

BUILDING DIVISION FEE SCHEDULE

Residential and Commercial Building Permit Fees are determined by the building value or value of the improvement as calculated by either using the square footage of the project multiplied by the square foot construction cost, as compiled by the International Code Council (ICC) and published by the Building Safety Journal magazine annually, or the value of the improvement. Skamania County Building will be guided by the "February 2020 ICC Building Valuation Data". For improvements not covered in the ICC table, applicants may be asked to provide the valuation for those projects (i.e., interior remodel, solar panels, etc).

The plan review fee will be 65% of the established permit fee as calculated in the valuation table below, and is in addition to the permit fee

Valuation Table
