
Sec. 7.3.9. Conditions of zoning.

Conditions of zoning may be requested by an applicant, recommended by the planning department or planning commission, or imposed by the city council, as a part of any proposed change to the official zoning map, in accordance with the following requirements:

- A. Conditions of zoning may be imposed so as to ameliorate the effects of the proposed developmental change for the protection or benefit of neighboring persons or properties consistent with the purpose and intent of the zoning districts involved, and the goals and objectives of the comprehensive plan and state law. No condition shall be imposed which reduces the requirements of the zoning districts involved, except as stipulated in section 8.1.12 of this chapter. All conditions shall be of sufficient specificity to allow lawful and consistent application and enforcement. All conditions shall be supported by a record that evidences the relationship between the condition and the impact of the developmental change. No condition in the form of a development exaction for other than a project improvement shall be imposed within the meaning of the Georgia Development Impact Fee Act, as amended.
- B. Once imposed, conditions of zoning shall become an integral part of the approved amendment and shall be enforced as such. Changes to approved conditions shall be authorized only pursuant to section 7.3.10.
- C. Site plans referenced in the conditions of zoning are conceptual only unless specific aspects of the site plan or the site plan itself are approved as a separate zoning condition. Development shall meet or exceed the imposed zoning conditions and all other applicable law, standards and regulations of the City. Compliance with the conditions of zoning shall be demonstrated prior to the issuance of a land disturbance permit or building permit and conditional improvements shall be in place prior to the issuance of the first certificate of occupancy.
