March 2023 Board Report

Skamania County Housing Programs

Submitted by Curt Gray, Director, Skamania County Housing Programs

As an introduction to the monthly report we routinely submit, I'm including this narrative to provide additional insight. Data reported is for the month of February.

- **Rental Assistance:**

First-time requests for rental assistance are given priority.

In addition to the rental assistance for all programs that is reported for February, assistance has been provided to pay rents that were in arrears for months other than the reporting month. In the month of February, twelve (12) households comprising a total of thirty-one (31) individuals were served providing an additional 2940 bed-nights of assistance.

- **Denial of Services:**

One (1) household requesting rent assistance in February was denied having previously received significant rental assistance in prior months and reaching the maximum benefit.
