[Broadleaf Arbor Adjustment Request.pdf](#)

---

Good morning,

Broadleaf Arbor submitted a Leak Adjustment request that will require City Council review. All documents are attached with Full and Partial Adjustment amounts included.

Broadleaf Arbor's account has been active since 09/15/2023. Since beginning their account on 09/15/2023 we have issued 11 Late Fees, 0 Late Fee Reversals and 0 Leak Adjustments. First contact regarding this adjustment process was with Adrienne Thomas on 11/25/2025. After multiple follow up attempts to acquire information, it was brought to my attention that Adrienne no longer works for this company. Doug Willis followed up with a receipt from United Fire on January 8<sup>th</sup>, 2026. After reviewing, the receipt showed a service date of 09/26/2025. Because this receipt showed a service date outside of the 45-day submission window, my initial email was to inform Broadleaf Arbor that the request was denied due to the Leak Adjustment Guideline Requirements not being met.

A request for additional review was submitted by Teresa Sanches to Finance Director, Gloria Butsch to review, and upon request from Gloria, is to be submitted to City Council for Approval/Denial.

A **Partial** Adjustment on this account would be as follows:

|                                 |                    |
|---------------------------------|--------------------|
| 08/15 Water                     | \$7,495.64         |
| 08/15 Sewer                     | \$8,217.60         |
| 09/15 Water                     | \$5,895.48         |
| 09/15 Sewer                     | \$6,460.80         |
| <b>Total Partial Adjustment</b> | <b>\$28,069.52</b> |

A **Full** Adjustment on this account would be as follows:

|                              |                    |
|------------------------------|--------------------|
| 08/15 Water                  | \$14,991.28        |
| 08/15 Sewer                  | \$16,435.20        |
| 09/15 Water                  | \$11,790.96        |
| 09/15 Sewer                  | \$12,921.60        |
| <b>Total Full Adjustment</b> | <b>\$56,139.04</b> |

Please let me know if any additional information is required.

Thank you,

**Subject:** Re: [External] Leak Adjustment Form and Guidelines

Dear City of St. Helens City Council,

I am writing to formally request an appeal regarding the denial of a leak adjustment for the billing periods of August 22, 2025, and September 23, 2025.

The repair receipt is dated September 26, 2025. While the request falls outside the standard 45-day

submission window, the delay was the result of circumstances beyond our control during a transition in property management and related communication challenges.

A leak adjustment request was initially submitted on November 25, 2025, by the previous Community Manager. On that same date, a request was made for the repair invoice from United Fire. A follow-up was sent on December 3, 2025, due to no response. It later became apparent that the necessary follow-through was not completed prior to the manager's departure, which contributed to the delay in obtaining the required documentation.

On January 7, 2026, we were notified by the City that additional information was required to process the request and that the deadline to submit the documentation was January 9, 2026. Upon receiving this notice, we acted immediately and submitted the requested receipt on January 8, 2026, within the timeframe provided.

We respectfully ask that the Council consider these circumstances and approve the appeal for a leak adjustment. The delay was not due to disregard of City requirements, but rather to staffing changes and difficulties accessing documentation during the transition. Once the issue was identified, it was addressed promptly.

Thank you for your time and consideration. Please let me know if any additional information is needed.

Sincerely,  
Teresa Sanchez

Good morning,

If you want to appeal, please let Jamie know and she will submit the paperwork to be put on the Council agenda. You should provide her with a letter to go with the leak paperwork explaining why you're appealing and why the submission was late. All paperwork needs to be received by the City Recorder by Wednesday, January 14 to make it on the next meeting. It will be discussed at the Council work session. Their next

meeting is on January 21<sup>st</sup>. The work session begins at 3 pm.

**Subject:** RE: [External] Leak Adjustment Form and Guidelines

Hi Doug,

It looks like this receipt is from 09/26/2025. And it appears that the leak effected the billing dates: 08/22/2025 & 09/23/2025.

Unfortunately, this will not qualify for an adjustment as it is beyond the 45-day requirement for submission.

## **Leak Adjustment Guidelines**

**A leak adjustment may be granted when ALL of the following conditions are present:**

- >Customer notifies the City of St. Helens Utility Billing Department of an excessive utility bill that may be related to a leak.**
- >Water consumption exceeds the customer's average monthly usage or twice the average monthly usage over the previous 12-month period**
- >Leak occurred on the customer's side of the meter**
- >Plumber's receipt or other proof confirms the leak was repaired**
- >A Leak Adjustment Form must be completed within 45 days of the billing date in question by the customer and turned in with required documentation noted above.**

**However, no adjustments will be granted where any of the following situations exist:**

- >Usage above the customer's average monthly consumption is due to seasonal usage such as watering of sod, gardening, filling swimming pools, or whirlpools, washing vehicles, etc.**
- >Leak was caused by a third party from whom the customer is able to recover their costs. Examples include, but are not limited to, theft, vandalism, negligence, and construction damage, unoccupied or vacant properties.**
- >When leak continues for two (2) or more months, there will be no adjustment for the third or subsequent months.**
- >The meter at said property has been accessed, tampered with, or turned on/off by anyone other than a City of St. Helens employee and that action results in a loss of water.**
- >A leak adjustment was issued within the past two (2) years for the same premise.**
- >A leak adjustment is not submitted within 45 days of the billing date in question.**

### **Calculating Leak Adjustments?**

- >Utility Billing staff will use your previous 3 year's usage during the time period to estimate an "average" which will be used to justify any possible leak adjustment.**
- >The minimum leak adjustment is \$15.00**
- >The maximum leak adjustment is \$1,000 unless there are extenuating circumstances. An adjustment request for over \$1,000 is required to receive approval from the City Council according to Administrative Rules.**

Please feel free to reach out if you have any questions.

Thank you,

Good afternoon, Adrienne.

I am reaching out to you regarding the below emails. We have requested that the invoice from United Fire be submitted before we can process any adjustments. As it is, **Leak Adjustment requests and all documentation must be submitted within 45 days**, or they are no longer applicable for an adjustment. Please reach out at your earliest convenience if you would still like this adjustment submitted. **We are at day 43**, so this requires immediate action to process before the adjustment is no

longer applicable.

Thank you,

| <b>Adjustment Dollars:</b> 24,712.56<br><b>Adj Water Volume</b> 201,900<br><b>Adj Sewer Volume</b> 1,305   |             | <b>Notes:</b><br>Adrienne Thomas from Broadleaf Arbor reached out regarding a leak in the 6 inch fire backflow device stating that the "packing nut failed". United Fire was dispatched to "troubleshoot/repair leaking backflow" on 09/26/2025. This service cost to the customer totaled \$635.75. (invoice attached) - This customer does not have 3 years worth of history, so the 3 months prior to the leak was used to generate a consumption average. |                |               |               |                    |         |            |        |           |        |                    |               |               |               |             |

# CITY OF ST. HELENS UTILITIES

RECEIVED

NOV 25 2025

CITY OF ST. HELENS

275 Strand Street

St. Helens, OR 97051

Phone: 503-397-6272

Email: [utilitybilling@sthebensoregon.gov](mailto:utilitybilling@sthebensoregon.gov)

## REQUEST FOR LEAK ADJUSTMENT

The City of St. Helens Utilities has a policy of issuing partial adjustment for water leaks that are repaired by customers in a timely manner. Adjustments issued are based on your average usage for the same period in previous years. This average is deducted from the total consumption used during the time of the leak and an adjustment 50% of the water overage will be credited to your account.

## DESCRIBE THE REPAIRS OR SPECIFIC CIRCUMSTANCE OF YOUR REQUEST

6 inch fire backflow device, had a leak. Packing nut failed.

Promptly fixed by using new bolt. United fire came to the property and repacked packing nut & cured the leak

## Leak Adjustment Guidelines

A leak adjustment may be granted when ALL of the following conditions are present:

- > Customer notifies the City of St. Helens Utility Billing Department of an excessive utility bill that may be related to a leak.
- > Water consumption exceeds the customer's average monthly usage or twice the average monthly usage over the previous 12-month period
- > Leak occurred on the customer's side of the meter
- > Plumber's receipt or other proof confirms the leak was repaired
- > A Leak Adjustment Form must be completed by the customer and turned in with required documentation noted above.

However, no adjustments will be granted where any of the following situations exist:

- > Usage above the customer's average monthly consumption is due to seasonal usage such as watering of sod, gardening, filling swimming pools, or whirlpools, washing vehicles, etc.
- > Leak was caused by a third party from whom the customer is able to recover their costs. Examples include, but are not limited to, theft, vandalism, negligence, and construction damage, unoccupied or vacant properties.
- > When leak continues for two (2) or more months, there will be no adjustment for the third or subsequent months.
- > The meter at said property has been accessed, tampered with, or turned on/off by anyone other than a City of St. Helens employee and that action results in a loss of water.
- > A leak adjustment was issued within the past two (2) years for the same premise.

### **Calculating Leak Adjustments?**

- > Utility Billing staff will use your previous 3 year's usage during the time period to estimate an "average" which will be used to justify any possible leak adjustment.
- > The minimum leak adjustment is \$15.00
- > The maximum leak adjustment is \$1,000 unless there are extenuating circumstances. An adjustment request for over \$1,000 is required to receive approval from the City Council according to Administrative Rules
