

DOWNTOWN STEVENSON PARKING REPORT

2021 & 2023 DATA

NOVEMBER PC PRESENTATION

DOWNTOWN STEVENSON PARKING REPORT

- Is there enough ADA parking?
- Is there enough parking?
- What should be done about our parking inventory?
- What should be done about our parking regulations?

PROJECT ACTIONS

- Engage Shareholders
- Inventory Parking Supply
- Assess Current Usage and Future Parking Demand
- Recommend Actions to Balance Supply & Demand

The background is a dark blue-grey color. In the four corners, there are decorative white line-art elements that resemble circuit board traces or neural network connections. These lines are thin and end in small circles, creating a grid-like pattern that frames the central text.

IS THERE ENOUGH ADA PARKING?

NOPE!

IS THERE ENOUGH ADA PARKING?

Public Engagement

- This topic was spearheaded by the public directly, through the leadership of the Parking Advisory Committee

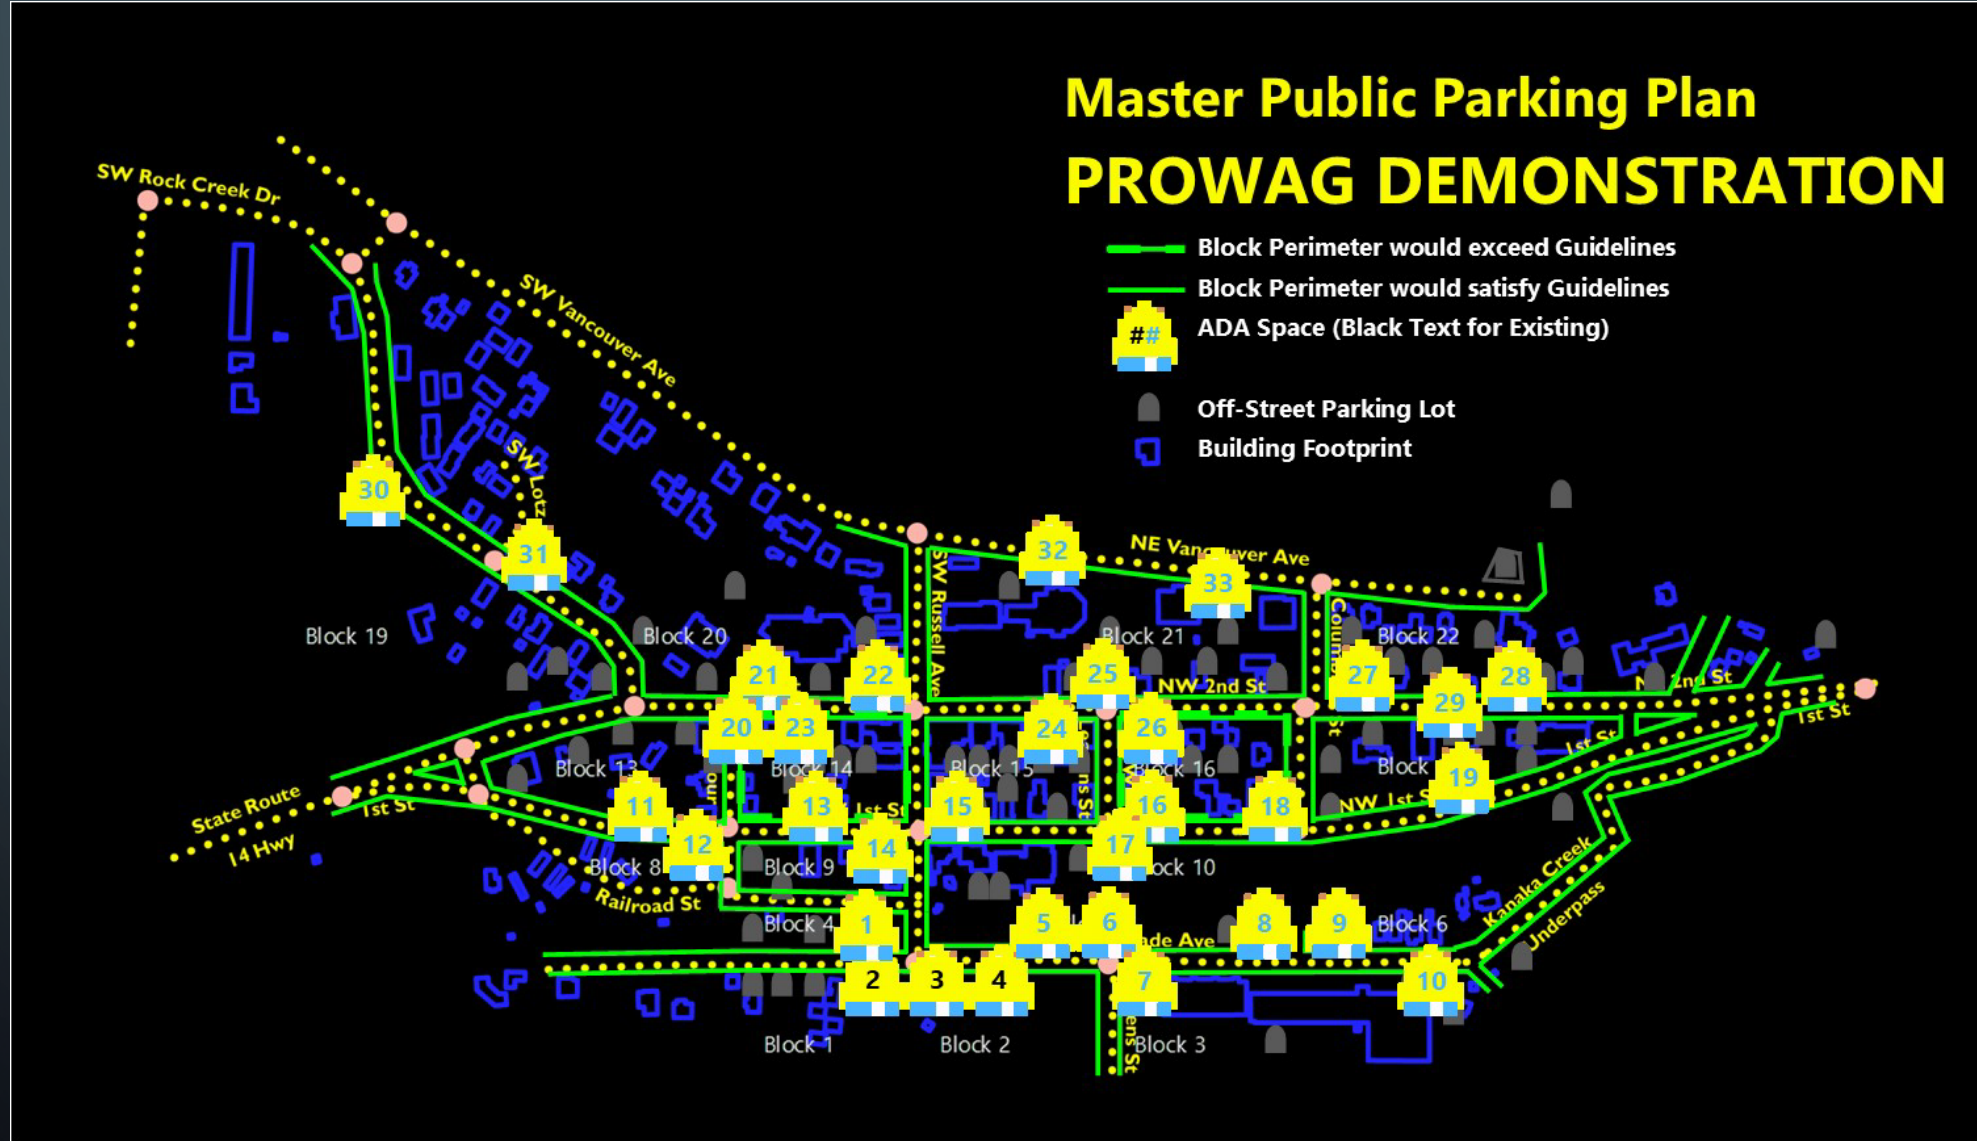

Inventory

- Three, tres, trois. That's it. In the entire downtown study area, there are 3 curbside parking spaces reserved for vehicles carrying passengers with disabilities
- The 3 spaces are clustered on Cascade Avenue at Stevenson Landing and separated from the downtown core by 3 sets of railroad tracks and at least 40 feet of elevation (the equivalent of 4 flights of stairs)

Demand

- By any measure 3 spaces is not enough
- Using the federally-proposed Public Rights-of-Way Accessibility Guidelines (PROWAG) as the measure, Downtown Stevenson should have 30 curbside spaces reserved for accessible-only (ADA) usage
- The accessible-only spaces should be distributed on each downtown block based on the number of total marked spaces around the block perimeter

RECOMMENDED ACTION: ADD ACCESSIBLE PARKING

RECOMMENDED ACTION: ADD THEM IMMEDIATELY

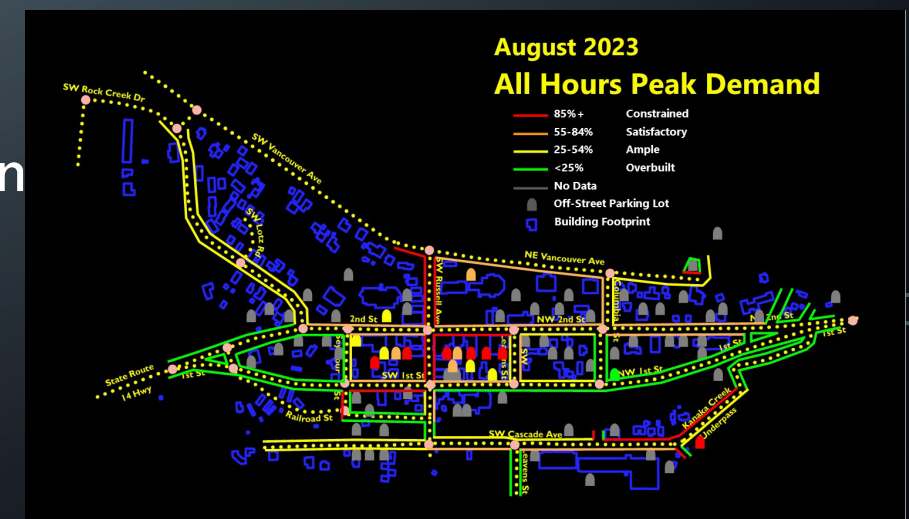

- While the PROWAG suggests adding spaces over time as part of major improvement projects, the PAC is asked whether to recommend adding the following spaces immediately:
 - ADA-13: First Street, north side near EMS facility.
 - ADA-19: First Street, north side as part of First Street Overlook Project
 - ADA-20: Second Street, south side at Seymour Street as a temporary solution near pharmacy (long-term solution also identified)
 - ADA-22: Second Street, at northwest corner of Russell Street Intersection
 - ADA-24: Second Street, southside at Walnut Park

RECOMMENDED ACTION: ADD THEM IMMEDIATELY

IS THERE ENOUGH PARKING?

- The public think there is enough during the off-season but not tourist season
- Downtown business owners are split, 50% believe there is enough for their customers
- The Usage Data suggest there is enough. Any parking problems are localized/time-limited
- The PAC is asked to provide a recommendation based on their understanding

INVENTORY SUMMARY

CURBSIDE

- 609 Parkable Spots (Marked spaces and unmarked areas)
- Census of all 1199 features (parking spaces, loading zones, crosswalks, etc.) along 25 Blocks
- 11 Attributes assessed for each feature

OFF-STREET

- 1055 Spaces (based on facility owner reports or City estimates)
- From a sample of 74 parking areas (excludes residential-only lots)
- 9 Attributes assessed for each lot

Inventory

- Curbside Block Faces
- Off-Street Parking Area

USAGE STUDY SUMMARY

USAGE STUDY

- Counted raw number of vehicles parked along each block face
- 357 Parkable Spots

TURNOVER STUDY

- Identified vehicles parked in specific parking spaces to understand whether they moved throughout the day
- 257 Curbside Parkable Spots
- 2nd Street from Seymour to Frank Johns
- 1st Street from Seymour to Columbia
- Seymour Street
- Leavens Street from 2nd to 1st
- Russell Street from Vancouver to Cascade

POINT-IN-TIME USAGE STUDIES

2021

Thursday 9/16 (Sunny, strong wind):

- 35% Max Usage Hour (2:00-3:00 PM)

Saturday 9/18 (Downpour)

- 27% Max Usage Hour (1:00-2:00PM)

2023

Thursday 8/24 (Sunny, strong wind, salmon run)

- 43% Max Usage Hour (2:00-3:00 PM)

Saturday 8/26 (Sunny, strong wind, salmon run, farmers' market)

- 37% Max Usage Hour (1:00-2:00PM)

INTERPRETING USAGE STUDY RESULTS – THE 85% RULE

- The 85% Rule views parking through an economic lens and establishes a threshold where:
 - Enough parking is available to new vehicles, and
 - Enough parking is in use to justify its expense
- **Red:** Not enough parking is available; past investments in parking are realized; new investments should be made
- **Orange:** Enough parking is available; past investments in parking are realized; new investments may be advisable
- **Yellow:** Enough parking is available; past investments are not realized; new investments may soon be advisable
- **Green:** Enough parking is available; past investments are not realized; no new investments should be made, inventory can be put to other uses

GREEN IS NOT GOOD!

Thursday 8/24/2023

7:00 AM Usage

THAT'S A LOT OF GREEN!

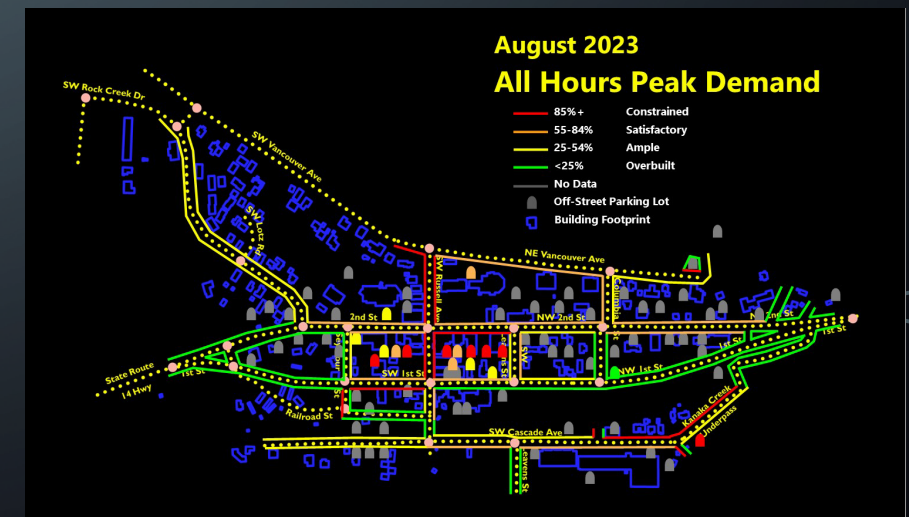

GREEN IS NOT GOOD!

Green is not necessarily bad either

IS THERE ENOUGH PARKING?

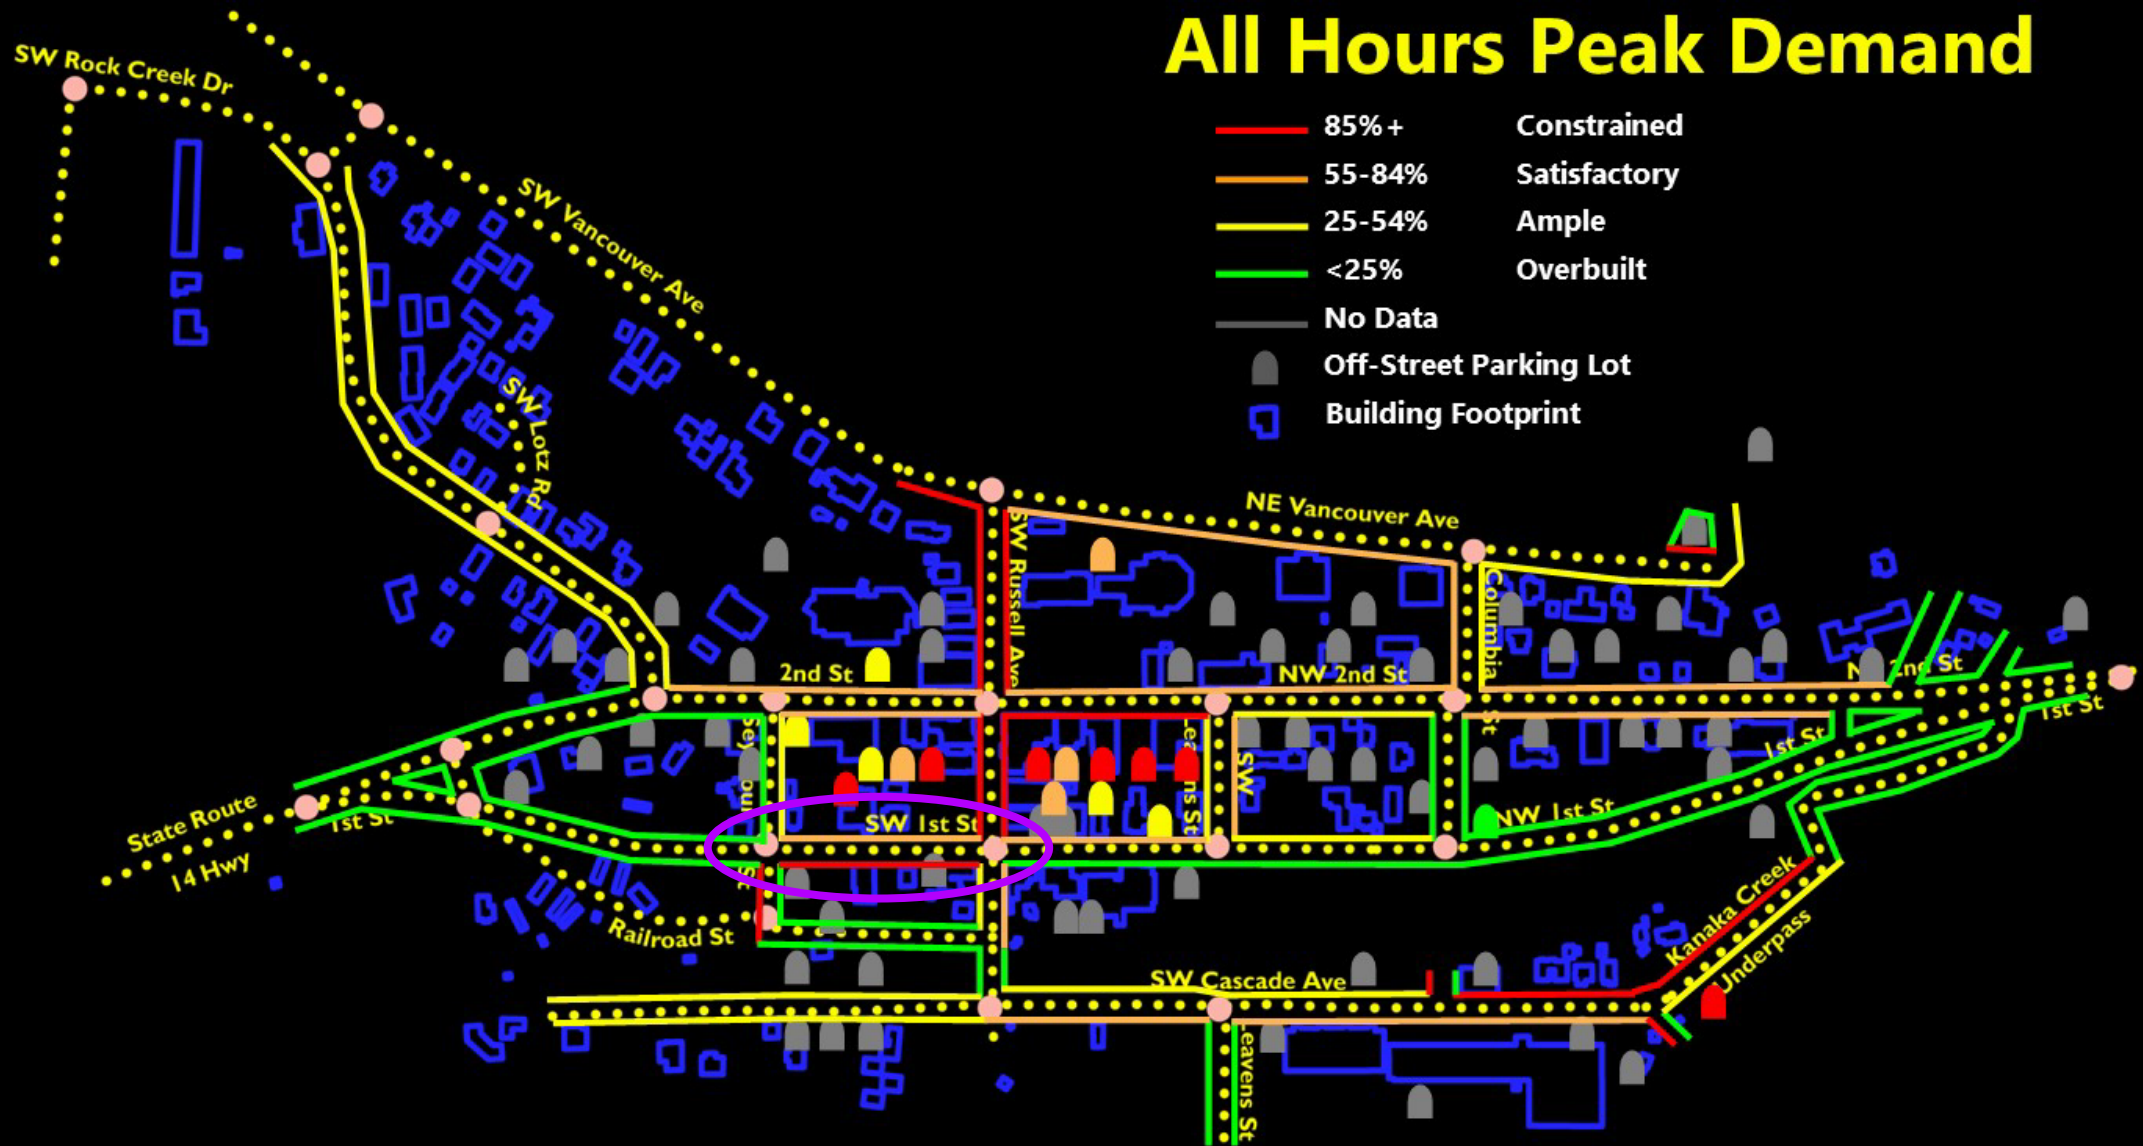

- If the public witnessed any red block face at any time, their perception of a parking problem is 100% correct...on that block face at that time
- Observed parking problems do not stretch out beyond 2 consecutive block faces during any study hour
- Observed parking problems on any single block face do not last longer than 5 hours (Cascade Avenue across from Boat Launch)

August 2023

All Hours Peak Demand

- 85%+ Constrained
- 55-84% Satisfactory
- 25-54% Ample
- <25% Overbuilt
- No Data
- Off-Street Parking Lot
- Building Footprint

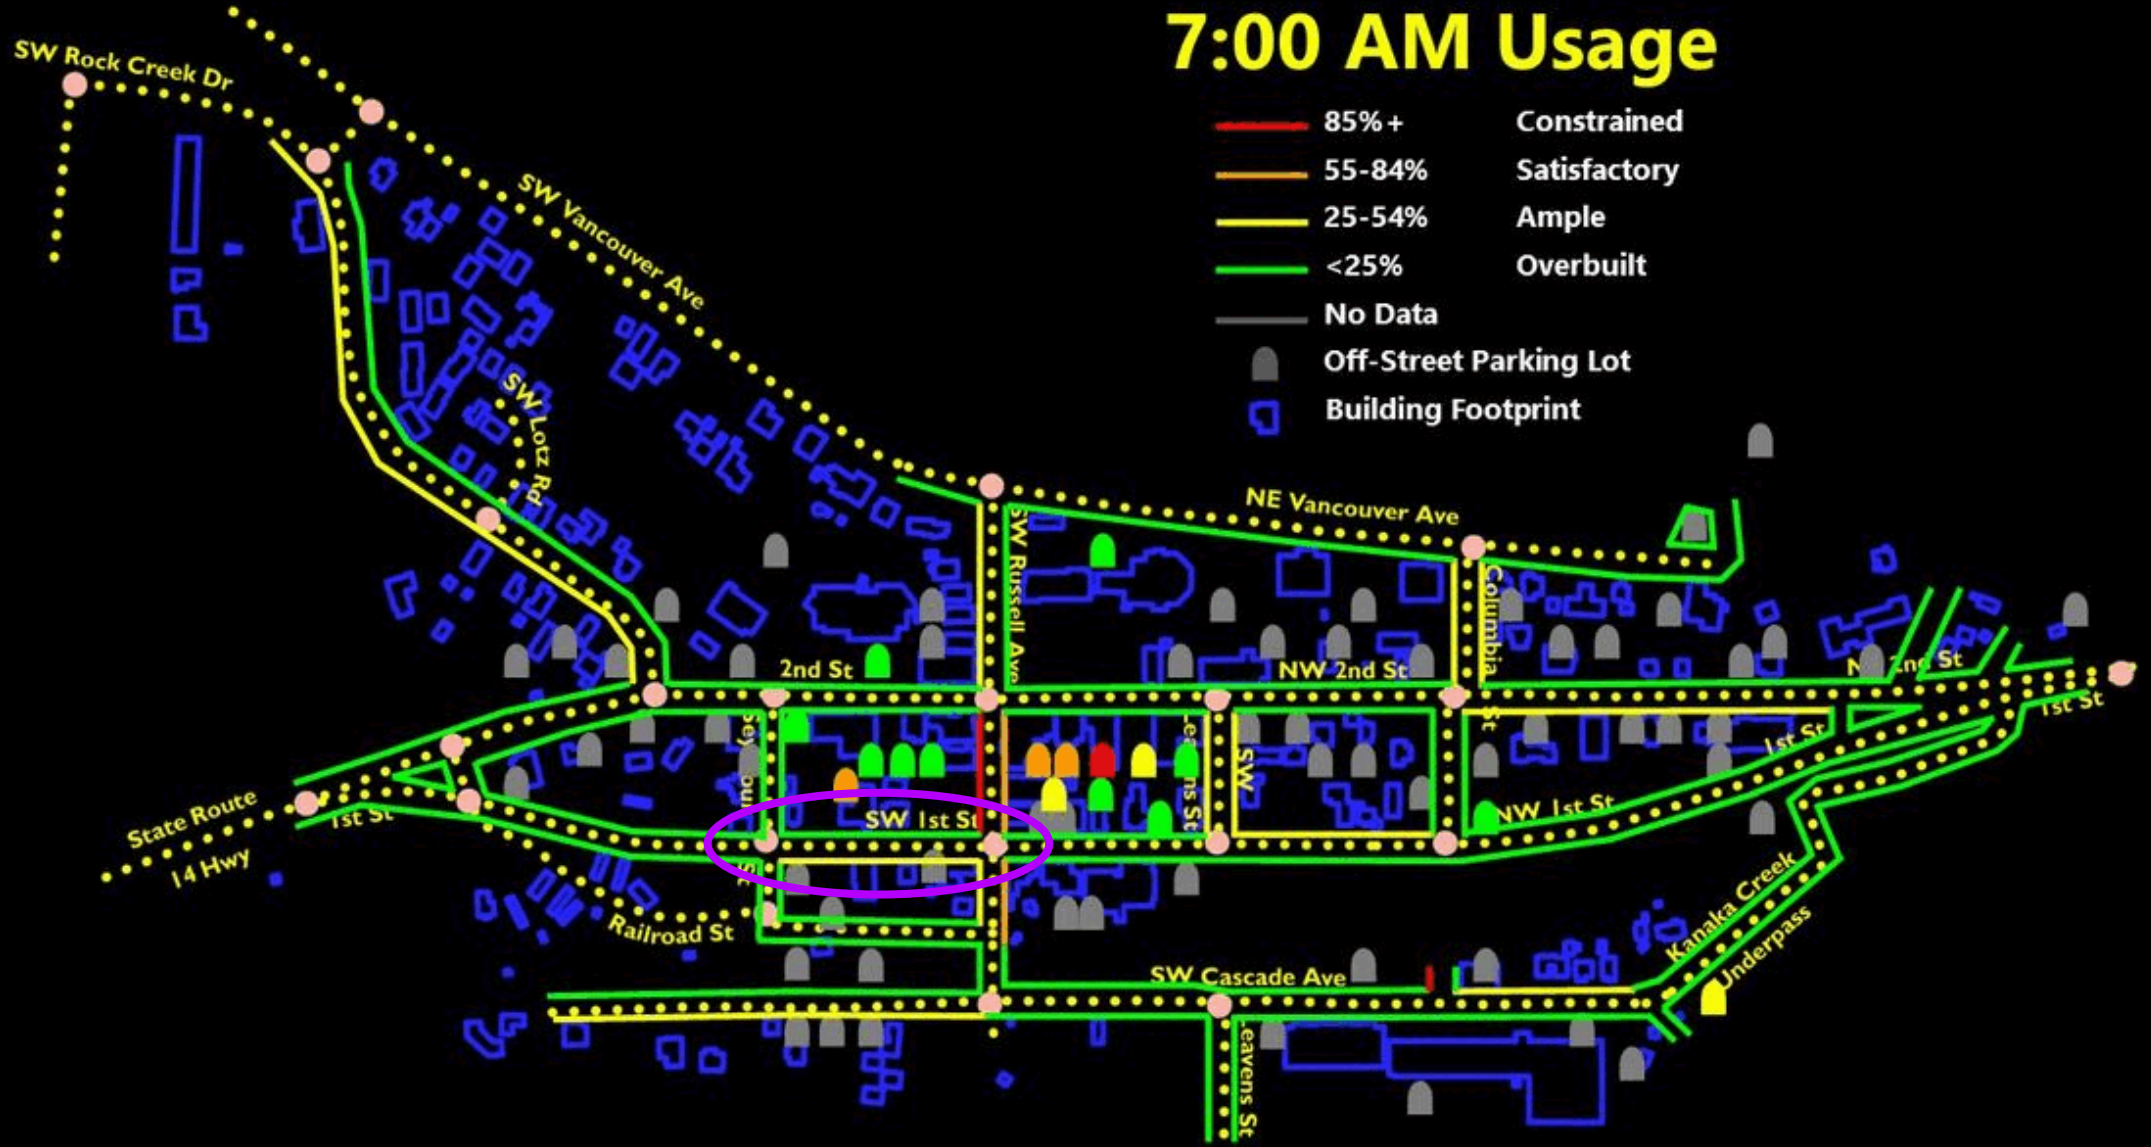

1 new space (all hours)

2 new spaces (weekends)

Saturday 8/26/2023

7:00 AM Usage

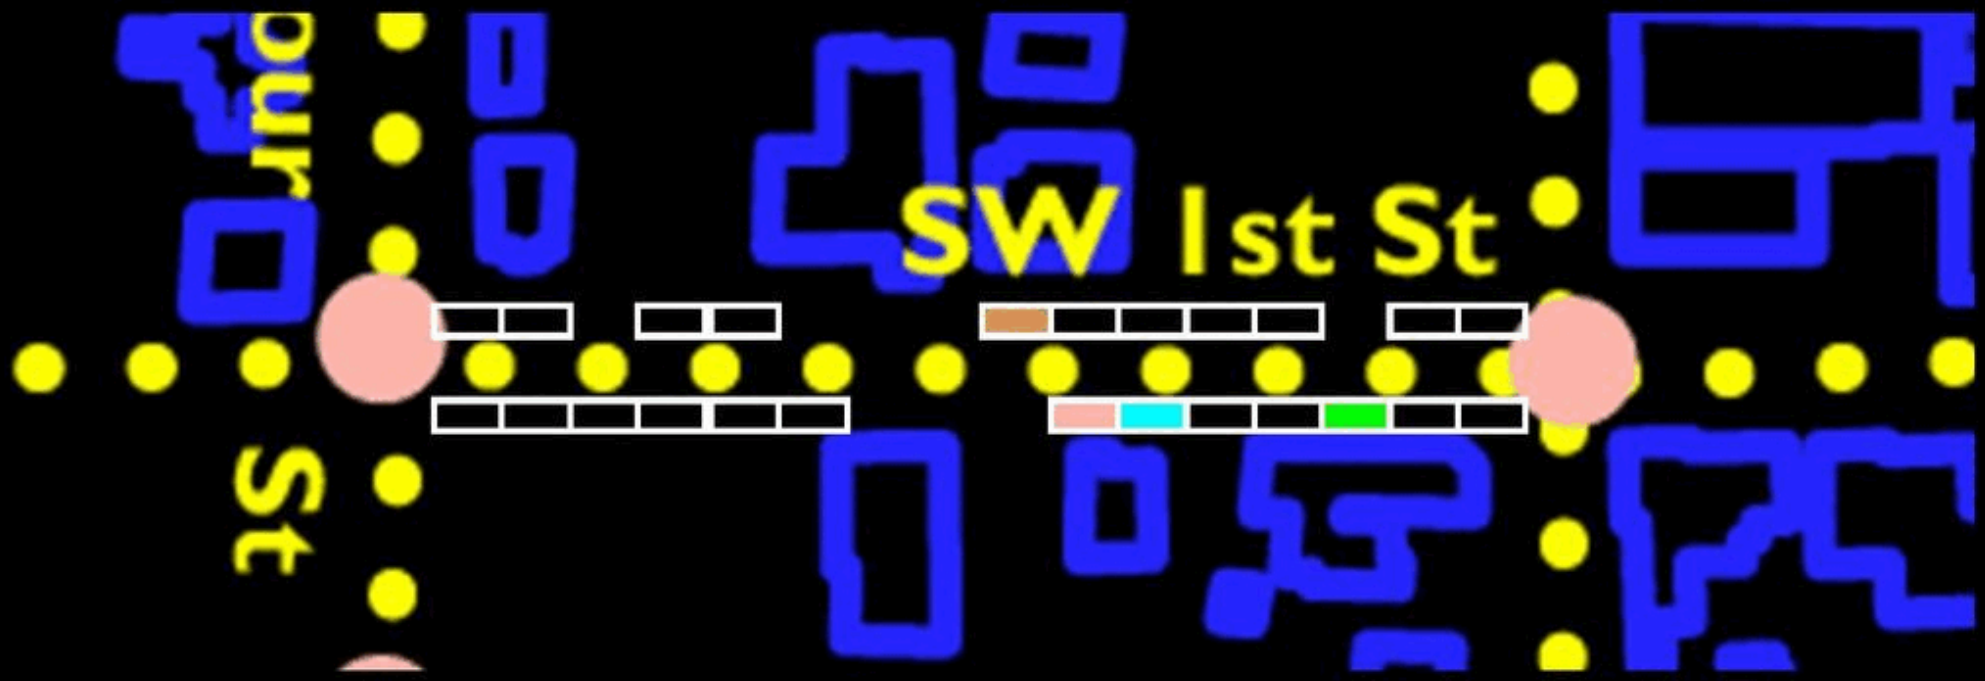

- 85%+ Constrained
- 55-84% Satisfactory
- 25-54% Ample
- <25% Overbuilt
- No Data
- Off-Street Parking Lot
- Building Footprint

Saturday 8/26/2023 7:00 AM

Block Face 9A/14C Turnover

-  Building Footprint
-  Empty Parking Space
-  Transitory Vehicles
-  Recurrent Vehicles
-  No Data

SOURCE OF RECOMMENDATIONS

- Parking Advisory Committee (11 downtown shareholders)
- Downtown Plan for SUCCESS!
- Public preference questionnaires
- Staff analysis

SCOPE OF POTENTIAL RECOMMENDATIONS

- **Implement Master Parking Plan**
 - Clarify where parking is available/permissible
 - Reserve Curbside spaces for accessible-only (ADA) use
- **Add to the municipal parking supply (curbside and off-street)**
- **Reduce parking requirements for new development**
- **Adaptively manage parking requirements for changing uses within existing development**
 - Dialogue with the downtown workforce
 - Monitor usage rates and travel trends
 - ~~Timed parking restrictions~~
 - ~~Metered parking~~
 - ~~Resident parking passes~~

COMMISSION INVOLVEMENT

- **Implement Master Parking Plan**
 - Endorse or modify PAC recommended plan
- **Add to the municipal parking supply (curbside and off-street)**
 - Recommend adoption of voluntary payment in-lieu of providing on-site parking, reference in SMC 17.42 (and/or SMC 17.25)
- **Reduce parking requirements for new development**
 - Recommend amendments to SMC Table 17.42.090-1: Off –Street Vehicle Parking Requirements
- **Adaptively manage parking requirements for changing uses within existing development**
 - Recommend amendments to SMC 17.25.130.B and SMC 17.42.030
