- 6. This property is located along Hulin Road, which has a combination of stick built and manufactured homes. There are two manufactured homes within a 300-foot vicinity to the subject property. The manufactured homes in question are considered legal non-conforming structures as per Sec. 130-161.
- 7. If approved, the applicant could apply for building permits to place a single manufactured home on the property.

Consistency with New Directions 2040

Rural and Agricultural areas include mostly very low intensity uses in non-urbanized areas, such as agriculture, horse farms, timberlands, ranches, and very large single-family lots typically larger than three acres. No large traffic generators or noisy or pollution causing uses are located in Rural and Agricultural areas. Low-capacity country roads—typically two lanes—serve these areas. Septic systems and wells are typical. The Parish’s abundant rural areas provide ample space for low-intensity uses, offering residents privacy and access to the outdoors. The countryside also fosters a number of commercial activities, such as production farms, horse boarding, and lumber harvesting. The Rural and Agricultural category includes these commercial uses, as well as small rural serving businesses such as small groceries, gas stations, restaurants, and auto repair shops. St. Tammany’s countryside supports a growing tourism industry, whose businesses in this area include bed and breakfasts, retreat centers, nature tours, and “u-pick” farms.

The proposed zoning change is consistent with the following goals, policies, and strategies of the Comprehensive Plan:

- i. Goal 1.8: A variety of safe, affordable, and attractive housing types will meet the needs of our diverse community.
