RE: Professional Services Proposal

Dear Mr. King,

David Pettit Economic Development, LLC (“DPED”) is pleased to provide this proposal for economic development professional services relating to the creation of two new Tax Increment Reinvestment Zones (“TIRZ”) and amend the existing Tax Increment Reinvestment Zone Number One (TIRZ #1) in the City of Stephenville, Texas (“City”).

The Project

It is our understanding that the City of Stephenville, Texas is interested in creating two new TIRZs and amend the existing TIRZ #1 for the purpose of facilitating development.

The Assignment

Our work under this proposal would be to provide professional economic development services. DPED’s primary role will be to provide professional economic development services relating to creating or amending a TIRZ.

Additionally, DPED will provide ongoing professional services related to economic development within the City of Stephenville on an hourly basis, to include but not be limited to, educational workshops for City Council and community stakeholders, and assistance with the implementation of the TIRZs.

The Team

We propose working in a team organized as follows:

- You will be our point of contact and will provide overall direction to our team. You may also include other members of City staff with which we will meet regularly to review our progress and to get input and direction on our work.
- At this time we do not anticipate the need for any additional consultants to accomplish the work described in this proposal.

Statutory Requirements

Chapter 311 of the Texas Tax Code outlines the various procedures for creating and amending a TIRZ. The designation TIRZ ordinance is approved by the governing body of the municipality and establishes four key elements, including:

- Boundary;
- Term;
- TIRZ Board; and
- Preliminary project and financing plan.

Before adopting an ordinance designating the reinvestment zone, the governing body of the municipality must hold a public hearing on the creation of the zone and publish notice of the hearing not later than the seventh day before the public hearing. A final project and financing plan is subsequently approved by the TIRZ Board and

then by the governing body of the municipality. An amendment to an existing TIRZ would follow these same procedures.

Scope of Services

Based on our conversations and our experience on previous projects, we propose the following scope of services for the TIRZ. Our proposed scope of services is divided into separate tasks, each providing a description of the work to be performed and the key products resulting from the task.

Task 1

District Review

Our first step would be to collect and analyze available information in the proposed TIRZ. This includes available development data; existing planning documents such as the comprehensive plan, land use plan, thoroughfare plan; physical information such as existing zoning and land use, existing and planned infrastructure, and topography; and property data such as ownership and tax values.

Task 2

Data Collection and Analysis

Based upon parcel data provided by the City, DPED would provide a geographic information system (GIS) database of existing values for land and improvements, ownership data, and current land use information. The database and maps will provide the baseline data for the analysis. Key products of this task would include a TIRZ database and accompanying maps in digital and hard copy formats.

Task 3

Taxable Value Analysis

A multi-year historic taxable value review of similar developments would be conducted to establish conservative assumptions of future taxable value for each parcel in the proposed zone. We would also develop projections for future land uses, and timing of proposed developments. This task will be the basis for developing a spreadsheet model of potential TIRZ increments, given a reasonable range of development assumptions and taxable values. Key products of this task would include a spreadsheet model on a parcel by parcel basis with projections based upon the historical taxable value review, development projections and reasonable timing expectations.

Task 4

Develop TIRZ Cash Flow Model

Based on the anticipated land uses and projections, DPED would develop a draft financing cash flow model (and supporting spreadsheets) for a 15, 20, and 30-year time period. This model will allow the City, consultants and others to underwrite the proposed developments and test various scenarios for the eventual financing plan. Key products of this task would include excel spreadsheets of TIRZ Cash Flow Models with macros established for growth and development assumptions.

Task 5

Prepare TIRZ Project and Financing Plan

DPED would then develop the Finance Plan, Project Plans, and Detailed Description of TIRZ, and other exhibits required for local government review and approval per the state legislative requirements. This work includes the written, graphic, and PowerPoint materials and exhibits, as well as support of the process. Backup materials such as spreadsheets and databases will also be products that support the plans. Key products would include a preliminary TIRZ Project and Financing Plan comprised of a legal description of the zone, proposed TIRZ projects, estimated project costs, term of the zone and a tax increment analysis.

Task 6

TIRZ Documentation Support

DPED will provide assistance with drafting necessary documents for creating the TIRZ including: 1) public hearing notices; 2) resolutions; and 3) ordinances. This can be a time consuming process for City staff, however DPED's extensive experience in drafting these documents should help streamline the

preparation of materials necessary for City Council consideration. This task would also include assistance in creating and appointing the appropriate TIRZ board per the TIRZ creation ordinance.

Fee for Services

Our fee for services relating to the scope of services would be a lump sum fee of \$37,500 per creation or amendment of each TIRZ. Each TIRZ assignment would be initiated by DPED through separate written authorization by City. Individual written TIRZ authorization shall be provided via email to dpettit@dpedllc.com.

TIRZ Number One Amendment:

- \$37,500

TIRZ #2 Creation

- \$37,500

Payment for services rendered is due within thirty (30) days of Client's next monthly billing cycle following receipt of invoice. In the event any invoices remain unpaid 45 days after the invoice date, we suspend work until we have been paid in full all amounts due for services and expenses. Amounts unpaid for more than 30 days after the due date may accrue interest at 10% per annum. In the event we are forced to commence a collection proceeding, you agree to pay reasonable attorney's fees and court costs, in addition to our fees billed under this proposal.

Suspension and Termination

If the project is suspended or abandoned, DPED will be compensated for all services billed prior to receipt of written notice by the Client. Services that are not billed or completed between billing periods and receipt of written notice will be reimbursed at DPED's standard hourly rates.

If the scope or schedule of the project should change beyond that to be reasonably expected due to the program changes, schedule or other reason, at their option, DPED may re-negotiate the aforementioned fees and scope of work. Any renegotiation of scope or fee will be in writing and subject to the signing of both parties.
