- 6. The existing R-1 Rural Residential District is intended to provide a single-family residential environment at a low-density level. The R-1 District is located primarily in less populated areas where the character of the area should be preserved through low densities and requires a 5-acre parcel size minimum.
- 7. In addition, all residential zoning classifications allow a primary dwelling unit and one guest home that does not exceed 7.5% of the total area of the lot up to 2,500sqft.
- 8. The purpose of the MHO Manufactured Home Overlay is to provide for areas where manufactured homes may be placed on individual lots as permitted uses. It is intended to provide various areas and settings for a quality living environment for manufactured home residents.
- 9. The following ordinances were approved which rezoned surrounding property to MHO Manufactured Housing Overlay within the surrounding area:

Table 3: Case Number	Request	Ordinance
2019-1373-ZC	R-2 Rural Residential and RO Rural Overlay TO R-2 Rural Residential, RO Rural Overlay and MHO Manufactured Housing Overlay	Approved per Council Ord. 19-4119
2021-2453-ZC	R-1 Rural Residential TO R-1 Rural Residential and MHO Manufactured Housing Overlay	Approved per Council Ord. 21-4679
2022-3106-ZC	A-4 Single-Family Residential TO A-4 Single-Family Residential and MHO Manufactured Housing Overlay	Approved per Council Ord. 23-5081

- 10. If approved, the applicant could apply for a building permit to place two structures on the property, including manufactured homes.

Consistency with New Directions 2040

Residential: Low-Intensity: Predominantly single family, detached homes on very large lots. The lower residential density creates a more spacious character appropriate as a transition between the Parish’s Rural or Conservation areas and more intense land uses. The dispersed development pattern makes public services and amenities less efficient and more expensive to provide, and so residents typically must travel farther to access them.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 1.3: The character of existing residential areas, expansive rural landscapes, and sensitive ecologically areas will be preserved.

Standards for Review (Sec. 200-3.1.G) - When reviewing a zoning map amendment, the St. Tammany Parish Planning & Zoning Commission shall take the following items into consideration prior to recommending a decision to the Council:

- i. The proposed amendment is compatible with the Comprehensive Plan and consistent with the future land use map.
- ii. The proposed amendment promotes the public health, safety, and welfare of the Parish.
- iii. The proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact.
- iv. The proposed amendment is compatible with existing use and zoning of nearby property.
