

13.08.070 - Connection with public sewer required—Appeal procedure.

The owner of any dwelling used for human occupancy, employment, recreation or other purposes situated on property within the city and abutting on any street, alley or right-of-way in which there is now located or in the future is located a public sanitary sewer of the city, is required at his expense to install suitable toilet facilities therein and to connect such facilities directly with the proper public sewer, either by gravity or with approved pumping facilities, in accordance with the provisions of this chapter, within 90 days after the date of official notice to do so; provided, that such public sewer is available to or on the property and/or at a property line of such property and the structures or buildings are within 300 feet of the public sewer. In the event that, during such period of 90 days, such owner files his written objections with the city against so being required to install such facilities, the provisions of this section shall not be enforced upon such owner until the city council shall have, at a meeting thereof, heard such objections of such owner, and rendered its decision thereon. Such meeting shall be held not less than ten days or more than 45 days after the date of the filing of such objections. Not less than seven days prior to the date set for such meeting, the city council shall give due notice of the date set therefor to such owner. The decision of the city council shall be final and no appeal shall be taken therefrom by such owner except as is provided by law.

(Ord. No. 1119, § I(Exh. A), 4-19-2018)
