4. The purpose of the I-2 Industrial District is to provide for the location of industrial uses of large-scale and highly intense industrial uses along major collectors and arterials in such a fashion and location as to minimize the conflict with nearby residential uses.
5. If approved, the property would match the surrounding zoning classifications of the area and the existing business park to the north.

Consistency with New Directions 2040

Manufacturing & Logistics: areas provide abundant space and access to infrastructure for a range of uses including advanced manufacturing, storage and distribution, maritime uses, and utilities. These uses serve important economic goals, including provision of living-wage jobs and contribution to a strong tax base. However, some of these uses can negatively impact surrounding communities through truck traffic, noise, and pollution. Manufacturing and Logistics areas are therefore located away from sensitive ecological areas and existing and planned residential areas, and should be located adjacent to high capacity transportation corridors.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Strategy 1:5:2 Locate high intensity land uses adjacent to high capacity transportation corridors.
- ii. Goal 5.1: The parish will designate adequate land served by supporting infrastructure for use by businesses and industries seeking to begin or expand.
