Facilities Condition Assessment

Scope: St. Tammany Parish Facilities Department currently does not have a comprehensive long-term Facilities Capital Management Plan for all of the Parish's strategic facilities. A long-term capital plan developed and organized by a professional firm utilizing engineers with state of the art software to assess and project repairs for all building envelopes, mechanical, electrical, and plumbing systems is needed for a more exact, programmatic, professional approach in facilities capital planning. These assessments can be made strategically over the next couple of years to ensure 83 facilities encompassing approximately 1.4 million square feet are placed in que to project a comprehensive long-term capital plan.
