SPECIFICATIONS AND SCOPE OF WORK

I. INTRODUCTION, BACKGROUND, AND ITB PROCESS

Introduction

The City of Stonecrest, Georgia (the “City”) is seeking competitive bids for ITB 23-123 Fence Installation Services from responsible bidders.

Background

Southeast Athletic Complex (SAC) is located off Covington Highway at 5845 Hillvale Road in the northern part of the City of Stonecrest. SAC is one of the heavily used Athletic facilities within City and currently has five (5) baseball fields, several football fields, a practice field, and multi-purpose fields hosting tournaments, festivals, and events.

Invitation to Bid Process

This solicitation is an Invitation to Bid (ITB). In using this method for solicitation, we are asking the marketplace for its best effort in seeking a “best value” solution to our requirement. The bids(s) submitted by the Supplier will be evaluated by an evaluation committee. Suppliers should make their best effort to satisfy the requirements at their best price because a contract may be awarded based on the initial evaluation. Essentially, if a Supplier’s proposal is not evaluated as having a chance for contract award because of the content of the proposal and/or the price, the proposal will be removed from the competitive process to save time and money for both the Supplier and City of Stonecrest.

II. SCOPE OF WORK

Contract Duration:

Sixty (60) calendar days.

Project Description and Scope:

The City of Stonecrest is seeking qualified and experienced contractors for fencing installation services at the Southeast Athletic Complex.

Southeast Athletic Complex

The City is seeking quotes from qualified fencing contractors to install security grade chain link fence, gate, wind screen and razor wire around the maintenance shop at the Southeast Athletic Complex. Most of the work will be straight forward new installation, but the City is also installing security equipment, communications and constructing new parking areas during the period of this anticipated installation.

The contractor is responsible for the removal and disposal of any and all materials removed by the contractor, brought by the contractor beyond the project or created during the project. The contractor shall remove and dispose of ALL materials removed, damaged, or destroyed.

A map, measurements and description for the site have been included. Any figures, measurements, linear feet, or gate locations are accurate but not warranted to be exact. No surveys or topographical maps were

utilized. The drawing and measurements can be relied on for information, but the City will not allow for any quote that was made solely on the information provided. It is recommended that all bidders schedule to visit these sites in person, and it will be acceptable for the lineal dimensions only to be different +/- 10% from what is shown.

The fence material is expected to be 8 feet high from the ground. Fence, poles, and gate to be coated in black vinyl. All fencing, gates, and parts to be constructed with galvanized steel, and a minimum 6-gauge finish and 9-gauge core, to include top rail and bottom tension wire all the way around. ALL poles must be anchored in concrete.

The 290' lineal feet across the wooded line must also include 3-strand barbed wire, straight up. Barbed wire does not need vinyl coating.

The main gate must meet all requirements above and shall be a non-motorized rolling gate. The gate will be a cantilever style gate a minimum of 20" long. The gap on the drawing allows for the material installation and space requirements to install the connections necessary to have the 20" gate, but there should be no gaps or available access around this gate.

Quote must also include materials and installation of black windscreen with a minimum of 95% reduction in visibility. Windscreen will be placed on the exterior and cover a minimum of 8' from the ground up, this includes coverage on the double swing gate and pedestrian gate. The City does NOT want the contractor to provide windscreen for the front facing fence or gate at this time. The material used on the fence may run in any length per piece as desired by the contractor. Vertical seams must overlap, and screen must be installed taut, free of any sag.

Although the City may assist in permitting by providing contact information and requirements, the contractor is responsible for determining which, if any, permits or applications are required; and applying and obtaining the proper permits that may be required based on City or County Ordinances.

The selected contractor shall be responsible for and must adhere to any local or state building code, safety and/or ADA requirements that need to be met.

Stonecrest Parks & Recreation reserves the right to utilize the Contractor's name, image, and likeness with regard to publicity on the project and disclosure of all work and payments being done. This work is funded with public funds and will be completely transparent to the public and will be promoted.

All gates are to match industry standard, without any adornment, to match fence material, construction, and appearance. The front gate and fencing are intended to cross and meet at the closest curb cut to each other at the point shown on the aerial.

Stonecrest Parks & Recreation reserves the right to utilize the Contractor's name, image, and likeness with regard to publicity on the project and disclosure of all work and payments being done. This work is funded with public funds and will be completely transparent to the public and will be promoted.

All gates are common gates, without any adornment, to match fence material, construction, and appearance.

Any contractor who has not previously done business with the City and is not listed as a current vendor must supply a current W-9, E-Verify Affidavit and Certificate of Insurance that complies with the City Purchasing Policy and will be required to submit a *Performance Bond* in an amount equal to the total cost of the quote. As per City Purchasing regulations, a letter of credit may be substituted for a Performance Bond, depending on the institution, and reported credit worthiness.

Time and Liquidated Damages

The Contractor shall not proceed to furnish such services and the City shall not become obligated to pay for same until a written authorization to proceed (“Notice to Proceed”) has been sent to the Contractor from the City. The Contractor shall commence the Work no later than ten (10) calendar days after the effective date of the Notice to Proceed and shall achieve Substantial Completion of the Work, as hereinafter defined, no later than sixty (60) calendar days from Notice to Proceed, in accordance with the Contract Documents. The number of calendar days from the date on which the Work is permitted to proceed, through the date set forth for Substantial Completion, shall constitute the Contract Time. The Work shall be carried on expeditiously, it being understood, however, that this Agreement may be extended or continued in force by the parties hereto in writing as provided herein.

The Contractor shall pay the City the sum of \$500.00 per day for each and every calendar day of unexcused delay in achieving Substantial Completion beyond the date set forth herein for Substantial Completion of the Work. Any sums due and payable hereunder by the Contractor shall be payable, not as a penalty, but as liquidated damages representing an estimate of delay damages likely to be sustained by the City, estimated at or before the time of executing this Contract. When the City reasonably believes that Substantial Completion will be inexcusably delayed, the City shall be entitled, but not required, to withhold from any amounts otherwise due the Contractor an amount then believed by the City to be adequate to recover liquidated damages applicable to such delays. If and when the Contractor overcomes the delay in achieving Substantial Completion, or any part thereof, for which the City has withheld payment, the City shall promptly release to the Contractor those funds withheld, but no longer applicable, as liquidated damages.

Substantial Completion

For the purposes of this Project, Substantial Completion shall mean that all Pay Items have been installed, completed, and/or constructed per the requirements of these drawings and specifications and the only remaining work to complete the project include minor punch list activities and final site cleanup. Since this is an environmental restoration project, the term “beneficial use,” typically used to identify the state of project completion where the concept of Substantial Completion is applied, is not applicable to this project.

Time is of the Essence

All limitations of time set forth in the Contract Documents are of the essence of this Contract.
