

CITY OF STEPHENVILLE

Investment Policy

I. Governing Authority

Legality

The investment program shall be operated in conformance with governing legislation and other legal requirements. It is the intent of the City to be in complete compliance with the City Charter, local law and the Texas Public Funds Investment Act, Chapter 2256, Texas Government Code.

The Public Funds Collateral Act, Chapter 2257, Texas Government Code, specifies collateral requirements for all public funds deposits

The Interlocal Cooperation Act, Chapter 791, Texas Government Code, authorizes local governments in Texas to participate in an investment pool established thereunder. That statute and reference to authorized investment in investment pools in the Act, is primary authority for use of investment pools by political subdivisions of the State of Texas.

II. Policy Statement

This document is to establish an investment policy that provides clear and concise guidelines for investing City of Stephenville funds; providing for security of capital, diversification and maximum return.

It is the policy of the City of Stephenville, Texas ("City") that the administration of its funds and the investment of those funds shall be handled as its highest public trust. Investments shall be made in a manner, which will provide the maximum security of principal invested through limitations and diversification while meeting the daily cash flow needs of the City and conforming to all applicable state and City statutes governing the investment of public funds. The receipt of a market rate of return will be secondary to the requirements for safety and liquidity. The earnings from investment will be used in a manner that best serves the public trust and interests of the City.

III. Scope

This policy applies to the investment of all funds of the City of Stephenville, Texas ("City") at the present time and any funds to be created in the future, excluding the investment of employees' retirement funds, and serves to satisfy the statutory requirement to define and adopt a formal investment policy. All funds are defined and accounted for in the City's Annual Comprehensive Financial Report (ACFR).

1. Pooling of Funds

The City will consolidate cash and reserve balances from all funds, including municipal bond proceeds, to maximize investment earnings and to increase efficiencies with regard to investment pricing, safekeeping and administration.

Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

IV. General Objectives

The primary objectives of investment activities shall be safety, liquidity, and return:

1. *Safety*

Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit risk and interest rate risk.

a. Credit Risk

The City will minimize credit risk, which is the risk of loss of all or part of the investment due to the failure of the security issuer or backer, by:

- Limiting investments to the types of securities listed in Section VII of this Investment Policy
- Pre-qualifying and conducting ongoing due diligence of the financial institutions, broker/dealers, intermediaries, and advisers with which the City will do business in accordance with Section VI
- Diversifying the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.

b. Interest Rate Risk

The City will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by:

- Structuring the investment portfolio so that security maturities match cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity
- Investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools and limiting individual security maturity as well as the average maturity of the portfolio in accordance with this policy (see section IX).

c. Loss of Rating

The City is not required to liquidate investments that were authorized investments at the time of purchase. However, should a security that requires a minimum rating under state law not have that required rating, the investment officer shall take all prudent measures to liquidate the security.

d. Monitoring FDIC Coverage

The investment officer or investment advisor shall monitor, on no less than a weekly basis, the status and ownership of all banks issuing brokered CDs owned by the City based upon information from the FDIC. If any bank has been acquired or merged with another bank in which brokered CD's are owned, the investment officer or advisor shall immediately liquidate any brokered CD which places the City above the FDIC insurance level.

e. Monitoring Credit Ratings

The investment officer or investment advisor shall monitor, on no less than a weekly basis, the credit rating on all authorized investments in the portfolio based upon independent information from a nationally recognized rating agency. If any security falls below the minimum rating required by policy, the investment officer or advisor shall notify the Finance Director and City Manager of the loss of rating, conditions affecting the rating and possible loss of principal with liquidation options available, within two weeks after the loss of the required rating.

2. *Liquidity*

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands (static liquidity). Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets (dynamic liquidity). Alternatively, a portion of

the portfolio may be placed in money market mutual funds or local government investment pools which offer same-day liquidity for short-term funds.

3. *Return*

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed. The City's cash management portfolio shall be designed with the objective of regularly meeting or exceeding the average yield on three-month U.S. Treasury bills. The investment program shall seek to augment returns above this threshold, consistent with risk limitations identified herein and prudent investment principles. (See Section X on performance standards and selecting a benchmark.)

Securities shall generally be held until maturity with the following exceptions:

- A security with declining credit may be sold early to minimize loss of principal;
- Selling a security and reinvesting the proceeds that would improve the quality, yield, or target duration in the portfolio may be undertaken;
- Unanticipated liquidity needs of the portfolio require that the security be sold.

V. Standards of Care

1. *Prudence*

The standard of prudence to be used by investment officials shall be the "uniform prudent investor act" standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and the liquidity and the sale of securities are carried out in accordance with the terms of this policy.

2. *Ethics and Conflicts of Interest*

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Employees and investment officials shall disclose any material interests in financial institutions with which they conduct business, in accordance with applicable laws. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. Employees and officers shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the City.

3. *Delegation of Authority*

The Council is responsible for considering the quality and capability of staff, investment advisors, and consultants involved in investment management and procedures. The Council may contract with a registered investment advisor to assist the investment officer(s) in the fulfillment of their responsibilities.

Authority to manage the investment program is granted to the Director of Finance and derived from the following: City Charter Article VII Section 2 (8). The Assistant Finance Director is also designated as an investment officer. Responsibility for the operation of the investment program is hereby delegated to the investment officer(s), who shall act in accordance with established written procedures and internal controls for the operation of the investment program consistent with this

investment policy. At a minimum, procedures should include references to the following: safekeeping, delivery vs. payment, investment accounting, repurchase agreements, wire transfer agreements, and collateral/depository agreements. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the investment officer(s) and approved by the City Manager. The investment officer(s) shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials. All participants in the investment process shall seek to act responsibly as custodians of the public trust.

VI. Authorized Financial Institutions, Depositories, and Broker/Dealers

1. Authorized Financial Institutions, Depositories, and Broker/Dealers

A list will be maintained of no more than five (5) financial institutions and depositories authorized to provide investment services. In addition, a list will be maintained of approved security broker/dealers selected by creditworthiness and/or other factors, such as FINRA broker check.

All financial institutions and broker/dealers who desire to become qualified for investment transactions must supply the following as appropriate:

- Audited financial statements demonstrating compliance with state and federal capital adequacy guidelines

This institution will be used for normal banking services including disbursements, deposits, lockbox, controlled disbursement and safekeeping of securities.

An annual review of the financial condition and registration of all qualified financial institutions and broker/dealers will be conducted by the investment officer(s).

VII. Safekeeping and Custody

1. Delivery vs. Payment

All trades of marketable securities will be executed by delivery vs. payment (DVP) to ensure that securities are deposited in an eligible custody account prior to the release of funds.

2. Safekeeping

Securities will be held by either the City, an independent third-party custodian selected by the City, or the City's designated depository. The safekeeping institution shall annually provide a copy of their most recent report on internal controls (Statement of Auditing Standards No. 70, or

SAS 70).

All safekeeping arrangements shall be designated by the investment officer(s) and an agreement of the terms executed in writing. The third-party custodian shall be required to issue safekeeping receipts to the City listing each specific security, rate, description, maturity, CUSIP number, and other pertinent information. Each safekeeping receipt will be clearly marked that the security is held for the City or pledged to the City.

All securities pledged to the City for certificates of deposit or demand deposits shall be held by an independent third party bank domiciled in Texas. The safekeeping bank may not be within the same holding company as the bank from which the securities are pledged.

3. *Internal Controls*

The investment officer(s) shall establish a system of internal controls, which shall be documented in writing. The internal controls shall be reviewed annually by the Finance Committee and with the independent auditor. An annual audit for compliance of the portfolio to this policy will be completed by the external auditor along with a review of the quarterly reports provided to Council. The controls shall be designed to prevent the loss of public funds arising from fraud, employee error, mis-representation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the City.

3. *Repurchase Agreements*

Full collateralization will also be required on all repurchase agreements at 102% of the market value of the principal and accrued interest. Repurchase agreements shall be consistent with GFOA Recommended Practices on Repurchase Agreements.

IX. Investment Diversification & Constraints

1. *Diversification*

It is the policy of the City to diversify its investment portfolios. To eliminate risk of loss resulting from the overconcentration of assets in a specific maturity, issuer, or class of securities, all cash and cash equivalent assets in all City funds shall be diversified by maturity, issuer, and security type. Diversification strategies shall be determined and revised periodically by the Finance Committee/investment officer(s) for all funds except for the employee retirement fund.

In establishing specific diversification strategies, the following general policies and constraints shall apply: Portfolio maturities shall be staggered to avoid undue concentration of assets in a specific maturity sector. Maturities selected shall provide for stability of income and reasonable liquidity.

- Liquidity shall be assured through practices ensuring that the next disbursement date and payroll date are covered through maturing investments or marketable U.S. Treasury bills.
- Positions in securities having potential default risk (e.g., commercial paper) shall be limited in size so that in case of default, the portfolio's annual investment income will exceed a loss on a single issuer's securities.

- Risks of market price volatility shall be controlled through maturity diversification and duration management.
- The investment committee/investment officer(s) shall establish strategies and guidelines for the percentage of the total portfolio that may be invested in securities other than repurchase agreements, Treasury bills or collateralized certificates of deposit. The committee shall conduct an annual review of these guidelines and evaluate the probability of market and default risk in various investment sectors as part of its considerations.

The following diversification limitations shall be imposed on the portfolio:

- **Maturity:** No more than 20% percent of the portfolio may be invested beyond 12 months, and the weighted average maturity of the portfolio shall never exceed 1 year.
- **Default risk:** No more than 50 percent of the overall portfolio may be invested in the securities of a single issuer, except for securities of the U.S. Treasury. At a minimum, diversification standards by security type and issuer shall be:

a) U.S. Treasuries	100%
b) Securities with the US Government's guarantee	100%
c) U.S. Government agencies and instrumentality's	not to exceed 80%
d) Fully insured or collateralized CDs	not to exceed 40%
e) Fully insured brokered CD securities	not to exceed 40%
f) State and Municipal debt	not to exceed 40%
g) Commercial Paper	not to exceed 20%
h) Repurchase agreement	100%
i) Local Government Investment Pools	
Liquidity Pools	100%
Maximum percent ownership of pool	not to exceed 20%
j) Money market funds	not to exceed 30%
- **Liquidity risk:** Based on liquidity needs, at least 50 percent of the overall portfolio shall be invested in overnight instruments or in marketable securities which can be converted to cash within one day.

2. *Maximum Maturities*

To the extent possible, the City shall attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the City will not directly invest in securities maturing more than five (5) years from the date of purchase or in accordance with governing legislation. The City shall adopt weighted average maturity limitations consistent with the investment objectives.

Reserve funds and other funds with longer-term investment horizons may be segregated into a long-term “core” investment portfolio and invested in securities exceeding five (5) years if the maturities of such investments are made to coincide as nearly as practicable with the expected use of funds. The intent to invest in securities with longer maturities shall be disclosed in writing to the legislative body.

3. *Competitive Bids*

The investment officer(s) shall obtain competitive bids from at least three brokers or financial

institutions on all purchases and sales of investment instruments transacted on the secondary market.

X. Reporting

1. Methods

The investment officer(s) shall prepare an investment report monthly, including a management summary that provides an analysis of the status of the current investment portfolio and the individual transactions executed over the last month/quarter. This management summary will be prepared in a manner which will allow the City to ascertain whether investment activities during the reporting period have conformed to the investment policy. The report should be provided to the City Manager monthly and the City Council quarterly. The report will include the following:

- Listing of individual securities held at the end of the reporting period including type, acquisition cost, book cost, and market value.
- Realized and unrealized gains or losses resulting from appreciation or depreciation by listing the cost and market value of securities over one-year duration that are not intended to be held until maturity (in accordance with Governmental Accounting Standards Board (GASB) requirements).
- Beginning and ending market value of the portfolio by market sector and total portfolio.
- Beginning and ending book value of the portfolio by market sector and total portfolio.
- Transactions that change market and book value.
- Average weighted return on investments as compared to average yield on 3-month US Treasury Bill.
- Total accrued interest for the period.
- Total earnings for the month and fiscal year-to-date.
- Overall current yield-to-maturity of the portfolio.
- Maximum maturities, by security, in the portfolio
- Overall weighted average maturity of the portfolio.
- Percentage of the total portfolio which each type of investment represents.
- A statement that the investment portfolio is in compliance with the investment policy and is meeting the investment policy objectives

2. Performance Standards

The investment portfolio will be managed in accordance with the parameters specified within this policy. The portfolio should obtain a market average rate of return during a market/economic environment of stable interest rates. A series of appropriate benchmarks shall be established against which portfolio performance shall be compared on a regular basis. The benchmarks shall be reflective of the actual securities being purchased and risks undertaken, and the benchmarks shall have a similar weighted average maturity as the portfolio.

3. Marking to Market

The market value of the portfolio shall be calculated at least monthly and a statement of the market value of the portfolio shall be issued at least quarterly. This will ensure that review of the investment portfolio, in terms of value and price volatility, has been performed consistent with the GFOA Recommended Practice on "Mark-to-Market Practices for State and Local Government Investment Portfolios and Investment Pools." In defining market value, considerations should be given to the GASB Statement 31 pronouncement. An independent

source will be used to obtain accurate market prices for all securities in the portfolio in order to assure accurate reporting.

XI. Policy Considerations

1. Amendments

This policy shall be reviewed on an annual basis. Any changes must be submitted by the investment officer(s) and approved by the City Manager, Finance Committee, and City Council.

- (5) diversification of the investment portfolio; and
- (6) yield.

(e) The governing body of an investing entity shall review its investment policy and investment strategies not less than annually. The governing body shall adopt a written instrument by rule, order, ordinance, or resolution stating that it has reviewed the investment policy and investment strategies and that the written instrument so adopted shall record any changes made to either the investment policy or investment strategies.

(f) Each investing entity shall designate, by rule, order, ordinance, or resolution, as appropriate, one or more officers or employees of the state agency, local government, or investment pool as investment officer to be responsible for the investment of its funds consistent with the investment policy adopted by the entity. If the governing body of an investing entity has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the first investing entity for purposes of this chapter. Authority granted to a person to invest an entity's funds is effective until rescinded by the investing entity, until the expiration of the officer's term or the termination of the person's employment by the investing entity, or if an investment management firm, until the expiration of the contract with the investing entity. In the administration of the duties of an investment officer, the person designated as investment officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the governing body of the investing entity retains ultimate responsibility as fiduciaries of the assets of the entity. Unless authorized by law, a person may not deposit, withdraw, transfer, or manage in any other manner the funds of the investing entity.

(g) Subsection (f) does not apply to a state agency, local government, or investment pool for which an officer of the entity is assigned by law the function of investing its funds.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 685, Sec. 1

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be an investment officer for the commission under Subsection (f) if the officer or employee is an investment officer designated under Subsection (f) for another local government.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 1421, Sec. 3

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be designated as an investment officer under Subsection (f) for any investing entity other than for that commission.

(i) An investment officer of an entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entity shall file a statement disclosing that personal business interest. An investment officer who is related within the second degree by affinity or consanguinity, as determined under Chapter 573, to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. For purposes of this subsection, an investment officer has a personal business relationship with a business organization if:

- (1) the investment officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;
- (2) funds received by the investment officer from the business organization exceed 10 percent of the investment officer's gross income for the previous year; or
- (3) the investment officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the investment officer.

(j) The governing body of an investing entity may specify in its investment policy that any investment authorized by this chapter is not suitable.

(k) A written copy of the investment policy shall be presented to any business organization offering to engage in an investment transaction with an investing entity. For purposes of this subsection and Subsection

(l), "business organization" means an investment pool or investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio that has accepted authority granted by the entity under the contract to exercise investment discretion in regard to the investing entity's funds. Nothing in this subsection relieves the investing entity of the responsibility for monitoring the investments made by the investing entity to determine that they are in compliance with the investment policy. The qualified representative of the business organization offering to engage in an investment transaction with an investing entity shall execute a written instrument in a form acceptable to the investing entity and the business organization substantially to the effect that the business organization has:

(1) received and reviewed the investment policy of the entity; and
(2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to preclude investment transactions conducted between the entity and the organization that are not authorized by the entity's investment policy, except to the extent that this authorization:
(A) is dependent on an analysis of the makeup of the entity's entire portfolio;
(B) requires an interpretation of subjective investment standards; or
(C) relates to investment transactions of the entity that are not made through accounts or other contractual arrangements over which the business organization has accepted discretionary investment authority.

(l) The investment officer of an entity may not acquire or otherwise obtain any authorized investment described in the investment policy of the investing entity from a business organization that has not delivered to the entity the instrument required by Subsection (k).

(m) An investing entity other than a state agency, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the entity's established investment policies.

(n) Except as provided by Subsection (o), at least once every two years a state agency shall arrange for a compliance audit of management controls on investments and adherence to the agency's established investment policies. The compliance audit shall be performed by the agency's internal auditor or by a private auditor employed in the manner provided by Section 321.020. Not later than January 1 of each even-numbered year a state agency shall report the results of the most recent audit performed under this subsection to the state auditor. Subject to a risk assessment and to the legislative audit committee's approval of including a review by the state auditor in the audit plan under Section 321.013, the state auditor may review information provided under this section. If review by the state auditor is approved by the legislative audit committee, the state auditor may, based on its review, require a state agency to also report to the state auditor other information the state auditor determines necessary to assess compliance with laws and policies applicable to state agency investments. A report under this subsection shall be prepared in a manner the state auditor prescribes.

(o) The audit requirements of Subsection (n) do not apply to assets of a state agency that are invested by the comptroller under Section 404.024.

Sec. 2256.006. STANDARD OF CARE. (a) Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived. Investment of funds shall be governed by the following investment objectives, in order of priority:

- (1) preservation and safety of principal;
- (2) liquidity; and
- (3) yield.

(b) In determining whether an investment officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:

- (1) the investment of all funds, or funds under the entity's control, over which the officer had responsibility rather than a consideration as to the prudence of a single investment; and
- (2) whether the investment decision was consistent with the written investment policy of the entity.

The comptroller shall provide for a separate collateral pool for any single participating institution's deposits of public funds.

(b) Under the pooled collateral program, the collateral of a participating institution pledged for a public deposit may not be combined with, cross-collateralized with, aggregated with, or pledged to another participating institution's collateral pools for pledging purposes.

(c) A participating institution may pledge its pooled securities to more than one participating depositor under contract with that participating institution.

(d) The pooled collateral program must provide for:

(2) uniform procedures for processing all collateral transactions that are subject to an approved security agreement described by Section 2257.103; and

(a) Each participating institution shall secure its deposits of public funds with eligible securities the total value of which equals at least 102 percent of the amount of the deposits of public funds covered by a security agreement described by Section 2257.103 and deposited with the participating institution, reduced to the extent that the United States or an instrumentality of the United States insures the deposits. For purposes of determining whether collateral is sufficient to secure a deposit of public funds, Section 2257.022(b) does not apply to a deposit of public funds held by the participating institution and collateralized under this subchapter.

(b) A participating institution shall provide for the collateral securities to be held by a custodian trustee, on behalf of the participating institution, in trust for the benefit of the pooled collateral program. A custodian trustee must qualify as a custodian under Section 2257.041.

(c) The comptroller by rule shall regulate a custodian trustee under the pooled collateral program in the manner provided by Subchapter C to the extent practicable. The rules must ensure that a custodian trustee depository does not own, is not owned by, and is independent of the financial institution or institutions for which it holds the securities in trust, except that the rules must allow the following to be a custodian trustee:

- (1) a federal reserve bank;
- (2) a banker's bank, as defined by Section 34.105, Finance Code; and
- (3) a federal home loan bank.

Added by Acts 2009, 81st Leg., R.S., Ch. 486 (S.B. 638), Sec. 1, eff. September 1, 2009.

- (2) a weekly summary report of the total market value of securities held by a custodian trustee on behalf of the participating institution;
- (3) a monthly report listing the collateral securities held by a custodian trustee on behalf of the participating institution, together with the value of the securities; and
- (4) as applicable, a participating institution's annual report that includes the participating institution's financial statements.

(b) The comptroller shall provide the participating institution an acknowledgment of each report received.

(c) The comptroller shall provide a daily report of the market value of the securities held in each pool.

(d) The comptroller shall post each report on the comptroller's Internet website.

Sec. 2257.106. ANNUAL ASSESSMENT. (a) Once each state fiscal year, the comptroller shall impose against each participating institution an assessment in an amount sufficient to pay the costs of administering this subchapter. The amount of an assessment must be based on factors that include the number of public entity accounts a participating institution maintains, the number of transactions a participating institution conducts, and the aggregate average weekly deposit amounts during that state fiscal year of each participating institution's deposits of public funds collateralized under this subchapter. The comptroller by rule shall establish the formula for determining the amount of the assessments imposed under this subsection.

(b) The comptroller shall provide to each participating institution a notice of the amount of the assessment against the institution.

(b) The comptroller may impose an administrative penalty against a participating institution that does not maintain collateral in an amount and in the manner required by Section 2257.104 and rules of the comptroller if the participating institution has not remedied the violation before the third business day after the date a notice is issued under Subsection (a).

Sec. 2257.110. PENALTY AMOUNT; PENALTIES NOT EXCLUSIVE. (a) The comptroller by rule shall adopt a formula for determining the amount of a penalty under this subchapter. For each violation and for each day of a continuing violation, a penalty must be at least \$100 per day and not more than \$1,000 per day. The penalty must be based on factors that include:

- (1) the aggregate average weekly deposit amounts during the state fiscal year of the institution's deposits of public funds;
- (2) the number of violations by the institution during the state fiscal year;
- (3) the number of days of a continuing violation; and
- (4) the average asset base of the institution as reported on the institution's year-end report of condition.

A participating institution that cannot afford to pay the penalty or file the bond may stay the enforcement by filing an affidavit in the manner required by the Texas Rules of Civil Procedure for a party who cannot afford to file security for costs, subject to the right of the comptroller to contest the affidavit as provided by those rules.
