right. Come on." 2 You know, so we really ought to stick to And until there's adequate roads and smart 3 4 things --Time is up. 5 MAYOR CHADWICK: Thank you. PETER ALBINSEN: -- all the roads north, far 6 7 north roads. 8 MAYOR CHADWICK: All right. Mr. Steve Burton. 9 STEVE BURTON: So did Council get my e-mail? 10 You guys have it? 11 MAYOR CHADWICK: Wait. Yes. It's in our 12 packet. 13 STEVE BURTON: Okay. So Steve Burton, 14 6915 Canyon Bend Court, Star. 15 I put myself down as neutral on this thing because I think with a little tweaking the annexation 16 17 will be approved. I think what it's going to come down Will the old Comprehensive Plan hold 18 to is the zoning. 19 up to the new Comprehensive Plan. But eventually it's 20 going to get approved. So I just wanted to kind of -- on what 21 22 Michael Keyes was just talking about, the 23 transportation plan is really the one that's -- I think 24 needs to be talked about a lot more. You're -- the \$10 million mitigation fees, I don't know how that's 25

going to get broken out. I don't know how much the roads are going to get out of that. It seems like that's a small amount.

And the primary concern I have with the transportation plan, it really talks about, well, what is needed once all this is built out. What should the roads look like?

Well, I think the more immediate concern is what kind of traffic plans are going to be in place during construction? It always seems like that's when the biggest problems arise is during construction you got all the road closures and whatnot. How do you get around?

And when I look at the plans for the roads, you have the road going through the BLM. You have the Wing Road addition. Those are all new roads. You install those, there shouldn't be as much interference with traffic.

But the big one's Can-Ada. And the way I look at it, it looks like you're going to put a sewer down there. Are you going to put water down there? Are you going to widen it to five lanes? That road's going to be out for at least a year.

So what is the plan? How are you going to make accommodations for the people that live to the

north and northwest of this development?

And I'm suggesting that, you know, things have to be rerouted down to Highway 44. You could do it on Lansing Road. You could do it on Blessinger. There's lots of options there. But those have to be considered, and those have to be part of the cost, part of the mitigation before you'd approve the annexation.

There's some way you have to get off of those roads, and safely. If you -- if you go down Highway 44, you have to cut the speed limits down to 35. People trying to make a left-hand turn onto 44, they're taking their life in their own hands with traffic at 55. So that has to be part of the plan. What are you going to do during construction?

Another concern: We just had bad experiences with Thunder Ridge and then the developments down on Purple Sage. Big trucks coming through on Purple Sage speeding, using their compression brakes. Those are the kind of things I think we need to put in the plan to mitigate those safety and noise concerns so that -- you know, people that have to live with that day in and day out, it's a real nuisance, and it's just a real problem.

So those are things I hope you consider as you go forward on this.

Thank you, sir. 1 MAYOR CHADWICK: Okay. 2 Let's see. We got Nita Metro. Good evening and thank you for 3 ANITA METRO: 4 giving me this opportunity to speak to you. My name's Anita Metro. I live at 9069 North Spangler Place in 5 the Willowbrook Estates just north of this development. 6 We are right off of Chaparral right on the other side 7 8 of the governor's family's land, right west of Firebird 9 Raceway. 10 The thing that brought me here tonight I'll 11 hit first, and that's my concern about the water. I 12 heard that their plan is to dump their excess treated 13 water into the aguifer that I drink out of. If that 14 water is so good, put it into your homes. You drink I don't want it. 15 it. I want my organic water that is filtered 16 17 naturally through the soil and rocks so that it picks up natural minerals that are good for my body. 18 19 chemicals are not. I don't want them. And I'm not the only one that lives on this. 20 Our entire neighborhood relies on that 21 22 aguifer. We're at 250 feet, so we're the most shallow. 23 The entire neighborhood is at, I think, 300 or 350. 24 And the governor's land is at 400 feet deep.

So you're impacting a lot of people by just

25

openly dumping your chemical water into our drinking
water. So please don't do it.

The other things I've heard tonight that kind of concern me: One, nobody's brought up. You're talking about eventually developing the BLM land, and I know that will happen. But I just want to point out, because I have seen businesses taken out before because of development of housing getting near them.

And I'm talking about Firebird Raceway.

They've been here since 1968. They're a great

business. They -- they are an economic boom. This

golf course is not. They're presenting it to you like

a golf course is going to bring you in so much money.

Think again. It's a bad location.

Just like they said, there's nothing here to support it. There's no hotels. The roadways don't support it. There was an equestrian center that closed because there's not enough infrastructure to support it right there to the west of this. So this is not the boom they are presenting it to you as. So please consider that.

And when you go to develop for future, please think about Firebird Raceway. We like it. And they -- people will move in around it, and then they will complain about the noise as if they have more

1 rights than the people at Firebird. So take that into 2 consideration. Please keep this rural. Please keep it 3 4 I grew up here. I left to go into the military. R-1. I served 20 years. I came home to my country home. 5 And all I've seen it do is explode, and it's just 6 7 killing me. 8 We bought 5 acres out here so that we could 9 enjoy our older years and have cattle and pigs and 10 chickens. And you put this kind of housing in around 11 us, they're not going to like the smell of it. They're 12 not going to like our roosters crowing. They're going 13 to complain. 14 Where's my life? It's gone. 15 MAYOR CHADWICK: Thank you. All right. That is 16 it that signed up to speak. 17 We'll have the applicant come up. You have 15 minutes -- did you get that? Did you change 18 19 that? -- to rebut the testimony. 20 At this time Council can ask questions of 21 the applicant as well. 22 **DEBORAH NELSON:** Thank you, Mr. Mayor, Members 23 of the Council. Obviously a lot to respond to. 24 do my best to kind of consolidate comments for you.

I'll start with the traffic. Obviously a

25

big concern. And we already addressed a bit of this in our presentation, but I want to try to respond to as many of the comments as I can.

Mr. Moore said at the beginning that the applicant had proposed to widen Deep Canyon and Lanktree to five lanes. That's not the case. We didn't propose widening of this road even to three lanes. So that's just not accurate or reflective. You can see that in the TIS.

He then said there was no alternative to that plan when it failed. And that's also not the case. The TIS did have to evaluate mitigations to avoid impacts to those roads. That is specifically addressed by extension of Wing Road and the new connection of Aerie Road to provide those alternatives, improvements to Can-Ada also provide alternatives with trip distribution. Again, the protection is in place for these local roads from ACHD's conditions to enforce their local standards.

Mr. Ben Shields said that the TIS doesn't consider commercial development. That was repeated by a few others. That's also not accurate. The TIS does consider commercial uses, both within the golf course, they use the ITE standards for transportation trip generation standards, which define golf course to

include the restaurant and the pro shop and the bar,
similar to City code.

Also, separate from that they studied additional commercial uses outside of the golf course.

There was a comment by Ms. Germaine that the traffic did not consider internal roads in the Hillsdale neighborhood. That's also not correct. The TIS studied all of the road segments within Hillsdale.

A similar comment was made by Ms. Shields that the TIS was only conducted on Lanktree and Can-Ada. The TIS actually studied 19 off-site intersections and 23 roadway segments. It's very broad, that the scope of it was set by COMPASS. It uses COMPASS' growth rates.

That was another complaint, that the growth rates weren't accurate. We didn't use our own. We have to follow what's set forth by COMPASS, which is done in concert with all of the municipalities and counties in the area.

Mr. Keyes, former councilman, said that it's definitely in the City's best interest to maintain this growth path to the north. And we agree. And that's a lot of what the commenting agencies recognized and a lot of what the mitigation focuses on is those key north-south routes. Not putting traffic onto local

roads that exist, but finding the ways to get those
north-south connections. That's going to help the City
overall, all City residents. Not just this project.

I'm turning to a few other maybe services,

water issues, miscellaneous services issues and infrastructure.

Mr. Jim Junge asked about where the lift station line would go. That will be within the public right-of-way along Can-Ada.

There was a comment by Mr. Richardson about concern, and expressed by others, too, in written comments, about -- about water impacts to their wells. Obviously, that has to be carefully evaluated. IDWR has to approve any new wells. That goes through a process. There's a public hearing or administrative process that's participated in that, if somebody objects to that well application. And so that does have to be carefully considered.

Star Sewer and Water District, these will be their wells. To the extent there's wells to serve them, they're their wells. Everything has to follow their standards as well.

There is existing water rights already. So the irrigation rights that serve the project are sufficient to cover the needs of the project, even with

the golf course. So there won't be additional withdrawals coming from the property to serve the project that's proposed before you.

Star Sewer and Water District also has sufficient water rights to serve the project. So any new wells are simply to address the point of diversion, not to increase the water diversion rate.

There's comments about the water quality.

And that's -- you know, it was also raised in the written comments. And we addressed that a little bit already. Just want to remind everybody that this is treated water that is used for reuse. It is class A water. You can actually use class B water, not treated as well, for land application. But this is fully treated water. The same water that's treated by your Star Sewer and Water District and clean enough to put into the river under an EPA NPDES permit.

So this is water that instead of losing the value of it just going downstream, we'll have an innovative opportunity to reuse it in a way that will reduce impact on the aquifer from having to withdraw that water to irrigate, which is what's happening now. And what would happen if we didn't have that innovative solution?

It was in -- it's in your Comprehensive

1 I put up that goal, to reduce groundwater Plan. 2 consumption and impacts through use of treated It's exactly what you've called for to 3 wastewater. 4 happen. Obviously, all of the water-quality 5 standards have to meet DEQ standards. 6 There can't be anything that isn't done in accordance with all of 7 8 those laws. 9 There was a comment about police service by 10 Ms. Yanecko and talked about levels of standard --11 national levels of standard 2.4 and 3.5. I don't know 12 what her sources are for that. But, you know, your own 13 sheriff and police department did set forth the current 14 and target level service for police here. 15 The current level of service is .73 per 16 thousand population. The City's target level of 17 service is one per thousand. That's similar to other surrounding cities that have the same target. 18 19 And like Ms. Yanecko and other residents that are -- that actually live in Star, you know, the 20 21 residents in Willowbrook will be paying property taxes 22 to the City for these services. They will also be 23 paying impact fees that contribute to capital 24 improvements. And the City of Star has been proactive

to address public service by requiring an additional

25

mitigation fee that will also be paid to cover the personnel costs associated with these kinds of service providers.

There was quite a bit of discussion about process. So I'll try to address some of that. The --Ms. Germaine, the attorney for Hillsdale HOA, talked about the Development Agreement not meeting the requirements the way it was submitted to the City of what's actually required.

I think she is citing to an old section of code when she says that it must -- it's required to be submitted with an application. The applicable code says that the City may require a Development Agreement, which is, my understanding, expected here. And we are volunteering that as well. We're asking for that to go along with the requested zoning.

It also says that it may include a concept plan. We have provided that as well. Regardless of whether it is required or is optional, we have provided a draft Development Agreement for your consideration. We used the City's standard form and provided that. Obviously all the terms and details and conditions are subject to your approval and conditions that are imposed on us. But the process has been followed to submit that.

There was also a discussion -- a comment by Ms. Germaine that there was new information presented this evening where we asked for the change in condition number two to include the restaurant and the bar within the golf course, saying that that was the first it had been heard of and the staff didn't have an opportunity to weigh in on that.

But that's not accurate. Our narrative submitted in June of '22 states on page 2, "This application seeks approval of the golf course only, which will include a restaurant, bar, and pro shop and retail incidental to the golf course uses." The staff report also addressed it.

And so it was asked for specifically to include the bar and restaurant, staff has a reason of approval. We're asking for a slight modification to that to make sure that we can bring the bar and restaurant forward, consistent with the City's definition of golf course uses. And it has been analyzed in our TIS.

There was a lot of discussion about the golf course. Some people seem to want more amenities. Some people want fewer. You know, there's a request not to have commercial with it, that they're concerned about commercial, concerned that the golf course itself

is a commercial use, and yet others -- the ski resort was new. Want it more amenitized. And so I think that it's -- it's appropriate to kind of think about what's coming here.

You have a nationally-acclaimed golf course designer who has put forth a design for your consideration for a quality golf course. It does fit within the property. It's appropriate based on the analysis that's been done. It has the right level of amenities to serve that golf course, based on the experts that have weighed in on that and studied it carefully.

It will have shopping. It will have the restaurant and bar. It will have parking. It will bring an opportunity for business. It is a business. People are right to point that out. It is a commercial use. I've heard the Mayor and Council comment frequently on how you'd like to add more businesses in the community to make sure you're increasing your tax base. It does that.

At the same time it provides this natural resource and recreational opportunity for the public to use. We're not trying to create something that isn't accessible to the actual residents in the area and the public to use.

The density and transition, it's obviously very important, and that was discussed quite a bit.

You know, the bulk of Hillsdale was the most of the comments here, and the bulk of those lots, especially that those that front us, are about 1 acre. And I know there was a comment that lots range from 1 acre to 10 acres. That's not Hillsdale. That's considering other lots on the other side of the development that we already -- that were pointed out with Monument Ridge has three lots. The bulk of these lots are about 1 acre.

Half acre, as recommended by your planning staff, is an appropriate transition to 1 acre. 1 acre matching it perfectly isn't a transition. When you've got that range that's built into your code that talks about half to one is appropriate, the one is appropriate for much larger lots that you're next to.

We're -- we're proposing denser, smaller lots to preserve open space for the golf course, to preserve open space in addition to the golf course, to create that opportunity to manage sprawl. That's one of -- that's a part of your Comprehensive Plan. It was cited by one of the neighbors as problem with our density. But that's exactly what that does when you provide appropriate density.

We've concentrated smaller lots around the golf course, around the commercial, because it's walkable. That's also called for in your Comprehensive Plan. And that's what that manages with that external boundary that has the half-acre lots, appropriate next to the 1-acre lots.

In a southwest area, as we pointed out on a slide, given the significant setbacks to those homes, given the proximity to our internal uses with the golf course and commercial, we ask for those to be buffered with landscape buffering, which is also appropriate and allowed in your code.

Lots of discussion about property rights, following the law, following the planning code. We couldn't agree more with all of those points.

The process has been followed here. You have the opportunity with -- the staff report has outlined this, has analyzed this very carefully. The application before you meets the standards in your Comprehensive Plan and your code. The process is appropriate. You have all the protections in place to allow the development that's being asked for and nothing more, and to continue to monitor this, approve this, as appropriate, as it progresses.

This is -- the density has already been

reduced. We didn't come to you with a high level 1 2 expecting a compromise. It has been reduced already, as we described. We removed the townhomes. 3 We've met your requirements for transitional lots. This new 4 number is what is needed to support the significant 5 amenity that's being -- that's being requested. 6 Everyone wants to be the last in to the 7 8 city, and it's hard to have growth happen around them. 9 But we are asking for approval of something that we 10 believe will benefit the citizens and the adjacent 11 neighbors and the County, and will benefit the City 12 with significant economic rewards. 13 So thank you for your time and 14 consideration. I stand for further questions. 15 MAYOR CHADWICK: Okay. At this time Council can 16 ask the applicant questions. 17 Do we have some questions? 18 COUNCILMAN HERSHEY: Mr. Mayor. 19 MAYOR CHADWICK: Councilman Hershey. COUNCILMAN HERSHEY: I have a lot. 20 I just don't --21 22 MAYOR CHADWICK: [Unintelligible.] 23 COUNCILMAN HERSHEY: I just don't have them 24 together. MAYOR CHADWICK: 25 Just start.

Well --1 COUNCILMAN HERSHEY: 2 MAYOR CHADWICK: You may answer some of the 3 others' questions. COUNCILMAN HERSHEY: Are we asking questions or 4 are we asking -- are we -- I thought we weren't going 5 to do that part tonight. 6 MAYOR CHADWICK: No. Tonight is through this. 7 8 The deliberation of the Council will happen on the 9 20th. COUNCILMAN HERSHEY: Right. Will they still be 10 11 able to be spoken to at that time? 12 MAYOR CHADWICK: No. Not if we close the 13 hearing tonight. 14 COUNCILMAN WHEELOCK: No, I don't want to close 15 the hearing tonight. 16 COUNCILMAN HERSHEY: Yeah, I don't want to close 17 the hearing, then. MAYOR CHADWICK: We can talk about that when we 18 19 get closer to 11:30 when we're done. 20 COUNCILMAN WHEELOCK: Okay. 21 MAYOR CHADWICK: But we need to ask questions of 22 the applicant at this time. I will start, then. 23 COUNCILMAN WHEELOCK: I'm not against starting. 24 I just don't want to --No, that's all right. 25 MAYOR CHADWICK: Yeah.

1 I'll get going. 2 I just want to go back to the water issue The Star Sewer -- we have what, 3 up there real quick. 4 Ms. Nito [phonetic], is that the name, I believe? -was talking about -- which kind of piqued my interest, 5 and I had to grab The Star Sewer and Water District's 6 information. 7 8 The intent is not to directly inject wastewater that's cleaned directly into the aquifer; 9 10 correct? 11 **DEBORAH NELSON:** Mr. Mayor, that's correct. 12 MAYOR CHADWICK: It's going to be placed on the 13 surface and go through the same filtration process as 14 other water? 15 **DEBORAH NELSON:** That is correct. 16 MAYOR CHADWICK: Okay. 17 COUNCILMAN WHEELOCK: As rain. Similar as rain, correct. 18 MAYOR CHADWICK: 19 So then when I look at the water rights thing that Star Sewer and Water put on here, it says 20 21 that "Willowbrook Development currently has 21.33 cubic 22 feet per second of diversion water rights. This water 23 right is currently utilized mainly for irrigation water 24 for existing fields. As part of the Annexation Agreement, Willowbrook will be required to transfer 25

1 5 cubic feet per second to the District for utilization 2 to the District for District customers. For reference, the District currently has 14.53 cubic feet of total 3 water rights reserved, but only uses 7.22 cubic feet of 4 water rights for 6,000 existing homes. 5 The additional 5 cubic feet of water rights transferred to the 6 District will provide the District with more than two 7 8 times the amount of water rights required to serve the 9 proposed 1,094 new homes included within the 10 Willowbrook application." 11 So what's going to happen to the other 17 12 water rights that are not going to be transferred to 13 the Sewer and Water District? 14 DEBORAH NELSON: Mr. Mayor, Members of the Council, I -- I don't know exactly what they'll all be 15 16 used for. They can be used for any irrigation 17 that's -- they're rightfully approved for. But at this -- the plan for serving this development is Star 18 19 Sewer and Water District. 20 MAYOR CHADWICK: Right. But the additional --21 so I guess where I'm going with this, this additional 22 17 cubic feet, are you going to be utilizing that 23 17 cubic feet for irrigation until you run the lines 24 from sewer and water to bring that clean water up? I'm going to let others answer 25 DEBORAH NELSON:

1 this for you. 2 NATE MITCHELL: Yeah. So -- so the water -- the 5 cubic feet per second is going to be required by Star 3 Sewer and Water District, like you talked, is 4 sufficient to serve the domestic use. We still retain 5 those other water rights that can be used to irrigate 6 before the reuse program or to irrigate -- we can 7 8 transfer the diversion point to other pieces of 9 property. 10 MAYOR CHADWICK: Require -- say that last part 11 again? I'm sorry. 12 NATE MITCHELL: We can -- there's a process that 13 we could divert those two other parcels that 14 Mr. Phillips owns in other parts of the county or -they're a legal water right that he owns. 15 16 MAYOR CHADWICK: Okay. 17 NATE MITCHELL: He's willing to obviously donate what's required of him to serve this project plus for 18 19 the Star Sewer and Water District. But --20 MAYOR CHADWICK: So is there -- I'm just 21 throwing this out there on there. 22 Is there a possibility to transfer 5 of 23 those cubic rights to Willowbrook -- I mean to 24 Hillsdale, considering the issues that they have with I don't know how that works. 25 their water? I'm just

1 asking. 2 NATE MITCHELL: He's -- he's already transferred what was considered by the water experts to be 3 4 sufficient for Hillsdale's domestic water use. MAYOR CHADWICK: Uh-huh. 5 I -- there could be --NATE MITCHELL: 6 MAYOR CHADWICK: I mean it's something to 7 8 consider. 9 NATE MITCHELL: They're not going to be given to 10 They could be bought. them. 11 MAYOR CHADWICK: So -- but I mean I get it. 12 Just looking at the extra water rights that are there 13 in that area. So okay. That answers that question for 14 Thank you. me. 15 And then when we talk about the half-acre 16 lots surrounding the existing Willowbrook -- I'm sorry, 17 existing Hillsdale, previously, I think it was brought up, we went with 1-acre lots at that time. 18 more amenable to have 1-acre lots like we'd had in the 19 past, because our code does say half acre to 1 acre; 20 I know half acre is on the bottom end, but the 21 right? 22 1-acre lots would give you have more of the lot line 23 matches that you need to create that buffer zone when 24 you go into the smaller lots on the interior.

25

NATE MITCHELL:

So I believe in the last five or

six years that the numerous public meetings we've had, 1 2 I've committed to two things: 1-acre lots around the existing 11 lots that are on the east end. 3 4 48-acre parcel, and we've shown those as 1-acre lots that we've committed to. 5 MAYOR CHADWICK: Right. 6 NATE MITCHELL: And I know there's some 7 8 inconsistency in this with that concept plan, but we 9 would also commit to matching lot lines, not matching 10 lot sizes. 11 MAYOR CHADWICK: Matching lot lines on --12 NATE MITCHELL: We've said out loud in the past 13 that we will make --14 MAYOR CHADWICK: Okay. 15 -- one neighbor to one neighbor. NATE MITCHELL: 16 MAYOR CHADWICK: Okay. So that's not an issue, 17 then. And then when we come to that driving 18 19 range, you talked about the buffer area for -- it looks like you're removing houses, I think, and putting in a 20 21 buffer area of landscape along Monument Ridge, I think 22 it is; is that correct? 23 NATE MITCHELL: Correct. 24 MAYOR CHADWICK: So what does that look like? What's --25

So -- so the line of lots on the 1 NATE MITCHELL: 2 southwest portion that border the Monument Ridge lots we've discussed, I know with at least one neighbor, 3 4 creating a large landscaped berm. Oh, gotcha. 5 MAYOR CHADWICK: Okay. Right. So still have a walking NATE MITCHELL: 6 7 path in it, but something that would transition over to the houses that -- where your -- a sound barrier and a 8 9 visual barrier. 10 Okay. All right. MAYOR CHADWICK: Thank you. 11 NATE MITCHELL: That obviously meets the code 12 and the intent of the Comp Plan. 13 MAYOR CHADWICK: I got to cough. 14 NATE MITCHELL: It's going to be loud. MAYOR CHADWICK: All right. Any other questions 15 of the Council right now at this time? 16 17 NATE MITCHELL: Yeah. Thank you. MAYOR CHADWICK: 18 Yes, ma'am. 19 Councilwoman Salmonsen. 20 COUNCILWOMAN SALMONSEN: So we haven't talked 21 about this, amenities very much, for -- besides the 22 golf course. 23 So can you just throw us what you're 24 thinking for amenities. 25 DEBORAH NELSON: Mr. Mayor,

Councilmember Salmonsen, yes, I'll start it and Nate can add on anything.

As you know, that will come up with the preliminary plat and planned-unit development specifically.

COUNCILWOMAN SALMONSEN: Yes.

DEBORAH NELSON: And we will meet the 15 that are required under code. We expect that to include clubhouses and pocket parks and natural open-space areas with trails.

Did I miss anything?

NATE MITCHELL: No. And we show some of that on this conceptual plan. They're not really well called out. But we've left areas in the denser housing areas for clubhouse amenities like the -- not committing to a swimming pool, but the options have been talked about with different clubhouse options, similar to what you're seeing in your other developments in the city. Tot lots.

And then specifically on the natural open space to the north, trail systems, parking lots, access to the BLM ground to the north to make it actually more usable so Mr. Keyes can go shoot his guns easier.

MAYOR CHADWICK: So can I go back to the amenity thing?

1 **DEBORAH NELSON:** Yeah. 2 MAYOR CHADWICK: I just -- did you talk about -you're going to put -- is parking along that Aerie Way 3 going to be part of -- considered an amenity in this? 4 When you create parking for horse trailers and things 5 like that to the BLM land. 6 NATE MITCHELL: That will be part of the process 7 8 with BLM, to allow for some equestrian area access up 9 But we're also talking about doing it down -there. 10 MAYOR CHADWICK: More south path? 11 NATE MITCHELL: -- down in the development 12 along -- on our property to allow trailhead access that 13 would go up through the draws to the north into the 14 BLM. 15 MAYOR CHADWICK: Okay. Thank you. 16 Any further questions right now of the 17 applicant? 18 COUNCILWOMAN SALMONSEN: Somebody else can go. 19 I might have more. 20 Councilman Wheelock. MAYOR CHADWICK: 21 COUNCILMAN WHEELOCK: Sure. So looking through 22 my notes, you're committing to matching one to one on 23 every -- all the Hillsdale lots; is that correct? 24 NATE MITCHELL: Yes. One to one. Not matching lot size, but matching --25

Lot lines? 1 MAYOR CHADWICK: 2 NATE MITCHELL: -- lot lines, correct. So what does that mean for 3 MAYOR CHADWICK: 4 sizes, I guess? What does that look like? A minimum of a half acre. 5 Your condition already suggests NATE MITCHELL: 6 7 a minimum of a half an acre that we'll comply with, and we'll also adjust the lots to where they arranged were 8 9 matching property lines. 10 MAYOR CHADWICK: Okay. 11 COUNCILMAN WHEELOCK: Skinnier -- skinnier 1-acre lots or skinnier half acre to a 1-acre lot? 12 13 NATE MITCHELL: So when you say "skinnier," we 14 would, at a minimum, put a half acre to 1-acre lot, and 15 it would be just as wide. 16 MAYOR CHADWICK: Okay. Further questions? 17 Councilman Wheelock. 18 COUNCILMAN WHEELOCK: Yeah, I have a question 19 about the easement up Wing. 20 Can you tell me what that looks like? we had a citizen that talked about --21 22 NATE MITCHELL: Yeah, I don't know --23 UNIDENTIFIED SPEAKER: -- easement that's turned 24 into a road. I don't know if Cash is -- I 25 NATE MITCHELL:

Ιt

1 don't know if Cash is still here. 2 So there's two items to discuss there. There is -- Mr. Phillips does own an easement to a 3 piece of property north of his house for access to that 4 5 piece of property. COUNCILMAN WHEELOCK: Yes. We talked about 6 7 that. 8 NATE MITCHELL: There is also an underlying 9 closed public right-of-way that ACHD owns. So ACHD 10 already owns right-of-way through his property to 11 extend Wing Road. We'd have to go back to the staff 12 report from the 2018 application, but it is identified 13 there that ACHD owns everything except for the last 14 10 feet. 15 So there's a right-of-way that's on his 16 property and on Mr. Phillips' property to the north 17 that goes to within 10 feet of the Hillsdale boundary that Mr. Phillips owns and would dedicate that last 18 19 10 feet of right-of-way. So there -- the easement is a separate legal document from the existing right-of-way. 20 COUNCILMAN WHEELOCK: Was that a shock to him 21 22 that that's going to be turned into a road? 23 NATE MITCHELL: It's been being talked about for 24 five or six years, so I don't -- I mean he'd have to

tell you whether it's a shock to him or not.

25

obviously has an impact to his property and his house. 1 2 MAYOR CHADWICK: Okay. Further questions of the applicant? 3 COUNCILMAN WHEELOCK: Well, I can keep going. 4 MAYOR CHADWICK: Keep going. You got questions, 5 keep asking, Councilman Wheelock. 6 COUNCILMAN WHEELOCK: I still want to gather my 7 8 thoughts truthfully. 9 But what's your plan for the construction? 10 I'm curious about the phasing plans that are there. 11 NATE MITCHELL: Your staff report says no 12 connection to Deep Canyon. That doesn't mean that you 13 can't get in your crane and drive up there to lift 14 something up for somebody and use Deep Canyon. That's your choice you're going to have to make. 15 16 But for the golf course, they're suggesting 17 a private driveway off of Can-Ada. So it's all on our property to come off of Can-Ada. 18 19 COUNCILMAN WHEELOCK: So it will go all off of Can-Ada. 20 21 NATE MITCHELL: Yeah. 22 COUNCILMAN WHEELOCK: -- down -- down that hill. 23 What -- what Can-Ada mitigation -- what 24 Can-Ada changes are going to happen with that steep hill, or do you have any plans for that? 25 Is that

something that you guys have to deal with? Let's talk 1 2 about it. NATE MITCHELL: Yeah. And I could -- Jamie, you 3 4 want to address kind of what the TIS contemplates for Can-Ada? 5 I do know ACHD has a couple of 6 7 site-specific conditions in your staff report as well 8 for improvement to Can-Ada. COUNCILMAN WHEELOCK: Just nice to have it 9 10 publicly talked about. I went around that cement spill 11 for years that was in the middle of Can-Ada because 12 it's so steep. 13 DEBORAH NELSON: Canyon County Highway District 14 actually has the specific comments about Can-Ada improvements, and it does discuss the realignment 15 16 issue. 17 So, Jamie, if you want to add to that. 18 MAYOR CHADWICK: State your name and address, 19 please. 20 JAMIE MARKOSIAN: Yep. Thank you. 21 Jamie Markosian, Kittleson & Associates, 101 South Capitol Boulevard, Suite 600, Boise, Idaho. 22 23 Mr. Mayor, Council, the Can-Ada Road improvements would consist of a few things. 24 one, capacity for traffic. 25

And number two, a physical regrading of 1 2 those steep hills. That would occur to mitigate speeds, increase safety performance, and allow for 3 better site distances along Can-Ada Road. 4 You know, our TIS indicates those are some 5 potential mitigations, obviously with future TIS 6 7 requirements on any future plat submittal. 8 mitigations would be addressed in full and in complete 9 based on those various applications and the content 10 within each of those. 11 COUNCILMAN WHEELOCK: That didn't help me. 12 JAMIE MARKOSIAN: Okav. 13 COUNCILMAN WHEELOCK: I'm honest. Because I 14 want to know that -- the golf course is going to impact that road. We all know it. The houses are going to 15 16 impact that road. 17 As you incrementally grow this project, if you grow it small enough, slow enough, does nobody ever 18 19 say you've impacted it enough to change that whole road? Where does that line draw? Does that make 20 If you do this as a trickle --21 sense? 22 JAMIE MARKOSIAN: Uh-huh. 23 COUNCILMAN WHEELOCK: -- "Oh, it's not us that's 24 making the change. Its somebody else. It's coming from the Canyon County side that we sold off." 25 But

nonetheless, we're all impacted by it. 1 2 I'm curious what that looks like in 3 realtime, I quess. JAMIE MARKOSIAN: Did you have something? 4 DEBORAH NELSON: I can [unintelligible], and 5 then Jamie can jump in on anything. 6 So very fair comment. So I think that's 7 8 part of why the staff -- the planning staff has required us to come in with the very first preliminary 9 10 plat with the phasing plan, and the transportation 11 agencies are asking for a specific update to the 12 transportation plan to match that phasing -- to the TIS 13 to match that phasing so that you do have the full, 14 long-term vision now. So we did the full traffic study so you can 15 see the scale of improvements. 16 Those aren't all 17 attributable to the project. Right? There's a lot of improvements that are already needed on these roadways. 18 19 But the project is contributing and will -- and will continue to contribute with each phase. 20 21 So part of what they'll do with each of 22 these phasings is determine what is the development 23 requiring to be done? Are we ahead of improvements 24 that are being made to that road that are already

planned and funded? And what is our proportionate

25

share?

Canyon County Highway District's comments already take a stab at that. ACHD wants to do it with the preliminary plat phasing. But all of the agencies will have to weigh in on our updated plat.

So we will have to take it on with each phase, but it will be set at the beginning how that phasing plan will roll out.

The only small ask now is for the golf course. The traffic study did consider a golf course only. And that was the 526 trips per day. And that does not trigger a traffic study by itself. It will not trigger these mitigations. None of the transportation agencies are requiring that be done before that piece proceed.

question, that we're not going to come in with the first preliminary plat and say, okay, now we're not going to do any road improvements. That's going to have to be mapped out with the updated traffic study, with the buyoff from the transportation agencies, just like they've done now to look at the whole and say, okay, we agree with your traffic study. They accepted the traffic study.

But exactly how those improvements are

applied to this project and in what time frame happens with the updates with the platting.

COUNCILMAN WHEELOCK: So what does -- how do we -- how do we -- if we're approving this with just the golf course and the 560 trips, whatever that is, how do we approve this without knowing what the phases are of the future of the whole plan? That's a huge difference in impact that makes this easier to say, yeah, that makes sense. And we don't know where we're going yet.

DEBORAH NELSON: Well, you do have an idea of where you're going because you have this full traffic study that normally isn't required until you have a development application. But instead we can't proceed.

So if you're worried about that we would just come in and do the next portion and we do the next portion, we cannot do that without getting your approval. So we have to come back to you. So no residential can continue.

NATE MITCHELL: I think it's also important to note when we say we're coming back with preliminary plat, it's not going to be multiple preliminary plats. It will be for the entire development, that we'll have a detailed phasing plan with it that your transportation agencies will give you the control

1 you're asking for. 2 COUNCILMAN WHEELOCK: Yeah. When does that come, is what I'm asking? 3 **DEBORAH NELSON:** 4 Two years. 5 UNIDENTIFIED SPEAKER: [Unintelligible.] MAYOR CHADWICK: Hey. No. Please. 6 NATE MITCHELL: It will -- if we get the 7 8 conceptual approval and agreements on layouts and 9 matching lots and everything else we're talking about 10 in this Development Agreement, we'll start on the 11 engineering of that immediately. It's -- it's a large development that needs 12 13 to be -- so when we bring you a preliminary plat, we 14 basically have to have construction drawings done, grading plans done for individual lot pads, things like 15 16 that. It's going to take two years to build a golf 17 course. At the same time we would hope to have back 18 19 in front of you, inside of that two-year period, those preliminary plats so that we can -- as the golf course 20 21 matures, we can start building lots and selling houses 22 on it. 23 But the first -- the next step after what 24 we've asked for now would be a PUD and a preliminary plat that's going to have a detailed phasing plan in it 25

that the agencies all have to agree to is reasonable. 1 2 And that's when they determine when each mitigation is required. 3 ITD will have to determine, ACHD, Canyon 4 Highway District No. 4 will have to determine when they 5 want what improvements made. 6 MAYOR CHADWICK: So can I just take it back off 7 8 that? Sorry, David. 9 10 COUNCILMAN HERSHEY: Please. 11 MAYOR CHADWICK: When I look at the CHD 4 letter 12 that came, and when we're talking traffic mitigation on 13 Can-Ada Road, the first thing they talk about is the 14 intersection of 44 and Can-Ada that says "Intersection currently operates on a level service of F in the P and 15 16 peak hour. CHD recommends approving improvements 17 providing a level service of D or better shall be operating prior to issuance of building permits for any 18 19 phase of the development." 20 So when we're looking at this -- when I'm looking at this -- and I believe ITD said something 21 similar in here about that same intersection. 22 Ιf 23 that's the very first thing that we're dealing with, I 24 think it needs to be in here that before you do

anything on the golf course, or simultaneously, either

25

way, that we do a lighted intersection at Can-Ada and 1 2 44 with a latecomer's agreement for future developments that are going to come along that corridor. 3 COUNCILMAN WHEELOCK: If that's part of the 4 Phase 1 is --5 MAYOR CHADWICK: Well, this is telling me -- I 6 7 guess this is telling me prior to the issuance of any 8 building permits -- well, the golf course is going to have some building permits; correct? 9 10 NATE MITCHELL: The clubhouse would require a 11 building permit, correct. 12 MAYOR CHADWICK: Yeah. So I mean we would have 13 to have traffic mitigation done at intersection 44 and 14 Can-Ada. None of these guys talk about anything from Can-Ada going up the hill to the golf course. 15 16 sorry, from 44 going up. That's the challenge. 17 think that's what he's referring to is that hill coming 18 down. 19 What's the plan to fix that so it can handle all this traffic? 20 COUNCILMAN WHEELOCK: So that we don't have an 21 22 accident in the preliminary construction Phase 0001. 23 DEBORAH NELSON: So I guess one comment that I 24 just want to make about, Mr. Mayor, your suggestion here in looking -- and I'll look to the traffic 25

engineer to back this up, the Can-Ada intersection with 1 2 44 is not triggered by the trips. Is that what you're talking about? 3 4 Can-Ada --Yeah, Can-Ada and 44. 5 MAYOR CHADWICK: Yeah, and 44, is not triggered DEBORAH NELSON: 6 7 by trips from the golf course. That is background 8 conditions. And so while you're asking for that to be loaded onto the golf course, that's not triggered by 9 10 the trips themselves. 18 percent is the allocation 11 that Canyon County Highway District --12 Is that the right letter? 13 MAYOR CHADWICK: Well, they said -- they said in 14 here, right. 15 **DEBORAH NELSON:** Yeah. 16 MAYOR CHADWICK: "A proportionate share of cost 17 to improve the intersection, either through an established per-lot fee or by a collection of 18 19 18 percent of the intersection cost proportionate to 20 the report." 21 **DEBORAH NELSON:** Right. "This intersection is not 22 MAYOR CHADWICK: 23 eligible for funding through impact fees, nor is it 24 currently funded for improvements by ITD. The current intersection operates at a level service of F in the 25

p.m. hour. CHD 4 recommends improvements providing a 1 2 level service D or better shall be operating prior to the issuance of building permits for any phase of 3 4 development." So they're not even giving us a traffic 5 They're saying building permits; right? And so 6 thing. that's -- that's the concern. 7 And then the ITD letter in here indicated 8 9 something similar about making sure that the Highway 44 10 is signalized as well on there. 11 So based off of the recommendations of 12 those two agencies, how do we move forward without 13 having that done before any issuance of any building 14 permits? 15 Well, the current intersection **DEBORAH NELSON:** 16 background traffic is causing that failure that's 17 identified. And that's been studied in the TIS. So even to get to the full amount of 18 percent, which has 18 19 been suggested by Canyon County Highway District, that's total trips of complete build-out in the 2045. 20 21 So that's -- once you get in the project 22 trips, that's when you get to that amount. So there's 23 an existing deficiency in the system that I quess 24 that's what we're asking -- you're asking for the project to pick up that completely, then, before 25

1 they're the contributor. 2 MAYOR CHADWICK: But with a latecomer's agreement involved to pay back the remainder of that --3 4 was it 72 percent? 82 percent? Right? If they're saying 82 percent --5 DEBORAH NELSON: If there's -- if there's 6 7 realistic contributors. 8 MAYOR CHADWICK: Well, there is realistic 9 contributors along that corridor. I mean there's other 10 developments that are going to be coming in --11 **DEBORAH NELSON:** Yeah. 12 MAYOR CHADWICK: -- between Blessinger and 13 Can-Ada Road into the city of Star. 14 **DEBORAH NELSON:** Yeah. MAYOR CHADWICK: And so there is realistic 15 16 opportunity for that to get that back. I'm just trying 17 to -- when I look at my -- the biggest complaint -there's complaints all over the place. Our -- I'm 18 19 going to be honest. Our traffic stuff is a disaster. We try and try and get ITD -- or not ITD. 20 21 Well, yeah, ITD, everybody that do projects in Star, 22 and get this done with the impact fees are collected; 23 right? 24 It's not happening. It's getting spent other places. So we have to find ways to make sure 25

that our traffic is handled in Star. And if it's not through this process, well, I need everybody else to get on board and try to get these guys to fund projects out here.

Because we can't -- it's -- in my opinion, it's not sustainable to go the way we're going on these roads and not being able to have improved.

DEBORAH NELSON: Right.

MAYOR CHADWICK: Right? And this -- and this agency is telling me that before a building permit is provided you got to have that intersection done. So how do I go around that? I can't. Right? Because they're telling me that.

And it would be -- to me it would be shameful for us as a City to go against what the agency is saying when I'm trying to get the agencies to do projects in Star so we can mitigate the nightmares that we're all dealing with out here. Right?

I just -- it's part of -- it's part of my -- but don't clap, please. That's not meant for clapping. But it's just we got do figure out these challenges that we're facing here in our community to make things work. I mean and this is not unique to this project, I'm going to tell you. I go on this tirade with all these projects that ever come to the

1 City of Star. 2 **DEBORAH NELSON:** Yeah. No, I --I just got to figure 3 MAYOR CHADWICK: Right? 4 out a way to make sure that we can be mobile, right, in And that's why we put that proportionate share 5 agreement in place and have this project going that's 6 unfunded right now in the state, right --7 8 DEBORAH NELSON: Uh-huh. 9 -- on 44 is to help mitigate MAYOR CHADWICK: 10 that traffic by coming up with an alternate solution to 11 the funding mechanisms that they're not doing for us. 12 So that's where I'm at on that, so... 13 DEBORAH NELSON: I don't disagree with your 14 I think they're fair. I guess all we're comments. 15 trying to do is figure out how we plug in appropriately 16 to our proportionate share --17 MAYOR CHADWICK: Right. DEBORAH NELSON: -- with the actual impacts 18 19 using the traffic study. 20 MAYOR CHADWICK: And maybe it is part of the proportionate share, you know, where that gets funded 21 22 through that, in lieu of proportionate share up ahead 23 in front. I mean we just got to find a solution to 24 make it happen; right? DEBORAH NELSON: Uh-huh. 25

1 MAYOR CHADWICK: Okay. Sorry. Anybody else 2 have a question? COUNCILMAN WHEELOCK: 3 On my right. COUNCILWOMAN SALMONSEN: That was good. 4 MAYOR CHADWICK: Go ahead. Councilman Hershey. 5 COUNCILMAN HERSHEY: Just a clarification here. 6 You want to close this and it's purely 7 8 deliberations next time? Because I'd like to leave it 9 open. 10 MAYOR CHADWICK: Oh, when it gets -- when we 11 close the public hearing, it goes into the Council 12 deliberation, but that deliberation's not happening 13 until June 20th. 14 COUNCILMAN HERSHEY: Right. What I'm saying is, though, I want to ask them some stuff, and they might 15 need a month to think about it. 16 17 MAYOR CHADWICK: Oh, and that's -- we can talk about that with Council and stuff as well when we get 18 19 to that point. And we're not -- we're not quite there 20 yet. We're getting close. 21 COUNCILMAN HERSHEY: All right. First off, I 22 actually really liked how that 12-person process went. 23 That was smart. I just wanted to say that. Because it 24 kept it flowing. 25 Now, I'm losing it. I want to ask --

actually, I'm just going to tell you. When it comes to 1 2 the transitions, I think it's important that we have the 1 acres. And I'm going to have to hold to that. 3 Second, I'd like you to reduce the density. 4 I was looking at 10 percent. And bringing it down to 5 the 985 makes it a 1.3. I think that's still quite 6 sustainable. But it does have some areas that do look 7 8 like they're getting kind of tight. 9 So I want you to -- you don't have to 10 answer this today, because that's why I wanted to leave 11 this open, is to get those 1-acre transitions. I know 12 what our code says, and I think the 1 acre does fall 13 into it. Plus, this is an annexation. And in my mind, 14 annexations have to be looked at very carefully. Also, it's an extremely large project, so I'm asking you to 15 16 reduce the density and go into the 1-acre transitions. 17 Other than that, I agree with the traffic. I'm no traffic expert, but hearing things that are 18 19 alarming. And I think it needs to be evaluated and looked at even closer over these next couple weeks. 20 Also, something -- let me ask about the 21 I don't golf, so I have to ask golf 22 golf course. 23 course questions. I tried to golf, and I actually do

better on my worst day of work than I do on my best day

of golf. I get more angry out there.

24

25

I don't pass commercial items of any type 1 2 on the assumption that they're going to fail. I don't. I think they -- I have the assumption that those will 3 succeed. I do believe we have a lot of golfers in this 4 Valley. 5 But if it was to have to ever not be a golf 6 7 course, who actually owns it? I mean who would 8 actually own this thing when it's built? An HOA? 9 DEBORAH NELSON: Mr. Mayor, 10 Councilmember Hershey, no, it will be owned by a 11 private entity that owns and operates the golf course 12 as a commercial business. And if -- if anything were 13 to happen to that operation, that's what's allowed on 14 that property from the Council, if the Council approves And so any -- any different use would have to 15 that. 16 come back to the Council. 17 COUNCILMAN HERSHEY: I'm just making sure of 18 that, because it cannot just go R-2. I mean you're 19 going to be capped -- you've even asked for a cap. I've asked you for a 985 cap. 20 So I just want to be clear, if the golf 21 22 course was to -- I don't know. I don't know how many 23 golf courses are out there, but I know how many people I know that golf. Everybody but me. And so I think it 24

has a great chance of success. I do concern myself

25

with traffic.

And like Councilman Wheelock said, I, too, am concerned about the trickle effect. I am very happy you brought the whole thing initially. And I know this is just a look. This is not -- there's nothing -- like you said, there's no actual plats in this.

Is the golf course technically in the right spot, though? Because you do seem to have a lot of information on that.

NATE MITCHELL: The simple answer is yes. So the process we went about with Mr. Weiskopf and Phil Smith design was put the golf course where you want it. We gave them a blank canvas, said, "Go at it. We will make -- we will make whatever development fit around your golf course."

To touch on a couple of the things that were brought up, the safe zones as far as breaking windows. There's requirements for golf course design that makes those fairways wide enough that even you and I don't go out and break windows.

COUNCILMAN HERSHEY: Trust me, you have no idea.

NATE MITCHELL: No, I'm with you. And just remember, there's never anything worth getting mad about on a golf course.

COUNCILMAN HERSHEY: Well, in all reality, Nate,

1

22

23

I'm going to tell you this, if you build a golf course and you build a house on a golf course and I go, Gee, I really like that house on the golf course and my window gets broken, I don't think you can blame many people. You saw that it was sitting there on a golf course. I don't disagree with you. NATE MITCHELL: 6 I also tell you that if you break a golf -- if you 7 break a window as a golfer, you're liable for the cost of the window. COUNCILMAN HERSHEY: All right. Well, that's -well, that just got more expensive. So yeah, back to my original point. trickling in effect is something I do worry about. if this does pass, that preliminary plat, which would take years, I know, would have to come in all at once. There would be no other way around it. 17 NATE MITCHELL: Your code doesn't allow for anything else. COUNCILMAN HERSHEY: And also, just like the Mayor stated, there's going to have to be some heavy traffic mitigation, maybe even pre to what you're looking for, just to -- because it is a heavy concern. I mean I've lived here for -- I think I just passed 24 about 11 years. And Star, to me, was -- it never felt 25

small, because, you know, we're intersected by two 1 2 highways and another one. And the Valley is right in the middle. I mean I knew what was going to happen, 3 4 and yet I was still dumb enough to run for City Council. 5 So I don't know where that came from. 6 But 7 traffic is a concern. And houses bring traffic and 8 business brings traffic, and they bring it at different 9 times, but it is something that is very concerning to 10 think about. 11 So -- and that's another reason why I'm 12 asking for -- it may seem like a lot, but I am asking 13 for the 10 percent reduction, and I really would like 14 the 1-acre transitions because that would mirror, and I heard a lot of people say, that's what they would feel 15 more comfortable with. And I think it's a -- it's a 16 17 fair ask. 18 But that's my comments for now. 19 MAYOR CHADWICK: Okay. Any further comments of Council? 20 21 Councilman Nielsen, you haven't -- you 22 wanted to say something a minute ago. 23 COUNCILMAN NIELSEN: I've got a lot of things to 24 say. MAYOR CHADWICK: 25 Okay.

25

But I'll start by saying I COUNCILMAN NIELSEN: kind of agree with Councilman Hershey. I think if it's possible, I would not like to close the public hearing tonight so that we can reflect on testimony and continue to ask questions of the applicant at the next hearing or the continuation. MAYOR CHADWICK: Yeah, Chris, that's -- that's okay; correct? Mayor, Members of Council, CHRIS YORGASON: yeah, I think what we'd want to do is you still want to close generally the public hearing portion so you're not going to bring in any new evidence, you're not getting any written testimony that's outside of whatever was heard tonight and is part of the record. And so doing that, I think is okay, leave things all done, lets the Council to consider what you've heard tonight, allow the applicant to come back, even maybe respond to some of the questions [unintelligible] notes and have some further discussion and ask more questions at that time, I think that's fine. But I think you would want to make sure it's closed. MAYOR CHADWICK: Okay. CHRIS YORGASON: -- to any -- any communication directly with the Council, whether it's, you know, oral

or written.

COUNCILMAN NIELSEN: Yeah. I think that's fine.

The closed part doesn't matter. It's the ability to

still communicate and ask questions, have dialogue with

the applicant before we move into deliberation.

MAYOR CHADWICK: Okay.

COUNCILMAN NIELSEN: So, you know, I've heard really clearly tonight that people are concerned with traffic. And not just folks who testified, we all are. You know, this is -- this is a challenge that we live with day in and day out, just like everybody else. And this is a challenge that we ran for public office to try to help be part of the solution for.

And part of that is also responding to these applications that come before us. You know, we've heard testimony here tonight that you guys are as bad as people from other states. You know, we didn't ask Mr. Phillips to bring this application to us.

And I think -- and I say that not in defense of -- of the City or of the Council, but just as a part of understanding the process that we're involved in here, is the applicant's constitutional right to have this hearing and to have these things presented and your consti- everybody's constitutional rights to have their voice heard here so that we can

consider all the facts and make the best decision possible.

And I think as part of that process, understanding traffic, understanding the planning for traffic, understanding the timing of when mitigations are put in, understanding what goes into determining what those mitigations are, you know, I've been doing this for seven years now, and I feel like I'm just barely starting to understand it.

And I don't say that because I feel like
I've done a poor job as a Councilperson. I've really
tried. It's just that complex. And I'm not a traffic
engineer, you know. And I haven't gone to school for
it. And even if I did, I don't know if then I'd still
understand it. It takes a lot of people and a lot of
agencies and a lot of cooperation.

And so, you know, having said that, it's understandable why we drive down the roads bumper to bumper and it takes us 20 minutes to get through Star and we're frustrated. Right?

And so that doesn't change the fact that you all moved here. That doesn't change the fact that more people are going to move here. It just -- it's what brings us together here tonight.

And so how do we -- how do we honor

people's agency and honor their rights? And not just for the applicant, but for each and every person who lives in our community, and, frankly, gets to travel through our community. You know, more than 70 percent of the trips that come through our community don't start here in Star. They're from outside. So the -- it's a complex problem.

And I don't know, Nate, or, you know, anybody on your team, if you guys have had the ability to simplify it any further than what you've tried to do already, but I think some more dialogue about the process that things go through and how agencies impact things in the future.

You know, we started the hearing, I asked
Shawn a question, I asked him to talk about these
future things that we might put in our -- in a
Development Agreement. And I asked that question
because I felt that getting to that clarity and having
that understanding that not everything is known at this
point in time.

But when is it known and when will we know and what assurances will we have that we're not just signing a blank check. And -- or not being asked to sign a blank check that you as an applicant, and all applicants that come through the City, how does that

work?

NATE MITCHELL: I'm going to take a shot at this, and then Deb's going to correct me.

We're not asking for a blank check. We're actually offering to you through the Development Agreement process to define the check we're asking to be -- for you to write. We do it through caps on density. Whether we end up at 985 or 1,094 or whatever, you're going to have a contractual obligation from us that we can't exceed that.

So we can't just go build 4,000 houses because we feel like it because the golf course didn't work. We're capped at whatever number that number's capped at.

We're agreeing in that same Development

Agreement to comply with the mitigation that's

determined by those traffic engineers at the time our

impact takes place through their study who I -- and you

can talk to this guy for months to try and figure out

what he knows, because he did go to school for it.

I'm with you, I've been dealing in this since 2000 on both sides of this table, and it is a very complex issue. But that's your -- your Development Agreement process gives you guys the hammer. And there's only one target you can swing at

that hammer with, and that's us. 1 2 So when we say -- when your development says the applicant shall comply with the mitigation as 3 required by ACHD, ITD, CHD 4, that's what we have to 4 We don't have an option. 5 COUNCILMAN NIELSEN: And if I could, when --6 7 when the responses from these traffic agencies come 8 back with a massive list of roads --9 NATE MITCHELL: Correct. 10 COUNCILMAN NIELSEN: -- and a list of unfunded, 11 unfunded, unfunded, unfunded, I mean it's 12 understandable that people look at that and it's really 13 concerning. Right? 14 No, absolutely. NATE MITCHELL: 15 COUNCILMAN NIELSEN: So why does it come back 16 that way, and when will it not be that way? 17 NATE MITCHELL: It comes back that way -- and you can go into a lot more of the structure of the --18 19 the scope of the TIS. It comes back that way because -- because you've got a very big proposal in 20 21 front of you, and it's going to take until 2045 to get it built. 22 23 We're not going to build it next week. 24 So -- so things don't stay the same, background conditions, existing deficiencies are getting 25

corrected. You're collecting proportionate share fees 1 2 that are going to end up on some road project Right? Are you not? Are you collecting 3 somewhere. impact fees that are going to end up somewhere? 4 As those take place and he updates his TIS, 5 we make adjustments for the projects that have 6 occurred. If all of Can-Ada Road develops before we 7 8 develop, those developers will build that road as we 9 go. 10 So we can't get to the answer today for 11 when I've got Phase 19 of this subdivision in front of 12 you for a final plat in 2040. It's physically 13 impossible to do. 14 COUNCILMAN NIELSEN: Some of those old farmers 15 in those metal chairs at the Merc are going to be upset 16 at you in 2040 with all those final plats. 17 NATE MITCHELL: They're upset at me today. Ι 18 sit there with them every day. 19 MAYOR CHADWICK: So real quick -- have you got 20 more questions? Because I want to ask a question. 21 COUNCILMAN NIELSEN: Well, I'm interested. 22 appears I do have something to contribute to that. And 23 if not, then I'm finished for now. 24 DEBORAH NELSON: Well, Councilmember Nielsen, I was just going to offer that ACHD's got a really 25

sophisticated process. We read a lot of ACHD staff reports. And, you know, they provide detailed staff reports with preliminary plats, because they've got statutory authority to do that.

And they take a look at all the roads that you're going to impact and the percentage of your impacts on the roads. If they're close to being funded by another project within the build-out of your project, then they'll usually defer to their funding mechanism and their five-year work plan to see if it's already being funded and divert your attention to other roads that may not be in that situation.

They also have a very strict policy about how they determine whether the improvement needs to be done based on your percentage of impacts. So if it's already failing, and you're just adding to the problem but it was already there, and if you're less than 10 percent, then you're not required to improve that. If you're more than 10 percent, then you may be, depending on what their funding is.

And they evaluate it road by road, intersection by intersection just like that. And they go through and determine, okay, is the right-of-way available? What can you do? What are you responsible for?

If it's not feasible, then you have to provide alternative mitigation, but then they evaluate that. So it's a very detailed, extensive process that they go through.

ITD instead has opted for a less specific process. They have fewer roads involved. Obviously that's not true in Star. You have a lot of ITD roads. But you have probably seen this quite a bit, they've done a proportionate share payment instead, or they've asked for that.

The City and ITD have recently adjusted that to be a thousand dollars per unit. Rather than going through that specific analysis that I just walked through that ACHD does, ITD, I think, has decided as a wash all of that is a lot of work, I'll do a thousand dollars per unit, and that's exactly what's being charged here and everywhere else.

So they've taken a different approach, but the same idea, to try to mitigate that. And the City holds those funds. And as the Mayor said, you want those to be spent in your city.

So that's, you know, some input about, you know, how does that work when we get to the specific plats. It's more rigorous. At this point they're just looking at the big vision of the TIS to see if it was

1 done correctly and commenting generally on it. 2 MAYOR CHADWICK: So I just want to ask this question. 3 How do we get around, with this 4 development, the issues that we face on the ACHD road 5 stuff when the arterials, they don't require the 6 developer to build them out because they have it 7 8 supposedly at some point on their plan to do it --9 DEBORAH NELSON: Uh-huh. 10 MAYOR CHADWICK: -- but they collect impact fees 11 where the impact fees are being used somewhere else? 12 They're not always in the same jurisdiction where 13 they're collected. 14 DEBORAH NELSON: That's true. MAYOR CHADWICK: 15 So how do we get around that 16 concept with what we're dealing with, with the traffic 17 issues we have today, with your development and the traffic burden it's going to cause in some of those 18 19 intersections that they've identified? COUNCILMAN NIELSEN: Can you imagine if 500 20 21 people showed up at an ACHD hearing? 22 MAYOR CHADWICK: Yeah, I want all 10,000 of you 23 out there at an ACHD hearing. Right? 24 But I mean this is the challenge --DEBORAH NELSON: 25 Yeah.

work plan.

MAYOR CHADWICK: -- that we're faced with. mean this is the reality of what's happening. had developments where it just blows me away that they just haven't put in the gravel in that section and not build it out, but then it's not in their improvement plan, you know, on the five-year integrated work plan, so we don't have any idea when that's going to get And no developer's required to build it. But yet your impact fees are going somewhere else. So this is the crazy dynamic we're trying to figure out and deal with and make certain that we're getting it serviced here in Star with the development. DEBORAH NELSON: Mr. Mayor, you won't be surprised to know that I hear this in Boise, that all of the impact fees are being used in Star. MAYOR CHADWICK: Probably every jurisdiction. DEBORAH NELSON: So it's every -- it's every jurisdiction's feeling. ACHD can answer this far better than I ever could about how they allocate that. But you know as a city mayor, you participate and request, you get to put in, I think is it annually, your list of priority projects that they consider, and they use that in their two-year budgeting cycle as part of their five-year

1

appropriate.

And they have a proportionate amount of money that they spend of impact fees throughout the Valley and every jurisdiction. You get to weigh in on that, and they will follow your priorities up to that And then you can come back in in the next budget cycle and say "We changed our mind. Now this is a bigger priority." It doesn't -- so you don't get this dollar, just like you don't get this molecule, but you get a proportionate share of those impact fees. MAYOR CHADWICK: And I know they're online listening to me right now, but I'm telling you, it's a challenge because it's not happening out there right You know, until we see things happening -now. **DEBORAH NELSON:** Yeah. MAYOR CHADWICK: -- that's our -- that's our concern, so --And from the developer's point DEBORAH NELSON: of view, I guess like I was trying to express with the intersection before, we definitely don't disagree with your -- any of your objectives to try and improve the roads. It's beneficial for the project too. We're just trying to weigh in and make sure we're paying the proportionate share and the timing is

That's all.

1 MAYOR CHADWICK: Right. 2 DEBORAH NELSON: Same with impact fees. So I'm going to -- I'm going to 3 MAYOR CHADWICK: 4 hold -- we said that we're going to end at 11:30, and it's right there. 5 So, Chris, do we need to just do a motion 6 7 to close the public hearing and -- and continue the 8 discussion with the applicant on June 20th? 9 CHRIS YORGASON: Yes. 10 MAYOR CHADWICK: Would that be the cleanest? 11 CHRIS YORGASON: You're not getting anything 12 new. 13 MAYOR CHADWICK: Yeah, no new testimony. 14 CHRIS YORGASON: Right. 15 MAYOR CHADWICK: Okay. So I'll enter -- so can I do that? 16 17 CHRIS YORGASON: Yes. So close the public hearing and then we'll continue the --18 19 MAYOR CHADWICK: The deliberation with the 20 applicant. CHRIS YORGASON: 21 Yeah, it's actually probably 22 not even a deliberation. So we're closing the public 23 hearing to any additional public input, but we'll --24 because this is still part of the public hearing 25 process, this conversation.

1 MAYOR CHADWICK: Right. 2 CHRIS YORGASON: So --So closing the public input? 3 MAYOR CHADWICK: CHRIS YORGASON: Yeah. 4 5 MAYOR CHADWICK: Okay. CHRIS YORGASON: And then we'll continue the 6 7 public hearing to receive additional information and 8 continue the conversation with the applicant to the next meeting. And we'll need it to a date certain, of 9 10 And then we'll do the [unintelligible]. course. 11 MAYOR CHADWICK: Did somebody write that down? I'll make the -- David 12 COUNCILMAN WHEELOCK: 13 did. 14 MAYOR CHADWICK: Okay, David. 15 COUNCILMAN HERSHEY: Before I do, I'm going to 16 have a closing remark. It's only one second long. 17 You know, I've heard a lot about Star. And I'm going to tell you this. 18 The qualities of Star are 19 not the size, the number of people, or where you're The qualities of Star are what you bring and 20 from. 21 what you give. And that's what makes Star great. 22 everywhere I go, I see great people. 23 That's why I do this job, because you can 24 ask me at any time, do I like this job, and I guarantee I'll say the same answer. Nope, I really don't. 25

```
But the sacrifices I make personally I
1
2
    think benefit the City. And I see that with everyone
    at these tables here.
3
                 So in that, Mr. Mayor, I'd like to -- okay.
 4
    I forgot -- table --
5
           COUNCILWOMAN SALMONSEN: Close.
6
           MAYOR CHADWICK:
                             No, we -- do I do that or do --
7
           COUNCILMAN HERSHEY: You have to close it.
8
9
    have to close it.
10
           UNIDENTIFIED SPEAKER:
                                   You want me to do it?
11
           MAYOR CHADWICK:
                             It's a little bit different.
12
           CHRIS YORGASON:
                             Yeah, Mayor, you can -- you can
13
    declare the public hearing is closed to any further --
14
           MAYOR CHADWICK:
                             Okay.
15
           CHRIS YORGASON:
                             -- public input.
16
           MAYOR CHADWICK:
                             Okay.
                                    All right.
                                                 So I'm going
17
    to -- it's a little different than what we usually do.
    So I'm going to close -- I'm going to declare that the
18
19
    public input is closed --
20
           CHRIS YORGASON: Portion of the public hearing
    is closed.
21
22
           MAYOR CHADWICK: -- on this public hearing and
23
    that we will --
24
           CHRIS YORGASON:
                             And you motion to continue.
           MAYOR CHADWICK:
                             At 11:29.
25
                                        Okay.
```

1	CHRIS YORGASON: You'll need a motion to
2	continue the public hearing and continue the discussion
3	with the applicant and deliberation to a date certain.
4	MAYOR CHADWICK: Okay. Now we need a motion.
5	COUNCILMAN HERSHEY: All right. Mr. Mayor, I
6	make a motion that we you closed the public comment.
7	MAYOR CHADWICK: You don't have to do the public
8	hearing part. We just [unintelligible]
9	COUNCILMAN HERSHEY: We continue this public
10	hearing with the applicant and Council deliberations to
11	the 21st
12	MAYOR CHADWICK: 20th, 20th of June.
13	COUNCILMAN HERSHEY: 20th of June
14	MAYOR CHADWICK: At 7:00 p.m.
15	COUNCILMAN HERSHEY: at 7:00 p.m. at
16	LifeSprings Church, I believe.
17	MAYOR CHADWICK: Yeah.
18	COUNCILMAN HERSHEY: LifeSpring Church. Excuse
19	me.
20	MAYOR CHADWICK: Okay. We have a motion.
21	Do we have a second?
22	COUNCILMAN WHEELOCK: I'll second.
23	MAYOR CHADWICK: We have a motion and a second.
24	Any further discussion?
25	Hearing none, roll call.

1	THE CLERK: Hershey.
2	COUNCILMAN HERSHEY: Aye.
3	THE CLERK: Wheelock.
4	COUNCILMAN WHEELOCK: Aye.
5	THE CLERK: Salmonsen.
6	COUNCILWOMAN SALMONSEN: Aye.
7	THE CLERK: Nielsen.
8	COUNCILMAN NIELSEN: Aye.
9	MAYOR CHADWICK: Okay. So has been continued
10	until June 20th. And it's very clear to the public
11	that you can't contact the Council on this at all,
12	because now we're just into the discussions with the
13	applicant at this time.
14	I want to thank everybody for coming out
15	and participating as part of the process, and we will
16	see everybody on June 20th.
17	So at 11:30 am going to end.
18	(End of video file.)
