**SUBJECT:** Residential Street Side Setback Requirements; Periodic Zoning Use Review

---

### **Introduction**

The Planning Commission is asked to engage with the public on a potential zoning code text amendment. The proposal was submitted by City staff in furtherance of the work plan established in January 2024. The proposal involves greater flexibility for (re)development on corner lots in the R2 and R3 districts.

The public is asked to engage with the Planning Commission to ensure the draft is as acceptable as possible before next steps are initiated.

Potential next steps include:

- Making a recommendation to the City Council to approve the amendments
- Altering the current draft amendments for future consideration
- Conducting additional public outreach/ holding a Planning Commission public hearing on amendments
- Abandoning the amendments and moving on to other matters

### **Public Involvement**

As requested by the Planning Commission, staff contacted all corner lot owners subject to this potential change. See Attachment 1. The public release draft mailer addressed the potential changes to street side setbacks by showing the changes in tabular form and including the a figure demonstrating the pedestrian visibility area. The mailer included information about tonight's Planning Commission review and encouraged recipients to contact the City with questions. None have. Note: The mailer focused on the potential setback change and did not broach the topic of Salons in the R3 District. As discussed at the February meeting, this amendment could incorporate the 2022 Planning Commission interpretation which considered Salons as a potential conditional use in the R3 District.

The workshop Q/A session scheduled for tonight will make use of the County Assessor's online mapping system to demonstrate the effects of the potential change on an as necessary basis.

### **Next Steps**

The selected next steps will be implemented. A SEPA threshold determination will be issued. The City Council will hold a public hearing at their regular meeting.

Ben Shumaker

**DATE:** February 16<sup>th</sup>, 2024  
**SUBJECT:** Corner Lot Setback Changes – Considering Adding Flexibility

### Introduction

The City Planning Commission is considering changes to the setbacks applicable to your property. The changes being considered would increase the developable area on your property. The change acknowledges that development on many of the lots in Stevenson’s residential core do not meet the current requirement. The proposed flexibility on these lots would not come at the expense of pedestrian or vehicular safety. The change would only apply to the R2 Two Family Residential and R3 Multi-Family Residential Districts. Broadly this involves the areas 1) between Rock Creek Drive and Hot Springs Alameda, 2) between Vancouver and Del Ray avenues, 3) along lower Frank Johns Road, 4) along Lutheran Church Road, and other smaller pockets of town. This letter is to inform you about the draft amendment and how you can be involved in its review.

### Change Considered

Currently, the City of Stevenson Zoning Code requires buildings on your property to be set back at least 15 feet along street side of corner lots. The proposed change would reduce that requirement to 10 feet.

District	Maximum Height of Building	Minimum Setbacks				
		Front	Side, Interior	Side, Street	Rear, Interior Lot	Rear, Through Lot
<b>R1</b>	35 ft	20 ft	5 ft	15 ft	20 ft <sup>1</sup>	20 ft
<b>R2</b>	35 ft	20 ft	5 ft	10 ft <sup>3,4</sup>	20 ft <sup>1</sup>	20 ft
<b>R3</b>	35 ft	10 ft <sup>3,4</sup>	5 ft <sup>2</sup>	10 ft <sup>3,4</sup>	20 ft <sup>1</sup>	20 ft
<b>MHR</b>	35 ft	30 ft	15 ft	20 ft	20 ft <sup>1</sup>	20 ft
<b>SR</b>	35 ft	30 ft	15 ft	20 ft	20 ft	20 ft

1-5ft for residential outbuildings that are both 12 ft in height or less and 200 sq ft in size or less  
 2-A 10-foot setback is required when adjacent to an R1 or R2 district.  
 3-See also SMC 17.15.130.B.3.  
 4-However, no structure shall be located within a pedestrian visibility area (SMC 17.10.632).

The reduction would apply differently where there is a street side driveway. In such cases, areas would need to be kept clear to facilitate drivers’ ability to see pedestrians and other vehicles:

**Effect**

What does this mean for you?

- Vacant Land: If you own vacant land, your development options will expand. More territory will be available for building in the street side yard. Your choice of driveway location will determine how much territory this will be.
- Previously Developed Property. If your land already has a building on it, then these changes will have little impact on you in the short term. If there are preexisting buildings in the setback or pedestrian visibility areas, the change would not require you to bulldoze anything. In the longer term the City expects the changes to benefit properties like this. Currently, in the case of fire or other calamity, such buildings would not be allowed to use their current footprint. If the change is made, fewer of you would be compelled to build something other than what was lost. Based on a preliminary, desktop analysis, several of you could be in this situation.

Zone	Total # Parcels	Corner Parcels		Suspected Nonconforming Corner Parcels	
		#	%	#	%
R2	90	30	33.3%	12	40.0%
R3	113	30	26.5%	6	20.0%

The figures above are approximate based on review of aerial photographs and assessor's parcel maps. This method has many inherent limitations.

**Timeline**

The Planning Commission will hold an informational workshop and Q/A session on **Monday, March 11<sup>th</sup> at 6:00 pm**. Attendance at the public hearing is possible both in person at City Hall (7121 East Loop Road), via conference call (+1-253-215-8782 or +1-346-248-7799 ID #: 856 3738 8112), or via webinar (<https://us02web.zoom.us/j/85637388112>).

1-Conditional use permits for Multi-Family Dwellings which exceed the maximum number of dwelling units allowed in SMC Table 17.15.050-1 are only considered when submitted as part of an R-PUD proposal under SMC 17.17 - Residential Planned Unit Developments.

2-A conditional use permit is only required for a temporary emergency, construction or repair residence after the expiration of the initial 6-month grace period.

During the conditional use review process, the planning commission may establish size, serial proliferation and other limitations on such buildings.

4-A residential outbuilding that is subordinate to the main use on the lot is considered an accessory use. A residential outbuilding which is not subordinate to the main use on the lot is considered a conditional use. During the conditional use review process, the planning commission may establish size, serial proliferation and other limitations on such buildings.

5-Despite the general exclusion of overhead elements from this use category, any utility or communication facility in the MHR district with an overhead element greater than 35 feet is considered a conditional use.

6-See also SMC 17.36-WW Wind/Wireless Overlay District.

7-In granting a conditional use request for farm animals in the R1 district, the planning commission shall find, at a minimum, that the proposal is compliant with the performance standards in SMC 17.40.095.

8-Townhomes in the R2 District are subject to review according to the density and parking requirements of the R3 Multi-Family Residential District and shall connect to the municipal sewer system.

9-See SMC 18.08 and the Shoreline Master Plan for use allowances related to this use category.
