Reason for Applying

I would like to apply my business knowledge, enthusiasm and experience in aviation to better the community's investments. I also want to help improve the experiences at Clark Regional for the taxpayers, visitors and industry that utilizes the airport directly and indirectly.

The airport is an economic hub and a huge asset to the community that I feel is often overlooked and undervalued. I want to put efforts into advocating for the economic impact that our airport has and the potential it has by working to insure the resources to continue this are available to maintain and to grow smart and effectively.
