West (Across Grand Oaks Drive)	Undeveloped	NC-4 Neighborhood Institutional District
--------------------------------	-------------	--

4. The subject property abuts the Grand Oaks and Montgomery Terrace subdivisions to the north, residential property zoned A-2 Suburban District to the south. To the east sits a commercial property zoned HC-2 Highway Commercial District which is currently developed with a hardware/retail store. This site was rezoned to HC-2 Highway Commercial District in 2022, but the original zoning was classified as HC-1 Highway Commercial District (Case #2022-2881-ZC & Ordinance 22-4952). To the west across Grand Oaks Drive sits an undeveloped parcel zoned NC-4 Neighborhood Institutional District.
5. The purpose of the existing NC-4 Neighborhood Institutional District is to provide for the location of uses which provide a service at the neighborhood level but could result in a large influx of customers or clientele at a specific time because of scheduled gatherings, classes or meetings. Permitted uses include the following:
- All uses permitted in the NC-3 district and; Dance studios; Music studios; Aerobic/weight loss studios; Educational learning centers; Churches, temples, synagogues and mosques; Religious educational facilities; Clubs and lodges; Fraternal and religious institutions; Child daycare centers; Nursery schools. The maximum building size within the NC-4 Neighborhood Institutional District is 12,500sqft.
6. The purpose of the requested HC-1 Highway Commercial District is to provide for the location of moderately scaled, intense retail, office and service uses. A change in zoning will allow for limited-scale highway commercial uses, generally located along major collectors and arterials designed to provide services to a portion of the parish at the intersection of a State Highway and a Parish maintained right of way which is the only access for the adjacent Grand Oaks Terrace subdivision. If approved, the applicant could apply for permits to construct any of the following:

All uses permitted in the NC District and Automotive parts stores; Business college or business schools operated as a business enterprise; Catering establishments; Department stores; Funeral homes and mausoleums; Instruction of fine arts; Physical culture and health establishments; Enclosed plumbing, electrical and home building supply showrooms and sales centers with associated assembly processes; Printing, lithography and publishing establishments; Wholesale merchandise broker/agent including associated offices and indoor storage facilities. Any warehousing uses provided shall not exceed 3,000 square feet. However, if more than one use occupies a building, the entire building shall not exceed 9,000 square feet gross floor area; Drug stores; Dry cleaning, laundries and self-service laundries; Food stores; Public parking lots and garages; Single-family dwelling units above the first floor in a building designed for business uses. Dwelling units shall not exceed one story in height; Veterinary clinics (no outdoor kennels); Public or private auditoriums; Restaurants and restaurants with lounges; Car wash; Warehouse and distribution centers and associated uses such as offices and retail sales with a maximum of combined uses totaling 9,000 square feet or less of gross floor area; Indoor research and testing laboratories; Specialty food processing.

Consistency with New Directions 2040

Mixed-Use: areas are flexible and appropriate for higher concentration of residential and commercial uses, allowing shorter trips between destinations and opportunities for walkable, compact development patterns. Mixed Use areas are typically located at or near the Parish's existing hubs of activity and intersections of major roads, as well as along major traffic corridors. Mixed Use areas may also include higher density residential uses, such as garden apartments and condominiums.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 5.1: The Parish will designate adequate land served by supportive infrastructure for use by businesses and industries seeking to begin or expand.
