ADMINISTRATIVE COMMENTS:

Many St. Tammany Parish fees related to development services have remained unchanged for quite some time, this review concentrated on 75 fees (the fees reviewed either established or last updated: 2 in 1994; 3 in 1997; 27 in 1998; 2 in 1999; 12 in 2004; 1 in 2005; 1 in 2006; 1 in 2014; 12 in 2018). The Departments of Planning & Development, Engineering, Permits & Inspections, Environmental Services, and Finance have met for several months to review the existing fees. The purpose of the review was to attempt to cover operational costs for services rendered by the Departments. Of the 75 fee structures presented it is recommended that sixty (61) be increased to cover the average cost of staff time per review. The suggested fees do not include general overhead cost, i.e. rent, supplies, etc. The Departments routinely provide a number of services at no cost to the applicant/requestor and will continue to do so. A review was conducted of staff time and costs associated with particular additional services not currently charged for at this time. Based upon the review, it is recommended that fourteen (14) additional fees be established to cover costs the public and private companies ask staff to complete.
