

Agenda Item

Meeting Date: October 21, 2025

SUBJECT: Approval of New Mural Location and Proposed Artwork - Medlock Park

Item: Discussion /Action Item

Department: Public Works

Fiscal Impact: \$500.00 / Funding source: Public Works, Supplies budget

Presented By: Maggie Dimov, Interim City Manager

Background: As part of the approved KaBOOM project for Medlock Park, a mural installation is planned to complement the park improvements. The initial proposed location for the mural was the wall between the basketball courts. However, the existing wall is not structurally supportive, and because children frequently play and bounce balls against it, the artwork could be easily damaged.

Proposal: A new location is being proposed for the mural - 3 walls of the concession stand (the main wall facing the parking lot, and the two walls around). This area provides better visibility, protection, and long-term preservation for the artwork.

Attachments/Exhibits: Mural proposed artwork. Mural proposed location.

Requested Action: City Council consideration and approval of the new mural location at Medlock Park and the proposed mural artwork.

3 walls of the concession stand (the main wall facing the parking lot, and the two walls around).
