Part II: UDC Chapters 100-900
-------------------	-----------	-----	---	---	----------------------------------

2. *Context.* After the adoption of the UDC in December 2023 and during the amendment of the UDC from January to July 2024, the Parish has been preparing for the Unified Development Code's August 2, 2024, effective date. This work prompted additional parish staff to become familiar with the UDC and existing applications to be updated to the new standards and organization of the Code. As expected, this additional review prompted the need for "housekeeping" amendments that clarify, correct, or reincorporate previous standards necessary for the successful and predictable management of land in the Parish. To date, the Planning and Zoning Commission has reviewed and approved (as amended) two "Housekeeping" Text Studies (Public hearing on 3/18/24, 5/14/24, and 8/13/2024). Housekeeping No. 1 and 2 were combined into one ordinance (Ord. No. 24-7620), which was approved by the Parish Council on July 11, 2024 and Housekeeping No. 3 (Ord. Calendar No. 7698) is being considered by the Parish Council at the October 3, 2024 Council hearing. This text study is the fourth Housekeeping Study and follows the same spirit of amendments proposed and approved in Housekeeping Text Studies 1, 2 and 3.
3. *UDC Development Process.* A high-level timeline of the UDC development process including Housekeeping Text Studies 1-3 is provided below:

4. *An iterative development process.* Following its effective date (08/02/2024), Parish staff have actively engaged with the UDC, identifying areas for improvement based on their direct experience with its implementation. The edits in Housekeeping No. 4 stem from the practical insights gained by staff while working with the UDC. These changes focus on refining, correcting, and enhancing the UDC to better support its application. The intent behind Housekeeping No. 4 is to ensure the UDC continues to function effectively by incorporating staff-driven improvements based on real-world use and experience.
5. *Summary of proposed changes.* Proposed changes are listed and categorized by the type of change involved below. These proposed changes are also shown in a ‘marked up’ version of the Code in **Appendix A**. In some cases, changes summarized manifest in the Code as part of multiple recommendations in **Appendix A**. To help ‘toggle’ between the proposed change summarized below and the recommended changes tracked in **Appendix A**, the corresponding numbers are listed at the end of each summary item below.
