Justification
Used for marking football, and soccer fields.
Reduces the accumulation of dirt. Finishing drag.
Breaks up chunks, and cut downs high spots.
Finishing mop used to smooth the edge where the out field and infield meets.
Used to loosen the surface of the infield and incorporate conditioners.
Used to groom around bases.
Used to mark the infield and batter box.
Creates a perfect softball pitcher circle with out measuring.
Brushing infield soil out of turf to resist lip build up.
Remove sod after edging field.
Scoop out rocks and debris from infield.
Hand grading.
To remove small spaces of dead material.
Remove water from base anchors, and irrigation boxes.
Measuring the length and dimensions of field.
Cutting patterns in the out field giving a professional apperance.
To guide chalker, and edger.
Watering the infield after applying conditioners.
Dimensions of playing fields.
Replacement cord.
Push water off playing field without disturbing surface.
Remove puddles without disturbing topdressing.
Packing materials around high traffic areas.

Keeps clay from sticking to tamp.
Scraping up soil, debris, gravel, from hard surfaces.
Digging in compacted or loose soil.
Smooth surface without transporting excess material.
Sifting rock and clay from out of topdressing.
Professional hose with 150psi to water infields.
Prune small branches on trees.
Transport small loads of material.
Gather leaves, cut grass, and debris.
Moving soil in plant beds.
Pitch loose materials such as hay, pine straw, and leaves.
Prune medium branches to large for hand pruners.
To cut large branches.
To make narrow trenches to service irrigation pipes.
Drigging, slicing, and lifting sod.
Use during operation of chain saw.
Use during operation of chain saw.
Use during operation of chain saw.
To dig holes to set fence post, flag poles, and sign post.
Spray small areas such as tree islands.
Spread materials in small areas.
Trimming ornamental grasses.
Scoop compost, gravel, and other materials for hard surfaces.

Breaking up clay, concrete, and other hard material.
Breaking stone, driving stakes, demolition.
For storing tools.
For trash pick up while on mowers.
Measuring wind speed before pesticide application.
Measuring pounds of fertilizer.
Cleaning park grills.
Measuring the sq ft of an area.
Measuring liquid pesticides.
Measure use of a pesticide.
To store gas containers.
To store pesticides.
For emergency chemical spills.
To flatten soil surface.
To tow trailers.
To till plant beds.
For hauling debris, and pick up materials such as mulch, rocks, pine straw and towing heavy equipment.
Collect soil for testing.
Blow out irrigation system, pump tires, remove mower blades and wheels.
For pressure washing.
To attach to water tanks.
Tightening lug nuts.
To use with impact wrench.
To torque bolts and nuts to manufacture specs.

To tow trailers.
