Additional information you wish to include.

I love parks and public spaces. I've spent almost 20 years working to make our County parks safer and more accessible. I am a someone who uses and enjoys parks regularly, including our st helens city parks as well as other regional spaces. Camping and hiking are favorite activities of mine. I spent 2 years traveling the western US in my van and visited as many National Parks as possible during that time.

I believe great parks and green spaces, that offer a variety of activities make healthier communities. The City of St Helens has some fantastic spaces and i see them growing in new and exciting ways. (like pickle ball at Campbell and of course the Riverfront development) McCormick is a community conerstone and the nature preserve off of 6th street is a hidden treasure.

I believe I have some idea of what makes great public spaces and have a lot to contribute to the parks advisory board.

I am applying because I want to root back into my community by volunteering in areas that I fell passionate about and that offer opportunities to work collaboratively for a richer and stronger community.
