Georgia Power Electric Transportation Make Ready Program Customer Proposal Acceptance Letter

Georgia Power has accepted your application (“Application”) for funding assistance through the Make Ready Program as approved by the Georgia Public Service Commission’s 2022 Rate Case order in Docket #44280. Acceptance of your application is not a guarantee from Georgia Power that funds are available for your project. Qualified projects are funded through the Make Ready Program on a first-come, first-serve basis and available funding is limited.

Subject to Make Ready Program funding availability, Georgia Power will invest in charging system infrastructure at your facility as defined in your Application. Georgia Power will own and maintain the charging infrastructure to support the chargers you select. You will then own, operate, and maintain the chargers to best suit the needs of your facility.

Attached is a copy of the site plan design for your facility located at (the “Property”):

%%Property Address%%

An approved installer from Georgia Power’s network will complete the installation of the Georgia Power owned infrastructure. You understand that the installation of the chargers is not a function of the Make Ready Program and will be done at your cost.

By signing this letter agreement, you agree to the ET Make Ready Infrastructure Program Terms and Conditions (“Terms and Conditions”) and acknowledge and agree that:

- Funding is limited and available on a first-come, first-serve basis;
- The chargers will be public-facing or used for the electrification of a public fleet (as such term is defined by the Georgia Public Service Commission);
- Public-facing chargers will be added to a public data source for locating chargers (such as, but not limited to, PlugShare)
- The site plan is acceptable;
- No changes can be made to the site plan without Georgia Power’s consent. Changes approved by Georgia Power would be completed at your sole cost and expense. Georgia Power is not responsible for any costs or expenses associated with changes made without its consent;
- Georgia Power and its contractors have the right to access the Property to perform any activity related to the Make Ready Program, including, without limitation, periodic maintenance and repairs of Georgia Power’s charging infrastructure;
- If Georgia Power determines that a recorded easement is necessary or appropriate in connection with the installation and/or maintenance, you agree to work with Georgia Power in good faith to execute and deliver such easement for recording;
- You are ready to move forward with the installation of the charging infrastructure and will purchase the chargers within 60 days upon confirmation that funding is available.

Notwithstanding the foregoing, if an Order or other directive of the Georgia Public Service Commission, or other applicable law or regulation, changes the Make Ready Program in a manner that disqualifies your project, Georgia Power may withdraw its acceptance of your application upon notice to you.

Once this signed letter agreement is received by Georgia Power, Georgia Power will confirm whether funding is available, and if so, Georgia Power will schedule an onsite preconstruction meeting with necessary parties to determine the project schedule and plan.
