Grantee and the Division are collectively referred to herein as the “Parties.”

WHEREAS, the Division is interested in reducing solid waste in Georgia and recovering valuable materials through recycling, waste reduction, and/or diversion; and

WHEREAS, the Division is interested in encouraging the use and market development of tire-derived products and research for scrap tire innovations; and

WHEREAS, pursuant to the Georgia Comprehensive Solid Waste Management Act, O.C.G.A. § 12-8-20 *et seq.* (“Act”) and the rules promulgated in support the Division is authorized to assist eligible Georgia government entities with grants for the purposes as described in the Act; and

WHEREAS, Grantee represents to the Division that Grantee is duly created and existing under the laws of the State of Georgia and has the authority to expend the monies described herein for the purposes set forth herein; and

NOW, THEREFORE, for and in consideration of the valuable and mutual benefits flowing to each party as hereinafter appear below, the Parties mutually agree as follows:

1. **Project.** The Grantee shall conduct the work described in the scope of services identified in the attached Appendix A and by this reference made a part hereof (hereinafter, the “Project”).
2. **Term; Time of Performance.**
 - a. The term (“Term”) of this Agreement shall commence upon the Effective Date and shall terminate upon the completion of the tasks in the Project, not to exceed 24 months from the Effective Date, unless earlier terminated by the Division in accordance with the provisions of Paragraph 6 of this Agreement.
 - b. Grantee must commence performance of the Project within 30 days of the Effective Date and must complete the Project in accordance with the timeline described therein.
 - c. The Division may elect to extend the Term of this Agreement, in which case the Parties will execute an amendment to this Agreement.

3. **Grant and Acceptance.**

- a. The Division hereby makes and Grantee hereby accepts this grant for the Project (“Grant”) in the amount of **one hundred thirty-four thousand nine hundred forty dollars, (\$134,940)** (“Grant Amount”) to carry out the Project in accordance with the terms and conditions of this Agreement.
 - i. Notwithstanding any other provision of this Agreement, the Grantee acknowledges that the Division, as an agency of the State of Georgia, is prohibited from pledging the State’s credit.
 - ii. Grantee must expend or contractually obligate the full amount of the Grant Amount on or before the expiration of the Term; after expiration of the Term Grantee may not expend or obligate contractually the unencumbered Grant Amount.
 - iii. The Grantee will contribute a minimum of **0%** of the total project cost in in-kind services and cash contributions (“Match”) toward the Project.
 - iv. Grantee has already obtained or otherwise received commitments for the Match funding for the Project.
- b. The Grantee agrees that the Grant Amount will be spent pursuant to the breakdown set forth in the Project and pursuant to the terms of this Agreement and will not be used for expenses already incurred or paid for by Grantee before the Effective Date, unless such expenses are expressly authorized in advance and in writing by the Division.
- c. The budget for the Project is set forth in Appendix A. Grantee must notify the Division within 15 days of any changes to the budget for the Project that may result in the reduction and/or elimination of some or all of the Match or the Grant Amount.

4. **Method of Disbursement.** Division will disburse the Grant Amount to Grantee not to exceed the amount described in Paragraph 3, and in accordance with the terms described in this Paragraph:

- a. Disbursement will only be made to Grantee to reimburse Grantee for expenditures made for the Project as described in Appendix A: Scope of Work; and
- b. No disbursement will be made to Grantee for any work completed prior to the Effective Date, even if in furtherance of the Project; and
- c. Grantee must submit a disbursement request on forms as provided by the Division along with invoices and proof of payment made by Grantee for the Project and identification of any Match used. Disbursement request forms may be submitted as needed, provided, however, that they may not be submitted more than once every thirty (30) days; and
- d. The Grantee shall certify in writing the accuracy of each disbursement request. Each disbursement request shall constitute a representation and warranty by the

Grantee to the Division that the covenants and warranties made by Grantee in this Agreement are true and accurate on the date of the disbursement request. All invoices submitted by the Grantee must show detailed line items referencing the costs of labor, materials, property, equipment, installation, services, incidentals, etc. All disbursement requests should be signed and dated by authorized personnel as evidence of review and approval prior to submission to the Division; and

- e. The Division will review any disbursement request within forty-five (45) days of receipt. Disbursement will be made upon determination by the Division that the Project elements described and invoices included with the disbursement request are sufficient. If the Division, in its sole discretion, determines that all or part of a disbursement request cannot be made in accordance with the terms of this Agreement, such request or portion of the request shall not be reimbursed.
5. **Grant Funding.** If the Division determines that the source of funding for the Grant or Grant Amount no longer exists or is insufficient with respect to the Project, the Division shall terminate this Agreement in accordance with the provisions of Paragraph 6.
- a. The determination of the Division that the funding for the Grant is no longer available or sufficient shall be conclusive.
 - b. The Division shall provide notice in writing to Grantee as soon as practicable after the Division determines that the source of payment no longer exists or is insufficient with respect to the Project.
 - c. In the event of such termination, the Division shall remain obligated to reimburse the Grantee for eligible Project expenses performed or incurred and accepted by the Division prior to such termination.
6. **Termination of Agreement.**
- a. **For Cause.** If, through any cause other than force majeure, the Grantee shall fail to perform its obligations under this Agreement, or if the Grantee shall violate any of the covenants, agreements, or stipulations of this Agreement, the Division may terminate this Agreement specifying the effective date. If this Agreement is terminated as provided herein, the Grantee may be disbursed from the Grant Amount for all Project work performed on or before the date of termination and for which a disbursement request is submitted pursuant to Paragraph 4.
 - b. **For Convenience.** Either Party may terminate this Agreement at any time for good reason by giving at least thirty (30) days written notice to the other Party of such termination and specifying the effective date. If this Agreement is terminated as provided herein, the Grantee may be disbursed from the Grant Amount for all Project work performed on or before the date of termination and for which a disbursement request is submitted pursuant to Paragraph 4.
7. **Copyrights and Documents.** Grantee shall be the original and sole owner of all rights, including without limitation copyright, in and to all documents, maps, photographs, drawings and other materials produced or derived in whole or in part under this Agreement and paid for solely by Grantee (“Materials”).

Project Description

Briefly describe your overall project, including project location.

The City of Stonecrest is looking to replace the current loose engineered wood fiber (EWF) mulch playground surface with a TDP Poured in Place Bonded Rubber Playground Surface at our Fairington Park. This upgrade of installing the new bonded rubber surface to the existing playground will enhance accessibility and improve fall protection for children playing at the playground. The city will be replacing approximately 80 ft. x 80 ft of the existing playground surface. Fairington Park is located at 2831 Fairington Parkway, Stonecrest, GA 30038.

Need and Purpose

Describe the need and purpose of the project.

The City of Stonecrest is the 2nd largest city in Dekalb County, Georgia. It's one of Georgia's newest cities, established in 2017. The City of Stonecrest has a population of approximately 60,000 residents. It's comprised roughly of 200 residential communities. It has seven parks and four playgrounds. As the city continues to promote community engagement, there is a need for renovating and improving outdoor recreation facilities that showcases an updated community aesthetics. The City of Stonecrest is continuing their efforts to develop more robust and modernized parks along with maintaining and repairing existing facilities. The city wants to ensure ADA accessibility, improve safety of playground equipment, lighting and security to provide both outdoor learning opportunities and leisure for their citizens.

Community Served

Describe how the project benefits the community.

The installation of a Poured in Place Recycled Bonded Rubber Playground Surface at Fairington Park will benefit approximately 2300 families residing nearby (Fairington Hwy and Panola Rd). The bonded rubber playground will improve the park's aesthetics and will become more inviting to the public. Adults will have a better sense of security with the presence of a rubber surface, decreasing their children's personal bodily injuries. The replaced playground surface will provide a level of comfort for the surrounding Fairington Park community, displaying the City Of Stonecrest commitment to reinvesting into their recreational facilities. Fairington Park is a public park with a playground for kids, a walking track, and a baseball field.

Utilization and Metrics

Describe the tire-derived product(s) (TDP) your project will utilize.

The City of Stonecrest will utilized a 100% recycled EPDM bonded rubber material for a pour in place playground surface.

Describe the total project cost utilizing conventional or virgin materials vs. the total project cost utilizing TDP(s).

The cost for the City of Stonecrest to use engineered wood fiber (EWF) mulch, a non-TDP conventional material for the playground surface is \$9,980.00 for labor (\$8,330.00) and material (\$1,650.00). The cost for using TDP materials to install a pour in place playground surface is \$144,919.38 for labor (\$32,640.00), shipping (\$1,479.00), site prep (\$19,200.00) and material (\$91,600.38). The cost difference of \$134,939.38 is the eligible cost for this grant funded project. This cost represents 100% of the TDP materials to be used for the entire project of installing a Recycled Bonded Rubber Playground Surface at Fairington Park.

- For example: A roadway paving project costs \$100,000 using conventional materials and services. To utilize a ground tire rubber asphalt mix, it will cost an additional \$50,000 (\$30,000 for the material itself and \$20,000 for the associated labor to mix/haul). In this scenario, the total project cost utilizing conventional materials is \$100,000 vs. \$150,000 to utilize TDP. The difference in cost and the amount eligible for grant funding is \$50,000.
- For example: A public school plans to renovate a classroom using tiles made from TDP. Conventional tiles will cost \$8,000 (\$6,000 for the tiles and \$2,000 for labor and installation). TDP tiles will cost \$12,000 (\$8,000 for the TDP tiles and \$4,000 for labor and installation). In this scenario, the total project cost utilizing conventional materials is \$8,000 vs. \$12,000 to utilize TDP. The difference in cost and the amount eligible for grant funding is \$4,000.

Describe the number of Lbs. of TDP(s) used in the project.

PremARC™ 60-80 (I) d - 475 lb drum 24Drum

PremARC™ 60-80 (I) d - 475 lb drum

- *For example: A roadway paving project plans to use 50 tons of rubberized asphalt. Each ton of rubberized asphalt is 30% TDP, and 70% other materials. One ton equals 2,000 lbs. For this scenario, the amount of TDP used is 30,000 lbs. ((50 tons X 2,000 lbs.) X .3).*
- *For example: A public school plans to use 300 square feet of tiles made from TDP. Each tile weighs 12 lbs., and consists of 90% TDP, and 10% other materials. Each tile is one square foot. For this scenario, 3,240 lbs. of TDP are used in the project (300 square feet of tiles X 12 lbs./tile) X.9).*

Describe how the TDP(s) will be incorporated into your project

The existing borders and surface will be removed and the new Recycled Bonded Rubber Playground surface will be installed at 10' fall height.

Where are you sourcing the TDP(s) and/or related service(s)?

1. TDP Materials are being provided locally by Rubber Designs located in Calhoun, GA
2. Labor is being conducted locally by Southeast Outdoors Solutions located in Jasper, GA

Marketing and Education

How will you share information about your project to your community?

City of Stonecrest will notify the community of the Fairington Park Playground about the installation of the Recycled Bonded Rubber Playground Surface by posting on the city's website, posting on the visual monitor at city hall and communicating updates during monthly City Council meetings that are publicly broadcasts. City of Stonecrest will also receive the support of their City Council to inform their constituents during town hall meetings.

Rubber Designs

Better for the earth. Better for you.

Rubber Designs manufactures a full line of recycled rubber products ranging from interlocking tiles to rubber landscaping products such as mulch and curb edging. We create products that are better for our earth as we source from 100% recycled rubber. Our products are better due to the superior innovation and quality of manufacturing. We've been working diligently with recycled materials, creating innovative surfacing and landscape products for over two decades. Rubber Designs is guaranteed to supply the highest quality materials while providing a sustainable green solution to saving the earth.

Many of today's consumers understand that recycling is about "Closing The Loop". Rubber Designs processes over 12 million pounds of rubber buffings per year. This generates over 7 million pounds of feed stock per year for product fabrication; the equivalent of removing about 280,000 tires from the waste stream annually.

As manufacturers, we are dedicated to educating the public on the benefits of recycled products and how they can play an integral part in creating beautiful landscaping and surfacing solutions. Part of the process is helping the customer to understand that recycling is not simply about making products out of discarded materials, but about consumers purchasing and using these recycled products in our daily lives.

If you do not have a number, see *How to get a TIN*, later.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).
