READER'S GUIDE TO THE BUDGET

The City of Stevenson must adopt a balanced budget each year. Annual City expenditures must not exceed annual City revenues. Also, to be prudent a City may decide to place some of its resources each year into reserves to cover future emergencies or unanticipated opportunities. Beyond these basic guidelines, budgets for cities are quite complex. Much of this complexity is created to allow for proper accounting and tracking techniques as required by State law and governmental accounting practices. Cities draw their revenues from a wide variety of sources, divide their expenditures into separate funds and allocate their program expenditures in ways that serve the special needs of municipal services. This Reader's Guide is being provided to make the City's budget more understandable and useable for the reader.

Re: **2022 PROPOSED BUDGET - REVISED**

I am pleased to submit the City of Stevenson's revised 2022 proposed budget for your review and consideration.

OVERVIEW:

The budget development process is guided by Washington State Law and by the *Budgeting, Accounting & Reporting System* (BARS) manual published by the Washington State Auditor's Office. We prepare the annual budget for two main reasons:

1. It sets the legal limits on expenditures for the City.
2. It is our financial plan for next year. In its simplest form, it is an estimate of the revenues we expect to receive and how we plan to spend them.

When the budget is appropriated by ordinance, that ordinance provides the legal right to spend money as well as limit the amount we can spend.

Budget priorities are determined by reviewing the goals set at the strategic planning retreat in October of 2019 and were reviewed and confirmed at the March 27, 2021 special council meeting. More specific budget priorities for 2022 are included in the proposed budget.

The 2022 proposed budget continues all existing programs and staff. Revenue projections have been conservative with the following assumptions:

- Population estimate of 1,525, a 7.9% decrease over last year as a result of the 2020 census. This translates into a reduction of over \$13k in revenues for the Street and General Funds.
- 1% increase in the property tax levy, plus new construction.
- A sales tax estimate based on current and projected revenue received in 2021.
- Increase in water utility base rate of 5% for 2022.
- Increase in wastewater utility rates of 12.5% for 2022.
- Estimated amount of secured grants, loans, and other revenue sources to fund capital improvement projects.
- 5.1% increase to the Sheriff's contract for services based on negotiated rates.
- \$40,000 for pool support as anticipated, although not yet requested.

Revenue sources include:

- **Taxes** – property tax, sales tax, and taxes on utilities (natural gas, electricity, cable, garbage, telephone, etc).
- **Licenses and Permits** – business licenses, building permits, etc.
- **Intergovernmental-Grants** – Transportation Improvement Board (TIB), etc. for capital projects
- **Intergovernmental-State Shared** – liquor revenues, fuel tax, criminal justice funds, etc.
- **Charges for Services** – planning fees, building inspector reimbursements, utility rates, etc.
- **Fines and Penalties** – mostly traffic infractions and criminal fines and penalties

- **Investment Income** – interest income from city investments
- **Capital Contributions** – connection charges for water and sewer hook-ups
- **Miscellaneous Revenue** – sale of scrap, cash drawer overage/shortage, other revenues
- **Nonrevenues** – agency pass-through funds, unclaimed property
- **Other Financing Sources** – loan proceeds for capital projects
- **Transfers In** – internal transfer between funds

The chart to the right shows 2022 revenues associated with general operations and maintenance, excluding grants and financing for capital projects.

The breakdown of 2021 property tax revenue as a portion of a resident's overall tax bill is in the chart to the left.

These resources will be used to maintain existing service levels and execute planned capital projects. A highlight of the 2022 expenses include:

Capital Projects:

- Construct Main D Sewer extension \$300k
- Construct Phase 1 wastewater collection system upgrades \$1.7M
- Design Phase 2 wastewater collection system upgrades \$455k
- Construct Wastewater Treatment Plant Upgrades \$8.5M

Current Expense:

- Fire Department Strategic Plan \$20k
- New computers and monitors \$10k

Streets:

- Engineering Standards Update \$25k
- Overlay-Iman Cemetery to Osprey \$65k
- Rock Creek Stormwater \$134k

Water/Sewer:

- System upgrades along Vancouver to the Rock Creek intersection \$62k.
- Foster Creek Waterline \$40k
- System upgrades along Loop to the Columbia intersection \$100k

Equipment Services:

- Replace service truck \$45k. Purchase delayed the past three years.

Personnel: \$1.3M

- Personnel costs account for approximately 33% of all operating expenditures.
- Staff salaries in the proposed budget were increased by a Cost-of-Living Adjustment (COLA) of 5.1% based on the June 2021 West B/C CPI-U, plus steps for all employees not already at top-step. The COLA equates to almost \$40k increased expenses city-wide.
- The cost of the medical plan offered by the City of Stevenson will be increasing by 5.8% and the dental plan will increase by 2% in 2022. There will be no increase in the vision plan.

Services: \$2.1M

- Police Services account for 9% (\$186k)
- 18% of services are for Lodging Tax funds (\$357k)
- Wastewater services of sewer lining, hauling and disposal of biosolids account for 12% (\$240k)

The chart to the right lists expenses associated with general operations and maintenance, excluding capital projects.

FUND OVERVIEWS:

General Fund – The General Fund is the primary operating fund for the City. The General Fund accounts for all revenues and expenditures not required to be accounted for in a separate fund. General Fund expenditures include all general government functions such as legislative, legal, municipal court, law enforcement, fire protection, building inspector services, planning services, parks maintenance, finance and accounting, and general administrative services.

The Unemployment Reserve in the General Fund (formerly Fund 622) has a current balance of \$33,414, which is enough to cover estimated unemployment claims. The City is self-insured for unemployment. The 2022 proposed budget does not include an increase to the unemployment reserve.

Primary revenues sources for the General Fund are property taxes and sales taxes with smaller amounts generated from utility taxes, permits, fines & other user charges, and state shared revenues. The primary revenue source, property taxes, is limited by Washington State law to a 1% annual increase.

General Fund Reserve – This fund is restricted by SMC 3.30.010 for urgent or emergency purposes as determined and approved by council. It may also be used as a source of short-term (less than three years) interfund loans.

Fire Reserve – This fund is for buildings, equipment and other capital items associated and used in the fire department restricted by SMC 3.30.020.

ARPA Fund – This fund is for projects related to the American Rescue Plan Act and is restricted for use by guidance set by the Department of Commerce. The funds must be obligated by 2024 and spent by 2026.

Street Fund -The Street Fund is used to account for proceeds of specific taxes and other revenue sources dedicated to fund city streets, storm drains, sidewalks, and associated activities.

The primary state-dedicated revenue source is State gas tax. City Council has also dedicated the PUD Excise Tax, Liquor Profit Tax and a second half-percent sales tax (enacted by City Council in 2012) as additional revenue sources to the Street Fund.

Street Fund revenues have been supplemented in the past by the Federal Surface Transportation Program (STP) and the State Transportation Improvement Board (TIB) which can be used only for transportation purposes. Major street projects are accounted for in separate project funds in the 300 series with State and Federal revenues and transfers from the Street Fund and/or the General Fund when needed.

Tourism Promotion – The Tourism Fund (Hotel / Motel tax fund) was established by City Council to fund activities designed to increase tourism. Lodging taxes were authorized by the State Legislature for tourism marketing, special events and festivals designed to attract tourists, and the support of tourism-related facilities.

The primary revenue source is a Lodging Tax of 4% charged on lodging within the City of Stevenson. In the past, this tax has generated over \$400,000 per year, which is awarded to applicants by City Council following recommendations from the Tourism Advisory Committee (TAC) in November. COVID-19 has reduced the projected revenues and will be monitored as the tourism economy recovers.

Affordable Housing Fund – This fund, established in late 2020, is for the collection and use of the sales tax credit for affordable housing authorized by SMC 3.10 and RCW 82.14. The rate inside city limits is .73% and can be used for acquiring, rehabilitating or constructing affordable housing, providing the

operations and maintenance costs of new units of affordable or supportive housing, and providing rental assistance to tenants.

Capital Improvement Fund – The Capital Improvement Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. The primary dedicated revenue source is the real estate excise tax imposed on the sale of real estate. These funds are restricted by the State Legislature for capital purposes identified in a capital improvements plan and local capital improvements including those listed in RCW 35.43.040.

Capital Improvement projects are normally accounted for in separate project funds in the 300 series with funding from various State and Federal sources and transfers from the Capital Improvement Fund and/or other City funds as applicable. In recent years the Capital Improvement Fund has been used to help fund the Kanaka Creek and Gropper Sidewalk project, the Russell Avenue project, and the Joint Emergency Facilities project.

Water & Sewer Fund – The Water & Sewer Fund is operated as an enterprise fund to account for the operations of the City's water and sewer systems on a self-supporting basis. In addition to generating enough revenue to meet current expenses, the fund must generate enough revenue to build a reserve for equipment repair and eventual capital replacements. An annual water rate increase of 5% beginning in 2020 was adopted by council to ensure adequate funds for capital projects and debt repayment. The sewer rates are proposed to increase 12.5% for 2021. This rate increase of \$11.25 to the residential base fees is the same as last year's increase and will allow the city to meet the needs of the department for 2022 and future loan repayments. Staff continues to pursue additional grant funding for the project to reduce the final rate impact. Rate increases for 2023 and beyond will be determined after the finance package for construction of the Wastewater Treatment Plant upgrades is concluded.

Wastewater Short Lived Asset Reserve Fund – This fund is required as part of the city's USDA loan. Annual deposits of at least \$21,779 are required for the 40-year life of the 2020 wastewater project loan. This fund operates like a line of credit for repairing and/or replacing major system assets with a life span less than 15 years.

Wastewater Debt Reserve Fund – This fund is required as part of two loans the city has through USDA. The balance is equal to one annual loan installment. Prior written concurrence from USDA must be obtained before funds may be withdrawn from this fund during the life of the loan. When funds are withdrawn during the life of the loan, deposits will be made at the rate of 10% of one annual payment until the balance is equal to one annual loan payment.

Wastewater System Upgrades – This fund is for the planning, design, and construction of upgrades to the water system as identified in the water system plan and required as part of the Administrative Order. Most of the revenues are grants or loans with some internal match funding. The revenues and expenditures are updated when funding is received, project timelines determined, and contracts secured.

Equipment Service Fund – The Equipment Service Fund is used to account for labor charges and equipment usage by other funds, and to save funds for eventual equipment replacements. Revenues are derived from charges made against other funds for using the equipment. Charges are based on the number of hours worked and miles driven by field staff in each fund and are intended to cover operating costs, equipment maintenance, staff salaries, insurance, and replacement costs. Current rates are \$4.10 per mile for driven equipment and \$20 per hour for stationary equipment and are being evaluated to ensure projected financial needs are being met.

The Public Works Director maintains an equipment replacement schedule and attempts to replace at least one major piece of equipment every year, as funding allows. A copy of the equipment replacement schedule is included with the budget for this fund.

Respectfully submitted,

Leana Kinley

City Administrator

General Fund

The General Fund is the primary operating fund for the City. The General Fund accounts for all revenues and expenditures not required to be accounted for in a separate fund.

Primary revenue sources for the General Fund are property and sales taxes. Property taxes are levied on 100% of assessed valuation as determined by the Skamania County Assessor's Office and are limited by Washington State law to a 1% annual increase plus the addition of any new construction and annexations. Other sources of revenue include:

- **Other taxes** – natural gas, electricity, cable, garbage, telephone, etc.
- **Interest Income** – interest income from city investments
- **Licenses** – business and vacation rental licenses
- **Planning fees** – fees for short plats, critical areas permits, shorelines permits, etc.

The ARPA Fund is for projects and programs as obligated by City Council and restricted for use in accordance with the American Rescue Plan Act and guidance set by the Department of Commerce. Council is in the process of determining how to use these funds, which will include community engagement. These funds have to be obligated by 2024 and spent by 2026.

Street Fund

The Street Fund is used to account for proceeds of specific taxes and other revenue sources dedicated to fund city streets, storm drains, sidewalks and associated activities.

The primary state-dedicated revenue source is State gas tax. City Council has also dedicated the PUD Excise Tax, Liquor Profit Tax and a second half-percent sales tax (enacted by City Council in 2012) as additional revenue sources to the Street Fund.

Street Fund revenues have been supplemented in the past by the Federal Surface Transportation Program (STP) and the State Transportation Improvement Board (TIB) which can be used only for transportation purposes. Major street projects are accounted for in separate project funds in the 300 series with State and Federal revenues and transfers from the Street Fund and/or the General Fund when needed.

Capital Projects in 2022 include \$134k for repairs to the Rock Creek stormwater outfall which must be completed in conjunction with the Rock Creek Lift Station Upgrades. Other projects for 2022 coded as a service are \$25k for updating the City Engineering Standards and \$65k for an overlay along Iman Cemetery Rd from Ryan Allen to Osprey Ridge.

The 2021 proposed budget includes the Rock Creek stormwater project, which is delayed until 2022 and the current trends of the 2021 YTD are projected to hold true.

Years where the revenue is less than expenses mean reserves are being used to balance the budget. Revenues are budgeted conservatively due to the unknown impacts of COVID and the economy.

The Capital Improvement Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. The primary dedicated revenue source is the real estate excise tax imposed on the sale of real estate. These funds are restricted by the State Legislature for capital purposes identified in a capital improvements plan and local capital improvements including those listed in RCW 35.43.040.

Capital Improvement projects are normally accounted for in separate project funds in the 300 series with funding from various State and Federal sources and transfers from the Capital Improvement Fund and/or other City funds as applicable.

The First Street Fund is for tracking the revenues and expenses related to the First Street Overlook Project. Construction has been delayed due to right of way issues identified at 90% design. The City has 10 years to enter into the Construction Phase from the initial date of the contract, which is January 1, 2030, or the grant funds will need to be returned. Staff is working with WSDOT to resolve the issues and move forward with the project within this time-frame.

The Columbia Avenue Fund is for tracking the revenues and expenses related to the Columbia Avenue Realignment Project. The city received a 100% grant for \$200k to analyze the feasibility and determine costs for the project. Contracts will be presented to council in the coming months to accept the Integrated Planning Grant through the Department of Ecology and to contract with Maul Foster Alongi for the work.

Water/Sewer Fund

The Water & Sewer Fund is operated as an enterprise fund to account for the operations of the City's water and sewer systems on a self-supporting basis. In addition to generating enough revenue to meet current expenses, the fund must generate enough revenue to build a reserve for equipment repair and eventual capital replacements.

Water Department

An annual water rate increase of 5% beginning in 2020 was adopted by council to ensure adequate funds for capital projects and debt repayment.

Water debt is for repayment on a loan for the Base Reservoir, which ends in 2026, and the repayment of the loan for the water meters, which ends in 2030.

Water capital costs include:

- \$62k in upgrades along Vancouver to the Rock Creek intersection
- \$40k for relocation of a waterline along Foster Creek Road
- \$100k in upgrades along Loop from Kanaka to the Columbia intersection.

Water/Sewer Fund

Sewer Department

The sewer rates are proposed to increase 12.5% for 2022. This rate increase of \$11.25 to the residential base fees is the same as last year's increase and will allow the city to meet the needs of the department for 2022. This may mean higher increases in the following years; however, the city continues to take into consideration the impact of COVID-19 on customers. Rate increases for 2023 and beyond will be determined after the finance package for construction of the Wastewater Treatment Plant upgrades is secured.

Sewer debt is currently only for the outfall, which ends in 2033. Repayment on the loan for the Wastewater Treatment Plant design will begin in 2022. The debt for 2024 and beyond is estimated on our current loan award from the Department of Ecology and USDA for construction of the Treatment Plant and Collection System upgrades.

Sewer Revenue and Expense

Sewer Capital Costs are tracked in the Wastewater System Upgrades Fund (410) and include:

- \$8.2M for WWTP Upgrade Construction
- \$1.7M for Collection System Upgrades
- \$455k for Engineering Services-Design and construction management
- \$300k for Main D sewerline extension

The Wastewater System Upgrades Fund is for the planning, design and construction of upgrades to the water system as identified in the water system plan and required as part of the Administrative Order. Most of the revenues are grants or loans with some internal match funding. The revenues and expenditures are updated when funding is received, project timelines determined and contracts secured.

Equipment Service Fund

The Equipment Service Fund is used to account for labor charges and equipment usage by other funds, and to save funds for eventual equipment replacements.

Revenues are derived from charges made against other funds for using the equipment.

Charges are based on the number of hours worked and miles driven by field staff in each fund and are intended to cover operating costs, equipment maintenance, staff salaries, insurance, and replacement costs. Current rates are \$4.10 per mile for driven equipment and \$20 per hour for stationary equipment and will be reviewed in 2022.

The Public Works Director maintains an equipment replacement schedule and attempts to replace at least one major piece of equipment every year, as funding allows. A copy of the equipment replacement schedule is below.
