Reason for Applying

I have lived in Stephenville since 2015, when I moved here for my job with Tarleton State University. My daughter is close to graduating from Stephenville Hight School and I am wanting to become more involved in my community in an official role. With my daughter graduating soon, I will be able to dedicate my time and talent more so than I would have in the past.

Stephenville is unique in that it is made up of different communities of people, within a growing population that is continually expanding and changing. We have people that are local and have generational roots here, we have transplants that maybe came for college and fell in love with the community and want to raise their families here and then we have college students who are here for 4-6 years and bring a unique outlook and have quite a bit of disposal income to use here. I am one of those that came here after researching the school districts for my daughter and the community. I was able to find a job at the university and I love the fact that the town is growing but still puts an emphasis on retaining the small town feel and focus of community and home.
