
TO: Kate Thunstrom, City Administrator
FROM: Craig Jochum, City Engineer
SUBJECT: Dellwood River Park Riverbank Stabilization Project Final Pay Estimate
DATE: July 1, 2024

OVERVIEW:

This project included stabilizing a section of the bank on the Rum River in Dellwood River Park. This project also includes reconstructing the first 700 feet of existing bituminous trail from Silverod Street to the stabilization project.

Attached is the Final Payment Form. The contractor has submitted the required IC-134 documentation and the Consent of Surety. This final payment includes payment for all the work items completed for this project and releases the retainage. The recommended final payment is \$40,048.75.

ACTION TO BE CONSIDERED:

Consider approval of the Final Payment for the Dellwood River Park Riverbank Stabilization Project.

BUDGET IMPLICATION:

The city's cost share for the bank stabilization is 15% of the construction total or \$24,900.45. This amount has already been paid by the city to the Anoka Conservation District (ACD). The city was also responsible for the cost of overlaying the remaining trail segment. This cost was \$6,542.80. ACD is responsible for holding and administering the project funds. The grant will cover 100% of the cost for design and construction administration and the other 85% of the construction cost. Since the contract is between the city and the contractor the city will pay the contractor directly and will be reimbursed by the same amount from the ACD.
