

City of St. Helens
ORDINANCE NO. 3317

AN ORDINANCE TO ANNEX AND DESIGNATE THE ZONE OF CERTAIN
PROPERTY AT 58506 KAVANAGH STREET (AVENUE)

WHEREAS, applicant Mark Comfort for Tom Mahaffey has/have requested to annex to the City of St. Helens certain property at 58506 Kavanagh Street (Avenue). This property is also described per **Exhibit A** and depicted per **Exhibit B**; and

WHEREAS, the applicant has consented in writing to the proposed annexation; and

WHEREAS, the applicant constitutes 1) all the owners of the property to be annexed, and 2) more than half of the owners of the property to be annexed own more than half of such property representing more than half of the assessed value pursuant to ORS 222.170(1); and

WHEREAS, the City Council must determine the incorporated Comprehensive Plan Map designation and the Zone Map designation; and

WHEREAS, appropriate notice has been given and a public hearing was held August 20, 2025 on the annexation proposal; and

WHEREAS, the Council has considered findings of compliance with criteria and law applicable to the proposal.

NOW, THEREFORE, THE CITY OF ST. HELENS ORDAINS AS FOLLOWS:

Section 1. The above recitations are true and correct and are incorporated herein by this reference.

Section 2. The property described in **Exhibit A** and depicted in **Exhibit B** is hereby accepted for annexation to the City of St. Helens.

Section 3. The St. Helens Zoning Ordinance Map is hereby amended to reflect that the property described herein shall be zoned Highway Commercial, HC.

Section 4. The St. Helens Comprehensive Plan Map is hereby amended to reflect that the property described herein shall be designated as Highway Commercial, HC.

Section 5. In support of the above annexation and amendments described herein, the Council hereby adopts the Annexation A.3.24 Findings of Fact and Conclusions of Law, attached hereto as **Exhibit C** and made part of this reference.

Section 6. The effective date of this Ordinance shall be 30 days after approval, in accordance with the City Charter and other applicable laws.

Read the first time:	September 3, 2025
Read the second time:	September 17, 2025

APPROVED AND ADOPTED this 17th day of September, 2025 by the following vote:

Ayes:

Nays:

Abstains:

Jennifer Massey, Mayor

ATTEST:

Kathy Payne, City Recorder

EXHIBIT A
LEGAL DESCRIPTION

A parcel of land located in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 8, Township 4 N., Range 1 W., Willamette Meridian, Columbia County, Oregon, more specifically described as follows:

Beginning at a point along the East right-of-way line of Kavanagh Avenue, said point being the most Northerly corner of Lot 14, Block 2, Golf Club Addition to St. Helens, Columbia County, Oregon, also the **True Point of Beginning**;

Thence, South 69°01' East along the North line of said Lot 14 and continuing along the North line of Lot 7, Block 2, Golf Club Addition to St. Helens, Columbia County, Oregon a distance of 272.98 feet to the West right-of-way line of Columbia River Highway (US 30);

Thence, Northeasterly along said right-of-way line a distance of 75 feet;

Thence, North 69°01' West along the North line of Lots 8 and 13, Block 2, Golf Club Addition to St. Helens, Columbia County, Oregon a distance of 272.98 feet to the East right-of-way line of Kavanagh Avenue;

Thence, Southwesterly along said right-of-way line a distance of 75 feet to the **True Point of Beginning**.

COLUMBIA COUNTY

**CITY OF ST. HELENS PLANNING DEPARTMENT
FINDINGS OF FACT AND CONCLUSIONS OF LAW
Annexation A.3.24**

APPLICANT: Mark Comfort

OWNER: Thomas Mahaffey

ZONING: Columbia County's General Commercial, C-3

LOCATION: 58506 Kavanagh Street (Avenue)

PROPOSAL: The property owner filed consent to annex because they desired to connect to City sanitary sewer.

SITE INFORMATION / BACKGROUND

The subject property consists of one whole and one partial lot of the Golf Club Subdivision. It is more-or-less level with little topographic variation. It has been developed with a detached single-family dwelling since 1956, based on County Assessor records. There is a manufactured home placed more recently on the property via Columbia County Temporary Permit TP 25-01 as a "medical hardship." This is the cause for the needed public sewer connection.

PUBLIC HEARING & NOTICE

Public hearing before the Planning Commission for *recommendation to the City Council*: August 12, 2025. Public hearing before the City Council: August 20, 2025.

Notice of this proposal was sent to the Oregon Department of Land Conservation and Development on July 26, 2025 through their PAPA Online Submittal website.

Notice of this proposal was sent to surrounding property owners within 300 feet of the subject property(ies) on July 18, 2025 via first class mail. Notice was sent to agencies by mail or e-mail on the same date.

Notice was published on July 25, 2025 in the Columbia County Spotlight newspaper.

APPLICABLE CRITERIA, ANALYSIS & FINDINGS

SHMC 17.08.040(1) – Quasi-judicial amendment and standards criteria

- (a) A recommendation or a decision to approve, approve with conditions, or to deny an application for a quasi-judicial amendment shall be based on all of the following standards:
 - (i) The applicable comprehensive plan policies and map designation; and that the change will not adversely affect the health, safety, and welfare of the community; and
 - (ii) The applicable Oregon Statewide Planning Goals adopted under ORS Chapter 197, until acknowledgment of the comprehensive plan and ordinances; and
 - (iii) The standards applicable of any provision of this code or other applicable implementing ordinance.
- (b) Consideration may also be given to:

- (i) Any applicable evidence of change in the neighborhood or community or a mistake or inconsistency in the comprehensive plan or zoning map as it relates to the property which is the subject of the development application.

Discussion: (a)(i) The Comprehensive Plan designation for the subject property is Unincorporated Highway Commercial (UHC). Applicable designation and zoning district for annexation are discussed later.

There is no known conflict with the general Comprehensive Plan policies identified in Chapter 19.08 SHMC.

Note that SHMC 19.08.030 discusses public services and facilities and includes utility provisions (e.g., water and sewer) as well as services such as police and library. In sum, all services are intertwined; the consent to annexation allows connection to city sewer to support existing and future development on the subject property, and, once annexed, all other city services/facilities. Sewer and water capacity to serve this property is addressed in more detail under SHMC 17.28.030(1) below. By this review process, the proposal complies with this aspect of the Comprehensive Plan.

There is no known conflict with the specific Comprehensive Plan policies identified in Chapter 19.12 SHMC.

There is no known conflict with the addendums to the Comprehensive Plan which includes the Waterfront Prioritization Plan (Ord. No. 3148), the Transportation Systems Plan (Ord. No. 3150), the Corridor Master Plan (Ord. No. 3181), the Parks & Trails Master Plan (Ord. No. 3191), the Riverfront Connector Plan (Ord. No. 3241), the Housing Needs Analysis and (Ord. No. 3244), and the Economic Opportunities Analysis, Stormwater Master Plan, Wastewater Master Plan, and Water Master Plan (Ord. No. 3308).

Finally, there is no evidence that this proposal will be contrary to the health, safety, and welfare of the community.

(a)(ii) The City's Comprehensive Plan has been adopted by the State, thus, the applicable Oregon Statewide Planning Goals adopted under ORS Chapter 197 do not need to be analyzed per this section.

(a)(iii) In addition, Section 3 of the City's Charter states that "annexation, delayed or otherwise, to the City of St. Helens, may only be approved by a prior majority vote among the electorate." However, in 2016, the Oregon Legislature passed a bill which resulted in ORS 222.127 which states that a city shall annex the territory without submitting the proposal to the electors if certain criteria are met:

1. Property is within the UGB
2. Property will be subject to the City's Comprehensive Plan
3. Property is contiguous to the City limits or is separated by only a public right of way or body of water
4. Property conforms to all other City requirements

The property is within the St. Helens UGB, is subject to the St. Helens Comprehensive Plan, is contiguous to city limits on all four sides, and conforms with other city requirements. As this proposal meets these criteria, this property will **not** be subject to a majority vote among the electorate.

Other provisions applicable to this proposal are discussed elsewhere herein.

(b) There is no evidence of a change in neighborhood, or mistake or inconstancy in the Comprehensive Plan or Zoning Map.

Finding: The quasi-judicial amendment and standards criteria are met.

SHMC 17.08.060 – Transportation planning rule compliance

- (1) Review of Applications for Effect on Transportation Facilities. A proposed comprehensive plan amendment, zone change or land use regulation change, whether initiated by the city or by a private interest, shall be reviewed to determine whether it significantly affects a transportation facility, in accordance with OAR 660-012-0060 (the Transportation Planning Rule (“TPR”). “Significant” means the proposal would:
 - (a) Change the functional classification of an existing or planned transportation facility (exclusive of correction of map errors in an adopted plan);
 - (b) Change standards implementing a functional classification system; or
 - (c) As measured at the end of the planning period identified in the adopted transportation system plan:
 - (i) Allow land uses or levels of development that would result in types or levels of travel or access that are inconsistent with the functional classification of an existing or planned transportation facility;
 - (ii) Reduce the performance of an existing or planned transportation facility below the minimum acceptable performance standard identified in the TSP; or
 - (iii) Worsen the performance of an existing or planned transportation facility that is otherwise projected to perform below the minimum acceptable performance standard identified in the TSP or comprehensive plan.
- (2) Amendments That Affect Transportation Facilities. Comprehensive plan amendments, zone changes or land use regulations that significantly affect a transportation facility shall ensure that allowed land uses are consistent with the function, capacity, and level of service of the facility identified in the TSP. This shall be accomplished by one or a combination of the following:
 - (a) Adopting measures that demonstrate allowed land uses are consistent with the planned function, capacity, and performance standards of the transportation facility.
 - (b) Amending the TSP or comprehensive plan to provide transportation facilities, improvements or services adequate to support the proposed land uses consistent with the requirements of OAR 660-012-0060.
 - (c) Altering land use designations, densities, or design requirements to reduce demand for vehicle travel and meet travel needs through other modes of transportation.
 - (d) Amending the TSP to modify the planned function, capacity or performance standards of the transportation facility.
- (3) Traffic Impact Analysis. A traffic impact analysis shall be submitted with a plan amendment or zone change application, as applicable, pursuant to Chapter 17.156 SHMC.

Discussion: This section reflects State law regarding the Transportation Planning Rule (TPR): Transportation Planning Rule (TPR), OAR 660, Division 12. The TPR requires that where an amendment to a functional plan, an acknowledged comprehensive plan, or a land use regulation would significantly affect an existing or planned transportation facility, the local government

shall put in place measures to assure that allowed land uses are consistent with the identified function, capacity, and performance standards of the facility. **Current zoning of the property is Columbia County's Commercial-General (C-3) and the City's only zoning option given annexation is Highway Commercial.**

Generally, when comparing potential land use impact on transportation facilities, the *reasonable worst case scenario* for the existing and proposed designation/zone are considered. The potential land uses are very similar for both the City and County. The City's zoning is comparable to the County with regards to the possible intensity of uses allowed and potential vehicular trips generated. Thus, this proposal will not affect an existing or planned transportation facility.

Finding: No transportation facility will be significantly affected by this proposal. No traffic impact analysis is warranted.

SHMC 17.28.030 (1) – Annexation criteria

- (a) Adequate public facilities are available to the area and have sufficient capacity to provide service for the proposed annexation area; and
- (b) Comply with comprehensive plan amendment standards and zoning ordinance amendment standards and not be in conflict with applicable comprehensive plan policies and implementing ordinances; and
- (c) Complies with state laws; and
- (d) Abutting roads must meet city standards or property owner will be required to sign and record an irrevocable consent to local improvement district; and
- (e) Property exceeding 10 acres in gross size must show a need on the part of the city for such land if it is designated residential (e.g., less than five years' supply of like designated lands in current city limits).

Discussion: (a) Adequate public facilities.

Water – The site is currently connected to McNulty Water. The nearest City water is approximately 600 feet away within 1st Street including a wetland along this distance. McNulty Water is anticipated to continue to serve the site in the foreseeable future.

Sewer - The site connected to city sewer c. 2024 with associated Building Permit No. 15112.

With regards to *capacity*, the City's wastewater treatment plant currently has a daily limit (physically and as permitted by DEQ) to handle over 50,000 pounds of Biochemical Oxygen Demand (BOD) and a monthly average limit of 26,862 pounds. This is the "loading" or potency of the wastewater received by the plant. The average daily BOD is well below this at only 1,500 pounds. Sanitary sewer *capacity* is adequate.

With regards to *conveyance*, the city adopted a new **Wastewater Master Plan (WWMP)** in November 2021 that identifies undersized trunk lines already operating at or above capacity that further development of the subject property (e.g., land division creating new parcels) would depend on. The WWMP can be found here:

<https://www.sthelensoregon.gov/engineering/page/public-infrastructure-master-plans>

The city is actively addressing this issue, which could impact future development of the property regardless of its status of being in or outside of city limits. It is already connected to sanitary sewer and has been since 2024. This annexation does not by itself create additional sanitary sewer impact.

Transportation - As described above, this proposal poses no significant impact on a transportation facility.

Finding: Adequate public facilities are available to the area and have sufficient capacity to provide service for the proposed annexation area.

(b) Comply with comprehensive plan amendment standards, zoning ordinance amendment standards, Comprehensive Plan policies and implementing ordinances.

The property is developed with a detached single-family dwelling. This is not an allowed use in the City's Highway Commercial, HC zoning district or the County's General Commercial, C-3. It is a nonconforming use in either case.

Finding: There is no known conflict with the Comprehensive Plan and implementing ordinances.

(c) Compliance with state laws.

There are several state laws applicable to annexations. **City annexations of territory must be undertaken consistent with ORS 222.111 to 222.183.**

Pursuant to ORS 222.111(1), a city may only annex territory that is not within another city, and the territory must either be contiguous to the annexing city or be separated from the city only by a body of water or public right-of-way. The subject property is not within another city's jurisdiction and City of St. Helens corporate limits lies on all sides.

Although undertaking an annexation is authorized by state law, the manner in which a city proceeds with annexation is also dictated in the city charter. ORS 222.111(1) references a city's charter as well as other ORS. St. Helens' Charter requirements pertaining to annexations are noted above.

Per ORS 222.111(2) an annexation may be initiated by the owner of real property or the city council. This annexation request was initiated by the property owner. Further, ORS 222.125 requires that that all property owners of the subject property to be annexed and at least half of the electors residing on the property consent in writing to the annexation. These documents were submitted with the annexation application.

Per ORS 222.173(1) only statements of consent to annexation which are filed within any one-year period shall be effective, unless a separate written agreement waiving the one-year period or prescribing some other period has been entered into between an owner of land or an elector and the city. The consent to annex was recorded September 11, 2024 as instrument no. 2024-4835.

The owner also signed an Electors Consent document including the one-year waiver, though this annexation is being processed within the first year.

ORS 197.175(1) suggests that all annexations are subject to the statewide planning goals.

The statewide planning goals that could technically apply or relate to this proposal are Goals 1, 2, 11 and 12.

- ***Statewide Planning Goal 1: Citizen Involvement.***

Goal 1 requires the development of a citizen involvement program that is widespread, allows two-way communication, provides for citizen involvement through all planning phases, and is understandable, responsive, and funded.

Generally, Goal 1 is satisfied when a local government follows the public involvement procedures set out in the statutes and in its acknowledged comprehensive plan and land use regulations.

The City's Development Code is consistent with State law with regard to notification requirements. Pursuant to SHMC 17.20.080 at least one public hearing before the Planning Commission and City Council is required. Legal notice in a newspaper of general circulation is also required. The city has met these requirements and notified DLCD of the proposal.

- ***Statewide Planning Goal 2: Land Use Planning.***

This goal requires that a land use planning process and policy framework be established as a basis for all decisions and actions relating to the use of land. All local governments and state agencies involved in the land use action must coordinate with each other. City, county, state and federal agency and special districts plans and actions related to land use must be consistent with the comprehensive plans of cities and counties and regional plans adopted under Oregon Revised Statutes (ORS) Chapter 268.

Generally, Goal 2 requires that actions related to land use be consistent with acknowledged Comprehensive Plans and coordination with affected governments and agencies and be based on an adequate factual base. The city has an adopted Comprehensive Plan, compliance of this proposal which is addressed herein. Moreover, explanation and proof of coordination with affected agencies and factual base are described herein, as well, including inventory, needs, etc.

- ***Statewide Planning Goal 11: Public Facilities and Services.***

Goal 11 requires cities and counties to plan and develop a timely, orderly and efficient arrangement of public facilities and services to serve as a framework for urban and rural development. The goal requires that urban and rural development be "guided and supported by types and levels of urban and rural public facilities and services appropriate for, but limited to, the needs and requirements of the urban, urbanizable and rural areas to be served."

The subject property is served by McNulty water. City sewer capacities are adequate to serve the subject property. This is explained above. The existing development is adequately served.

- **Statewide Planning Goal 12: Transportation.**

Goal 12 requires cities, counties, metropolitan planning organizations, and ODOT to provide and encourage a “safe, convenient and economic transportation system.” This is accomplished through development of Transportation System Plans based on inventories of local, regional and state transportation needs. Goal 12 is implemented through OAR 660, Division 12, also known as the Transportation Planning Rule (“TPR”). The TPR contains numerous requirements governing transportation planning and project development.

Traffic impacts and the City’s provisions that address the TPR are explained above. This proposal will not significantly affect an existing or planned transportation facility.

(d) Abutting roads must meet city standards or property owner will be required to sign and record an irrevocable consent to local improvement district.

The subject property abuts both Columbia River Highway (US30) and Kavanagh Street/Avenue. US30 is fully developed, and Kavanagh is underdeveloped (i.e., gravel road and no curb or sidewalk).

However, this property not the subject of a current development land use review, which provides the legal nexus and proportionality to require such improvements or right-of-way dedications. As such, no improvements are warranted with this proposal.

(e) Property exceeding 10 acres in gross size must show a need on the part of the city...

The subject property is just under a half-acre in size and well below 10 acres.

Finding: The annexation approval criteria are met for this proposal.

SHMC 17.28.030 (2) – Annexation criteria

The plan designation and the zoning designation placed on the property shall be the city’s zoning district which most closely implements the city’s comprehensive plan map designation.

Discussion: The Comprehensive Plan designation is currently Unincorporated Highway Commercial (UHC). The City’s only zoning option given annexation is Highway Commercial (HC). The Comprehensive Plan designation would thus be Highway Commercial (Incorporated) (HC).

Finding: Upon annexation, the subject property’s Comprehensive Plan designation shall be Highway Commercial (Incorporated) and zoned Highway Commercial (HC).

SHMC 17.112.030 – Established & Developed Area Classification criteria

Per SHMC 17.112.030:

- (1) All land which is annexed to the city shall be classified as an established area or as a developing area on the plan map and on the zoning map.
- (2) The decision shall be based on definition of the areas as set forth in SHMC 17.112.020.

The definitions per SHMC 17.112.020:

- (1) Established Area.
 - (a) An “established area” is an area where the land is not classified as buildable land under OAR 660-08-0005;
 - (b) An established area may include some small tracts of vacant land (tracts less than an acre in size) provided the tracts are surrounded by land which is not classified as buildable land; and
 - (c) An area shown on a zone map or overlay map as an established area.
- (2) Developing Area. A “developing area” is an area which is included in the city’s buildable land inventory under the provisions of OAR except as provided by subsection (1)(b) of this section.

Discussion: OAR 660-008-0005 classifies *buildable land* as:

Residentially designated land within the urban growth boundary, including both vacant and developed land likely to be redeveloped, that is suitable, available and necessary for residential uses. Publicly owned land is generally not considered available for residential uses. Land is generally considered “suitable and available” unless it:

- (a) Is severely constrained by natural hazards as determined under Statewide Planning Goal 7;
- (b) Is subject to natural resource protection measures determined under Statewide Planning Goals 5, 6, 15, 16, 17 or 18;
- (c) Has slopes of 25 percent or greater;
- (d) Is within the 100-year flood plain; or
- (e) Cannot be provided with public facilities.

OAR 660-008-0005 generally defines “Buildable Land” as vacant residential property not constrained by natural hazards or resources, and typically not publicly owned.

Finding: The subject property is not zoned residential. This provision does not apply.

CONCLUSION & DECISION

Based upon the facts and findings herein, the City Council approves this annexation and that upon annexation, the subject property have a Comprehensive Plan designation of Highway Commercial (Incorporated) (HC) and be zoned Highway Commercial (HC).

Jennifer Massey, Mayor

Date
