REGULAR AGENDA

1. Order of Election for May 4, 2024 Election

MOTION by Mark McClinton, second by LeAnn Durfey, to approve the Order of Election for the May 4, 2024, General Election. MOTION CARRIED unanimously.

2. 2023 Stephenville Police Department Racial Profiling Report

Dan Harris, Chief of Police, presented the council with the 2023 Stephenville Police Department Racial Profiling Report, as compiled by Dr. Alex Del Carmen, PhD, Del Carmen Consulting. Dr. Del Carmen's audit found that the Stephenville Police Department is in compliance and adheres to the Texas Racial Profiling Law and its requirements.

As referenced earlier, the most recent Texas Racial Profiling Law requires that police departments perform data audits in order to validate the data being reported. Consistent with this requirement, the Stephenville Police Department has engaged del Carmen Consulting, LLC in order to perform these audits in a manner consistent with normative statistical practices. As shown in Table 6, the audit performed reveals that the data is valid and reliable. Further, as required by law, this report also includes an analysis on the searches performed. This analysis includes information on whether contraband was found as a result of the search while controlling for race/ethnicity. The search analysis demonstrates that the police department is engaging in search practices consistent with national trends in law enforcement. While considering the findings produced as a result of this analysis, it is recommended that the Stephenville Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected), which may prove to be useful when determining the nature of the contacts police officers are making with all individuals. As part of this effort, the Stephenville Police Department should continue to: 1) Perform an independent analysis on contact and search data in the upcoming year. 2) Commission data audits in 2024 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported. The comprehensive data analysis performed serves as evidence that the Stephenville Police Department has complied with

the Texas Racial Profiling Law and all of its requirements. Further, the report demonstrates that the police department has incorporated a comprehensive racial profiling policy, currently offers information to the public on how to file a compliment or complaint, commissions quarterly data audits in order to ensure validity and reliability, collects and commissions the analysis of Tier 2 data, and ensures that the practice of racial profiling will not be tolerated.
