

July 16/2024

Page 1 Stevenson City Council

from Debra Taylor @ 291 NW Roosevelt St.
Stevenson, WA 98648

- 1) As a neighbor of River Christian Church, I have witnessed the Church has continued forward with development of their proposal to Stevenson City Planning Committee that was a NO vote.
- 2) Parking is always a problem for Space! The placement of the Old Plastic playground is now taking parking away from size needed for size of Church. Their Now parking along Roosevelt St, which is very narrow and Steep.
- 3) Play area, which is Old Plastic, is in Full Sun all day and NO Toilets within, at least 100 yds of playground.
- 4) Children are not the only ones using the Old Plastic Playground, young Adults use this as well, sometimes late at night.

Page 2.

5) The Old Plastic Playground, DOES impact property Value Tremendously! Location is in Full View of our House and not in a safe Location with lots of Noise.

6) The neighbors of Roosevelt St. voted No on this Development as well. I would like to understand how we are ignored by the City of Stevenson on this issue.....

Please respond on this issue on how this Old Plastic Playground was approved and neighbors of River Christian Church don't matter and our votes don't matter...

Thank You
Jenna Taylor

Please, address this on your next City Council Meeting in July/26
