## REC HALL WINDOW REPLACEMENT

In previous discussions regarding replacement of windows in the Rec Hall, concerns were raised regarding the possibility that water was infiltrating the building through the exterior masonry. The issue was discovered to be with roof of the Rec Hall, which has been remedied. The funding for replacing the windows has already been budgeted.

Motion by Alan Nix, second by Brandon Huckabee, to make a positive recommendation to full council to approve the expenditure to replace the windows at the Rec Hall. Motion carried by unanimous vote.
