Yes

Do you or a family member own a business within the community?

No

Please indicate which category of the local economy that you represent.

General Public - Defined as those persons having no economic interest other than a normal consumer

Reason for Applying

Recently relocated my family to the area and I am interested in applying my skills and experience to the community in which I anticipate living in for the duration. I believe that citizens should serve as they can, when they can to achieve long term effects beneficial to the health of the community. I am currently at a point in my life when I can serve and see this as an opportunity to serve the interests of my family by serving the community so it can achieve long term objectives beneficial to all.

Educational Background

Post-graduate degree from American Public University in International Peace and Conflict Resolution.

Post-graduate degree from Biola University in Religion and Science.

Bachelors degree from Embry-Riddle Aeronautical University degree in Aeronautical Science.

Occupational Background

Currently perform as a Bell 407 and 206L1/3/4 maintenance pilot for functional quality capability as well as part 135 rapid medical transit unscheduled charter services in the rural communities of Texas. After retiring I served overseas as a King Air Captain (B200) for surveillance mission of counter-IED in support of OIF coalition forces in Iraq. As a qualified PC I flew reconnaissance missions and was responsible for the safety of 4 crew and providing near real-time surveillance in a conflict zone. I am also retired after 21 years in the USMC. During that time, I performed in various roles and responsibilities to include but not limited to serving as diplomatic liaison with senior military and government leadership to achieve U.S. national and security objectives. I was a mission commander for American Embassy King Air (B200) to extend U.S. presence and influence in South East Asia. Served in aviation combat requirements development by advising senior leadership on equipment purchases compatible with USMC warfighting doctrines and interoperability with other services. Performed as a flight instructor and combat mission qualified UH-1N (Bell 212) pilot. Completed two shipboard deployments to the Middle East and South East Asia. Served as subject matter expert, flight safety and standards, ground training, and simulator systems coordinator for UH-1N. Lead logistics officer and aviation maintenance manager for composite aircraft/helicopter squadron.

Relevant Experience

As a an active member of the aviation community with a wide range of rotary and fixed wing experience I can utilize that background and current participation as a resource for aviation decision making. As a master's graduate I frequently conducted extensive research at libraries and have for many years sought out the resources made available at libraries in many states. As a father of two

younger children, an outdoor enthusiast, and a proponent of healthy living I have been and remain concerned about the availability, planning, and capabilities of outdoor recreation and greenspaces that are provided to the community at large.

Community Involvement

Being new to the area I have yet to actively engage in the community. In Gillespie County I participated as a concerned citizen in various discussions on issues such as, property tax, city zoning ordinances, the DOT highway bypass proposal, and the Permian Highway pipeline by keeping informed, providing input, and voting.
