

City of Stevenson Public Works Department

(509)427-5970

7121 E Loop Road, PO Box 371 Stevenson, Washington 98648

TO: Stevenson City Council FROM: Karl Russell, Public Works Director and Leana Kinley, City Administrator DATE: 6/17/21 SUBJECT: Transportation Improvement Program (TIP)

Executive Summary:

This is the annual review of all street projects planned in the city limits. Projects are added to this list through citizen request or staff recommendation and council approval. The list is used to meet requirements for grant funding applications. There are two public hearings held and the final list is required to be adopted by July 1st of each year. This is the second public hearing held for the 2022-2027 Transportation Improvement Program.

Overview:

All Cities, Towns, and Counties are required to adopt a 6-year Transportation Improvement Program. Elements of the program should contain fiscally constrained projects for the first four years, and projects of regional significance shall be submitted to the Regional Transportation Planning Organization (RTPO) for inclusion in their respective TIP's, where applicable. The RTPO then submits their regional TIP to Washington State Department of Transportation (WSDOT) for inclusion into the Statewide Transportation Improvement Program (STIP).

The transportation projects that are listed in the TIP go through a process in which the City of Stevenson uses a prioritization system to determine which road systems will be upgraded/rebuilt and in what order. Road projects may not always take place in order of prioritization due to funding eligibility and grant program criteria. The City Council has the ultimate say in which projects are approved and the order in which these projects will be completed.

The projects reflected are a continuation from last year's approved TIP, with date changes. The transportation study, which has been on the TIP as early as 2008, will be completed by the end of 2021 for a comprehensive picture on the condition of the infrastructure and to inform project prioritization.

The following documents include:

- A summary and overview of all projects on the TIP and with changes highlighted in red.
- A brief overview of the projects including a map and associated improvements.
- The formal TIP worksheet for submittal to WDSOT.
- A worksheet for descriptions of acronyms used in the TIP worksheet.

Action Needed:

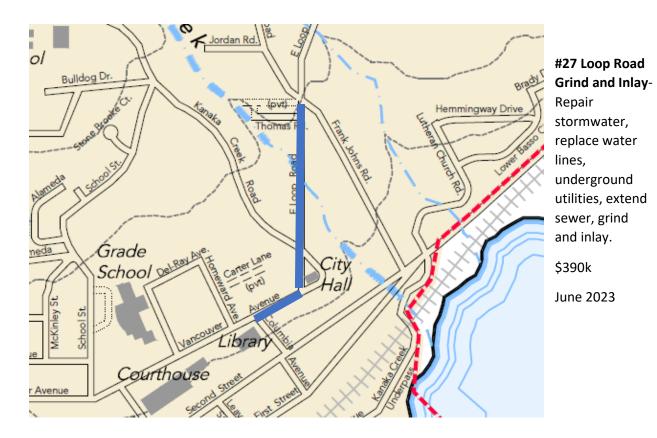

Motion to approve the 2022 TIP as presented or with changes as discussed.

*The initial TIP date is the TIP year the project (or part of the project) was found to be placed on the TIP. This was a quick search and did not include records prior to 1998 and from 1999-2004, 2006-2007 and 2010. The year listed is the TIP reporting year, which means the schedule was adopted in the summer prior (the 2018 TIP was adopted by July of 2017).
